Unless stated otherwise, all references to page numbers in this Draft Red Herring Prospectus are to the page numbers of this Draft Red Herring Prospectus.

Financial data

Unless the context requires otherwise or as otherwise stated, the financial information in this Draft Red Herring Prospectus is derived from our Restated Financial Information, as of and for the three month period ended June 30, 2023, and for the Financial Years ended March 31, 2023, March 31, 2022 and March 31, 2021 comprising the restated statements of assets and liabilities as at June 30, 2023, and the Financial Years ended March 31, 2023, March 31, 2022 and March 31, 2021, the restated statements of profit and loss (including other comprehensive income), the restated statements of cash flows and the restated statements of changes in equity for the three month period ended June 30, 2023, and the Financial Years ended March 31, 2023, March 31, 2022 and March 31, 2021 and the notes and schedules thereon, prepared in accordance with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 read with Section 133 of the Companies Act, 2013 to the extent applicable with the requirements of Section 26 of Part I of Chapter III of the Companies Act, the SEBI ICDR Regulations and the Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the ICAI and included in the section titled “*Restated Financial Information*” on page 243.

Our Company’s financial year commences on April 1 and ends on March 31 of next year. Accordingly, all references to a particular financial year, unless stated otherwise, are to the 12-month period commencing on April 1 of the immediately preceding calendar year and ending on March 31 of that year.

The financial information for the three month period ended June 30, 2023 may not be indicative of the financial results for the full year and are not comparable with the financial information for the Financial Years ended March 31, 2023, March 31, 2022, and March 31, 2021.

Unless the context otherwise indicates, any percentage amounts, as set forth in the sections titled “*Risk Factors*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on pages 27, 181 and 295 respectively, and elsewhere in this Draft Red Herring Prospectus have been calculated on the basis of the Restated Financial Information.

In this Draft Red Herring Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off. All figures in decimals have been rounded off to the second decimal and all the percentage figures have been rounded off to two decimal places including percentage figures in the sections titled “*Risk Factors*”, “*Industry Overview*” and “*Our Business*” on pages 27, 138 and 181 respectively.

There are significant differences between Ind AS and US GAAP and IFRS. Our Company does not provide reconciliation of its financial information to IFRS or US GAAP. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Draft Red Herring Prospectus and it is urged that you consult your own advisors regarding such differences and their impact on our Company’s financial data. For details in connection with risks involving differences between Ind AS, US GAAP and IFRS, please refer to the section titled “*Risk Factors- Significant differences exist between Indian Accounting Standards (“Ind AS”) and other accounting principles, such as the generally accepted accounting principles in the US (“US GAAP”) and International Financial Reporting Standards (“IFRS”), which may be material to investors’ assessment of our financial condition*” on page 66. Accordingly, the degree to which the financial information included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting policies and practices, the Companies Act and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting policies and practices on the financial disclosures presented in this Draft Red Herring Prospectus should accordingly be limited. Further, any figures sourced from third-party industry sources

may be rounded off to other than two decimal points to conform to their respective sources. In this Draft Red Herring Prospectus, (i) the sum or percentage change of certain numbers may not conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row; any such discrepancies are due to rounding off.

Non-GAAP measures

Certain measures like Gross Profit, Gross Margin, EBITDA, EBITDA Margin, Return on Equity, Return on Capital Employed, PAT Margin, Gross Fixed Asset Turnover Ratio and Net Debt to EBITDA presented in this Draft Red Herring Prospectus are supplemental measure of our performance and liquidity that is not required by, or presented in accordance with, Ind AS, Indian GAAP, IFRS or US GAAP. Further, these non-GAAP measures are not a measurement of our financial performance or liquidity under Ind AS, Indian GAAP, IFRS or US GAAP and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the years/ period or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, Indian GAAP, IFRS or US GAAP. In addition, these non-GAAP measures, are not standardised terms, hence a direct comparison of these Non-GAAP measures between companies may not be possible. Other companies may calculate these Non-GAAP measures differently from us, limiting its usefulness as a comparative measure. Although such Non-GAAP measures are not a measure of performance calculated in accordance with applicable accounting standards, our Company’s management believes that they are useful to an investor in evaluating us as they are widely used measures to evaluate a company’s operating performance.

Currency and units of presentation

All references to:

- “Rupees” or “₹” or “INR” or “Rs.” are to Indian Rupee, the official currency of the Republic of India; and
- “USD” or “US\$” or “\$” are to United States Dollar, the official currency of the United States of America.
- “Euro” or “EUR” or “€” are to Euro, the official currency of the European Union.

Our Company has presented all numerical information in this Draft Red Herring Prospectus in “million” units or in whole numbers where the numbers have been too small to represent in millions. One million represents 1,000,000 and one billion represents 1,000,000,000 and one trillion represents 1,000,000,000,000. One lakh represents 100,000 and one crore represents 10,000,000.

Figures sourced from third-party industry sources may be expressed in denominations other than millions or may be rounded off to other than two decimal points in the respective sources, and such figures have been expressed in this Draft Red Herring Prospectus in such denominations or rounded-off to such number of decimal points as provided in such respective sources.

Exchange rates

This Draft Red Herring Prospectus contains conversion of certain other currency amounts into Indian Rupees that have been presented solely to comply with the SEBI ICDR Regulations. These conversions should not be construed as a representation that these currency amounts could have been, or can be converted into Indian Rupees, at any particular rate or at all.

The following table sets forth, for the periods indicated, information with respect to the exchange rate between the Rupee and the USD (in Rupees per USD):

Currency	As on June 30, 2023 (₹)	As on March 31, 2023 (₹)	As on March 31, 2022 (₹)	As on March 31, 2021 (₹)

CRISIL was appointed by our Company pursuant to the engagement letter dated August 11, 2023.

Although the industry and market data used in this Draft Red Herring Prospectus is reliable, the data used in these sources may have been reclassified by us for the purposes of presentation. Data from these sources may also not be comparable. Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. The excerpts of the industry report are disclosed in the Offer Documents and there are no parts, information, data (which may be relevant for the proposed Offer), left out or changed in any manner. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in the section titled “*Risk Factors*” on page 27. Accordingly, investment decisions should not be based solely on such information.

The sections titled “*Summary of the Offer Document*”, “*Industry Overview*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Conditions and Results of Operations*” of this Draft Red Herring Prospectus contain data and statistics from the CRISIL Report which has been commissioned and paid for by our Company for an agreed fee and is available on the website of our Company at www.krosslimited.com, from the date of the Red Herring Prospectus until the Bid/ Offer Closing Date, which is subject to the following disclaimer:

CRISIL Market Intelligence & Analytics (CRISIL MI&A), a division of CRISIL Limited (CRISIL) has taken due care and caution in preparing this report (Report) based on the Information obtained by CRISIL from sources which it considers reliable (Data). This Report is not a recommendation to invest / disinvest in any entity covered in the Report and no part of this Report should be construed as an expert advice or investment advice or any form of investment banking within the meaning of any law or regulation. Without limiting the generality of the foregoing, nothing in the Report is to be construed as CRISIL providing or intending to provide any services in jurisdictions where CRISIL does not have the necessary permission and/or registration to carry out its business activities in this regard. Kross Limited will be responsible for ensuring compliances and consequences of non-compliances for use of the Report or part thereof outside India. The views expressed in this Report are that of CRISIL MI&A and not of CRISIL Ratings Limited. No part of this Report may be published/reproduced in any form without CRISIL’s prior written approval. In accordance with the SEBI ICDR Regulations, the section titled “*Basis for Offer Price*” on page 121 includes information relating to our listed industry peers. Such information has been derived from publicly available sources.

The extent to which the market and industry data used in this Draft Red Herring Prospectus is meaningful depends on the reader’s familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which the business of our Company is conducted, and methodologies and assumptions may vary widely among different industry sources.

FORWARD-LOOKING STATEMENTS

This Draft Red Herring Prospectus contains certain “forward-looking statements”. All statements contained in this Draft Red Herring Prospectus that are not statements of historical fact constitute “forward-looking statements”. All statements regarding our expected financial condition and results of operations, business, plans and prospects are “forward-looking statements”. These forward-looking statements generally can be identified by words or phrases such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “likely to”, “may”, “can”, “could”, “should”, “seek to”, “shall”, “objective”, “plan”, “project”, “will”, “will continue”, “will pursue” or other words or phrases of similar import. Similarly, statements that describe our Company’s strategies, objectives, plans or goals are also forward-looking statements. However, these are not the exclusive means of identifying forward-looking statements. All forward-looking statements whether made by us or any third parties in this Draft Red Herring Prospectus are based on our current plans, estimates, presumptions and expectations and are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement, including but not limited to, regulatory changes pertaining to the industry in which our Company has businesses and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, our exposure to market risks, general economic and political conditions which have an impact on our business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes and changes in competition in its industry. Important factors that could cause actual results to differ materially include, but are not limited to, the following:

1. Our top five customers contributed a significant portion (more than 68.00% in each of the three month period ended June 30, 2023 and the previous three Fiscals) of our revenues. The loss of a major customer or reduction in demand for our products from any of our major customers may adversely affect our business, financial condition, results of operations and prospects.
2. Demand for our products is linked to growth and trends in sales of vehicles by our customers. Decline in sales of our customers may adversely affect the demand for our products which in turn would adversely impact our business, financial condition, results of operations and prospects.
3. We derive a substantial portion of our revenue (more than 30% in each of the three month period ended June 30, 2023 and Fiscal 2023 and more than 10% in each of Fiscal 2022 and Fiscal 2021) from the sale of trailer axle and suspension assemblies for medium and heavy commercial vehicles. Further, our top three product segment accounted for more than 90% of our revenues for the above periods. Any reduction in demand for our key products would have a material adverse effect on our business, financial condition, results of operations and cash flows.
4. Our manufacturing facilities are subject to operating risks. Any shutdown of our manufacturing facilities of our existing or future manufacturing facilities or other production problems caused by unforeseen events may reduce sales and adversely affect our business, cash flows, results of operations and financial condition.
5. Our manufacturing facilities are located in the same geographical location and any disruptions in our manufacturing process due to local and regional factors could have an adverse effect on our business, financial condition and results of operations.

For further discussion of factors that could cause the actual results to differ from the expectations, please refer to the sections titled “*Risk Factors*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on pages 27, 181 and 295, respectively. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated and are not a guarantee of future performance.

Forward-looking statements reflect current views as of the date of this Draft Red Herring Prospectus and are not a guarantee of future performance. There can be no assurance to investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements as a guarantee of our future performance.

These statements are based on our management's belief and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based on are reasonable, any of these assumptions could prove to be inaccurate and the forward-looking statements based on these assumptions could be incorrect. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements as a guarantee of future performance. Neither our Company, our Directors, the BRLM, the Promoter Selling Shareholders, nor any Syndicate member nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI's requirements, our Company shall ensure that investors in India are informed of material developments from the date of the Red Herring Prospectus in relation to the statements and undertakings made by them in this Draft Red Herring Prospectus until the time of the grant of listing and trading permission by the Stock Exchanges for this Offer. The Promoter Selling Shareholders, severally and not jointly, shall ensure that investors are informed of material developments in relation to statements and undertakings specifically made or confirmed by them in this Draft Red Herring Prospectus, the Red Herring Prospectus and the Prospectus until the date of allotment of Equity Shares. Only the statements and undertakings which are specifically confirmed or undertaken by each of the Promoter Selling Shareholders about or in relation to themselves as Promoter Selling Shareholders and their respective portion of the Offered Shares, in this Draft Red Herring Prospectus shall be deemed to be statements and undertakings made by such Promoter Selling Shareholders.

SECTION II: SUMMARY OF THE OFFER DOCUMENT

The following is a general summary of certain disclosures included in this Draft Red Herring Prospectus and is neither exhaustive, nor purports to contain a summary of all the disclosures in this Draft Red Herring Prospectus or all details relevant to prospective investors. This summary should be read in conjunction with, and is qualified in its entirety by, the more detailed information appearing elsewhere in this Draft Red Herring Prospectus, including “Risk Factors”, “The Offer”, “Capital Structure”, “Objects of the Offer”, “Industry Overview”, “Our Business”, “Our Promoters and Promoter Group”, “Restated Financial Information”, “Outstanding Litigation and Material Developments”, “Offer Procedure” and “Main Provisions of Articles of Association” on pages 27, 68, 87, 104, 138, 181, 235, 243, 327, 358 and 381, respectively.

Summary of the primary business of our Company

We are a diversified player focused on manufacturing and supply of trailer axle and suspension assembly and a wide range of forged and precision machined high performance safety critical parts for medium and heavy commercial vehicles (“M&HCV”) and farm equipment segments. We are widely recognized as one of the prominent manufacturers of trailer axles and suspension assembly in India (Source: CRISIL Report). In 2019, we commenced manufacture and sale of trailer axle and suspension assemblies and have witnessed robust growth in the past three years (between Fiscal 2020 and Fiscal 2023) (Source: CRISIL Report).

Summary of the industry

M&HCV segment includes intermediate commercial vehicle (ICV), medium commercial vehicle (MCV), heavy trucks (MAV haulage), tractor trailers and tippers. The segment logged a 44% CAGR owing to government capital expenditure and demand from key sectors. Tractor trailers were the fastest-growing category in the MHCV segment, witnessing a growth of 105% CAGR between fiscals 2021 and 2023. The CV market is expected see a constant rise in vehicle tonnage, which is expected to significantly change the industry’s landscape. Market dynamics are changing significantly as the industry’s average payload rises, especially increasing intensity of trailer axles for CV trucks. (Source: CRISIL Report)

SECTION III: RISK FACTORS

Any investment in equity shares involves a high degree of risk. You should carefully consider all the information in this Draft Red Herring Prospectus, including the risks, uncertainties and challenges described below, before making an investment in our Equity Shares. The risks described below are not the only ones relevant to us or our Equity Shares or the industry in which we operate. Additional risks and uncertainties not presently known to us or that we deem immaterial may also impair our business, results of operations, financial condition or cash flows. In order to obtain a complete understanding about us, you should read this section in conjunction with sections entitled “Our Business”, “Industry Overview” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on pages 181, 138 and 295, respectively, as well as the other financial and statistical information contained in this Draft Red Herring Prospectus. If any or a combination of the following risks, or other risks and uncertainties that are not currently known or are now deemed immaterial, actually materialize, our business, financial condition, results of operations and prospects may suffer, the trading price of our Equity Shares may decline, and all or part of your investment in our Equity Shares may be lost. Unless otherwise stated, we are not in a position to specify or quantify the financial or other risks mentioned here.

Prospective investors should consult their tax, financial and legal advisors about the particular consequences of investing in the Offer. Prospective investors should pay particular attention to the fact that our Company is incorporated under the laws of India and is subject to a legal and regulatory environment, which may differ in certain respects from that of other countries. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section.

This Draft Red Herring Prospectus also contains certain forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Draft Red Herring Prospectus. For further information, see section entitled “Forward-Looking Statements” beginning on page 19. Unless otherwise indicated, the financial information included herein is based on our Restated Financial Information included in this Draft Red Herring Prospectus. For further information, see section entitled “Restated Financial Information” beginning on page 243. Unless otherwise indicated or the context otherwise requires, in this section, references to “the Company” or “our Company” are to Kross Limited on a standalone basis.

Unless otherwise indicated, industry and market data used in this section has been derived from industry publications, in particular, the report titled “Market dynamics for select forged and machined components and assemblies in the commercial vehicle and tractor segment” dated November, 2023 (the “CRISIL Report”) prepared and issued by CRISIL Market Intelligence & Analytics, a division of CRISIL Limited, appointed on August 11, 2023 and exclusively commissioned and paid for by us in connection with the Offer. A copy of the CRISIL Report will be available on the website of our Company at www.krosslimited.com from the date of the Red Herring Prospectus. There are no parts, data or information (which may be relevant for the proposed issue), that has been left out or changed in any manner. Unless otherwise indicated, financial, operational, industry and other related information derived from the CRISIL Report and included herein with respect to any particular year refers to such information for the relevant calendar year. For more information, see section entitled “Risk Factors – Industry information included in this Draft Red Herring Prospectus has been derived from an industry report prepared by CRISIL Limited exclusively commissioned and paid for by us for such purpose.” on page 40. Also see section entitled “Certain Conventions, Use of Financial Information and Market Data and Currency of Presentation – Industry and Market Data” on page 18.

INTERNAL RISK FACTORS

Risks Relating to our Business

- 1. Customer concentration risk – Our top five customers contributed a significant portion (more than 68.00% in each of the three month period ended June 30, 2023 and the previous three Fiscals) of our revenues. The loss of a major customer or reduction in demand for our products from any of our major customers may adversely affect our business, financial condition, results of operations and prospects.***

We derive majority of our revenue from operations from sales to our top five customers. Loss of all or a substantial portion of sales to any of our large customers, in particular for any reason (including, due to loss of contracts or failure to negotiate acceptable terms, loss of market share of these customers, disputes with these customers, adverse change in the financial condition of these customers, decline in their sales, plant shutdowns, labour strikes or other work stoppages affecting production of these customers), could have an adverse impact on our business, results of operations, financial condition and cash flows.

Below is the contribution of our top five customers to our revenue from operations for the respective periods:

Customer Name	Three month period ended June 30, 2023		Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Amount (₹ in million)	% of revenue from operation	Amount (₹ in million)	% of revenue from operation	Amount (₹ in million)	% of revenue from operations	Amount (₹ in million)	% of revenue from operations
Customer 1	304.60	21.20%	1,098.96	22.49%	734.08	24.68%	386.13	21.01%
Customer 2	289.30	20.13%	848.94	17.37%	476.13	16.01%	380.74	20.72%
Customer 3	203.94	14.19%	519.86	10.64%	410.70	13.81%	314.56	17.12%
Customer 4	134.01	9.32%	457.99	9.37%	261.85	8.80%	195.20	10.62%
Customer 5	94.06	6.55%	415.20	8.50%	142.36	4.79%	171.68	9.34%
Total	1,025.90	71.39%	3,340.95	68.37%	2,025.12	68.08%	1,448.32	78.81%

Note: The reference to customer number is purely indicative and does not indicate any relative importance of such customer over other customers. Entities have not been named on account of non-receipt of specific consent from such entities.

Further, the volume and timing of sales to our large customers may vary due to variation in demand for such customers' products or on account of their manufacturing and growth strategy. Thus, any decrease in the demand for our products from our large customers, or a termination of our arrangements altogether, would adversely impact our results of operations, financial condition and cash flow. These customers may change their outsourcing strategy by moving more work in-house, replace us with our competitors, or replace their existing products with alternative products which we do not supply. Also, these customers may demand price reductions and there is no assurance that we will be able to offset any reduction of prices to these customers with reductions in our costs or by acquiring new customers.

While we have not encountered any loss of major customers in the three month period ended June 30, 2023 and the past three Fiscals, there can be no assurance that we would not lose any of our major customers in the future.

2. End-user industry risk – Demand for our products is linked to growth and trends in sales of vehicles by our customers. Decline in sales of our customers may adversely affect the demand for our products which in turn would adversely impact our business, financial condition, results of operations and prospects.

Demand for our products is directly related to the production and sales of M&HCV and farm equipment by our customers. Production and sales of M&HCV and farm equipment may be affected by general economic or industry conditions, improving industrial activity, agricultural output, the pace of infrastructure development as well as evolving regulatory requirements, government initiatives and trade agreements. Our sales are directly dependent on the production level of OEMs in M&HCV and farm equipment as well as manufacturers of tractor trailers and are affected by inventory levels of manufacturers operating in these industries. For further information, see section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations – Principal Factors Affecting our Results of Operations and Financial Condition" on page 297.

We also depend on revenues from our customers across of tractor components, truck components and trailer axles and suspension assemblies business. Set out below are the revenues generated from various end-use industries and as a percentage of our revenue from sale of products:

(in ₹ million, except percentages)

Particulars	Three month period ended June 30, 2023		Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Amount (in ₹ million)	% of total revenue from operation	Amount (in ₹ million)	% of total revenue from operations	Amount (in ₹ million)	% of total revenue from operations	Amount (in ₹ million)	% of total revenue from operations
M&HCV*	1,234.24	85.88%	4,043.46	82.75%	2,230.92	75.00%	1,162.83	63.28%
Farm Equipment	162.24	11.29%	529.73	12.13%	546.52	18.37%	563.66	30.67%
Total	1,396.48	97.17%	4,636.18	94.88%	2,777.44	93.37%	1,726.49	93.95%

*M&HCV includes trailer axle and suspensions

Further, production and sales of the vehicles for which we supply products are affected by a variety of other factors that are beyond our control, including changes in government policies, changes in consumer demand, product mix shifts favouring other types of vehicles, fuel prices, vehicle electrification, economic conditions, demographic trends, employment and income levels and interest rates, disruptions in these industries' supply chain, vehicle age, labour relations, regulatory requirements, credit availability and cost of credit and general economic and industry conditions.

It is difficult to forecast events which affect the profitability and liquidity of our customers or the success or sustainability of any strategies undertaken by any of our customers in response to ongoing economic or industry trends. Reduced demand in the industries we currently supply to, continued uncertainty and other unexpected fluctuations or change in regulations, customs, taxes or other barriers or restrictions adversely affecting the market, particularly those impacting our customers could have a material adverse impact on our business, results of operations, cash flows and financial condition.

For further information on our key customers, see section entitled “*Our Business – Customer agreements*” on page 206.

3. ***Product concentration risk - We derive a substantial portion of our revenue (more than 30% in each of the three month period ended June 30, 2023 and Fiscal 2023 and more than 10% in each of Fiscal 2022 and Fiscal 2021) from the sale of trailer axle and suspension assemblies for medium and heavy commercial vehicles (“M&HCV”). Further, our top three product segments accounted for more than 90% of our revenues for the above periods. Any reduction in demand for our key products would have a material adverse effect on our business, financial condition, results of operations and cash flows.***

We rely on revenue generated from the sale of trailer axles and suspension assemblies, tractor components and truck components for M&HCV and farm equipment. While we have not experienced any material sustained decline in the sale of our key products in the three month period ended June 30, 2023 and the last three Fiscals, there is no assurance that we will not face any decline in the future. The table below sets out the revenues generated from sale of our key product segments and as a percentage of our revenue from operations:

Particulars	Three month period ended June 30, 2023		Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Amount (in ₹ million)	% of total revenue from operation	Amount (in ₹ million)	% of total revenue from operations	Amount (in ₹ million)	% of total revenue from operations	Amount (in ₹ million)	% of total revenue from operations
Trailer axle and suspensions	629.35	43.79%	1,628.22	33.32%	668.96	22.49%	225.11	12.25%
Tractor components	162.24	11.29%	592.73	12.13%	546.52	18.37%	563.66	30.67%
Truck components	604.90	42.09%	2,415.24	49.43%	1,561.96	52.51%	937.72	51.03%
Total	1,396.48	97.17%	4,636.18	94.88%	2,777.44	93.37%	1,726.49	93.95%

Any failure to successfully manufacture and market trailer axles and suspension assemblies, tractor components and truck components for M&HCV and farm equipment, whether on account of regulatory changes or changes in technologies, including creation of alternate technologies, could adversely affect our business, financial condition, cash flows and results of operations.

4. ***Manufacturing facility disruption risk - Our manufacturing facilities are subject to operating risks. Any shutdown of our manufacturing facilities of our existing or future manufacturing facilities or other production problems caused by unforeseen events may reduce sales and adversely affect our business, cash flows, results of operations and financial condition.***

We conduct our operations through our five manufacturing facilities situated at Jamshedpur, Jharkhand. Our business is dependent upon our ability to manage our manufacturing facilities and run them at certain utilization levels, which are subject to various operating risks, including those beyond our control, such as

- forced or voluntary closure of manufacturing plants, including as a result of regulatory actions;

- problems with supply chain continuity, including as a result of natural or man-made disasters at any of our manufacturing facilities;
- manufacturing shutdowns, breakdown or failure of equipment, equipment performance below expected levels of efficiency, obsolescence of our equipment and production facilities, industrial accidents and the need to comply with the directives of relevant government authorities;
- labour disputes, strikes, lock-outs that may result in temporary shutdowns or manufacturing disruptions;
- any changes in the availability of power or water availability which impacts the entire region;
- failure of a supplier to provide us with the critical raw materials or components for an extended period of time, which could impact continuous supply; and
- changes in political relationships between India and the countries in which we export and local political tensions.

If we are unable to address such disruptions in a timely manner or at all, our operations may need to be suspended and our inability to effectively respond to such events and rectify any disruption, in a timely manner and at an acceptable cost, could lead to the slowdown or shut-down of our operations or the under-utilization of our manufacturing facilities, which in turn may have an adverse effect on our business, results of operations and financial condition. While we have not faced any such malfunctions or breakdowns in the three month period ended June 30, 2023 and the past three Fiscals, there can be no assurance that such disruptions will not happen in the future. In addition, we may be required to carry out planned shutdowns of our facilities for maintenance, statutory inspections, testing, capacity expansion and equipment upgrades.

In the three month period ended June 30, 2023 and each of Fiscal 2023, Fiscal 2022 and Fiscal 2021, our installed capacity and our capacity utilization at three of our manufacturing units at Jamshedpur, Jharkhand was as follows:

Facility	Product	Three month period ended June 30, 2023			Fiscal 2023			Fiscal 2022			Fiscal 2021		
		Installed Capacity (in number of units)	Production (in number of units)	Capacity Utilization (%)	Installed Capacity (in number of units)	Production (in number of units)	Capacity Utilization (%)	Installed Capacity (in number of units)	Production (in number of units)	Capacity Utilization (%)	Installed Capacity (in number of units)	Production (in number of units)	Capacity Utilization (%)

Notes:

1. Installed capacity represents the installed capacity as of the last date of the relevant period
2. Assumptions and estimates taken into account for measuring installed capacities include 300 working days in a year, at 3 shifts per day operating for 8 hours a day
3. Production represents the quantum of production in the relevant manufacturing facility in the relevant Fiscal
4. Capacity utilization has been calculated on the basis of actual production in the relevant Fiscal divided by the annual available capacity during such period
5. Only select key products have been included as part of the table above.
6. MT represents metric tonne

For further information, see section entitled “Our Business – Installed Capacity and Capacity Utilization” on page 203. Under-utilization of our manufacturing capacities over extended periods, or significant under-utilization in the short term, or an inability to fully realize the benefits of our recently implemented capacity expansion, could materially and adversely impact our business, growth prospects and future financial performance.

5. **Manufacturing facility geographical concentration – Our manufacturing facilities are located in the same geographical location and any disruptions in our manufacturing process due to local and regional factors could have an adverse effect on our business, financial condition and results of operations.**

We currently operate through five manufacturing facilities in Jamshedpur, Jharkhand. For details of our manufacturing facilities, see section entitled “Our Business – Manufacturing facilities and foundry” on page 202. There are no instances in the three month period ended June 30, 2023 and the past three Fiscals linked to the location of the Company’s manufacturing facilities that have materially and adversely affected business and operations of the Company.

However, due to the geographic concentration of our manufacturing operations, our operations are susceptible to local and regional factors, such as accidents, system failures, economic and weather conditions, natural disasters, demographic and population changes, political uncertainty and changes in regulations by state government, adverse changes in availability of key inputs including labour and power, the outbreak of infectious diseases and other unforeseen events and circumstances. We experienced temporarily disruption of our business operations were on account of the pandemic induced shutdown of our manufacturing facilities, pursuant to the directives issued by the local authorities. We resumed operations at our manufacturing facilities in a phased manner as per the Government of India and state government’s directives after making arrangements to meet the government’s requirements on sanitization, people movement and social distancing. Such disruptions could result in the damage or destruction of a significant portion of our manufacturing abilities, significant delays in the transport of our products and raw materials, adversely impact our ability to maintain capacity utilization levels and/or otherwise adversely affect our business, financial condition and results of operations. Further, such disruptions, damage or destruction of those facilities may severely affect our ability to meet our customers’ demand and the loss of any one of our key customers or a significant reduction in demand from such customers could have an adverse effect on our business, results of operations and financial condition.

6. **Product quality risk - We are subject to strict quality requirements and any product defect issues or failure by**

us to comply with quality standards could adversely affect our business, results of operations, cash flows and financial condition.

We are engaged in the manufacturing and supply of critical and complex products which are required to meet precise and specific requirements including in terms of quality, measurements and tolerances. Failure by us to achieve or maintain compliance with these requirements or quality standards may disrupt our ability to supply products sufficient to meet our customers' demands, lead to the cancellation of existing and future orders, result in us incurring costs for repairing or replacing defective products as well as conducting product recalls and paying warranty and liability claims, any of which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Our agreements with customers or purchase orders issued by them, have standard liability clauses in relation to quality and delivery of our products, which ordinarily do not have any limits. Accordingly, we are required to provide warranty for such quality and delivery related obligations, which may or may not be capped in terms of time or monetary value. Further, the supply of defective products may result in our customers initiating litigation against us, which could materially harm our reputation, business, financial condition, cash flows and results of operations. We may also be subject to liability claims by third parties in the event that the use of any of our products results in personal injury or property damage, which could adversely affect our reputation and business and, to the extent not covered by insurance, our results of operations, financial condition and cash flows. In the past, we have been subject to replacement of parts of certain of our products. We cannot assure you that such instances will not arise in the future. Further, we cannot guarantee that no product liability claim will arise in the future.

Further, certain of our products, namely, our trailer axles are sold under specific warranties on number of kilometres, such as 100,000 kms and 400,000 kms. We are liable to replace certain components or the entire products under warranty for certain of these products. If any of the products sold by us fail to comply with applicable quality standards or fail while under warranty, it may result in customer dissatisfaction, which may have an adverse effect on our business, sales and results of operations.

We have had the following warranty claims in the three month period ended June 30, 2023 and the past three Fiscals:

Particulars	Three month period ended June 30, 2023		Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Amount (in ₹ million)	% of total revenue from operations	Amount (in ₹ million)	% of total revenue from operations	Amount (in ₹ million)	% of total revenue from operations	Amount (in ₹ million)	% of total revenue from operations
Warranty Claims	3.56	0.25%	8.22	0.17%	1.48	0.05%	0.95	0.05%

We have received a number of quality assurance certifications and accreditations which are critical to our operations and continued supply relationships with our customers. For instance, our manufacturing facilities (Units I, II, III, IV and V) have obtained ISO 9001. We are also certified by TUV Nord for IATF 16949 : 2016. If we are unable to renew these accreditations, our brand and reputation could be adversely affected. Any significant damage to our reputation and/or brand caused by being denied such accreditations and certifications could have a material adverse effect on our ability to attract new and repeat customers and, as a result, adversely affect our business, financial condition, results of operations or prospects.

- 7. *Lack of long-term contracts - We do not have firm commitment agreements with our customers. If our customers choose not to source their requirements from us, there may be a material adverse effect on our business, financial condition, cash flows and results of operations.***

Our arrangement with customers is based on undertaking work on a purchase order basis, wherein a customer issues an order on us for the desired number of units and pricing. While we have arrangements with certain of our key OEM customers pursuant to which customers provide us with forecasts of business volumes which enable us to predict our income for a portion of our business, the actual orders are only placed by way of on-going purchase orders.

Accordingly, there is no assurance that our customers, including long term customers, will continue to source products from us. In the absence of committed volumes or prices, our ability to predict demand for our products and therefore accurately plan raw material supplies and production schedules is limited. While excluding the pandemic related disruption, we have not encountered any significant loss in volume of orders from our top five customers by contribution to revenue, in the three month period ended June 30, 2023 and the past three Fiscals, we cannot assure you that such instances will not occur in the future. Further, change in the product mix for orders placed by our customers may also substantially impact our margins and production schedules.

Further, for a large part of our product range, we are not the exclusive supplier to our customers and our competitors may also be supplying their products to our customers. The absence of long-term arrangements, or arrangements with firm commitments of quantities with from our customers' and the possibility of rapid changes in demand for their products affect our ability to accurately estimate their future requirements. Moreover, because our margins vary across customers and specific programs, a reduction in demand with higher margin customers can have a more significant adverse effect on our operating results.

Our customers may also cancel, change or delay production quantities and schedules, or fail to meet their forecasts for a number of reasons beyond our control. Our customer's expectations can also change rapidly, requiring us to take on additional commitments or risks and we cannot assure you that we will be able to meet such expectations while maintaining our margins and our ability to maintain business with such customers. Cancellations, reductions or delays by a significant customer, or by a group of customers, could adversely affect our operating results and negatively affect our working capital levels.

- 8. *Inventory management risk – If we fail to accurately predict the demand for our products or if customers vary or cancel production orders, we may incur costs associated with excess inventory, including towards raw material charges, elongated working capital cycle and storage costs, any or all of which can adversely impact our financial results, profitability and future prospects.***

The volume and timing of sales to our customers may vary due to variation in demand for our customers' products, our customers' attempts to manage their inventory, design changes, changes in their product mix, manufacturing strategy and growth strategy, and macroeconomic factors affecting the economy in general and our customers in particular.

Our inability to accurately forecast the level of customer demand for our products, accurately schedule our raw material purchases and production and manage our inventory may adversely affect our business and cash flows from operations. We have not faced any instances of significant reduction in demand for our products in the three month period ended June 30, 2023 and the past three Fiscals, except for certain disruptions in sales during the months of March to May of 2020 on account of COVID-19 induced restrictions.

The table below sets forth details of our inventory as of the dates indicated:

Particular	Three month period ended June 30, 2023	Fiscal 2023	Fiscal 2022	Fiscal 2021
Inventory (₹ in million)	735.44	621.96	413.72	430.52
Inventory days	47	46	51	86
Inventory turnover ratio	1.95	7.86	7.19	4.27

Notes: Inventory turnover ratio = turnover / inventory

While we forecast the demand for our products and accordingly plan our raw material procurement and production volumes, any error in our forecast could result in higher inventory or raw materials, work in progress goods as well as finished goods, which may result in elevated inventory levels, require us to allocate additional capital for the higher inventory levels, additional storage cost and expose us to pricing risk as well as risk of obsolescence with respect to such inventory.

Since we operate out of five manufacturing units which are not geographically contiguous and are involved in different but co-dependant aspects of our operations, we are required to plan and maintain inventory at a unit level as well. Any failure to manage production schedules according to the capacities of our existing facilities could lead to the creation of excess or insufficient inventories for our remaining units, leading to delays in

production schedules for our finished products or a large unutilised inventory for certain input products which may not be sold individually as components by us.

Additionally, in the event of significant cuts in production schedules announced by customers with little advance notice, we may be unable to respond with corresponding production and inventory reductions and we may be required to reorganize our production schedules. Such instances may occur from time to time in the ordinary course of business, including due to changes in product specifications, extremity of weather condition, seasonal/cyclical nature of the sectors in which we operate and global economic downturns affecting the M&HCV and farm equipment sectors, amongst other things.

As many of our operating expenses are relatively fixed, an unanticipated change in customer demand or preferences may adversely affect our liquidity and financial condition. Further, any finished inventory maintained at our manufacturing facilities and warehouses may be susceptible to unanticipated changes in customer preferences which may render our finished products obsolete or unutilized in meeting demand to the extent anticipated, thereby adversely affecting our liquidity and financial position.

9. *Product pricing risk - Pricing pressure from customers may adversely affect our gross margin, profitability and ability to increase our prices.*

Our customers often pursue price reduction initiatives and objectives with their suppliers including us. We may be required to reduce prices to retain business from a particular customer or to increase our overall wallet share from an existing customer. We have in the recent past passed on discounts on certain products to our OEM customers to gain a better share of business for the product. Any reduction in prices for our products may lead to a decrease in our margins, which may have a material adverse effect on our business, financial condition, results of operations and future prospects. Our business is capital intensive, requiring us to maintain a substantial fixed asset base. Our profitability is dependent, in part, on our ability to spread fixed costs over higher sales volume. However, we may not be able to spread such fixed costs effectively as our customers generally negotiate for larger discount in price as the volume of their orders increases. To maintain our profit margins, we seek price reductions from our suppliers, improve production processes to increase manufacturing efficiency and streamline product designs to reduce costs.

We also focus on value engineering activities to reduce costs in different operational areas. If we are unable to offset customer price reductions in the future through increased volumes, improved operating efficiencies, new manufacturing processes, sourcing alternatives and other cost reduction initiatives, our results of operations, cash flows and financial condition may be materially adversely affected. Further, our competitors may resort to aggressive pricing strategies to gain a larger market share which may exert downward pressure on our pricing levels and profit margins and as a result, we may be required to reduce our prices which in turn may have an adverse impact on our results of operations, cash flows and financial conditions.

10. *Raw material sourcing risk - We depend on a limited number of third parties for the supply of raw materials and failure by our suppliers to meet their obligations may cause change in availability and cost of raw materials which may adversely affect our business, financial condition, results of operations and prospects.*

We purchase steel required for our manufacturing facilities in India primarily through purchase orders raised on our suppliers. Our top three suppliers of steel in each of the three month period ended June 30, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021, accounted for 43.24%, 39.52%, 47.51% and 52.11% of our overall raw material purchases. While we envisage to maintain a diversified set of suppliers to eliminate adverse impact on our business in the event of any disruption or estimated disruption, there is not guarantee that in the event of disruption in supplies by any of our top suppliers that we would be able to source similar quality and quantity of steel or other raw materials in the timely manner without incurring additional costs. Some of our agreements require us to source steel from approved supplier. Our customers may take time to approve any new steel supplier and the approved supplier of steel may not be the most cost-efficient source that we could have arranged had we not been required to take consent of our customers prior to onboarding such supplier.

Discontinuation of supply of raw materials by any of our suppliers or a failure of these suppliers to adhere to the delivery schedule or the required quality could hamper our manufacturing schedule and therefore affect our business and results of operations. There can be no assurance that strong demand, capacity limitations or other problems experienced by our suppliers will not result in occasional shortages or delays in their supply of raw materials. If we were to experience a significant or prolonged shortage of raw materials from any of our suppliers, and we are unable procure the raw materials from other sources, we would be unable to meet our manufacturing

schedules and to deliver to our customers in timely fashion, which would adversely affect our sales, profit margins and customer relations. We cannot assure you that a particular supplier will continue to supply the required components or raw materials to us in the future. This dependence on third party suppliers may also adversely affect the availability of key materials at reasonable prices thus affecting our margins and may have an adverse effect on our business, results of operations and financial condition.

11. Raw material price risk - Change in availability and cost of steel, our primary raw material may adversely affect our business, financial condition, results of operations and prospects.

We are engaged in manufacturing safety critical components, trailer axles and suspension systems, requiring steel of certain technical specifications. The table below provides cost of raw materials and components consumed as a percentage of our revenue from operations in the periods indicated:

Particulars	Three month period ended June 30, 2023		Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Amount (in ₹ million)	% of total revenue from operations	Amount (in ₹ million)	% of total revenue from operations	Amount (in ₹ million)	% of total revenue from operations	Amount (in ₹ million)	% of total revenue from operations
Cost of raw materials consumed	885.79	61.64%	2,941.66	60.20%	1,595.67	53.64%	872.82	47.50%

The table below provides our cost of steel sourced from suppliers as a percentage of our cost of raw materials purchased in the periods indicated:

Particulars	Three month period ended June 30, 2023		Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Amount (in ₹ million)	% of cost of raw materials purchased	Amount (in ₹ million)	% of cost of raw materials purchased	Amount (in ₹ million)	% of cost of raw materials purchased	Amount (in ₹ million)	% of cost of raw materials purchased
Cost of Steel Sourced from Suppliers	613.50	61.67%	1,767.11	57.17%	1,052.78	66.23%	639.45	73.82%

For further information on our raw materials, see section entitled “*Our Business – Raw Materials*” on page 205.

Prices of steel and our other raw materials can be volatile due to a number of factors beyond our control, including global demand and supply, general economic and political conditions, transportation and labour costs, labour unrest, natural disasters, competition, import duties, tariffs and currency exchange rates, and there are uncertainties inherent in estimating such variables, regardless of the methodologies and assumptions that we may use. This volatility in prices (in particular, the cost of steel) can significantly affect our raw material costs. While most of our agreements with OEMs have a clause wherein any changes in raw material costs are passed through to our customers, we cannot assure that we will be able to pass-on the increase in prices in its entirety or at all. Further, most of our contracts for supply of trailer axles and suspension do not entail a raw material pass-through clause. Our inability to pass through steel costs or otherwise mitigate these cost increases may have an adverse effect on our business, results of operations and financial condition.

Further, volatility in fuel prices can also affect commodity prices worldwide which may increase our raw material costs. Additionally, rising freight costs could also impact the supply and prices of raw materials which we may not be able to pass on to our customers and in turn our affect our results of operations and profitability. Any increase in prices of steel could have an impact on our working capital as we would require additional funds to procure the necessary steel at the higher prices. As a result, we may be required to allocate a larger portion of our working capital towards purchasing raw materials to maintain our production levels. This increased allocation

towards purchase of steel can potentially strain our working capital availability. For further information, see section entitled “– *Our operational flexibility may be limited in certain respects on account of our obligations under some of our customer agreements, terms of purchase and established practices.*” on page 51.

12. Geographical market concentration risk – Nearly all of our revenues from operations are derived on sales made within India (more than 99% in each of the three month period ended June 30, 2023 and Fiscal 2023, Fiscal 2022 and Fiscal 2021). Our business is therefore significantly affected by fluctuations in general economic activity in India.

Our sales are primarily made to customers located in India. For the three month period ended June 30, 2023 and the past three Fiscals, our revenues by geography were as follows:

Geography	Three month period ended June 30, 2023		Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Amount (₹ in millions)	% of revenue from operations	Amount (₹ in millions)	% of revenue from operations	Amount (₹ in millions)	% of revenue from operations	Amount (₹ in millions)	% of revenue from operations
India	1,434.80	99.84%	4,871.29	99.69%	2,948.34	99.12%	1,821.51	99.12%
Outside India	2.29	0.16%	14.99	0.31%	26.21	0.88%	16.18	0.88%
Total	1,437.09	100.00%	4,886.28	100.00%	2,974.55	100.00%	1,837.69	100.00%

Due to the concentration of our revenues from a single geographical region, we are susceptible to economic, social, geographical and political conditions affecting the Indian market in general and factors affecting Indian MH&CV and farm equipment sector in particular. Our results of operations are affected by the level of credit availability, interest rates, customer preferences, unemployment rates, availability and cost of electricity, rate of inflation, currency exchange rates, tariffs, incentives, intensity of industry competition, product quality and other such factors, which in turn are affected by the macroeconomic conditions in the Indian economy.

As a part of our strategy, we intend to increase our proportion of revenues from operations coming from outside India which exposes us to markets, customers and risks that we have not managed in the past and we cannot assure you that we will be able to grow such business at a profitable basis. Further, such increased contribution in revenues from operations from outside India, also exposes us to macroeconomic conditions, exchange rate risks, counterparty risks, regulatory risk in such geographies and we may not be able to successfully manage such risks which will adversely impact our business, results of operations and financial condition.

Risks relating to our operations

13. Counter-party credit risk – If our customers dispute or default on their payment obligations to us, we may be subject to adverse cash flows and may be required to spend significant amounts in recovering amounts due, in turn adversely impacting our cash flows, results of operations and future prospects.

We are subject to counterparty credit risk and a significant delay in receiving payments or non-receipt of large payments from our customers may adversely impact our business, financial condition, cash flows and results of operations. Due to the inherent nature of our industry, we are required to extend credit terms to our customers and in the event of defaults or disputes with our customers, we may be subject to adverse cash flows or acute working capital mismatches. The following table sets forth below details of our credit cycle, as well as our trade receivables, in the corresponding periods:

Particular	As of/ For the three month period ended June 30, 2023	As of/ For the Year Ended March 31,		
		2023	2022	2021
Average Receivables (Number of Days)	40	39	62	81
Trade Receivables (₹ million)	635.48	518.07	503.51	409.55
Trade Receivables, as a Percentage of Revenue from Operations (%)	44.22%	10.60%	16.93%	22.29%

While we have not faced any instances of default by customers in the three month period ended June 30, 2023 and the past three Fiscals, there can be no assurance that we would not be subject to such credit risks in the future. Further, in the three month period ended June 30, 2023, Fiscal 2023, 2022 and 2021, our Company made a provision for doubtful receivables and advance for ₹10.61 million, ₹9.71 million, and ₹6.00 million and ₹3.00 million respectively.

If a significant customer defaults on or delays payment on any order to which we have devoted significant resources, it may affect our profitability and liquidity and decrease capital resources available to us for other uses, including our obligations under the credit facilities granted to us by our lenders as well as our ability to fund payables to our suppliers, which may further result in reduced availability of raw materials and/or increased raw material costs. If we are unable to finance our working capital needs or to secure other financing, when needed, on acceptable commercial terms, it may adversely affect our business, financial condition, results of operations and prospects.

14. Reliance on third party transporters - We rely on third-party transportation providers for distribution of our products. Any failure by any of our transportation providers to deliver our products on time, or in good condition, or at all, may adversely affect our business, financial condition and results of operations.

Most of our customers are located outside Jamshedpur, Jharkhand. We depend on third parties for the delivery of the finished products to our customers located in Chennai, Bangalore, Pantnagar, Hoshiarpur, Vadodara, Madurai, Ajmer, Chhattisgarh and Pune. We are therefore significantly dependent on transportation and logistics companies that we engage with. The table below sets forth out freight outwards and clearing expenses for the Fiscals stated:

Particulars	Three month period ended June 30, 2023		Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Amount (in ₹ million)	% of total revenue from operations	Amount (in ₹ million)	% of total revenue from operations	Amount (in ₹ million)	% of total revenue from operations	Amount (in ₹ million)	% of total revenue from operations
Freight outwards and clearing expenses	25.17	1.75%	88.35	1.81%	68.95	2.32%	51.84	2.82%

As we do not control our third-party freight and transportation providers, any disruption in supply of services by such service providers could hamper supplies and deliveries to and from our customers and suppliers. In the event that these third party logistic service providers are unable to provide services for our operations for reasons which are beyond our control and we are unable to secure alternate transport arrangements in a timely manner and at an acceptable cost, or at all, our business, cash flows, financial condition, results of operations and reputation may be adversely affected.

15. Operational hazards - Activities involving our manufacturing process can be dangerous and can cause injury to people or property in certain circumstances.

Our business involves complex manufacturing processes including use of heavy forging presses, overhead cranes, heat treatment furnaces, usage of gas and oil, heavy machining equipment that can be dangerous to our employees.

An accident may result in destruction of property or equipment, environmental damage, manufacturing or delivery delays, or may lead to suspension of our operations and/or imposition of liabilities. Any such accident may result in partial/ complete shutdown of such facility, adverse regulatory action, discontinuation of business by certain of our customers pending review of our operational processes and facilities and litigation. We may be required to devote significant financial resources as well as management time to address such actions and despite such actions and expenses we may not succeed in normalizing business and operations. Such costs to defend any action or the potential liability resulting from any such accident or death or arising out of any other litigation, and any negative publicity associated therewith, can adversely affect our business, financial condition, results of

operations and prospects. While we maintain legally mandated insurance policies such as accident and medical insurance policies for our employees and a public liability insurance, we cannot assure you that the coverage under such policies will be sufficient to cover loss sustained or that an affected employee or third party will not additionally seek legal recourse against us.

In particular, if operations at our manufacturing facilities were to be disrupted as a result of any significant workplace accident, equipment failure, natural disaster, power outage, fire, explosion, terrorism, adverse weather conditions, labour dispute, obsolescence or other reasons, our financial performance may be adversely affected as a result of our inability to meet customer demand or committed delivery schedules for our products.

Interruptions in production may also increase our costs and reduce our sales and may require us to make substantial capital expenditures to remedy the situation or to defend litigation that we may become involved in as a result, which may negatively affect our profitability, business, financial condition, results of operations and prospects.

Our operations are also subject to operating risks associated with manufacturing, including related to handling and storage of raw materials used in our manufacturing processes. Our operations involve handling hazardous materials such as furnace oil and methanol, which can cause accidents during the manufacturing process resulting in serious injuries or death of employees or other persons, if improperly handled, and cause damage to our properties and the properties of others. Despite compliance with requisite safety requirements and standards, our operations are subject to significant hazards, including:

- explosions;
- fires;
- mechanical failures and other operational problems;
- inclement weather and natural disasters;
- discharges or releases of hazardous substances, chemicals or gases; and
- other environmental risks.

The occurrence of any of these hazards could result in a suspension of operations and the imposition of civil or criminal liabilities. The loss or shutting down of our facilities could disrupt our business operations and adversely affect our results of operations, financial condition and reputation. While we have obtained insurance coverage against fire and burglary, there can be no assurance that our insurance will be adequate to cover against such potential disruptions. For further information see section entitled “– *Our insurance coverage may not adequately protect us from all material risks and liabilities.*” on page 52. We may also face claims and litigation, in India or overseas, filed on behalf of persons alleging injury predominantly as a result of occupational exposure to hazards at our facilities. If these claims and lawsuits, individually or in the aggregate, are resolved against us, our business, results of operations and financial condition could be adversely affected.

16. *Labour related risk - Availability and cost of labour may adversely affect our business, financial condition, results of operations and prospects.*

Our manufacturing activities are labour intensive, require our management to undertake significant labour interface, and expose us to the risk of industrial action. As on June 30, 2023, we had 490 permanent employees and 1,588 contractual employees and in the three month period ended June 30, 2023 and Fiscal 2023, Fiscal 2022 and Fiscal 2021, our employee benefits expense were ₹ 67.58 million, ₹ 265.09 million, ₹ 201.77 million, and ₹ 161.64 million, respectively, and accounted for 5.09%, 5.92%, 7.17% and 9.06%, respectively, of our total expenses in such periods. We may be subject to industrial unrest, slowdowns, and increased wage costs, which may adversely affect our business, financial conditions, cash flows and results of operations. While we consider our relationship with our employees to be good and there has been no such instance in the three month period ended June 30, 2023 and three Fiscals, we could experience disruptions in work due to disputes or other problems with our work force, which may adversely affect our ability to perform our business operations.

In order to retain flexibility and control costs, we appoint independent contractors who, in turn, engage on-site contract labour to perform certain operations. Although we do not engage these labourers directly, in the event of default by any independent contractor, we may be held responsible for any wage payments that must be made to such labourers. If we are required to pay the wages of the contracted employees, our results of operations may be adversely affected. In addition, under the Contract Labour (Regulation and Abolition) Act, 1970, as amended, we may be required to absorb a number of such contract labourers as permanent employees. In the event of any non-compliance by contractors with statutory requirements, legal proceedings may be initiated against us. For

example, certain contract labour suppliers engaged by our Company have not made regular deposit of statutory dues under the Employee State Insurance regulations and provident fund regulation, of contract labourers working at our sites at various points of time in the past. There can be no guarantee that we will not be held responsible for the non-payment of such statutory dues by our contractors. Any such order from a regulatory body or court may have an adverse effect on our business, results of operations and financial condition. Further, any upward revision of wages that may be required by the state government to be paid to such contract labourers or the unavailability of the required number of contract labourers, may adversely affect the business and future results of our operations.

We cannot ensure that we will not be subject to work stoppages, strikes or other types of conflicts with our employees or contract workers in the future. Further, we cannot ensure that our employees will not unionize in the future. Any such event, at our current facilities or at any new facilities that we may commission or acquire in the future, may adversely affect our ability to operate our business and serve our customers and impair our relationships with key customers and suppliers, which may adversely impact our business and financial condition.

17. Dependence on management - We are dependent on our Promoters, Directors and other Key Managerial Personnel and Senior Management, including other employees with technical expertise. Any loss of or our inability to attract or retain such persons could adversely affect our business, results of operations and financial condition.

We are led by our Promoters who are also Directors, with Sudhir Rai and Anita Rai having experience of more than 30 years in the auto component manufacturing industries and their experience and leadership has played a key factor in our growth and development. We are also dependent on our Key Managerial Personnel and Senior Management Personnel including our business heads for the day-to-day management of our business operations. Our management team of qualified and experienced professionals enables us to identify new avenues of growth and help us to implement our business strategies in an efficient manner and to continue to build on our track record of successful product offerings. Should we face high attrition, we cannot assure you that we will be able to retain these employees or find adequate replacements in a timely manner, or at all. Any loss of, or interruption in the services of our key management personnel or senior management could significantly affect our ability to effectively manage our operations and to meet our strategic objectives. In addition, we could incur additional expenses and need to devote significant time and resources to recruit and train replacement personnel, which could further disrupt our business and growth. The details of the attrition of our permanent employees in the last three Fiscals are set out below:

Particulars	Three month period ended June 30, 2023	Fiscal 2023	Fiscal 2022	Fiscal 2021
Number of permanent employees attritted	12	41	23	16
Number of our permanent employees attritted as a percentage of number of average permanent employees (%)*	2.39%	8.04%	5.18%	3.83%

*(Number of employee's left during the year / period) / (Number of employees at the beginning of the year / period + Number of employees joined during the year/ period).

We depend on our ability to recruit and retain employees who have certain technical skills that are critical for us to manage our operations at desired utilization levels. If we face attrition in such skilled employees and are unable to recruit and retain a sufficient number of skilled employees to manage attrition as well as growth, then our ability to maintain our competitiveness and grow our business could be negatively affected.

18. Intellectual property secrecy risk - We do not hold any patents or other form of intellectual property protection in relation to our manufacturing processes and product designs, and our inability to maintain the integrity and secrecy of our manufacturing processes or our product designs may adversely affect our business.

While we have designed certain products, possess technical knowledge about our products and design our tools in-house, our know-how may not be adequately protected by intellectual property rights. While we generally take precautions to protect our trade secrets and confidential information against breach of trust by our employees, consultants, job workers, customers and suppliers, it is possible that unauthorized disclosure of our trade secrets or confidential information may occur.

We cannot assure you that we will be successful in the protection of our trade secrets and confidential information. Our manufacturing processes may not be eligible for intellectual property protection and others may be able to use the same or similar production processes, thereby undermining any competitive advantage we may have derived from such processes and adversely affecting our financial condition, cash flows and results of operations.

19. *An inability to manage our growth may disrupt our business and reduce our profitability.*

As part of our growth strategy, we are committed to continuing to diversify our product offerings, customer base and geographic footprint and minimizing our exposure to individual market and segment declines. Our growth requires us to continuously invest in our operations, evolve and improve our operational, financial and internal controls and administrative infrastructure. In particular, this significantly increases the challenges involved in:

- maintaining high levels of customer satisfaction;
- acquiring new customers and increasing/maintaining contribution from existing customers;
- maintaining the quality and precision level of our products;
- arranging for adequate financial resources (whether in the form of debt or equity or a combination thereof) for planned improvements and expansions;
- obtaining required lender consents;
- managing our relations with our labour force and successfully resolving any labour disputes that may arise from time to time; and
- recruiting, training and retaining sufficient skilled technical, marketing and management personnel.

In addition, we may not be successful in implementing our strategy of expanding our existing manufacturing capabilities for existing product segments and creation of new products, expanding the revenue contribution from outside India, creating manufacturing capabilities in axle beam extrusion and backward integration capabilities into the seamless tube. An inability to manage our growth, including as a result of a failure to adequately respond to any such challenges, risks or uncertainties, may disrupt our business and reduce our profitability.

20. *Competition risk - We face competition from both domestic as well as international players and our inability to compete effectively may have a material adverse impact on our business and results of operations.*

We face competition in India and overseas in our business, which is based on many factors, including product quality and reliability, breadth of product range, product design and innovation, technology, manufacturing capabilities, scope and quality of service, price and brand recognition. We compete with global competitors to retain our existing business as well as to acquire new business. Some of our competitors may have certain advantages, including greater financial, technical and/ or marketing resources, which could enhance their ability to finance acquisitions, fund international growth, respond more quickly to technological changes and/ or operate in more diversified geographies and product portfolios.

Some of our competitors may be able to produce similar or equivalent products at lower costs than we can produce them. Accordingly, we may not be able to compete effectively with our competitors or may be required to reduce prices to remain competitive, which may have an adverse effect on our business, profitability margins, financial condition, results of operations and cash flows.

Further, manufacturers that do not currently compete with us could expand their product portfolios to include products that would compete directly with ours. Changes in the product focus of larger manufacturers who may have an existing relationship with our customers that may reduce or entirely replace our business with those customers.

21. *Industry information included in this Draft Red Herring Prospectus has been derived from an industry report prepared by CRISIL Limited exclusively commissioned and paid for by us for such purpose.*

We have used the report titled “Market dynamics for select forged and machined components and assemblies in the commercial vehicle and tractor segment” dated November 2023 by CRISIL Market Intelligence & Analytics appointed on August 11, 2023, for purposes of inclusion of such information in this Draft Red Herring Prospectus, and exclusively commissioned and paid for by our Company for purposes of inclusion of such information in the Offer Documents at an agreed fees to be paid by our Company. Given the scope and extent of the CRISIL Report, disclosures are limited to certain excerpts and the CRISIL Report has not been reproduced in its entirety in this Draft Red Herring Prospectus. There are no parts, data or information (which may be relevant for the proposed issue), that has been left out or changed in any manner. The report is a paid report and is subject to various

limitations and based upon certain assumptions that are subjective in nature. The CRISIL Report uses certain methodologies for market sizing and forecasting. Accordingly, the investor should read the industry-related disclosure in this Draft Red Herring Prospectus in this context. In addition, statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Draft Red Herring Prospectus. Also see section entitled, “*Certain Conventions, Presentation of Financial, Industry and Market Data – Industry and Market Data*” on page 17.

You should consult your own advisors and undertake an independent assessment of information in this Prospectus based on, or derived from, the Industry Report before making any investment decision regarding the Offer. For further information, see section entitled “*Industry Overview*” beginning on page 138. A copy of the CRISIL Report will be available on the website of our Company from the date of the Red Herring Prospectus.

22. Intellectual property infringement risk - We do not possess registered trademarks for our corporate logo and name and may be unable to protect ourselves from infringement of our trademarks or unauthorised passing off of counterfeit products.

As on the date of this DRHP, we have applied for registration of our corporate logo and name under Class 12 and Class 99. While our application under Class 12 stands opposed, our application under Class 99 is currently under examination by the Registrar of Trade Marks, Government of India. In the event that we are unable to obtain registration of our corporate logo and name, we may be unable to successfully prevent the usage of similar names or logos by other parties or the sale of counterfeit products. Any such unauthorised usage and passing off of our name, brand and logo could adversely impact our sales, goodwill and results of operations.

Further, in the absence of registered trademarks, we may be required to expend substantial resources in defending against any infringement or passing off actions. While, there have been no such instances of infringement or passing off in the three month period ended June 30, 2023 and the past three Fiscals, there can be no assurance that we would not be subject to such infringement in the future.

Risks relating to our financial position

23. Related Party Transactions - We have entered, and will continue to enter, into related party transactions which may involve conflicts of interest. Further, our Promoters, Directors and Key Managerial Personnel have interests in us other than reimbursement of expenses incurred and normal remuneration or benefits.

We have, in the ordinary course of our business, entered into transactions with certain related parties. We have in the past and may in the future purchase goods and samples from and sell goods to related parties. The details of related party transactions including as a percentage of revenue and in the three month period ended June 30, 2023 and for the Fiscal 2023, 2022 and 2021, are as follows:

Such related party transactions may potentially involve conflicts of interest with equity shareholders. While all such transactions with our related parties have been conducted on an arm's length basis and have been duly approved by our Board/ Audit Committee in accordance with the Companies Act, we cannot assure you that we could not have obtained more favourable terms had such transactions been entered into with unrelated parties. Further, we cannot assure you that these or any future related party transactions that we may enter into, individually or in the aggregate, will not have an adverse effect on our business, financial condition, results of operations and prospects.

24. *A failure to comply with financial and other restrictive covenants imposed on us under our financing agreements may cause us to default on these agreements, which may adversely affect our ability to conduct our business and operations.*

As on June 30, 2023, our total long-term (non-current) borrowings from banks, financial institutions and related parties amounted to ₹ 251.78 million, while our total short term (current) borrowings from banks including current maturities of term loans amounted to ₹ 675.91 million. For further information on our indebtedness, see section entitled "*Financial Indebtedness*" beginning on page 292.

Our ability to meet our obligations under our debt financing arrangements, which comprise term loans and working capital facility agreements, from time to time, and repayment of our outstanding borrowings will depend primarily on the cash generated by our business.

Our financing agreements generally include various conditions and covenants that require us to obtain lender consents prior to carrying out certain activities and entering into certain transactions including but not limited to:

- any change in the shareholding pattern, ownership, management, or control, including any dilution in the shareholding of our Promoters;
- undertake any further capex except being funded by our Company's own resources;
- any amendments to our constitutional documents;
- undertaking any merger amalgamation, compromise or reconstruction;
- prior repayment of the credit facility;
- effecting any dividend payout in case of delay in debt servicing or breach of any financial covenants; and
- undertaking any new business or operations or project or diversification of business.

These covenants vary depending on the requirements of the financial institution extending the loan and the conditions negotiated under each financing document and may restrict or delay certain actions or initiatives that we may propose to take from time to time.

While we are currently in compliance with the financial covenants specified in our financing arrangements, we cannot assure you that we will continue to comply with all covenants with respect to our financing arrangements in the future or that we will be able to secure waivers for any such non-compliance in a timely manner or at all. Any future inability to comply with the covenants under our financing arrangements or to obtain necessary consents required thereunder may lead to the termination of our credit facilities, levy of penal interest, acceleration of all amounts due under such facilities and the enforcement of any security provided. If the obligations under any of our financing agreements are accelerated, we may have to dedicate a substantial portion of our cash flow from operations to make payments under such financing documents, thereby reducing the availability of cash for our working capital requirements and other general corporate purposes.

25. *We have significant amounts of short term (current) borrowings a large part of which are repayable on demand. If we experience insufficient cash flows to enable us to fund working capital requirements or to service our short term (current) borrowings, there may be an adverse effect on our business, financial condition, results of operations and prospects.*

Our business requires a high amount of working capital, primarily on account of high inventory levels and trade receivables owing to multiple levels of operations, including backward integrated manufacturing operations as well as forward integrated warehousing. Hence, we have availed a significant amount of short term (current) borrowings to enable us to finance our operating cycle. The details of our net working capital requirements for Fiscal 2023, 2022 and 2021, is as follows:

Particulars	Fiscal 2023	Fiscal 2022	Fiscal 2021
Net Working Capital (in ₹ million)	1,014.47	836.49	752.48
Net Working Capital days	76	103	149

Set forth below are details of our short term (current) borrowings as a percentage of total borrowings:

(in ₹ million, except percentages)

Particulars	Three month period ended June 30, 2023	Fiscal 2023	Fiscal 2022	Fiscal 2021
Short term (current) borrowings (working capital)	675.91	611.20	623.28	541.12
Total borrowings*	927.69	881.90	860.56	834.76
Short term (current) borrowings as percentage of total borrowings (%)	72.86%	69.30%	72.43%	64.82%

*Excluding lease liabilities

For further information on our short term (current) borrowings, including the key terms of agreements with our lenders for such short term (current) borrowings, see section entitled “*Financial Indebtedness*” beginning on page 292.

If a substantial portion of our short term (current) borrowings are recalled by respective financial institutions at a short notice and we are unable to replace such facilities in time or on comparable terms, we may be deemed to be in default of the respective loan covenants and may be subject to adverse actions which will adversely affect our financial condition.

26. An adverse determination in a significant product liability or performance improvement claim or significant replacement costs may adversely affect our business, financial condition, results of operations and prospects.

The use of our products, often under extreme conditions, carries an inherent risk of product liability claims arising from personal injury, death or property damage due to equipment failure, work accidents, fire or explosion, if our products are defective or are used incorrectly by our customers (or by their customers, who are the end-users).

As a part of our supply agreements with our customers, we provide certain warranties for our products and the OEMs in-turn offer similar warranties to their customers. In case of a failure, if it is determined that the failure was on account of a manufacturing defect in our products, we are typically required to promptly correct or replace those defective products at our own expense and prepare a written corrective action plan, failing which, we may be required to reimburse our OEM customers at part acquisition cost, with additives to cover administrative, labour, material and other such costs. The standard warranty period for our products is up to 12 months but, in the case of certain specified types of equipment in which our components are used, may extend to 24 months or longer. Further, we may be subject to claims arising from alleged, suspected or actual defects in the products that we manufacture, within the warranty periods extended by us, which may require us to conduct product recalls, or we may be required or requested to participate in product recalls conducted by our OEM customers due to alleged, suspected or actual defects in equipment manufactured by them for their own customers. Provisions for warranties and expenses related to warranties for the three month period ended June 30, 2023 and Fiscals 2023, 2022 and 2021 are as under:

Particulars	Three month period ended June 30, 2023		Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Amount (₹ in million)	% of revenue of operations	Amount (₹ in million)	% of revenue of operations	Amount (₹ in million)	% of revenue of operations	Amount (₹ in million)	% of revenue of operations
Provision for warranties	3.56	0.25%	8.22	0.17%	1.48	0.05%	0.95	0.05%
Expenses related to	3.56	0.25%	7.76	0.16%	1.48	0.05%	0.95	0.05%

warranties								
------------	--	--	--	--	--	--	--	--

There is a risk that we may incur higher than expected warranty or performance improvement costs or become aware of a defective or underperforming product.

Where we have not entered into warranty agreements with certain of our customers, our customers can raise debit notes equal to or more than the selling price of the products that are rejected and physically returned to us or scrapped at the customer's end after our approval.

In the event that any significant product liability, performance improvement or replacement claims are brought against us, it may adversely affect our business, financial condition, results of operations and prospects. Further, in the event of any future accident or liability involving our products, our customers may delay or withhold payments to us and/or seek to enforce warranty or performance improvement claims against us, and which in turn may, to that extent, diminish our reputation among our customers, suppliers, lenders, investors and the public, making it difficult for us to operate our business and compete effectively, which may adversely affect our business, financial condition, results of operations and prospects.

27. Failure or disruption of our IT systems, or cybercrimes or similar disruptions, may adversely affect our business, financial condition, results of operations and prospects.

We have implemented various information technology ("IT") and/or ("ERP") solutions to cover key areas of our operations. We are dependent on technology in relation to customer order management and dispatches, production planning and reporting, manufacturing processes on the shop floor, financial accounting and scheduling raw material purchase and shipments. We rely on our IT infrastructure to provide us with connectivity and data backup across our locations and functions.

We believe that we have deployed adequate IT disaster management systems including data backup and retrieval mechanisms, in all our facilities. Any failure or disruption in the operation of these systems or the loss of data due to such failure or disruption (including due to human error or sabotage) may affect our ability to plan, track, record and analyze work in progress and sales, process financial information, manage our creditors and debtors, or otherwise conduct our normal business operations, which may increase our costs and otherwise adversely affect our business, financial condition, results of operations and prospects.

In addition, our systems and proprietary data stored electronically may be vulnerable to ransomware attacks, computer viruses, cybercrime, computer hacking and similar disruptions from unauthorized tampering. If such unauthorized use of our systems or those of our customers were to occur, data related to our customers, products, product development pipeline, payment systems and other information could be compromised.

28. Exchange rate fluctuations may adversely affect our business, financial conditions, cash flows and results of operations.

Our financial statements are presented in Indian Rupees. However, our revenue are influenced by the currencies that we export in as well as by currencies of countries from where we procure our plant and machinery. Our foreign currency exposures, exchange rate fluctuations between the Indian Rupee and foreign currencies, especially the USD, Euro, and GBP, may have a material impact on our results of operations, cash flows and financial condition.

The table below sets forth details:

Geography	Three month period ended June 30, 2023		Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Amount (₹ in millions)	% of revenue from operations	Amount (₹ in millions)	% of revenue from operations	Amount (₹ in millions)	% of revenue from operations	Amount (₹ in millions)	% of revenue from operations
India	1,434.80	99.84%	4,871.29	99.69%	2,948.34	99.12%	1,821.51	99.12%
Outside India	2.29	0.16%	14.99	0.31%	26.21	0.88%	16.18	0.88%
Total	1,437.09	100.00%	4,886.28	100.00%	2,974.55	100.00%	1,837.69	100.00%

We currently do not hedge our foreign currency exchange risk and thus any adverse movement in currency exchange rates may have an adverse impact on our business operations, financial conditions, results of operations and cash flows from the full effects of exchange rate fluctuations.

29. We have substantial capital expenditure and working capital requirements and may require additional capital and financing in the future and our operations could be curtailed if we are unable to obtain the required additional capital and financing when needed.

Our business is capital intensive. We have expanded and upgraded our existing manufacturing facilities in the last three Fiscals. The following table sets forth details of our capital expenditure (i.e. payments for acquisition of property, plant and equipment and intangible assets (including capital work in progress and intangible assets under development)) as a percentage of gross block (i.e. cost of property, plant and equipment, capital work-in-progress, cost of intangible assets) in the years/period indicated:

As of / For the three month period ended June 30, 2023		As of / For the Year ended March 31, 2023		As of / For the Year ended March 31, 2022		As of / For the Year ended March 31, 2021	
Capital Expenditure* (₹ million)	% of the Gross Block**	Capital Expenditure* (₹ million)	% of the Gross Block**	Capital Expenditure* (₹ million)	% of the Gross Block**	Capital Expenditure* (₹ million)	% of the Gross Block**
39.24	2.71%	185.95	13.30%	123.18	10.07%	108.65	9.78%

*Capital Expenditure comprises payments for acquisition of property, plant and equipment and intangible assets (including capital work in progress and intangible assets under development).

**Gross Block comprises cost of property, plant and equipment, capital work-in-progress and cost of intangible assets.

Further, as at March 31, 2023, March 31, 2022 and March 31, 2021, our working capital requirement was ₹1,014.47 million, ₹836.49 million and ₹752.48 million, respectively. We intend to fund purchase of certain equipment and machinery as well as our incremental working capital requirements from the Net Proceeds and the total amount to be financed from Net Proceeds for such capital expenditure and working capital is approximately ₹700.00 million and ₹300.00 million, respectively. For further information, see “Objects of the Offer -Details of the Objects” on page 106.

The actual amount and timing of our future capital requirements may differ from estimates as a result of, among other factors, unforeseen events beyond our control, unforeseen delays or cost overruns, unanticipated expenses, regulatory changes, economic conditions, engineering design changes, weather related delays, technological changes and additional market developments and new opportunities in the industries we operate.

Our sources of additional capital, where required to meet our capital expenditure plans or funding working capital requirement, may include the incurrence of debt or the issue of equity or debt securities or a combination of both. Further, our budgeted resources may prove insufficient to meet our requirements which could drain our internal accruals or compel us to raise additional capital. If we are required to raise additional funds through the incurrence of debt, our interest and debt repayment obligations will increase, and could have a significant effect on our profitability and cash flows and we may be subject to additional covenants, which could limit our ability to access cash flows from operations.

In many cases, a significant amount of our working capital is required to finance the purchase of materials and the performance of manufacturing and other work before payment is received from customers. Our inability to obtain adequate amount of working capital at such terms which are favourable to us and in a timely manner or at all may also have an adverse effect on our results of operations, cash flows and financial condition. Continued increases in our working capital requirements may have an adverse effect on our results of operations, cash flows and financial condition.

30. Certain non-GAAP financial measures and certain other statistical information relating to our operations and financial performance like Gross Profit, Gross Margin, EBITDA, EBITDA Margin, Return on Equity, Return on Capital Employed, PAT Margin, Gross Fixed Asset Turnover Ratio and Net Debt to EBITDA have been included in this Draft Red Herring Prospectus. These non-GAAP financial measures are not measures of operating performance or liquidity defined by Ind AS and may not be comparable.

Certain non-GAAP financial measures and certain other statistical information relating to our operations and financial performance like Gross Profit, Gross Margin, EBITDA, EBITDA Margin, Return on Equity, Return on Capital Employed, PAT Margin, Gross Fixed Asset Turnover Ratio and Net Debt to EBITDA have been included in this Draft Red Herring Prospectus. We compute and disclose such non-GAAP financial measures and such other statistical information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance.

These Non-GAAP Measures are not a measurement of our financial performance or liquidity under Ind AS and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the years or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS. In addition, these are not defined terms under Ind AS, hence a direct comparison of these Non-GAAP Measures between companies may not be possible. Other companies may calculate these Non-GAAP Measures differently from us, limiting its usefulness as a comparative measure. These non-GAAP financial measures and other statistical and other information relating to our operations and financial performance may not be computed on the basis of any standard methodology that is applicable across the industry and therefore may not be comparable to financial measures and statistical information of similar nomenclature that may be computed and presented by other companies and are not measures of operating performance or liquidity defined by Ind AS and may not be comparable to similarly titled measures presented by other companies.

31. *The average cost of acquisition of Equity Shares for our Selling Shareholders may be lower than the Offer Price.*

The average cost of acquisition of Equity Shares for our Promoter Selling Shareholders may be lower than the Offer Price. The details of the average cost of acquisition of Equity Shares held by our Promoter Selling Shareholders as at the date of this DRHP is set out below.

Name	Number of Equity Shares held	Average Cost of Acquisition per Equity Share (in ₹) *
Sudhir Rai	31,200,140	1.91
Anita Rai	15,199,816	1.69

* As certified by M/s S.K. Naredi & Co., Chartered Accountants by way of their certificate dated November 30, 2023

For more details regarding weighted average cost of acquisition of Equity Shares by our Promoter Selling Shareholders and build-up of Equity Shares by our Selling Shareholders in our Company, see “*Summary of the Offer Document – Average cost of acquisition of Equity Shares to our Promoters and the Promoter Selling Shareholders*” on page 25.

Internal risks relating to the objects of the Offer

32. *We intend to utilise a portion of the Net Proceeds for funding the purchase of certain equipment, plant and machinery. We are yet to place orders for purchase of a majority of such equipment, plant and machinery and there can be no assurance that we will be able to place orders for such equipment and machinery, in a timely manner or at all.*

We intend to utilise a portion of the Net Proceeds for purchase of certain equipment, plant and machinery as part of our existing manufacturing facilities. While we have obtained the quotations from various vendors in relation to such equipment machinery, most of these quotations are valid for a limited period of time and may be subject to revisions, and other commercial factors. The cost of such equipment and machinery may escalate due to changes in import duties, foreign exchange fluctuations, shortage of such machines, or increase in the cost of raw material. We are yet to place orders for equipment and machinery. We have estimated the total cost of such purchase of equipment, plant and machinery to be ₹722.35 million out of which ₹700.00 million will be funded from the Net Proceeds. For further information, see “*Objects of the Offer – Funding of capital expenditure requirements of our Company towards purchase of machinery and equipment*” on page 106. There can be no assurance that we will be able to place orders for such machineries, in a timely manner or at all.

Further, the costs of such machinery may escalate or vary based on external factors which may not be in our control. If our actual expenses on equipment and machinery significantly exceed our estimates, or even if our estimates were sufficient for such purchases, we may not be able to achieve the intended economic benefits, which in turn may materially and adversely affect our financial condition, results of operations, cash flows, and

prospects. We may not be able to install and duly utilise the machinery to be purchased from the Net Proceeds due to factors beyond our control such as labour shortages, inadequate performance of the equipment and machinery installed in our manufacturing facilities, defects in design or construction, the possibility of unanticipated future regulatory restrictions, taxes and duties, environment and ecology costs and other external factors. Additionally, in the event of any delay in placement of such orders, the proposed schedule implementation and deployment of the Net Proceeds may be extended or may vary accordingly, which could have an adverse impact on our growth, prospects, cash flows, results of operations and financial condition.

33. *Our Company intends to utilise a portion of the Net Proceeds of the Fresh Issue towards the long term working capital requirements of our Company which are based on certain assumptions and estimates.*

The objects of the Offer include funding of long term working capital requirements which are based on the management estimates and certain assumptions by our Company in relation to *inter alia* sales of the products by our Company and the cost and holding periods of the inventories of the products of our Company. For details, see “*Objects of the Offer*” on page 104.

The future long term working capital requirements and deployment of funds by our Company may be subject to change due to factors beyond the control of our Company including *force majeure* conditions, an increase in defaults by our customers, unanticipated expenses, economic conditions, availability of funding from banks or financial institutions. Accordingly, such long term working capital requirements and deployment of proceeds may not be indicative of the actual requirements of our Company in the future and investors are advised to not place undue reliance on such estimates of future working capital requirements.

Our Company’s sources of additional financing, required to meet the working capital requirements of our Company may include availing debt or issue of further equity or debt securities or a combination of both. If our Company decides to raise additional funds by availing debt, the interest and debt repayment obligations of our Company will increase and could have a significant effect on our profitability and cash flows. Further, our Company may be subject to additional covenants, which could limit the ability of our Company to access cash flows from operations. Any issuance of further equity, on the other hand, could result in a dilution of your shareholding in our Company. Accordingly, continued increases in the working capital requirements by our Company may have an adverse effect on our business, results of operations, financial condition and cash flows.

34. *Our Company will not receive any proceeds from the Offer for Sale portion. Objects of the Fresh Issue for which the funds are being raised have not been appraised by any bank or financial institution and any variation in the utilization of our Net Proceeds as disclosed in this Draft Red Herring Prospectus would be subject to certain compliance requirements, including prior shareholders’ approval.*

The Offer includes an offer for sale of upto ₹ 2,500.00 million worth of Equity Shares by the Selling Shareholders. The proceeds from the Offer for Sale (net of expenses and taxes) will be paid to Selling Shareholders and we will not receive any such proceeds.

Our Company intends to primarily use the Net Proceeds of the Fresh Issue for funding of capital expenditure requirements towards purchase of machinery and equipment, repayment or prepayment of outstanding borrowings, financing incremental working capital requirements and general corporate purposes, as described in section “*Objects of the Offer*” on page 104. The plans for utilizing the Net Proceeds of the Fresh Issue are based on management estimates and such intended use of proceeds has not been appraised by any bank or financial institution.

The funding requirements are based on current conditions and are subject to change in response to external circumstances, costs, other financial condition or business strategies. Our Company may have to revise its management estimates from time to time and consequently its requirements may change, which may cause an additional burden on our finance plans, as a result of which, our business, financial condition, results of operations and cash flows could be materially and adversely impacted.

Any change in the Objects of the Fresh Issue may also require shareholders’ approval and may involve considerable time or may not be forthcoming and in such an eventuality it may adversely affect our operations or business. Further, our Promoters or controlling shareholders would be required to provide an exit opportunity to the shareholders who dissent with our proposal to change the objects of the Offer, which may discourage our Promoters or our controlling shareholders from undertaking steps for the variation of the proposed utilisation of our Net Proceeds, even if such variation is in our interest.

In light of these factors, we may not be able to undertake any variation in Objects of the Fresh Issue to use any unutilized proceeds of the Fresh Issue even if such variation is in our interest, thereby limiting or delaying our efforts to use the Net Proceeds to achieve profitable growth in our business.

Regulatory risks

35. *We are subject to various laws and regulations in jurisdictions where we operate including environmental and health and safety laws and regulations. Failure to comply with regulations or maintain approvals may subject us to increased compliance costs, which may in turn result in an adverse effect on our financial condition.*

Our operations are subject to central, state, local and foreign laws and regulations relating to the protection of the environment and occupational health and safety, including those governing the generation, handling, storage, use, management, transportation and disposal of, or exposure to, environmental pollutants or hazardous materials resulting from our manufacturing processes and mandatory certification requirements for our facilities and products. For regulations and policies applicable to our Company, see the section titled “*Key Regulations and Policies in India*” beginning on page 210. For instance, we require approvals under the Water (Prevention and Control of Pollution) Act, 1974 and the Air (Prevention and Control of Pollution) Act, 1981, in order to establish and operate our manufacturing facilities in India and are subject to inspections from the relevant authorities in order to maintain such approvals.

There can be no assurance that we will be in compliance at all times with such laws, regulations and the terms and conditions of any such consents or permits. For example, as of June 2023, our Company employed 490 permanent employees and 1,588 contractual employees which is in excess of the maximum number of workers allowed to be employed at our premises under the relevant factory licenses. We are currently under the process of applying for a fresh application to increase the number of permissible workers at our factory premises. While we have not been fined or otherwise sanctioned in the last three Fiscals which could have a significant impact on our business, any fines or sanctions in the future could adversely affect our business, reputation, financial condition or results of operations. If we fail to comply with such laws and regulations, we could be subject to significant fines, penalties, costs, liabilities or restrictions on operations, which could negatively affect our financial condition.

We are required to obtain various regulatory approvals and registrations for our operations, including consents from the local pollution control boards in India to establish and operate our manufacturing facilities in India, and registrations with the relevant tax and labour authorities in India amongst others, some of which may expire in the ordinary course and for which we would be required to make applications for renewal from time to time. For further information, see section entitled “*Government and Other Approvals*” beginning on page 331. While we are not aware of any outstanding material claims or obligations, we may incur substantial costs, including clean up or remediation costs, fines and civil or criminal sanctions, and third-party property damage or personal injury claims, as a result of violations of or liabilities under environmental or health and safety laws or non-compliance with permits required at our facilities, which, as a result, may have an adverse effect on our business and financial condition.

In addition, some of our principal customers are OEMs and tier 1 suppliers to M&HCV and farm equipment OEMs, whose operations are geographically diverse and subject to or affected by a wide array of regulations in the jurisdictions where they operate, such as applicable environmental and health and safety laws and regulations. As a result of changes in regulations and laws outside India, our customers may choose to voluntarily follow and cause their suppliers to follow additional regulations which may not be applicable to us in India. Such changes in laws, regulations and additional requirements may increase our cost of compliance, divert management bandwidth away from other areas and may cause us to discontinue or limit certain operations which will adversely impact our business and results from operations. As a result of these factors, demand for our products may be negatively affected by regulations adversely impacting the industries and geographies in which our principal customers operate.

36. *If more stringent labour laws or other industry standards in India become applicable to us, our profitability may be adversely affected.*

We are subject to a number of stringent labour laws. India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for dispute resolution and employee removal and legislation that imposes financial obligations on employers upon retrenchment and periodic revisions

to minimum wage. We are also subject to international, federal, state and local laws and regulations, in all jurisdictions where we have operations, governing our relationships with our employees, including those relating to minimum wage, overtime, working conditions, hiring and firing, non-discrimination, work permits and employee benefits. Recently, the Government of India enacted the Code on Wages, 2019, the Occupational Safety, Health and Working Conditions Code, 2020 and the Industrial Relations Code, 2020, all of which will be brought into force on a date to be notified by the Central Government. For further information, see section entitled “*Key Regulations and Policies in India*” beginning on page 210. These codes propose to subsume several existing laws and regulations in India and we cannot assure you that these codes will not impose more stringent or additional compliance requirements on us, which may increase our compliance costs and adversely affect our profitability. Further, we may be subject to changing judicial interpretation of the relevant statutes, which may adversely affect our cash flows and profitability. For instance, the Supreme Court of India in a recent judgment has upheld the circular dated March 20, 2019 issued by the Employees’ Provident Fund Organisation, which excludes certain allowances from the definition of ‘basic wages’ of the relevant employees for the purposes of determining contribution to provident fund under the EPF Act and while we typically assess the impact of such developments on our operations and expenses, we cannot assure that we will not be adversely affected by such developments in the future.

If labour laws become more stringent or are more strictly enforced, it may become difficult for us to maintain flexible human resource policies, discharge employees or downsize, any of which could have an adverse effect on our business, results of operations, financial condition and cash flows.

37. *Our manufacturing facilities are dependent on adequate and uninterrupted supplies of power and fuel; shortage or disruption in power or fuel supplies may lead to disruption in operations, higher operating cost and consequent decline in operating margins.*

Adequate and cost-effective supply of power and fuel is critical to our manufacturing facilities. In the three month period ended June 30, 2023 and Fiscal 2023, Fiscal 2022 and Fiscal 2021, the power and fuel costs was ₹ 58.39 million, ₹ 158.38 million, ₹ 79.82 million, and ₹ 82.05 million, for each respective period accounted for 4.06%, 3.24%, 2.68% and 4.46% of our total revenue from operations, respectively.

We depend entirely on Jamshedpur Utilities and Services Company for our supply of electricity and any breakdowns or supply cuts by Jamshedpur Utilities and Services Company may lead to disruption in our operations and manufacturing process. While we have stand-by captive generator sets for Unit 1, our remaining manufacturing units are not covered under any captive generators. Accordingly, there can be no assurance that Unit 1 will continue to remain functional at an optimal level at all times or that we will be able to avoid disruptions in our operations due to any power cuts by Jamshedpur Utilities and Services Company. Power costs represent a significant portion of our operating costs. If the per unit cost of electricity is increased by the state electricity boards our power costs will increase. It may not be possible to pass on any increase in our power costs to our customers, which may adversely affect our profit margins. An interruption in or limited supply of electricity may result in suspension of our manufacturing operations. Interruptions of electricity supply can also result in production shutdowns, increased costs associated with restarting production and the loss of production in progress. A prolonged suspension in production could materially and adversely affect our business, financial condition or results of operations. While we have not encountered any significant interruptions to our operations in the three month period ended June 30, 2023 and the past three Fiscals, on account of electricity supply disruptions, there can be no assurance that we will not face any major interruptions in future which could result in a disruption in our operations. If supply is not available for any reason, we will need to rely on alternative sources, which may not be able to consistently meet our requirements. Further, if for any reason such electricity is not available, we may need to shut down our plants until an adequate supply of electricity is restored. The cost of such purchased power would be significantly higher, thereby adversely affecting our cost of production and profitability.

Our operations and facilities are dependent on a steady and stable availability of water, and irregular or interrupted supply of water, or government intervention are factors that could adversely affect our daily operations. If there is an insufficient supply of water to satisfy our requirements or a significant increase in prices, we may need to limit or delay our production, which could adversely affect our business, financial condition and results of operations. While we have not faced any issues in relation to availability of water in the three month period ended June 30, 2023 and the past three Fiscals, we cannot assure you that we will always have access to sufficient supplies of water in the future to accommodate our production requirements and planned growth. In addition to the production losses that we would incur during production shutdowns in the absence of supply of electrical power or water, we would not be able to immediately return to full production volumes following power

interruptions, however brief. Any interruption of power, even if short, could give rise to inefficiencies when we resume production.

- 38. *Our operations are dependent on research and development. If we are unable to continuously develop new products or optimise our processes then our ability to grow, including by expanding our presence across different end-user industries, and, or, compete effectively, might be compromised, which would have an adverse impact on our business and financial condition.***

Research and development (“R&D”) activities are integral to our business, and we rely on constant R&D for developing and customisation of our products and solutions. Our ability to deliver high precision multi-purpose products is significantly enhanced by our dedicated R&D team situated at our manufacturing facilities in Jamshedpur, Jharkhand. R&D is a critical aspect of our product development and is integral to our process optimisation which ensures that we continue to evolve with the changing industry landscape.

As of June 30, 2023, our R&D team aggregated 20 employees. Further, we believe that continuous R&D is critical to our continued growth and business prospects and we expect to continue deploying significant resources including financial resources towards R&D. If we are unable to continuously develop new products or optimise our processes, our ability to grow, including by expanding our presence across different end-user industries, and, or, compete effectively, might be compromised, which would have an adverse impact on our business and financial condition.

- 39. *Our operational flexibility may be limited in certain respects on account of our obligations under some of our customer agreements, terms of purchase and established practices.***

We conduct business with our customers on the basis of agreements, terms of purchase or established practices. Our pricing terms and payment cycles are generally set out in advance in our customer contracts or purchase orders and we also renegotiate/ reset prices on a periodic basis including for adjustments beyond a specified range in the event of significant unanticipated changes in, for instance, raw material prices or currency exchange rate fluctuation. Due to committed delivery schedules at a pre-agreed price, we may not be able to adequately adjust our inventory and raw material costs in the event of an unanticipated change or cancellation in orders from our customers and we may, therefore, in certain events, incur additional costs that we are unable to pass through to our customers or be required to write off certain expenses. For instance, in the event of any inability to deliver our products on a timely basis, we may be subject to certain penalties including the requirement to bear additional freight costs under the terms of our arrangements with our customers. In the three month period ended June 30, 2023 and Fiscals 2023, 2022 and 2021, our freight, transportation and handling charges was ₹ 44.66 million, ₹ 160.24 million, ₹ 129.12 million and ₹ 96.24 million, respectively, and accounted for 3.36%, 3.58%, 4.59% and 5.40%, respectively, of our total expenses.

Due to the packaging, transport and labelling laws that apply to our customers in the jurisdictions in which they operate, we are also required to adhere to standards specified by our customers in relation to the delivery of our products to them and any non-conformity with such specifications may result in the rejection of an order even where there is neither any defect in our product nor any delay or deficiency in the delivery. In the event that we are unable to adhere to specified safety, quality and competitive standards and specifications on packaging transport and labelling, including in relation to on-time delivery or on-site or off-site inspections of our products and facilities or in relation to our committed reporting requirements or the requirement to obtain adequate product liability insurance, we may not be able to continue to enjoy our relationships with such major customers on the same terms over the long-term, or at all. In the three month period ended June 30, 2023 and the last three Fiscals, we have not incurred any further costs towards non-fulfilment of customer claims.

Some of our customer arrangements also require us to obtain the prior approval of our customers before implementing any significant change in manufacturing method, supplier base, factory location, part specification or shipment carrier or prior to sub-contracting or assigning any of our obligations. There can be no assurance that any such consent, if sought by us, will be received within a reasonable time or at all. While general terms of business or established practices with major customers generally allow us a right of consultation as to difficulties faced by us or provide for certain decisions or adjustments to be made as per mutual agreement, our customers are generally permitted under the terms of such agreements to exercise a high level of discretion. Consequently, we are exposed to the risk that our submissions or requests as to price adjustments or delivery schedules or otherwise may not be agreed to by our customers or our customers may not accede to provide consents sought by us. Any such significant operational constraint may adversely affect our business, financial condition, results of operations and prospects.

Further, under the terms of business with some of our customers, we are required to provide an annual cost reduction in relation to our products. Although we continue to focus on value engineering and process innovation, there can be no assurance that such initiatives will enable us to maintain or improve our margins. Any significant cost reductions that we are not able to compensate for through value engineering and process innovation may, therefore, reduce our profitability.

We are also bound by confidentiality obligations under our non-disclosure agreements with our customers to protect their intellectual property, including in relation to technical data such as product designs, drawings, prototypes and any other intellectual property or proprietary data that may have been shared with us by our customers. While we believe that we have not been in breach of any such confidentiality obligations, an inadvertent breach or any misuse of intellectual property or proprietary data by any of our employees or sub-contractors may expose us to expensive infringement claims and may diminish our goodwill and reputation among our customers, suppliers, lenders, investors and the public, making it difficult for us to operate our business and compete effectively.

40. *Information relating to our production capacities and the historical capacity utilization of our manufacturing facilities included in this Draft Red Herring Prospectus is based on various assumptions and estimates and future production and capacity utilization may vary.*

Information relating to our production capacities and the historical capacity utilization of our manufacturing facilities included in this Draft Red Herring Prospectus is based on various assumptions and estimates of our management that have been taken into account by the chartered engineer in the calculation of our capacity. Actual production levels and utilization rates may differ significantly from the estimated production capacities or historical estimated capacity utilization information of our facilities. Undue reliance should therefore not be placed on our production capacity or historical estimated capacity utilization information for our existing facilities included in this Draft Red Herring Prospectus. For further information, see section entitled “*Our Business – Installed Capacity and Capacity Utilization*” on page 203.

41. *If we fail to maintain an effective system of internal controls, we may not be able to successfully manage, or accurately report, our financial risks.*

Effective internal controls are necessary for us to prepare reliable financial reports and effectively avoid fraud. Any internal controls that we have or may implement, or our level of compliance with such controls, may deteriorate over time due to evolving business conditions. While there have not been any material instances of non-adherence with internal controls in the three month period ended June 30, 2023 and the past three Fiscals, there can be no assurance that deficiencies in our internal controls will not arise in the future, or that we will be able to implement, and continue to maintain, adequate measures to rectify or mitigate any such deficiencies in our internal controls. Any inability on our part to adequately detect, rectify or mitigate any such deficiencies in our internal controls may adversely impact our ability to accurately report, or successfully manage, our financial risks, and to avoid fraud.

42. *Our insurance coverage may not adequately protect us from all material risks and liabilities.*

Our Company’s operations are subject to various risks and hazards which may adversely affect revenue generation and profitability of our Company. While our Company believes that it has taken adequate safeguards to protect our Company’s assets from various risks inherent in our Company’s business, including by purchasing and maintaining relevant insurance cover, it is possible that our Company’s insurance cover may not provide adequate coverage in certain circumstances.

As on June 30, 2023, our insurance coverage was 1.20 times of our net assets. While our Company believes that we maintain sufficient insurance cover by virtue of maintaining insurance policies, certain types of losses may be either uninsurable, not economically viable to insure or not offered for insurance. If any uninsured loss occurs, our Company could lose our investment in, as well as anticipated profits and cash flows from the assets which have been adversely impacted by such incidence. In addition, even if any such loss is insured, there may be a significant deductible on any claim for recovery prior to our insurer being obligated to reimburse us for the loss, or the amount of the loss may exceed our coverage for the loss. There is no instance where in company has invoked insurance policy in last 3 years except for some vehicle insurance. Further, even in the case of an insured risk occurring there can be no assurance that our Company will be successful in claiming insurance in part or full, or that the insurance purchased by us will be sufficient to cover the loss occasioned by the risk. Any loss that

is not covered by insurance, or for which our Company is unable to successfully claim insurance, or which is in excess of the insurance cover, or where the claim is not settled by insurance company in reasonable duration could, in addition to damaging our Company's reputation, have an adverse effect on our Company's business, cash flows, financial condition and results of operation. Further, an insurance claim once made could lead to an increase in our Company's insurance premium.

In addition, our Company's insurance coverage expires from time to time. Our Company will apply for the renewal of our insurance coverage in the normal course of its business, but our Company cannot assure you that such renewals will be granted in a timely manner, at acceptable cost or at all. To the extent that our Company suffer loss or damage for which it did not obtain or maintain insurance, and which is not covered by insurance or exceeds our Company's insurance coverage or where its insurance claims are rejected, the loss would have to be borne by our Company and its results of operations, cash flows and financial condition may be adversely affected.

We cannot assure you that any claim under the insurance policies maintained by us will be honoured fully, in part or on time, or that we have taken out sufficient insurance to cover all our losses.

43. Our Company, certain of our Directors and Promoters are involved in certain legal proceedings, which, if determined adversely, may adversely affect our business and financial condition and our contingent liabilities which have not been provided for may adversely affect our financial condition.

Our Company, our Promoters and certain of our Directors are currently involved in a number of legal proceedings, pending at different levels of adjudication before various courts and tribunals. A summary of outstanding litigation and the monetary amount involved in the cases we are currently involved in is mentioned in brief below:

Name of entity	Number of criminal proceedings	Number of tax proceedings	Number of statutory or regulatory proceedings	Number of disciplinary actions by the SEBI or the Stock Exchanges against our Promoters	Number of material civil proceedings*	Aggregate amount involved in ₹ million^

*Determined in accordance with the Materiality Policy

^To the extent quantifiable

For further details on the outstanding litigation matters involving our Company, its Promoters, its Directors and Group Company, see "Outstanding Litigation and Other Material Developments" at page 327.

We may be required to devote management and financial resources in the defence or prosecution of such legal proceedings. Should any new developments arise, including a change in Indian law or rulings against us by the appellate courts or tribunals, we may face losses and have to make further provisions in our financial statements, which could increase our expenses and our liabilities. There can be no assurance that the provisions we have made for litigation will be sufficient or that further litigation will not be brought against us in the future. Decisions in such proceedings adverse to our interests may have a material adverse effect on our business, cash flows, financial condition, and results of operations. Further, delay in settlement of statutory dues, vendor payments and employee settlement cases may also have an adverse impact on us.

In the event significant claims are determined against us and we are required to pay all or a portion of the disputed amounts, there could be a material adverse effect on our business and profitability. We cannot provide any

assurance that these matters will be decided in our favour. Furthermore, we may not be able to quantify all the claims in which we are involved. Failure to successfully defend these or other claims or if our current provisions prove to be inadequate, our business and results of operations could be adversely affected. Even if we are successful in defending such cases, we will be subjected to legal and other costs relating to defending such litigation, and such costs could be substantial. In addition, we cannot assure that similar proceedings will not be initiated in the future. This could adversely affect our business, cash flows, financial condition, and results of operation.

44. *We have not complied with certain corporate governance requirements in the past.*

Pursuant to a resolution of our shareholders dated January 13, 2017, our Company was converted into a public company limited by shares. As a public company, under the provisions of the Companies Act, 2013, we were required to undertake certain corporate governance related actions, which we have not done in the past.

While we have not been subject to any penal action on account of the aforementioned non-compliances, we have since then rectified few of the non-compliances and have further filed a compounding application with the RoC for compounding of the offences in relation to allotment of Equity Shares in physical form, while being required to issue Equity Shares only in dematerialised form. There can be no assurance that we would not be subject to penal action in the future for such non-compliances.

45. *Our Company is unable to trace certain filings pertaining to historical secretarial information, minutes of board and shareholders' meetings, copies of share transfer forms and certain records from the statutory registers.*

Our Company is unable to trace certain filings pertaining to historical secretarial information, minutes of board and shareholders' meetings, copies of share transfer forms, certain records from the statutory registers and filings with the RoC. These include, *interalia* (i) resolutions for issuance of equity shares related to allotment of equity shares dated February, 21, 1992; May 12, 1992; May 31, 1999; March 31, 2001; July 31, 2006; November 7, 2008; January 22, 2009; January 6, 2010; March 28, 2012; March 28, 2013; March 31, 2014, August 21, 2019; (ii) resolution for allotment of equity shares dated August 26, 2016; and (iii) copies of share transfer forms. Accordingly, we have relied on form filed with the RoC and relevant resolutions passed by the Board for allotment and transfer of equity shares of the Company, to the extent available. Similarly, for the build-up of our Promoters' shareholding in our Company, we have unable to trace share transfer forms and related documents, and therefore relied on the resolutions passed by the Board for taking on record the transfer of equity shares and other forms, to the extent available and applicable.

46. *Our Company, in the past, has delayed in the payment of statutory dues*

Our Company have at disparate times in the past delayed in the payment of undisputed statutory dues such as provident fund, employee state insurance, income tax, goods and service tax, cess to relevant authorities. These delays were all due to cash flow mismatch and technical reasons during these periods. For instance, our Company has delayed in such payment of provident fund and GST during the last 3 Fiscals. While our Company has paid the interest, as applicable on delays in payment of statutory dues, we cannot assure you there will be no delays in payment of such statutory dues by our Company. In addition, while no actions have been initiated against our Company in relation to the abovementioned non-compliances or delays, our Company cannot assure you that any regulatory or statutory actions will not be initiated against our Company in relation to the said non-compliance.

47. *We have not incurred certain required portions of our profits towards corporate social responsibility requirements under the Companies Act 2013.*

The Companies Act 2013 stipulates the requirement of formulation of a corporate social responsibility policy and mandates our Board of Directors to ensure that our Company spends, in each Fiscal, at least two percent of the average net profits of our Company during the three immediately preceding Fiscals, in accordance with its CSR policy. In Fiscal 2023, 2022 and 2021, while our Company has made profits and accordingly allocated certain portion of such profits towards CSR activities formulated under our CSR policy, our Company has not incurred the requisite portion of the expenditure towards such activities in Fiscals 2022 and 2021. The following table sets forth the details with respect to the gross amount required to be spent, amount approved by the Board and total amount spent towards the CSR activities in the years/period indicated:

Particulars	For the three month period ended June 30, 2023	For Fiscal 2023	For Fiscal 2022	For Fiscal 2021
Gross amount required to be spent by our Company during the year (₹ million)	4.41	1.81	1.39	1.42
Amount approved by the Board during the year (₹ million)	4.41	1.81	1.39	1.42
Total amount spent during the year (₹ million)	1.80	3.33	-	-
Shortfall at the end of the period (₹ million)	2.61	(1.52)	1.39	1.42
Cumulative Shortfall (₹ million)	7.71	5.10	6.62	5.23

We may be subject to imposition of notices or penalties under the Companies Act, 2013 from the Ministry of Corporates Affairs, Government of India for non-compliance in relation to our CSR expenditure, which could adversely affect our reputation and results of operations.

48. Our contingent liabilities and other commitments as stated in our Restated Financial Information could adversely affect our financial condition.

As on June 30, 2023, our contingent liabilities as per Ind AS 37 – Provisions, Contingent Liabilities and Commitment, that have not been provided for in our results of operations were as follows:

(in ₹ million)

Particulars	As at June 30, 2023
Contingent Liabilities*	
Excise duty and service tax matters	-
GST and VAT matters	1.25
Income tax matters in dispute	25.30
Bills discounted with Kotak Mahindra Bank*	280.20
Commitments	
Capital Commitment	48.72
Estimated amount of contracts remaining to be executed on capital account and not provided for in the books of account	
Other Commitment	-

*Bills Discounted with recourse to the Company with Kotak Mahindra Bank

We have not made provisions for the above contingent liabilities and commitments, as they are either possible obligations whose existence will be confirmed only by future uncertain events outside the control of our Company or are present obligations where the outflow of economic resources may not be probable or cannot be measured reliably. If a significant portion of these liabilities materialize, we may have to fulfil our payment obligations, which could have an adverse effect on our business, financial condition and results of operations. For further information on our contingent liabilities, see section entitled “Restated Financial Information – Note 34 – Contingent Liabilities and Commitments” on page 275.

49. Our Promoters and certain of our Directors, Key Managerial Personnel and Senior Management Personnel have interests in our Company other than their normal remuneration or benefits and reimbursement of expenses.

Our Promoters and certain of our Directors, Key Managerial Personnel and Senior Management Personnel may be regarded as having an interest in our Company or having benefits other than the reimbursement of expenses incurred and normal remuneration or benefits. Our Promoters and certain of our Directors, may be deemed to be interested to the extent of Equity Shares held by them as well as to the extent of any dividends, bonuses, or other distributions on such Equity Shares.

For instance, we have availed a principal amount of ₹ 17.60 million as of June 30, 2023 from certain of our Promoters and Directors, which may be recalled at any time and our Company may need to borrow monies at higher rates of interest than presently available or utilise our Company's internal accruals, which may have an adverse impact on the profitability and future growth of our Company. The current loan given by our promoters are interest free loans. The table below sets forth the loans availed from our Promoters and Directors as a percentage of our total borrowings for the three month period ended June 30, 2023 and the past three Fiscals :

Particulars	Three month period ended June 30, 2023		Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Amount outstanding (in ₹ million)	% of total borrowings ^{**}	Amount outstanding (in ₹ million)	% of total borrowings	Amount (in ₹ million)	% of total borrowings	Amount (in ₹ million)	% of total borrowings
Loans availed from our Promoters [*]	17.60	1.90%	17.60	2.00%	11.32	1.32%	7.44	0.89%

^{*}The Promoters identified above are also our Directors.

^{**}Including lease liabilities

Further, we cannot assure you that our Promoters and Directors, will exercise their rights as shareholders to the benefit and best interest of our Company under all circumstances. For further details, see sections entitled "Capital Structure", "Our Management – Interest of Directors", "Our Promoters and Promoter Group – Interests of the Promoters" beginning on pages 87, 223 and 236 respectively.

50. All of our immovable properties from where we operate are leased by us. If we are unable to renew existing leases or relocate our operations on commercially reasonable terms, there may be an adverse effect on our business, financial condition and operations.

All the land parcels on which our facilities are established are held by us on leased premises from third parties, which are leased on long term basis in some cases and on short-term basis in other cases. We cannot assure you that we will be able to renew our leases on commercially acceptable terms or at all. The table below sets forth the total amount of rent paid for all the leased properties as a percentage of the total revenue from operations for the three month period ended June 30, 2023 and the past three Fiscals:

Particulars	Three month period ended June 30, 2023		Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Amount (in ₹ million)	% of Revenue from Operations	Amount (in ₹ million)	% of Revenue from Operations	Amount (in ₹ million)	% of Revenue from Operations	Amount (in ₹ million)	% of Revenue from Operations
Short term and long term lease paid	1.32	0.09%	7.91	0.16%	7.77	0.25%	5.58	0.30%

For further information on our immovable properties, see section entitled "Our Business – Properties" on page 209.

In the event that we are unable to renew our lease arrangement within time in the future, we may be required to vacate our current premises and make alternative arrangements for new offices and other infrastructure. We cannot assure you that the new arrangements will be on commercially acceptable terms. If we are required to relocate our business operations or shut down our manufacturing facilities during this period, we may suffer a disruption in our operations or have to pay increased charges, which could have an adverse effect on our business, financial condition, cash flows and results of operations.

51. If we are unable to raise additional capital, our business prospects could be adversely affected.

We intend to fund our future strategy primarily through our internal accruals and borrowings from financial institutions. We will continue to incur expenditure in maintaining and growing the manufacturing infrastructure at our existing manufacturing facilities. We cannot assure you that we will have sufficient capital resources for our current operations or any future expansion plans that we may have. While we expect our internal accruals and cash flow from operations to be adequate to fund our existing commitments, our ability to incur any future borrowings is dependent upon the success of our operations. Additionally, the inability to obtain sufficient financing could adversely affect our ability to complete expansion plans.

Our ability to arrange financing and the costs of capital of such financing are dependent on numerous factors, including general economic and capital market conditions, credit availability from banks, investor confidence, the continued success of our operations and other laws that are conducive to our raising capital in this manner. If we decide to meet our capital requirements through debt financing, we may be subject to certain restrictive covenants. If we are unable to raise adequate capital in a timely manner and on favourable terms, or at all, our business, results of operations, cash flows and financial condition could be adversely affected.

52. *Our Company may not be able to pay dividends in the future. Our ability to pay dividends in the future will depend on our earnings, financial condition, working capital requirements, capital expenditures and restrictive covenants of our financing arrangements.*

Our ability to pay dividends in the future will depend on our earnings, financial condition, cash flow, working capital requirements, capital expenditure and restrictive covenants of our financing arrangements. The declaration and payment of dividends will be recommended by the Board of Directors and approved by the Shareholders, at their discretion, subject to the provisions of the Articles of Association and applicable law, including the Companies Act, 2013. We may retain all future earnings, if any, for use in the operations and expansion of the business. As a result, we may not declare dividends in the foreseeable future. Accordingly, realization of a gain on Shareholders' investments will depend on the appreciation of the price of the Equity Shares. There is no guarantee that our Equity Shares will appreciate in value. For further information, see section entitled "Dividend Policy" beginning on page 242.

53. *Our Promoters and Promoter Group will retain majority shareholding in our Company following the Offer, which will allow them to exercise significant influence over us and may cause us to take actions that are not in our or your best interest.*

After the completion of this Offer, our Promoters and Promoter Group will collectively hold [●]% (subject to finalisation of Basis of Allotment and upon transfer of all Offered Shares) of our Company's issued and outstanding Equity Shares. So long as our Promoters and Promoter Group own a significant portion of our Equity Shares, they will be able to significantly influence the election of our Directors and control most matters affecting our Company, including our business strategies and policies, decisions with respect to mergers, business combinations, acquisitions or dispositions of assets, dividend policies, capital structure and financing, and may also delay or prevent a change of management or control, even if such a transaction may be beneficial to other shareholders of our Company. The interests of our Promoters and Promoter Group, as the controlling shareholders of our Company, may also conflict with our Company's interests or the interests of our Company's other shareholders.

54. *A downgrade in our credit ratings, may affect our Company's ability to avail of debt and could also impact the trading price of the Equity Shares.*

Our Company's borrowing costs and our access to the debt capital depend significantly on our credit rating. The credit rating of our Company's borrowings and the credit rating for the current Fiscal is set out below:

Particulars	Rating	Rating Agency
Fiscal 2024		
Fund-based working Capital limit	IND BBB+/Positive/IND A2	India Rating and Research
Non-fund based working capital limit	IND A2	
Term Loan	IND BBB+/Positive	

Lower levels of credit rating, generally, result in a higher rate of interest and, consequently, greater cash outflows. Any downgrade of our Company's credit rating by the debt rating agencies for the debt availed by our Company may adversely impact our Company's ability to obtain further financing and, or, increase the rate of interest at which we are able to avail such borrowing and such increased cost of borrowing will adversely impact our

Company's profitability. Further, any difficulty in obtaining, or failure to obtain, sufficient funding in a timely manner could result in the delay, or abandonment of our Company's growth plans and have an adverse impact on the business, cash flows and financial conditions of our Company.

55. *Certain of our Promoter Group entities and Group Companies are in businesses similar to ours and this may result in conflict of interest with us.*

Our Promoter Group entity and Group Company namely Tuff Seals Private Limited and our Promoter Group entity, Bull Auto Parts are authorized to engage in businesses which are complementary to our business. As these entities are in similar lines of business to our Company, there can be no assurance that conflicts of interest will not occur between our business and the businesses of such entities, which could have an adverse effect on our business, financial condition, cash flows and results of operations.

EXTERNAL RISK FACTORS

Risks related to Equity Shares and the Offer

56. *Our Equity Shares have never been publicly traded, and after the Offer, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the Offer Price may not be indicative of the market price of the Equity Shares after the Offer.*

Prior to the Offer, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Offer. Listing and quotation do not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The Offer Price of the Equity Shares is proposed to be determined in consultation with the BRLM through the Book-Building Process and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our results of operations, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, problems such as temporary closure, broker default and settlement delays experienced by the Indian Stock Exchanges, announcements by us or our competitors of significant acquisitions, strategic alliances, joint operations or capital commitments; announcements by third parties or governmental entities of significant claims or proceedings against us, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors. Consequently, the price of our Equity Shares may be volatile, and you may be unable to resell your Equity Shares at or above the Offer Price, or at all.

There has been significant volatility in the Indian stock markets in the recent past, and our Equity Share price could fluctuate significantly because of market volatility. A decrease in the market price of our Equity Shares could cause investors to lose some or all of their investment.

57. *Currency exchange rate fluctuations may affect the value of the Equity Shares.*

The exchange rate between the Rupee and other foreign currencies, including the U.S. Dollar, the British pound sterling, the Euro, the Hong Kong Dollar, the Singapore Dollar and the Japanese Yen, has changed substantially in recent years and may fluctuate substantially in the future. Fluctuations in the exchange rate between the foreign currencies with which an investor may have purchased and Rupees may have a material adverse effect on the value of the Equity Shares and returns from the Equity Shares, independent of our operating results. Specifically, if there is a change in relative value of the Rupee to a foreign currency, each of the following values will also be affected:

- the foreign currency equivalent of the Rupee trading price of the Company's Equity Shares in India;
- the foreign currency equivalent of the proceeds that you would receive upon the sale in India of any of the Company's Equity Shares; and
- the foreign currency equivalent of cash dividends, if any, on the Company's Equity Shares, which will be paid only in Rupees.

You may be unable to convert Rupee proceeds into a foreign currency of your choice, or the rate at which any such conversion could occur could fluctuate. In addition, the Company's market valuation could be significantly harmed by a devaluation of the Rupee if investors in jurisdictions outside India analyse its value based on the

relevant foreign currency equivalent of the Company's results of operations and financial condition.

- 58. *The determination of the Price Band is based on various factors and assumptions and the Offer Price of the Equity Shares may not be indicative of the market price of the Equity Shares after the Offer. Further, the current market price of some securities listed pursuant to certain previous issues managed by the Book Running Lead Manager is below their respective issue prices.***

There has been no public market for our Equity Shares prior to the Offer. The determination of the Price Band is based on various factors and assumptions and will be determined by our Company, in consultation with the Book Running Lead Manager. Furthermore, the Offer Price of the Equity Shares will be determined by our Company in consultation with the Book Running Lead Manager through the Book Building Process. These will be based on numerous factors, including factors as described under "*Basis for the Offer Price*" beginning on page 121 and may not be indicative of the market price for the Equity Shares after the Offer. You may not be able to re-sell your Equity Shares at or above the Offer price and may as a result lose all or part of your investment.

In addition to the above, the current market price of securities listed pursuant to certain previous initial public offerings managed by the Book Running Lead Manager is below their respective issue price. For further details, see section entitled "*Other Regulatory and Statutory Disclosures – Price information of past issues handled by the BRLM*" on page 342. The factors that could affect the market price of the Equity Shares include, among others, broad market trends, financial performance and results of our Company post-listing, and other factors beyond our control. We cannot assure you that an active market will develop or sustained trading will take place in the Equity Shares or provide any assurance regarding the price at which the Equity Shares will be traded after listing.

- 59. *QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid, and Retail Individual Investors are not permitted to withdraw their Bids after Bid / Offer Closing Date.***

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are required to pay the Bid Amount on submission of the Bid and are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Therefore, QIBs and Non-Institutional Bidders would not be able to withdraw or lower their Bids, notwithstanding adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations or financial condition, or otherwise, between the dates of the submission of their Bids and the Allotment.

Retail Individual Investors can revise their Bids during the Bid / Offer Period and withdraw their Bids until Bid / Offer Closing Date. While our Company is required to complete all necessary formalities for listing and commencement of trading of the Equity Shares on all Stock Exchanges where such Equity Shares are proposed to be listed including Allotment pursuant to the Offer within three Working Days from the Bid / Offer Closing Date, events affecting the Bidders' decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations or financial condition may arise between the date of submission of the Bid and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events limit the Bidders' ability to sell the Equity Shares Allotted pursuant to the Offer or cause the trading price of the Equity Shares to decline on listing.

- 60. *Investors will not be able to sell immediately on an Indian stock exchange any of the Equity Shares they purchase in the Offer.***

The Equity Shares will be listed on the Stock Exchanges in India. Pursuant to applicable Indian laws, certain actions must be completed before the Equity Shares can be listed and trading in the Equity Shares may commence. The Allotment of Equity Shares in the Offer and the credit of such Equity Shares to the applicant's demat account with depository participant could take approximately five Working Days from the Bid / Offer Closing Date and trading in the Equity Shares upon receipt of final listing and trading approvals from the Stock Exchanges is expected to commence within three Working Days of the Bid / Offer Closing Date or such other date as per applicable law. There could also be a failure or delay in listing of the Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval or otherwise commence trading in the Equity Shares would restrict investors' ability to dispose of their Equity Shares. There can be no assurance that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this risk factor. We could also be required to pay interest at the applicable rates if allotment is not

made, refund orders are not dispatched or demat credits are not made to investors within the prescribed time periods.

- 61. Any future issuance of Equity Shares, or convertible securities or other equity linked securities by us may dilute your shareholding and any sale of Equity Shares by our Promoter or members of our Promoter Group may adversely affect the trading price of the Equity Shares.**

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by us, may dilute your shareholding in our Company, adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. Any future issuances could also dilute the value of your investment in the Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. We cannot assure you that we will not issue additional Equity Shares. The disposal of Equity Shares by our Promoter and Promoter Group, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. Except as disclosed in “*Capital Structure*” on page 87, we cannot assure you that our Promoter and Promoter Group will not dispose of, pledge or encumber their Equity Shares in the future. We cannot predict what effect, if any, market sales of our Equity Shares held by our Promoters or other major shareholders or the availability of these Equity Shares for future sale will have on the market price of our Equity Shares.

- 62. There is no guarantee that our Equity Shares will be listed on the Stock Exchanges in a timely manner or at all and if they are listed you may not be able to immediately sell any of the Equity Shares you subscribe to in this Offer on the stock exchanges.**

In accordance with Indian law, certain actions must be completed before the Equity Shares can be listed and trading in the Equity Shares can commence. There can be no guarantee that these actions will be completed in a timely manner or at all and as a result our Equity Shares may not be listed on the Stock Exchanges in a timely manner or at all.

In accordance with the current regulations and circulars issued by SEBI, the Equity Shares are required to be listed on the Stock Exchanges within such time as mandated under UPI Circulars, subject to any change in the prescribed timeline in this regard. However, we cannot assure you that the trading in the Equity Shares will commence in a timely manner, in accordance with timelines prescribed under the UPI Circulars, or at all. Investors can start trading the Equity Shares Allotted to them only after they have been credited to an investors’ demat account, are listed and permitted to trade. Since the Equity Shares will be traded on the Stock Exchanges, investors will be subject to market risk from the date they pay for the Equity Shares to the date when Equity Shares Allotted are listed and permitted to trade. Investors’ book entry, or ‘demat’ accounts with depository participants in India, are expected to be credited with the Equity Shares within one working day of the date on which the Basis of Allotment is approved by the Stock Exchanges. The Allotment of Equity Shares in this Offer and such Equity Shares are expected to be credited to the demat accounts of the Investors within approximately three working days from the Bid Closing Date (or such other period as prescribed under applicable laws). In addition, upon receipt of listing and trading approval from the Stock Exchanges, trading of Equity Shares is expected to commence within three Working Days from Bid / Offer Closing Date (or such other period as prescribed under applicable laws). There could be failure or delays in listing the Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval or otherwise any delay in commencing trading in the Equity Shares would restrict investors’ ability to dispose of their Equity Shares. There can be no assurance that the Equity Shares will be credited to investors’ demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this risk factor.

We could also be required to pay interest at the applicable rates if allotment is not made, refund orders are not dispatched or demat credits are not made to investors within the prescribed time periods.

- 63. If our Company does not receive the minimum subscription as required under applicable law, the Offer may fail.**

In the event our Company does not receive (i) a minimum subscription of 90% of the Fresh Issue, and (ii) a subscription in the Offer as specified under Rule 19(2)(b) of the SCRR, including through devolvement of Underwriters, as applicable, within sixty (60) days from the date of Bid Closing Date, or if the subscription level falls below the thresholds mentioned above after the Bid Closing Date, on account of withdrawal of applications or after technical rejections or any other reason, or if the listing or trading permission is not obtained from the Stock Exchanges for the Equity Shares being offered under this Draft Red Herring Prospectus, our Company

shall forthwith refund the entire subscription amount received. If there is a delay beyond four days, our Company shall pay interest at the rate of 15% per annum or such other interest rate as prescribed under applicable law.

64. *Any future issuance of Equity Shares or convertible securities or other equity linked securities by our Company may dilute holders' shareholding and sales of the Equity Shares by our major shareholders may adversely affect the trading price of the Equity Shares.*

Any future equity issuances by us, including a primary offering, may lead to the dilution of investors' shareholding in us. Any disposal of Equity Shares by our major shareholders or the perception that such issuance or sales may occur, including to comply with the minimum public shareholding norms applicable to listed companies in India may adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of the Equity Shares or incurring additional debt. There can be no assurance that we will not issue further Equity Shares or that the shareholders will not dispose of the Equity Shares. Any future issuances could also dilute the value of your investment in the Equity Shares. In addition, any perception by investors that such issuances or sales might occur may also affect the market price of the Equity Shares.

65. *A third party could be prevented from acquiring control of our Company because of anti-takeover provisions under Indian law.*

There are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company, even if a change in control would result in the purchase of your Equity Shares at a premium to the market price or would otherwise be beneficial to you. Such provisions may discourage or prevent certain types of transactions involving actual or threatened change in control of our Company. Under the SEBI Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors / shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to its stakeholders, it is possible that such a takeover would not be attempted or consummated because of the SEBI Takeover Regulations.

Risks Related to India

66. *Financial and political instability in other countries may cause increased volatility in Indian financial markets.*

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, particularly emerging market countries in Asia, Europe, and the United States of America. In particular, the ongoing military conflicts between Russia and Ukraine could result in increased volatility in, or damage to, the worldwide financial markets and economy. Increased economic volatility and trade restrictions could result in increased volatility in the markets for certain securities and commodities and may cause inflation. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and us. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business, our future financial performance and the prices of the Equity Shares.

The outbreak of COVID-19 had significantly affected financial markets around the world. Any other such pandemic, epidemic, endemic, outbreak or the perception that any of them could occur may continue to have an adverse effect on global economic conditions and the stability of global financial markets. It may significantly reduce global market liquidity and restrict the ability of key market participants to operate in certain financial markets. Any of these factors could depress economic activity and restrict our access to capital, which could have an adverse effect on our business, financial condition and results of operations and reduce the price of our Equity Shares. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity and the price of our Equity Shares.

In addition, India has experienced, and may in the future experience, political instability, including strikes, demonstrations, protests, marches, guerilla activity or other types of civil disorder. Acts of violence, terrorist attacks, regional conflicts or situations of war may also adversely affect the financial markets, which may impact our business. These instabilities and any adverse changes in the political environment could increase our costs, increase our exposure to legal and business risks, disrupt our operations or affect our ability to expand.

67. *Our failure to comply with trade restrictions such as economic sanctions and export controls could negatively impact our reputation and results of operations.*

We may be subject to trade restrictions, including economic sanctions and export controls, imposed by governments around the world with jurisdiction over our operations, which prohibit or restrict transactions involving certain designated persons and certain designated countries or territories. Our failure to successfully comply with these laws and regulations may expose us to reputational harm as well as significant sanctions, including criminal fines, imprisonment, civil penalties, disgorgement of profits, injunctions, debarment from government contracts, and other remedial measures. Investigations of alleged violations can be expensive and disruptive. As part of our business, we may, from time to time, engage in limited sales and transactions involving certain countries that are targets of economic sanctions, provided that such sales and transactions are authorized pursuant to applicable economic sanctions laws and regulations. Our Company has not been subject to, and the jurisdictions in which our Company operates have not been subject to economic sanctions, export controls or such other restrictions in the last three Fiscals, the current Fiscal and as on the date of this DRHP. However, we cannot predict the nature, scope, or effect of future regulatory requirements, including changes that may affect existing regulatory authorizations, and we cannot predict the manner in which existing laws and regulations might be administered or interpreted.

In addition, any perceived or actual breach of compliance by us with respect to applicable laws, rules, and regulations could have a significant impact on our reputation and could cause us to lose existing customers, prevent us from obtaining new customers, negatively impact investor sentiment about our Company, require us to expend significant funds to remedy problems caused by violations and to avert further violations, and expose us to legal risk and potential liability, all of which may have a material adverse effect on our reputation, business, financial condition, and results of operations.

68. *We may be affected by competition laws, the adverse application or interpretation of which could adversely affect our business.*

The Competition Act, 2002, of India, as amended (“**Competition Act**”), regulates practices having an appreciable adverse effect on competition in the relevant market in India (“**AAEC**”). Under the Competition Act, any formal or informal arrangement, understanding or action in concert, which causes or is likely to cause an AAEC is considered void and may result in the imposition of substantial penalties. Further, any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, supply, markets, technical development, investment or the provision of services or shares the market or source of production or provision of services in any manner, including by way of allocation of geographical area or number of customers in the relevant market or directly or indirectly results in bid-rigging or collusive bidding is presumed to have an AAEC and is considered void. The Competition Act also prohibits abuse of a dominant position by any enterprise.

On March 4, 2011, the Government notified and brought into force the combination regulation (merger control) provisions under the Competition Act with effect from June 1, 2011. These provisions require acquisitions of shares, voting rights, assets or control or mergers or amalgamations that cross the prescribed asset and turnover based thresholds to be mandatorily notified to and pre-approved by the Competition Commission of India (the “**CCI**”). Additionally, on May 11, 2011, the CCI issued Competition Commission of India (Procedure for Transaction of Business Relating to Combinations) Regulations, 2011, as amended, which sets out the mechanism for implementation of the merger control regime in India.

The Competition Act aims to, among others, prohibit all agreements and transactions which may have an AAEC in India. Consequently, all agreements entered into by us could be within the purview of the Competition Act. Further, the CCI has extra-territorial powers and can investigate any agreements, abusive conduct or combination occurring outside India if such agreement, conduct or combination has an AAEC in India. However, the impact of the provisions of the Competition Act on the agreements entered into by us cannot be predicted with certainty at this stage.

69. *Investors may not be able to enforce a judgment of a foreign court against our Company, Directors, Key Managerial Personnel, Senior Management, or the BRLM or any of their directors, in Indian courts.*

Our Company is incorporated under the laws of India. A majority of our Company's assets are located in India and all of our Company's Directors and Key Managerial Personnel are residents of India. As a result, it may not be possible for investors to effect service of process upon our Company or such persons in jurisdictions outside India, or to enforce against them judgments obtained in courts outside India, including judgments predicated upon the civil liability provisions of the securities laws of jurisdictions outside India. Moreover, it is unlikely that a court in India would award damages on the same basis as a foreign court if an action were brought in India or that an Indian court would enforce foreign judgments if it viewed the amount of damages as excessive or inconsistent with Indian public policy.

The Civil Code stipulates that judgements passed by superior courts of a reciprocating territory (as notified by the central government in the Official Gazette) is enforceable in India as if it were a decree passed by the Indian district courts. India has reciprocal recognition and enforcement of judgments in civil and commercial matters with a limited number of jurisdictions, which includes, the United Kingdom, United Arab Emirates, Singapore and Hong Kong. A judgment from certain specified courts located in a jurisdiction with reciprocity must meet certain requirements of the Civil Code. The United States and India do not currently have a treaty providing for reciprocal recognition and enforcement of judgments in civil and commercial matters. Therefore, a final judgment for the payment of money rendered by any federal or state court in a non-reciprocating territory, such as the United States, for civil liability, whether or not predicated solely upon the general securities laws of the United States, would not be enforceable in India under the Civil Code as a decree of an Indian court.

The United Kingdom, United Arab Emirates, Singapore and Hong Kong have been declared by the Government of India to be reciprocating territories for purposes of Section 44A of the Civil Code. A judgment of a court of a country which is not a reciprocating territory may be enforced in India only by a suit on the judgment under Section 13 of the Civil Code, and not by proceedings in execution. Section 13 of the Civil Code provides that foreign judgments shall be conclusive regarding any matter directly adjudicated on except (i) where the judgment has not been pronounced by a court of competent jurisdiction, (ii) where the judgment has not been given on the merits of the case, (iii) where it appears on the face of the proceedings that the judgment is founded on an incorrect view of international law or refusal to recognise the law of India in cases to which such law is applicable, (iv) where the proceedings in which the judgment was obtained were opposed to natural justice, (v) where the judgment has been obtained by fraud, or (vi) where the judgment sustains a claim founded on a breach of any law then in force in India. Under the Civil Code, a court in India shall, on the production of any document purporting to be a certified copy of a foreign judgment, presume that the judgment was pronounced by a court of competent jurisdiction, unless the contrary appears on record. The Civil Code only permits the enforcement of monetary decrees, not being in the nature of any amounts payable in respect of taxes, other charges, fines or penalties. Judgments or decrees from jurisdictions which do not have reciprocal recognition with India cannot be enforced by proceedings in execution in India. Therefore, a final judgment for the payment of money rendered by any court in a non-reciprocating territory for civil liability, whether or not predicated solely upon the general laws of the non-reciprocating territory, would not be enforceable in India. Even if an investor obtained a judgment in such a jurisdiction against us, our officers or directors, it may be required to institute a new proceeding in India and obtain a decree from an Indian court. Further, there may be considerable delays in the disposal of suits by Indian courts.

However, the party in whose favour such final judgment is rendered may bring a new suit in a competent court in India based on a final judgment that has been obtained in the United States or other such jurisdiction within three years of obtaining such final judgment. In addition, any person seeking to enforce a foreign judgment in India is required to obtain the prior approval of the RBI to repatriate any amount recovered.

70. *The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.*

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. In addition, India has witnessed local civil disturbances in recent years, in particular communal violence across ethnic or communal lines involving conflicts, riots and other forms of violence between communities of different religious faith or ethnic origins, and it is possible that future civil unrest as well as other adverse social, economic or political events in India could

have an adverse effect on our business. Terrorist attacks and other acts of violence or war may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

71. *We are subject to regulatory, economic, social and political uncertainties and other factors beyond our control which may have an adverse effect on our business and result of operations.*

We are incorporated in India and we conduct our corporate affairs and our business in India. Our Equity Shares are proposed to be listed on BSE and NSE. Consequently, our business, operations, financial performance and the market price of our Equity Shares will be affected by interest rates, government policies, taxation, social and ethnic instability and other political and economic developments affecting India.

Factors that may adversely affect the Indian economy, and hence our results of operations may include:

- any exchange rate fluctuations, the imposition of currency controls and restrictions on the right to convert or repatriate currency or export assets;
- any scarcity of credit or other financing in India, resulting in an adverse effect on economic conditions in India and scarcity of financing for our expansions;
- prevailing income conditions among Indian customers and Indian corporations;
- epidemic or any other public health in India or in countries in the region or globally, including in India's various neighbouring countries;
- macroeconomic factors and central bank regulations, including in relation to interest rates movements which may in turn adversely impact our access to capital and increase our borrowing costs;
- volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;
- decline in India's foreign exchange reserves which may affect liquidity in the Indian economy;
- downgrading of India's sovereign debt rating by rating agencies; and
- difficulty in developing any necessary partnerships with local businesses on commercially acceptable terms and/or a timely basis.

Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy or certain regions in India, could adversely affect our business, results of operations and financial condition and the price of the Equity Shares.

72. *If inflation were to rise in India, we might not be able to increase the prices of our products and services at a proportional rate in order to pass costs on to our customers and our profits may decline.*

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of salaries, and other expenses relevant to our business.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase our rates to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected.

Further, the Government of India has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

73. *Foreign investors are subject to foreign investment restrictions under Indian laws which limits our ability to attract foreign investors, which may adversely impact the market price of our Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and

residents are freely permitted (subject to certain restrictions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions referred to above, then prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Indian Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection / tax clearance certificate from the income tax authority. As provided in the foreign exchange controls currently in effect in India, the RBI has provided that the price at which the Equity Shares are transferred be calculated in accordance with internationally accepted pricing methodology for the valuation of shares at an arm's length basis, and a higher (or lower, as applicable) price per share may not be permitted. We cannot assure investors that any required approval from the RBI or any other Indian government agency can be obtained on any particular terms, or at all. Further, due to possible delays in obtaining requisite approvals, investors in the Equity Shares may be prevented from realizing gains during periods of price increase or limiting losses during periods of price decline.

The Equity Shares will be quoted in Indian Rupees on the Stock Exchanges. Any dividends in respect of the Equity Shares will be paid in ₹ and subsequently converted into appropriate foreign currency for repatriation. In addition, any adverse movement in exchange rates during a delay in repatriating the proceeds from a sale of Equity Shares outside India, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares, may reduce the net proceeds received by shareholders.

74. *The Indian tax regime is currently undergoing substantial changes which could adversely affect our business and the trading price of the Equity Shares.*

Our business, results of operations and financial condition could be adversely affected by any change in the extensive central and state tax regime in India applicable to us and our business. Tax and other levies imposed by the central and state governments in India that affect our tax liability, include central and state taxes and other levies, income tax, turnover tax, goods and services tax, stamp duty and other special taxes and surcharges, which are introduced on a temporary or permanent basis from time to time. This extensive central and state tax regime is subject to change from time to time. The final determination of our tax liability involves the interpretation of local tax laws and related regulations in each jurisdiction, as well as the significant use of estimates and assumptions regarding the scope of future operations and results achieved and the timing and nature of income earned and expenditures incurred.

In addition, we are subject to tax related inquiries and claims. We may be particularly affected by claims from tax authorities on account of income tax assessment and GST that combines taxes and levies by the central and state governments into one tax with effect from July 1, 2017, and all subsequent changes and amendments thereto.

The Government of India announced the union budget for 2024, following which the Finance Bill, 2023 ("**Finance Bill**") was introduced in the Lok Sabha on February 1, 2023. Subsequently, the Finance Bill received assent from the President of India on March 31, 2023, and became the Finance Act, 2023. Investors are advised to consult their own tax advisors and to carefully consider the potential tax consequences of owning Equity Shares. Unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. For instance, the Supreme Court of India has in a decision clarified the components of basic wages which need to be considered by companies while making provident fund payments, which resulted in an increase in the provident fund payments to be made by companies. Any such decisions in future or any further changes in interpretation of laws may have an impact on our results of operations. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current businesses or restrict our ability to grow our businesses in the future.

The Finance Act has also clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures, on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount.

In addition, unfavorable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment laws governing our business, operations and group structure could result in us being deemed to be in contravention of such laws or may require us to apply for additional approvals. We may incur increased costs relating to compliance with such new requirements, which may also require management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

We cannot predict whether any new tax laws or regulations impacting our services will be enacted, the likely nature and impact of the specific terms of any such laws or regulations or whether, if at all, any laws or regulations would have an adverse effect on our business.

75. *Significant differences exist between Indian Accounting Standards (“Ind AS”) and other accounting principles, such as the generally accepted accounting principles in the US (“US GAAP”) and International Financial Reporting Standards (“IFRS”), which may be material to investors’ assessment of our financial condition.*

The financial statements included in this Draft Red Herring Prospectus have been prepared in accordance with Ind AS, as applicable, in the relevant period of reporting. We have not attempted to quantify the impact of US GAAP or IFRS on the financial data included in this Draft Red Herring Prospectus, nor do we provide a reconciliation of our financial statements to those of US GAAP or IFRS. US GAAP and IFRS differ in significant respects from Ind AS. Accordingly, the degree to which the Ind AS financial statements, which are restated as per the SEBI ICDR Regulations included in this Draft Red Herring Prospectus, will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Draft Red Herring Prospectus should be limited accordingly. In addition, some of our competitors may not present their financial statements in accordance with Ind AS and their financial statements may not be directly comparable to ours, and therefore reliance should accordingly be limited.

76. *Holders of our Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.*

Under the Companies Act, a company incorporated in India must offer holders of its equity shares pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the equity shares who have voted on such resolution. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of our Equity Shares, you may suffer future dilution of your ownership position and your proportional interests in us would be reduced.

77. *Pursuant to listing of the Equity Shares, we may be subject to pre-emptive surveillance measures like Additional Surveillance Measure (“ASM”) and Graded Surveillance Measures (“GSM”) by the Stock Exchanges in order to enhance market integrity and safeguard the interest of investors.*

SEBI and Stock Exchanges in order to enhance market integrity and safeguard interest of investors, have been introducing various enhanced pre-emptive surveillance measures. The main objective of these measures is to alert and advice investors to be extra cautious while dealing in these securities and advice market participants to carry out necessary due diligence while dealing in these securities. Accordingly, SEBI and Stock Exchanges have provided for (a) GSM on securities where such trading price of such securities does not commensurate with financial health and fundamentals such as earnings, book value, fixed assets, net-worth, price per equity multiple and market capitalization; and (b) ASM on securities with surveillance concerns based on objective parameters such as price and volume variation and volatility.

On listing, we may be subject to general market conditions which may include significant price and volume fluctuations. The price of our Equity Shares may also fluctuate after the Offer due to several factors such as

volatility in the Indian and global securities market, our profitability and performance, performance of our competitors, changes in the estimates of our performance or any other political or economic factor. The occurrence of any of the abovementioned factors may trigger the parameters identified by SEBI and the Stock Exchanges for placing securities under the GSM or ASM framework such as net worth and net fixed assets of securities, high low variation in securities, client concentration and close to close price variation. In the event our Equity Shares are covered under such pre-emptive surveillance measures implemented by SEBI and the Stock Exchanges, we may be subject to certain additional restrictions in relation to trading of our Equity Shares such as limiting trading frequency (for example, trading either allowed once in a week or a month) or freezing of price on upper side of trading which may have an adverse effect on the market price of our Equity Shares or may in general cause disruptions in the development of an active market and trading for our Equity Shares.

⁽¹⁾ The Offer has been authorised by a resolution of our Board of Directors dated October 21, 2023, and a special resolution of our Shareholders dated October 26, 2023 .

⁽²⁾ Each of the Promoter Selling Shareholders, severally and not jointly, have confirmed their participation of their respective portion in the Offer for Sale vide their consent letters each dated November 8, 2023 and our Board has taken on record the participation of the Promoter Selling Shareholders in the Offer for Sale pursuant to a resolution dated November 9, 2023 . Each of the Promoter Selling Shareholders, severally and not jointly, confirms and undertakes that their respective portion of the Offered Shares has been held by such Promoter Selling Shareholders for a continuous period of at least one year prior to the filing of this Draft Red Herring Prospectus in accordance with Regulation 8 of the SEBI ICDR Regulations. For details of authorizations received for the Offer for Sale, please refer to the section titled “Other Regulatory and Statutory Disclosures” beginning on page 335.

⁽³⁾ Our Company, in consultation with the BRLM, may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis, in accordance with the SEBI ICDR Regulations. The QIB Portion will be accordingly reduced for the shares allocated to Anchor Investors. One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription or non-allocation in the Anchor Investor Portion, the remaining Equity Shares shall be added to the Net QIB Portion. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price. However, if the aggregate demand from Mutual Funds is less than as specified above, the balance Equity Shares available for Allotment in the Mutual Fund Portion will be added to the Net QIB Portion and allocated proportionately to the QIB Bidders (other than Anchor Investors) in proportion to their Bids. For details, please refer to the section titled “Offer Procedure” on page 358. Allocation to all categories shall be made in accordance with the SEBI ICDR Regulations.

⁽⁴⁾ Subject to valid Bids being received at or above the Offer Price, under-subscription, if any, in any category except the QIB Portion, would be allowed to be met with spill over from any other category or combination of categories, as applicable, at the discretion of our Company, in

consultation with the BRLM, and the Designated Stock Exchange, subject to applicable laws. In the event of an undersubscription in the Offer, subject to receiving minimum subscription for 90% of the Fresh Issue and compliance with Rule 19(2)(b) of the Securities Contracts (Regulation) Rules, 1957, the Allotment for the valid Bids will be made in the first instance towards subscription for 90% of the Fresh Issue. Under-subscription, if any, in the QIB Portion would not be allowed to be met with spill-over from other categories or a combination of categories. If there remain any balance valid Bids in the Offer, the Allotment for the balance valid Bids will be made pro rata towards Equity Shares offered by the Promoter Selling Shareholders, and thereafter, towards the balance Fresh Issue. For further details, please see the section entitled "Offer Procedure" on page 358.

- ⁽⁵⁾ SEBI through its circular (SEBI/HO/CFD/DIL2/CIR/P/2022/45) dated April 5, 2022, has prescribed that all individual investors applying in initial public offerings opening on or after May 1, 2022, where the application amount is up to ₹500,000, shall use UPI. UPI Bidders using the UPI Mechanism, shall provide their UPI ID in the Bid-cum Application Form for Bidding through Syndicate, sub-syndicate members, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.
- ⁽⁶⁾ Allocation to all categories, except Anchor Investors, if any, Non-Institutional Bidders and Retail Individual Bidders, shall be made on a proportionate basis, subject to valid Bids received at or above the Offer Price. The allocation to each Retail Individual Bidder shall not be less than the minimum Bid Lot, subject to availability of Equity Shares in the Retail Portion and the remaining available Equity Shares, if any, shall be allocated on a proportionate basis. Allocation to Anchor Investors shall be on a discretionary basis. For details, see "Offer Procedure" on page 358.
- ⁽⁷⁾ The Equity Shares available for allocation to Non-Institutional Bidders under the Non-Institutional Portion, shall be subject to the following: (i) one-third of the portion available to Non-Institutional Bidders shall be reserved for applicants with an application size of more than ₹ 0.20 million and up to ₹ 1.00 million, and (ii) two-third of the portion available to Non-Institutional Bidders shall be reserved for applicants with application size of more than ₹ 1.00 million, provided that the unsubscribed portion in either of the aforementioned sub-categories may be allocated to applicants in the other sub-category of Non-Institutional Bidders. The allocation to each Non-Institutional Bidder shall not be less than the Minimum NIB Application Size, subject to the availability of Equity Shares in the Non-Institutional Portion, and the remaining Equity Shares, if any, shall be allocated on a proportionate basis. For details, please refer to the section titled "Offer Procedure" beginning on page 358.
- ⁽⁸⁾ Our Company may, in consultation with the Book Running Lead Manager, consider a Pre-IPO Placement of Specified Securities of up to ₹ 500.00 million. The Pre-IPO Placement, if undertaken, will be at a price to be decided by our Company, in consultation with the Book Running Lead Manager and the Pre-IPO Placement, if any, will be undertaken prior to filing of the Red Herring Prospectus with the RoC. If the Pre-IPO Placement is completed, the size of the Fresh Issue will be reduced to the extent of such Pre-IPO Placement, subject to compliance with Rule 19(2)(b) of the SCRR.

Allocation to Bidders in all categories, except the Anchor Investor Portion, Non-Institutional Investor Portion and the Retail Portion, if any, shall be made on a proportionate basis subject to valid Bids received at or above the Offer Price. The allocation of Equity Shares to each Retail Individual Bidder and Non-Institutional Bidder shall not be less than the minimum Bid Lot and Minimum NIB Application Size respectively, subject to availability of Equity Shares in the Retail Portion and the Non-Institutional Portion, respectively, and the remaining available Equity Shares, if any, shall be allocated on a proportionate basis. Allocation to the Anchor Investors will be on a discretionary basis, while allocation to QIBs (other than Anchor Investors) will be on a proportionate basis. For further details, please refer to the section titled "Offer Procedure" on page 358.

For details, including in relation to grounds for rejection of Bids, please refer to the section titled "Offer Structure" on page 354. For details of the terms of the Offer, please refer to the section titled "Terms of the Offer" on page 347.

For further details on the method and procedure for Bidding and Book Building Process, please refer to the sections titled “*Terms of the Offer*”, “*Offer Structure*” and “*Offer Procedure*” on pages 347, 354 and 358, respectively.

The Book Building Process under the SEBI ICDR Regulations and the Bidding process are subject to change from time to time. Investors are advised to make their own judgment about an investment through this process prior to submitting a Bid.

Bidders should note the Offer is also subject to: (i) obtaining final listing and trading approvals from the Stock Exchanges, which our Company shall apply for after Allotment; and (ii) filing of the Prospectus with the RoC.

Our Company will comply with the SEBI ICDR Regulations and any other directions issued by SEBI in relation to this Offer. Each of the Promoter Selling Shareholders have, severally not jointly, confirmed that they will comply with the SEBI ICDR Regulations and any other directions issued by SEBI, as applicable to the respective Promoter Selling Shareholders, in relation to the Offered Shares. In this regard, our Company and the Promoter Selling Shareholders have appointed the BRLM to manage this Offer and procure Bids for this Offer.

Underwriting Agreement

After the determination of the Offer Price and allocation of Equity Shares, but prior to the filing of the Prospectus with the RoC, our Company and the Promoter Selling Shareholders will enter into an Underwriting Agreement with the Underwriters for the Equity Shares proposed to be offered through the Offer. The extent of underwriting obligations and the Bids to be underwritten in the Offer shall be as per the Underwriting Agreement. The Underwriting Agreement is dated [●]. Pursuant to the terms of the Underwriting Agreement, the obligations of the Underwriters will be several and will be subject to certain conditions to closing, as specified therein.

The Underwriters have indicated their intention to underwrite the following number of Equity Shares:

(The Underwriting Agreement has not been executed as on the date of this Draft Red Herring Prospectus and will be executed after determination of the Offer Price and allocation of Equity Shares, but prior to the filing of the Prospectus with the RoC. This portion has been intentionally left blank and will be completed before filing the Prospectus with the RoC.)

Name, address, telephone number and e-mail address of the Underwriters	Indicative Number of Equity Shares to be Underwritten	Amount Underwritten (in ₹ million)
[●]	[●]	[●]

The abovementioned underwriting commitment is provided for indicative purposes only and will be finalised after determination of Offer Price and finalisation of Basis of Allotment and subject to the provisions of the SEBI ICDR Regulations.

In the opinion of the Board of Directors (based on representations made to our Company by the Underwriters), the resources of the Underwriters are sufficient to enable them to discharge their respective underwriting obligations in full. The Underwriters are registered with SEBI under Section 12(1) of the SEBI Act or registered as brokers with the Stock Exchange(s). The Board of Directors/ IPO Committee will accept and enter into the Underwriting Agreement mentioned above on behalf of our Company.

Allocation among the Underwriters may not necessarily be in proportion to their underwriting commitment set forth in the table above.

Notwithstanding the above table, the Underwriters shall be severally responsible for ensuring payment with respect to the Equity Shares allocated to investors respectively procured by them in accordance with the Underwriting Agreement. In the event of any default in payment, the respective Underwriter, in addition to other obligations defined in the Underwriting Agreement, will also be required to procure subscribers for or subscribe to the Equity Shares to the extent of the defaulted amount in accordance with the Underwriting Agreement.

Note: To be updated at the Prospectus stage

- (iii) Our Promoters have given consent to include such number of Equity Shares held by them as constituting 20% of the fully diluted post-Offer Equity Share capital of our Company as Promoters' Contribution. Our Promoters have agreed not to dispose, sell, transfer, charge, pledge or otherwise encumber in any manner, the Promoters' Contribution from the date of filing this Draft Red Herring Prospectus, until the expiry of the lock-in period specified above, or for such other time as required under SEBI ICDR Regulations, except as may be permitted, in accordance with the SEBI ICDR Regulations.
- (iv) Our Company undertakes that the Equity Shares that are being locked-in are not, and will not be, ineligible for computation of Promoters' Contribution in terms of Regulation 15 of the SEBI ICDR Regulations. In this connection, we confirm the following:
- The Equity Shares offered for Promoters' Contribution do not include Equity Shares acquired in the three years immediately preceding the date of this Draft Red Herring Prospectus (a) for consideration other than cash involving revaluation of assets or capitalisation of intangible assets; or (b) resulting from a bonus issue of Equity Shares out of revaluation reserves or unrealised profits of our Company or from a bonus issuance of equity shares against Equity Shares, which are otherwise ineligible for computation of Promoters' Contribution;
 - The Promoters' Contribution do not include any Equity Shares acquired during the one year immediately preceding the date of this Draft Red Herring Prospectus at a price lower than the Offer Price;
 - Our Company has not been formed by the conversion of a partnership firm or a limited liability partnership firm into a company and hence, no Equity Shares have been issued in the one year immediately preceding the date of this Draft Red Herring Prospectus pursuant to conversion from a partnership firm; and
 - The Equity Shares forming part of the Promoters' Contribution are not subject to any pledge or any other form of encumbrance.

2. *Other lock-in requirements:*

- (i) In addition to the 20% of the fully diluted post-Offer shareholding of our Company held by the Promoters and locked in for eighteen months as specified above and the Equity Shares offered by the Promoter Selling Shareholders as part of the Offer for Sale, the entire pre-Offer Equity Share capital of our Company will be locked-in for a period of six months from the date of Allotment, including any unsubscribed portion of the Offer for Sale, in accordance with Regulations 16(b) and 17 of the SEBI ICDR Regulations, other than (i) the Equity Shares held by VCFs or Category I AIF or Category II AIF or FVCI, subject to certain conditions set out in Regulation 17 of the SEBI ICDR Regulations, provided that such Equity Shares will be locked-in for a period of at least six months from the date of purchase by the VCFs or Category I AIF or Category II AIF or FVCI, ii) any Equity Shares held by the eligible employees (whether currently employees or not) of our Company which have been allotted to them under an employee stock option scheme, prior to the Offer, except as required under applicable law.
- (ii) As required under Regulation 20 of the SEBI ICDR Regulations, our Company shall ensure that the details of the Equity Shares locked-in are recorded by the relevant Depository.
- (iii) Pursuant to Regulation 21 of the SEBI ICDR Regulations, the Equity Shares held by our Promoters

which are locked-in for a period of six months from the date of Allotment may be pledged only with scheduled commercial banks or public financial institutions or a Systemically Important NBFC or a deposit accepting housing finance company as collateral security for loans granted by such entities, provided that such pledge of the Equity Shares is one of the terms of the sanction of such loans. Equity Shares locked-in as Promoter's Contribution for eighteen months can be pledged only if in addition to fulfilling the aforementioned requirements, such loans have been granted by such banks or financial institutions for the purpose of financing one or more of the objects of the Offer, which is not applicable in the context of this Offer. However, such lock-in will continue pursuant to any invocation of the pledge and the transferee of the Equity Shares pursuant to such invocation shall not be eligible to transfer the Equity Shares until the expiry of the lock-in period stipulated above in terms of the SEBI ICDR Regulations.

- (iv) In terms of Regulation 22 of the SEBI ICDR Regulations, the Equity Shares held by our Promoters and locked-in pursuant to Regulation 16 of the SEBI ICDR Regulations, may be transferred amongst our Promoters and/ or any member of the Promoter Group or a new promoter, subject to continuation of lock-in applicable to the transferee for the remaining period and compliance with provisions of the Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011, as amended (the "**Takeover Regulations**"), and such transferee shall not be eligible to transfer till the lock-in period stipulated in SEBI ICDR Regulations has expired.
- (v) In terms of Regulation 22 of the SEBI ICDR Regulations, the Equity Shares held by persons other than our Promoters and locked-in pursuant to Regulation 17 of the SEBI ICDR Regulations for a period of six months from the date of Allotment, may be transferred to any other person holding Equity Shares which are locked in along with the Equity Shares proposed to be transferred, subject to the continuation of the lock in applicable to the transferee and compliance with the provisions of the Takeover Regulations.

(f) ***Lock-in of Equity Shares to be Allotted, if any, to Anchor Investors***

Any Equity shares Allotted to Anchor Investors under the Anchor Investor Portion shall be locked-in for a period 90 days on 50% of the Equity Shares Allotted from the date of Allotment and 30 days on remaining 50% of the Equity Shares Allotted from the date of Allotment.

The Selling Shareholders will be entitled to the proceeds of the Offer for Sale after deducting the Offer-related expenses and relevant taxes thereon. Our Company will not receive any proceeds from the Offer for Sale and the proceeds received from the Offer for Sale will not form part of the Net Proceeds. The details of the Offer for Sale are set out below:

Sr. No.	Name of Selling Shareholders	Date of consent letter	Number of Offered Shares
1.	Sudhir Rai	November 8, 2023	Up to [●] Equity Shares aggregating up to ₹ 1,680.00 million
2.	Anita Rai	November 8, 2023	Up to [●] Equity Shares aggregating up to ₹ 820.00 million

Fresh Issue

Our Company proposes to utilize the Net Proceeds of the Fresh Issue, i.e., Gross Proceeds of the Fresh Issue less the Offer related expenses in relation to the Fresh Issue (“**Net Proceeds**”) towards funding the following objects:

1. Funding of capital expenditure requirements of our Company towards purchase of machinery and equipment;
2. Repayment or prepayment, in full or in part, of all or a portion of certain outstanding borrowings availed by our Company, from banks and financial institutions;
3. Funding working capital requirements of the Company; and
4. General corporate purposes

(collectively, the “**Objects**”)

In addition, our Company expects to receive the benefits of listing of the Equity Shares on the Stock Exchanges and enhancement of our Company’s visibility and brand image and creation of a public market for our Equity Shares in India. The main objects and objects incidental and ancillary to the main objects set out in our Memorandum of Association enable us: (i) to undertake our existing business activities and other activities set out therein; and (ii) to undertake the activities proposed to be funded from the Net Proceeds and (iii) undertake the activities towards which the loans proposed to be repaid or pre-paid from the Net Proceeds were utilised.

Net Proceeds

The details of the Net Proceeds of the Fresh Issue are set out below:

Particulars	Estimated Amount (₹ million)
Gross proceeds of the Fresh Issue	Up to 2,500.00 ¹⁾
(Less) Offer-related expenses in relation to the Fresh Issue	[●] ^{(2) (3)}
Net Proceeds	[●] ⁽³⁾

1. *Our Company, in consultation with the BRLM, may consider a Pre-IPO Placement. If the Pre-IPO Placement is completed, the Fresh Issue size will be reduced to the extent of such Pre-IPO Placement, subject to the Offer complying with Rule 19(2)(b) of the SCRR. Upon allotment of Equity Shares issued pursuant to the Pre- IPO Placement and after compliance with requirements prescribed under the Companies Act, our Company may utilise the proceeds from such Pre-IPO Placement towards the objects to the Offer.*
2. *See “– Offer Expenses” on page 117.*
3. *To be finalized upon determination of the Offer Price and will be updated in the Prospectus prior to filing with the RoC.*

Utilization of Net Proceeds

Our Company proposes to utilize the Net Proceeds towards the following objects:

Particulars	Estimated amount (₹ million) ⁽²⁾
Funding of capital expenditure requirements of our Company towards purchase of machinery and equipment	700.00
Repayment or prepayment, in full or in part, of all or a portion of certain outstanding borrowings availed by our Company, from banks and financial institutions	900.00

⁽¹⁾To be finalized upon determination of the Offer Price and updated in the Prospectus prior to filing with the RoC. The amount utilized for general corporate purposes shall not exceed 25% of the Gross Proceeds.

Means of finance

The fund requirements for the Objects are proposed to be met from the Net Proceeds and our internal accruals. Accordingly, we confirm that there is no requirement to make firm arrangements of finance through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised through the Fresh Issue as required under Paragraph 9(C)(1) of Part A of Schedule VIII and Regulation 7(1)(e) the SEBI ICDR Regulations and existing identifiable internal accruals. In case of a shortfall in the Net Proceeds or any increase in the actual utilisation of funds earmarked for the Objects, our Company may explore a range of options including utilizing our internal accruals.

Details of the Objects

1. Funding of capital expenditure requirements of our Company towards purchase of machinery and equipment

With a focus on expanding and growing our manufacturing capabilities to meet the growing requirement in the auto components and aggregate manufacturing sector, we plan to acquire and equip our existing manufacturing facilities and foundry with a wide range of advanced and diverse machineries, equipment and a crane. Further, in order to enhance our backward integration capabilities, we intend to utilize part of the proceeds from the Offer towards funding of capital expenditure for expansion of axle beam extrusion and backward integration into seamless tube at our new manufacturing facility. For further details, see section entitled “*Our Business – Strategies*” on page 188.

Our Board in its meeting dated November 30, 2023 approved an amount of ₹ 700.00 million for the purpose of funding the proposed expenditure as stated herein above from the Net Proceeds. Our Company has received quotations from various vendors for the proposed capital expenditure and is yet to place any orders or enter into definitive agreements for purchase of manufacturing equipment. No second hand or used equipment are proposed to be purchased out of the Net Proceeds.

Our total estimated cost of purchase of equipment as per the quotations received from various vendors is ₹ 722.35 million, and we intend to utilise ₹ 700.00 million out of the Net Proceeds for the purchase of manufacturing equipment, and the remaining expenses shall be met from our internal accruals. The breakdown of such estimated costs is set forth below:

Notes:

1. The amount included in the quotation may be subject to price revisions, basis, inter alia, prevailing market conditions, price of raw materials, increase in taxes/duties levied by governmental authorities. In case of an increase in quoted amount due to a price revision, our Company will bear the difference out of internal accrual.

2. Considered to account for other miscellaneous expenditure such as, labour charges for loading/unloading, inspection charges, commissioning charges, erection charges, freight, insurance, entry tax, customs duty, goods and services tax (wherever applicable), packing & forwarding charges, fluctuation in cost at the time of actual order and other applicable taxes as these can be determined only at the time of placing of orders

* Including applicable 18.00% GST

[#] Quotation in USD converted to INR basis conversion rate on October 31, 2023, being, ₹ 83.27 per USD, not inclusive of applicable taxes and freight charges.

All quotations received from the vendors mentioned above are valid as on the date of this Draft Red Herring Prospectus. However, we have not entered into any definitive agreements with any of these vendors and there can be no assurance that the same vendors would be engaged to eventually supply the equipment or at the same costs. The quantity of equipment to be purchased is based on the present estimates of our management. Our Company shall have the flexibility to deploy such equipment at any of our hospitals, according to the business requirements of such facilities and based on the estimates of our management.

Additionally, there may be revision in the final amounts payable towards these quotations pursuant to any taxes or levies payable on such item.

2. Repayment or prepayment, in full or in part, of all or a portion of certain outstanding borrowings availed by our Company from banks and financial institutions

Our Company has entered into various financing arrangements from time to time, with various lenders. The financing arrangements availed by our Company include *inter alia* term loans and working capital facilities. For further details, please see section entitled “*Financial Indebtedness*” beginning on page 292. As of September 30, 2023, our total outstanding borrowings amounted to ₹ 948.33 million (excludes vehicle loans). Our Company proposes to utilise an estimated amount of up to ₹ 900.00 million from the Net Proceeds towards pre-payment or scheduled repayment of all or a portion of the outstanding borrowings availed by our Company.

We may repay or refinance some loans set out in the table below, prior to filing of the Red Herring Prospectus. In such a situation, we may utilise the Net Proceeds for part or full repayment of any such additional loan or loans obtained to refinance any of our existing loans.

We may choose to repay or pre-pay certain borrowings availed by us, other than those identified in the table below, which may include additional borrowings we may avail after the filing of this Draft Red Herring

Prospectus. Given the nature of these borrowings and the terms of repayment/pre-payment, the aggregate outstanding borrowing amounts may vary from time to time. In light of the above, at the time of filing the Red Herring Prospectus, the table below shall be suitably updated to reflect the revised amounts or loans as the case may be which have been availed by us. In the event our Board deems appropriate, the amount allocated for estimated schedule of deployment of Net Proceeds in a particular fiscal may be repaid/ pre-paid in part or full by our Company in the subsequent fiscal. The selection of borrowings proposed to be repaid/prepaid by us shall be based on various factors including (i) any conditions attached to the borrowings restricting our ability to prepay the borrowings and time taken to fulfil such requirements, (ii) levy of any prepayment penalties and the quantum thereof, (iii) other commercial considerations including, among others, the interest rate on the loan facility, the amount of the loan outstanding and the remaining tenor of the loan, (iv) receipt of consents for prepayment or waiver from any conditions attached to such prepayment from our lenders and (v) provisions of any law, rules, regulations governing such borrowings. Further, our Company has obtained written consents from our lenders for undertaking the Offer. We believe that such repayment or prepayment will help reduce our outstanding indebtedness and our debt-equity ratio and enable utilization of our internal accruals for further investment in business growth. Our Company may avail further loans after the date of this Draft Red Herring Prospectus and/or draw down further funds under existing loans. In addition, we believe that the strength of our balance sheet and our leverage capacity will further improve, which shall enable us to raise further capital in the future at competitive rates to fund potential business development opportunities and plans to grow and expand our business in the coming years.

The following table sets forth details of certain borrowings availed by our Company, which are outstanding as on September 30, 2023 out of which our Company may repay/prepay, all or a portion of, any or all of the borrowings, from the Net Proceeds:

Justification for holding period levels

Sr. No.	Particulars	Assumptions
Current Assets		
1.	Inventories	<p>Inventory levels tend to be dependent upon anticipated growth over the coming year and delivery schedules provided to us by our customers. Our inventory in terms of numbers of days of revenues from operations was 86 days at the end of Fiscal 2023 and improved to 46 days by the end of Fiscal 2023.</p> <p>Based on the expected improvement in scale of our operations, our Company has assumed inventory levels of 40 days of revenues from operations for Fiscal 2024 and Fiscal 2025</p>
2.	Trade receivables	<p>The holding levels of the Company's trade receivables have ranged from 39-81 days of revenues from operations during the last 3 Fiscals. The levels of trade receivables in Fiscal 2021 were elevated owing to delayed recovery from COVID which partially normalized in Fiscal 2022 to 62 days before reducing to 39 days in Fiscal 2023. The Company has assumed slightly higher levels of receivables of 40 days each for Fiscal 2024 and Fiscal 2025.</p>
3.	Other financial and current assets	<p>The Company's other financial and current assets largely comprise of interest receivable, cash collaterals, prepaid expense, balance with statutory authorities and advances to suppliers amongst others. The holding levels of other financial and current assets of the Company have ranged from 25- 27 days during the last 3 Fiscals.</p> <p>Other financial assets and current assets of the Company comprises of ₹ 28.75</p>

Sr. No.	Particulars	Assumptions
		million in fixed deposits maturing after 12 months from the balance sheet date. Except such deposits, the Company expects most of these expenses to grow in direct correlation with its revenues from operations and thus expects the holding levels to moderate to 25 days each in Fiscal 2024 and Fiscal 2025
Current Liabilities		
4.	Trade payables	Over the past three years, the Company's trade payables have varied between 24 days and 32 days. The Company has assumed trade payables of 25 days each for Fiscal 2024 and Fiscal 2025.
5.	Other current liabilities & Provisions	The Company's other current liabilities and provisions comprises of lease liabilities (current), short-term provisions, current tax liabilities (net), other financial liabilities and statutory dues. Holding levels under this head has ranged from 11-12 days in the last three Fiscals. The Company has projected this at around 10 days each for Fiscal 2024 and Fiscal 2025.

4. *General corporate purposes*

Our Company proposes to deploy the balance Net Proceeds aggregating to ₹ [●] million towards general corporate purposes, subject to such amount not exceeding 25% of the Gross Proceeds, in compliance with the SEBI ICDR Regulations. The general corporate purposes for which our Company proposes to utilise Net Proceeds include, but are not restricted to, strategic initiatives, funding growth opportunities, strengthening marketing capabilities, acquisitions, meeting ongoing general corporate exigencies and contingencies; meeting our business requirements, expenses incurred in ordinary course of business, payment of commission and/or fees to consultants, acquisition of fixed assets, business development initiatives, employee welfare activities, other expenses including salaries and wages, administration, insurance, repairs and maintenance, payment of taxes and duties and any other purpose, as may be approved by the Board or a duly constituted committee thereof, subject to compliance with applicable law, including provisions of the Companies Act.

The quantum of utilization of funds towards each of the above purposes will be determined by our Board, based on the amount actually available under this head and the business requirements of our Company and other relevant considerations, from time to time. Our Company's management, in accordance with the policies of our Board, shall have flexibility in utilizing surplus amounts, if any. In addition to the above, our Company may utilize the balance Net Proceeds towards any other expenditure considered expedient and as approved periodically by our Board or a duly appointed committee thereof, subject to compliance with applicable law. Our management will have the discretion to revise our business plan from time to time and consequently our funding requirement and deployment of funds may change. This may also include rescheduling the proposed utilization of Net Proceeds. Our management, in accordance with the policies of our Board, will have flexibility in utilizing the proceeds earmarked for general corporate purposes. In the event that we are unable to utilize the entire amount that we have currently estimated for use out of Net Proceeds in a Fiscal, we will utilize such unutilized amount in the subsequent Fiscals.

Offer expenses

The total expenses of the Offer are estimated to be approximately ₹ [●] million. The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 02, 2021 read with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 and such payment of processing fees to the SCSBs shall be made in compliance with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022.

Pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, applications made using the ASBA facility in initial public offerings (opening on or after September 1, 2022) shall be processed only after application monies are blocked in the bank accounts of investors (all categories). Accordingly, Syndicate / Sub-Syndicate Members shall not be able to accept Bid Cum Application Form above ₹ 500,000 and the same Bid Cum Application Form needs to be submitted to SCSBs for blocking of fund and uploading on the exchange bidding platform. To identify bids submitted by Syndicate / Sub-Syndicate Members to SCSB, a special Bid Cum Application Form with a heading / watermark, 'Syndicate ASBA' may be used by Syndicate / Sub-Syndicate Member along with SM code and Broker code mentioned on the Bid Cum Application Form to be eligible for brokerage on Allotment. However, such special forms, if used for RIB Bids and NIB Bids up to ₹ 500,000 will not be eligible for brokerage.

Interim use of the Net Proceeds

Our Company, in accordance with the applicable law, policies established by our Board from time to time and in order to attain the Objects set out above, will have flexibility to deploy the Net Proceeds. Pending utilization of the Net Proceeds for the purposes described in this section, our Company may temporarily invest the Net Proceeds in deposits in one or more scheduled commercial banks included in the Second Schedule of Reserve Bank of India Act, 1934, as may be approved by our Board. In accordance with Section 27 of the Companies Act, our Company confirms that, other than as specified in this section for the purposes of the Objects, it shall not use the Net Proceeds for buying, trading or otherwise dealing in equity securities or any equity linked securities.

Appraising entity

None of the Objects for which the Net Proceeds will be utilized have been appraised by any agency.

Bridge financing facilities

Our Company has not raised any bridge loans from any bank or financial institution as of the date of this Draft Red Herring Prospectus, which are proposed to be repaid from the Net Proceeds.

Monitoring of utilization of funds

Our Company will appoint a monitoring agency to monitor utilization of proceeds from the Fresh Issue, including the proceeds proposed to be utilised towards general corporate purposes, prior to filing of the Red Herring Prospectus with the RoC, in accordance with Regulation 41 of the SEBI ICDR Regulations. Our Company undertakes to place the Net Proceeds in a separate bank account which shall be monitored by the Monitoring Agency for utilization of the Net Proceeds. Our Company undertakes to place the report(s) of the Monitoring Agency on receipt before the Audit Committee without any delay. Our Company will disclose and continue to disclose the utilization of the Net Proceeds, including interim use, under a separate head in its balance sheet for such fiscal periods as required under the SEBI ICDR Regulations, the SEBI Listing Regulations and any other applicable laws or regulations, specifying the purposes for which the Net Proceeds have been utilized. Our Company will also, in its balance sheet for the applicable fiscal periods, provide details, if any, in relation to all such Net Proceeds that have not been utilized, if any, of such currently unutilized Net Proceeds. Further, our Company, on a quarterly basis, shall include the deployment of Net Proceeds under various heads, as applicable, in the notes to our quarterly results.

Pursuant to Regulation 32(3) of the SEBI Listing Regulations, our Company shall, on a quarterly basis, disclose to the Audit Committee the uses and applications of the Net Proceeds, which shall discuss, monitor and approve the use of the Net Proceeds along with our Board. On an annual basis, our Company shall prepare a statement of funds utilized for purposes other than those stated in this Draft Red Herring Prospectus and place it before the Audit Committee and make other disclosures as may be required until such time as the Net Proceeds remain unutilized. Such disclosure shall be made only until such time that all the Net Proceeds have been utilized in full. The statement prepared on an annual basis for utilization of the Net Proceeds shall be certified by the Auditors.

Furthermore, in accordance with Regulation 32(1) of the SEBI Listing Regulations, our Company shall furnish to the Stock Exchanges on a quarterly basis, a statement indicating (i) deviations, if any, in the actual utilization of the proceeds of the Fresh Issue from the Objects; and (ii) details of category wise variations in the actual

utilization of the proceeds of the Fresh Issue from the Objects. This information will also be published on our website.

Variation in Objects

In accordance with Sections 13(8) and 27 of the Companies Act and Regulation 59 and Schedule XX of the SEBI ICDR Regulations, our Company shall not vary the Objects, without our Company being authorized to do so by its Shareholders by way of a special resolution and our Company shall include the requisite explanation in the director's report in relation to such variation. In addition, the notice issued to the Shareholders in relation to the passing of such special resolution ("Notice") shall specify the prescribed details and be published in accordance with the Companies Act. The Notice shall simultaneously be published in the newspapers, one in English and one in Gujarati, the vernacular language of the jurisdiction where our Registered Office is situated. Pursuant to the Companies Act, the Promoter, as at the time of such proposed variation, will be required to provide an exit opportunity to the Shareholders who do not agree to such proposal to vary the Objects, subject to the provisions of the Companies Act and in accordance with such terms and conditions, including in respect of pricing of the Equity Shares, in accordance with our Articles of Association, the provisions of the Companies Act and the SEBI ICDR Regulations.

Other confirmations

Except to the extent of any proceeds received pursuant to the sale of Equity Shares proposed to be sold by the Promoter Selling Shareholders in the Offer for Sale, neither our Promoter, nor members of the Promoter Group, Directors, KMPs, Senior Management, or Group Companies will receive any portion of the Offer Proceeds and there are no material existing or anticipated transactions in relation to utilization of the Offer Proceeds with our Promoter, members of the Promoter Group, Directors, KMPs, Senior Management, or Group Companies. Further, except in the ordinary course of business, there is no existing or anticipated interest of such individuals and entities in the objects of the Fresh Issue as set out above.

Further, pursuant to the Offer, the Net Proceeds received by our Company shall only be utilised for objects identified by our Company and for general corporate purposes and none of our Promoter, member of our Promoter Group, Group Companies and associates of our Company, as applicable, shall receive any part of the Net Proceeds, directly or indirectly.

BASIS FOR OFFER PRICE

The Price Band and the Offer Price will be determined by our Company, in consultation with the Book Running Lead Manager, on the basis of assessment of market demand for the Equity Shares offered through the Book Building Process and the quantitative and qualitative factors as described below and is justified in view of these parameters. The face value of the Equity Shares is ₹5 each and the Floor Price is [●] times the face value and the Cap Price is [●] times the face value. Investors should also refer to “Risk Factors”, “Our Business”, “Restated Financial Information” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 27, 181, 243 and 295, respectively, to have an informed view before making an investment decision.

Qualitative factors

Some of the qualitative factors which form the basis for computing the Offer Price are:

- Long standing relationship with large OEMs and their tier one suppliers, domestic dealers and fabricators for our trailer axle and suspension business complemented by a diversified network of dealers for our trailer axle and suspension assembly business
- Wide recognition as one of the prominent manufacturers of trailer axles and suspension assemblies in India and one of the few players domestically with the competency to manufacture trailer axles and suspension assembly in-house
- Diversified product portfolio with a focus on continuous value addition
- Integrated manufacturing operations coupled with in-house product and process design capabilities which offer scale, flexibility and comprehensive solutions
- Track record of sustained growth and strong financial performance

For further details, please refer to the section titled “Our Business—Competitive Strengths” on page 183.

Quantitative factors

Some of the information presented below relating to our Company is derived from the Restated Financial Information. For details, please refer to the section titled “Restated Financial Information” on page 243.

Some of the quantitative factors which may form the basis for calculating the Offer Price are as follows:

1. Basic and Diluted Earnings per Share (“EPS”) as per the Restated Financial Information:

Financial Year/Period	Basic EPS (in ₹)	Diluted EPS (in ₹)	Weight
For the year ended March 31, 2023	5.72	5.72	3
For the year ended March 31, 2022	2.25	2.25	2
For the year ended March 31, 2021	0.88	0.88	1
Weighted Average	3.76	3.76	-
As of three month period ended June 30, 2023*	1.48	1.48	-

*Not annualised

Notes:

1. EPS has been calculated in accordance with the Indian Accounting Standard (Ind AS) 33 (earnings per share) issued by the ICAI. The face value of Equity Shares of the Company is ₹5.
2. Basic EPS = Restated profit for the year/period, attributable to equity shareholders for the year/ period/ Weighted average number of equity shares outstanding during the year/period after considering bonus shares which has been issued subsequent to June 30, 2023 for all periods presented in accordance with Ind AS 33.
3. Weighted average = Aggregate of year-wise weighted EPS divided by the aggregate of weights, i.e. (EPS x Weight) for each year/ total of weights.
4. Diluted EPS = Restated profit for the year/period, attributable to equity shareholders for the year/period / Weighted average number of diluted equity shares and potential additional equity shares outstanding during the year/period after considering bonus shares which has been issued subsequent to June 30, 2023 for all periods presented in accordance with Ind AS 33.
5. Basic and diluted earnings/(loss) per equity share: Basic and diluted earnings/(loss) per equity share are computed in accordance with Indian Accounting Standard 33 notified under the Companies (Indian Accounting Standards) Rules of 2015, as amended. For the Company, sub-division of Equity Shares are retrospectively considered for the computation of EPS for all years presented.

6. The above statement should be read with Significant Accounting Policies and the notes to the Restated Financial Information as appearing in the section titled "Restated Financial Information" on page 243.

2. Price/Earnings ("P/E") Ratio in relation to Price Band of ₹ [●] to ₹ [●] per Equity Share:

Particulars	P/E ratio at the lower end of the Price Band (number of times)	P/E ratio at the higher end of the Price Band (number of times)
Based on basic EPS as per the Restated Financial Information for the year ended March 31, 2023	[●]	[●]
Based on diluted EPS as per the Restated Financial Information for the year ended March 31, 2023	[●]	[●]

Note: To be updated at the price band stage.

Financial Year	RoNW (%)	Weight
For the year ended March 31, 2023	30.29%	3
For the year ended March 31, 2022	16.81%	2
For the year ended March 31, 2021	7.96%	1
Weighted Average	22.08%	-
As of three month period ended June 30, 2023*	7.25%	-

*Not annualised

Notes:

- RoNW (%) is calculated as restated Profit for the year/period attributable to equity shareholders of the Company divided by Net Worth of the Company.
- Weighted Average = Aggregate of year-wise weighted RoNW divided by the aggregate of weights i.e. (RoNW x Weight) for each year/total of weights.

5. Net asset value ("NAV") (as adjusted) bearing face value of ₹ 5 each

As At	Restated NAV (₹)
As at March 31, 2023	18.88
As at June 30, 2023	20.41

Notes:

1. Revenue from Operations means the revenue from operations for the year/period
2. Growth in revenue from operations (%) is calculated as a percentage of Revenue from Operations of the relevant period/year minus Revenue from Operations of the preceding period/year, divided by Revenue from Operations of the preceding period/year
3. Gross profit is calculated as revenue from operations minus cost of raw materials and components consumed minus cost of services minus Purchase of traded Goods minus (increase)/decrease in inventories of finished goods, work-in-progress, traded goods and scrap
4. Gross Margin is calculated as Gross Profit divided by revenue from operations
5. EBITDA is calculated as profit/ (loss) for the year less exceptional items, share of profit of joint ventures and other income plus finance costs, depreciation and amortisation, and total income tax expenses
6. EBITDA Margin is calculated as EBITDA divided by Revenue from operations
7. Profit for the year/period.
8. PAT Margin is calculated as profit/ (loss) for the year divided by total income.
9. Return on Equity is calculated as profit/ (loss) for the year (Excluding share of minority in profits) divided by total equity (Excluding non-controlling interest)
10. Return on Capital Employed is calculated as EBIT divided by capital employed. Capital employed is calculated as total equity plus total borrowings plus deferred tax liability plus lease liabilities (current and non-current) while EBIT is calculated as EBITDA plus other income and share of profit of joint ventures less depreciation and amortization
11. Debt/ Total Net worth is calculated as total debt (including current and non-current borrowings) divided by total equity
12. Gross Fixed Assets Turnover Ratio is calculated as revenue from operations for the year divided by cost of property, plant and equipment plus gross value of capital work in progress plus gross value of right of use assets plus other intangible assets.

13. Revenue from sale of products and services split between domestic and exports. Percentage of revenue (%) from domestic is calculated as revenue from domestic sale of products and services divided by total revenue from sale of products and services. Percentage of revenue (%) from exports is calculated as revenue from exports sale of products and services divided by total revenue from sale of products and services.

7. Description on the historic use of the KPIs by our Company to analyze, track or monitor the operational and/or financial performance of our Company

In evaluating our business, we consider and use certain KPIs as a supplemental measure to review and assess our financial and operating performance. The presentation of these KPIs is not intended to be considered in isolation or as a substitute for the Restated Financial Information. We use these KPIs to evaluate our financial and operating performance. These KPIs have limitations as analytical tools. Further, these KPIs may differ from the similar information used by other companies and hence their comparability may be limited. Therefore, these metrics should not be considered in isolation or construed as an alternative to Ind AS measures of performance or as an indicator of our operating performance, liquidity or results of operation. Although these KPIs are not a measure of performance calculated in accordance with applicable accounting standards, our Company's management believes that it provides an additional tool for investors to use in evaluating our ongoing operating results and trends and in comparing our financial results with other companies in our industry because it provides consistency and comparability with past financial performance, when taken collectively with financial measures prepared in accordance with Ind AS. Investors are encouraged to review the Ind AS financial measures and to not rely on any single financial or operational metric to evaluate our business.

8. Comparison of KPIs based on additions or dispositions to our business

While our listed peers (mentioned below), like us, operate in the auto components industry and may have similar offerings or end use applications, our business may be different in terms of differing business models, different product verticals serviced or focus areas or different geographical presence.

STATEMENT OF SPECIAL TAX BENEFITS

STATEMENT OF SPECIAL TAX BENEFITS AVAILABLE TO KROSS LIMITED (“THE COMPANY”) AND THE SHAREHOLDERS OF THE COMPANY UNDER THE DIRECT AND INDIRECT TAX LAWS IN INDIA

To,

**The Board of Directors,
Kross Limited**
M-4, Phase VI,
Adityapur Industrial Area,
Jamshedpur – 832 108,
Jharkhand, India

Dear Sirs/Madams,

Sub: Statement of possible special tax benefits (the “Statement”) available to Kross Limited (the “Company”), and its shareholders under Indian laws

1. We M/s. S.K. Naredi & Co., the statutory auditors of the Company hereby confirm that the enclosed **Annexure A**, prepared by the Company and initialed by us for identification purpose (“**Statement**”), provides the possible special tax benefits available to the Company and to its shareholders under direct tax and indirect tax laws presently in force in India i.e.:

(i) the Income-tax Act, 1961 (the Act), as amended by the Finance Act, 2023, i.e. applicable for the financial year 2023-24 relevant to the assessment year 2024-25, presently in force in India;

(ii) the Central Goods and Services Tax Act, 2017 / the Integrated Goods and Services Tax Act, 2017 / respective State Goods and Services Tax Act (SGST) read with rules, circulars, and notifications (“GST law”), Customs Act, 1962 and the Customs Tariff Act, 1975 (read with the rules, circulars and notifications issued in connection thereto) as amended by the Finance Act 2023 applicable for the Financial Year 2023-24 (“Customs law”) and Foreign Trade (Development and Regulation) Act, 1992 (read with the Foreign Trade Policy 2015-20 and Foreign Trade Policy 2023 (FTP) and Handbook of Procedures issued thereof, notifications and circulars, each as amended and presently in force in India.

The Act, the GST Act, Customs Act, Tariff Act and Foreign Trade (Development and Regulation) Act, 1992 as defined above, are collectively referred to as the “Relevant Acts”.

2. Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the Relevant Acts. Hence, the ability of the Company and/ or its shareholders to derive the tax benefits is dependent upon their fulfilling such conditions, which based on business imperatives the Company faces in the future, the Company or its shareholders may or may not choose to fulfil. The benefits discussed in the enclosed Statement are not exhaustive and the preparation of the contents stated in the Annexures is the responsibility of the Company’s management. The Statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the Offer.

3. Any benefits under the taxation laws other than those specified in **Annexure A** are considered to be general tax benefits and therefore not covered within the ambit of this Statement. Further, any benefits available under any other laws within or outside India, except for those mentioned in the **Annexure A** have not been examined and covered by this statement.

4. The benefits discussed in the enclosed Statement are not exhaustive. The Statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the Offer.

5. In respect of non-residents, the tax rates and the consequent taxation shall be further subject to any benefits available under the applicable Double Taxation Avoidance Agreement, if any, between India and the country in which the non-resident has fiscal domicile.
6. We do not express any opinion or provide any assurance as to whether:
 - i. the Company or its shareholders will continue to obtain these benefits in future;
 - ii. the conditions prescribed for availing the benefits have been / would be met with; and
 - iii. the revenue authorities/courts will concur with the views expressed herein.
7. The contents of the enclosed Annexures are based on information, explanations and representations obtained from the Company and on the basis of their understanding of the business activities and operations of the Company.
8. We have conducted our review in accordance with the 'Guidance Note on Reports or Certificates for Special Purposes' issued by the Institute of Chartered Accountants of India ("ICAI") which requires that we comply with ethical requirements of the Code of Ethics issued by the ICAI. We hereby confirm that while providing this statement we have complied with the Code of Ethics issued by the ICAI. We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.
9. We hereby consent to be named an "expert" under the Companies Act, 2013, as amended, and our name may be disclosed as an expert to any applicable legal or regulatory authority in so far as may be required, in relation to the statements contained therein. We further confirm that we are not and have not been engaged or interested in the formation or promotion or management of the Company.
10. This certificate is addressed to Board of Directors and issued at specific request of the Company. The enclosed Annexures is intended solely for your information and for inclusion in the Draft Red Herring Prospectus and any other material to be filed Securities and Exchange Board of India, relevant stock exchanges and Registrar of Companies, Jharkhand at Ranchi where applicable, in connection with the Offer, and is not to be used, referred to or distributed for any other purpose without our prior written consent.

ANNEXURE A

STATEMENT OF SPECIAL TAX BENEFITS AVAILABLE TO THE COMPANY AND ITS SHAREHOLDERS UNDER THE APPLICABLE LAWS IN INDIA – INCOME TAX ACT, 1961

This statement of possible special tax benefits is required as per Schedule VI (Part A) (9)(L) of the SEBI ICDR Regulations. While the term '*special tax benefits*' has not been defined under the SEBI ICDR Regulations, for the purpose of this Statement, it is assumed that with respect to special tax benefits available to the Company and its shareholders, the same would include those benefits as enumerated in this Annexure. Any benefits under the taxation laws other than those specified in this Annexure are considered to be general tax benefits and therefore not covered within the ambit of this Statement. Further, any benefits available under any other laws within or outside India, except for those mentioned in this Annexure have not been reviewed and covered by this statement.

I. Special Direct tax benefits available to the Company

- a. As per section 115BAA of the Income Tax Act 1961, the Company has an option to pay income tax in respect of its total income at a concessional tax rate of 25.168% (22% + Surcharge 10% + Education cess 4%) subject to satisfaction of certain conditions with effect from Financial Year 2019-20 (i.e., Assessment Year 2020-21). Such an option once exercised shall apply to subsequent assessment years. In such a case, the Company may not be allowed to claim any of the following deductions/exemptions:

The Amendment Act, 2019 further provided that domestic companies availing such option will not be required to pay Minimum Alternate Tax ("MAT") under Section 115JB. The CBDT had further issued Circular 29/2019 dated October 02, 2019 clarifying that since the MAT provisions under Section 115JB itself would not apply where a domestic company exercises option of lower tax rate under Section 115BAA, MAT credit would not be available.

The Company has opted for the beneficial tax rate under section 115BAA of the Act from FY 2019-20 onwards. As the Company has opted for the beneficial tax rate introduced by the ordinance, they are not eligible to avail the exemptions/ incentives as specified under Section 115BAA of the Act.

Further, the option once exercised by the Company cannot be subsequently withdrawn for the same or any other financial year.

- b. Deductions from Gross Total Income

- Section 80JJAA: Deduction in respect of employment of new employees

Subject to fulfilment of prescribed conditions, the Company is entitled to claim deduction under the provisions of Section 80JJAA of the Act, of an amount equal to thirty per cent of additional employee cost (relating to specified category of employees) incurred in the course of business in the previous year, for three assessment years including the assessment year relevant to the previous year in which such employment is provided.

The deduction u/s 80JJAA of the Act shall be applicable even if the Company avails the benefits of the special rate u/s 115BAA of the Act.

- Section 80M of the Act: Deduction in respect of inter-corporate dividends

A new Section 80M had been inserted by the Finance Act, 2020 w.e.f. FY 2020-21 providing for deduction from gross total income of a domestic company, of an amount equal to dividends received by such company from another domestic company or a foreign company or a business trust as does not exceed the amount of dividend distributed by it on or before one month prior to the date of filing its tax return as prescribed under Section 139(1) of the Act.

Where the company receives any such dividend during a FY and also, distributes dividend to its shareholders before the aforesaid date, as may be relevant to the said FY, it shall be entitled to the deduction under Section 80M of the Act. The deduction u/s 80M of the Act shall be applicable for the company availing the benefits of the special rate u/s 115BAA of the Act.

II. Special Indirect tax benefits available to the Company

- a) **Benefits of Foreign Trade Agreements under Customs Act, 1962:** A free trade agreement is a pact between two or more nations to reduce barriers to imports and exports among them. Under a free trade policy, goods and services can be bought and sold across international borders with little or no government tariffs, quotas, subsidies, or prohibitions to inhibit their exchange subject to fulfillment of certain conditions and compliances. The Company avails benefit of concessional rate of duty at the time of import of goods from Japan and South Korea under respective Foreign Trade Agreements, as applicable, on specified imported goods.
- b) **Benefits of Duty Drawback scheme under Section 75 of the Customs Act, 1962:** As per Section 75 of the Customs Act, the Central Government is empowered to allow duty drawback on export of goods, where the imported materials are used in the manufacture of such goods. The Company avails duty drawback benefit equal to or less than the duty paid, as applicable, on imported material when it undertakes export of goods.
- c) **Benefits under The Foreign Trade (Development and Regulation) Act, 1992 (read with Foreign Trade Policy 2015-20 as amended):** The Company is availing benefit under the export promotion capital goods scheme vide which it is eligible to undertake duty free import of capital goods which are used in manufacturing of goods which are exported out of India. Consequent to this, the Company is under obligation to undertake the export of goods within a prescribed time period.
- d) **Benefits of Remission of Duties and Taxes on Export Products (“RoDTEP”) Scheme under The Foreign Trade (Development and Regulation) Act, 1992 (read with Foreign Trade Policy 2015-20 as amended):** The Government of India by making amendment in the Foreign Trade Policy 2015-20 vide DGFT Notification No. 19/2015-20 dated 17.08.2021 introduced this scheme which provides rebate of all hidden Central, State, and Local duties/taxes/levies on the exported goods including prior stage cumulative indirect taxes on goods and services used in the production and distribution of the exported product, which have not been refunded under any other existing scheme. The Company avails RoDTEP benefit as notified, on exported products.
- e) Benefits under the Central Goods and Services Act, 2017, respective State / Union Territory Goods and Services Tax Act, 2017, Integrated Goods and Services Tax Act, 2017 (read with relevant rules prescribed thereunder): Under the GST regime, supplies of goods or services which qualify as ‘export’ of goods or services are zero-rated which can be supplied either with or without payment of Integrated Goods and Services Tax (“IGST”) subject to fulfilment of conditions prescribed. The exporter has the option to either undertake exports under cover of a Bond/ Letter of Undertaking (“LUT”) without payment of IGST and claim refund of accumulated input tax credit subject to fulfilment of conditions prescribed for export or the exporter may export with payment of IGST and claim refund of IGST paid on such exports as per the provisions of Section 54 of Central Goods and Services Tax Act, 2017. Thus, the Integrated Goods and Service Tax Act, 2017 permits a supplier undertaking zero rated supplies (which will include the supplier making supplies to SEZ) to claim refund of tax paid on exports as IGST (by undertaking exports on payment of tax using ITC) or export without payment of tax by executing a Bond/ LUT and claim refund of related ITC of taxes paid on inputs and input services used in making zero rated supplies.
- f) **Benefits under Industrial and Business Development Policy, 2021:** Under the policy, various fiscal incentives are offered in case of setting up a new unit or substantial expansion in an existing unit subject to fulfillment of certain conditions. The Company can avail various incentives such as GST reimbursement, employment subsidy etc. as applicable under the captioned policy with respect to new manufacturing unit set up in Jharkhand.

III. Special Direct Tax benefits available to the Shareholders of the Company

- a) Higher cost of acquisition benefit in relation to long term capital asset being shares of a company referred to in section 112A of the Act A new section 55(2)(ac) of the Act has been inserted to provide grandfathering of gains on the specified assets (as defined u/s 112A of the Act) acquired prior to 1 February 2018. The Cost of acquisition would be higher of:-

- a. Cost of acquisition and
- b. Lower of
 - i. Fair market value* of such shares
 - ii. Full value of consideration received or accruing as result of transfer of capital asset

*‘Fair market value’ means — In a case where the capital asset is an equity share in a company which is not listed on a recognised stock exchange as on the 31st day of January, 2018 but listed on such exchange on the date of transfer, an amount which bears to the cost of acquisition the same proportion as Cost Inflation Index for the financial year 2017-18 bears to the Cost Inflation Index for the first year in which the asset was held by the assessee or for the year beginning on the first day of April, 2001, whichever is later.

- b) No interest on deferment of advance tax instalment with respect to dividend income

The Finance Act 2020 amended the manner of taxation of dividend income by abolishing dividend distribution tax and restoring classical system of dividend taxation (i.e. taxation of dividend income in the hands of the shareholders). Considering the nature of income, it is not possible for taxpayer to accurately determine the advance tax liability on dividend income and therefore, the proviso to section 234C(1) of the Act provides that no interest shall be levied under section 234C of the Act, if the shortfall in payment of advance tax instalment is on account of underestimation or failure to estimate dividend. The amendment was introduced by the Finance Act 2021 and is applicable from 1 April 2021.

- c) Surcharge on personal income capped at 25% for individuals opting concessional tax regime under section 115BAC

The Finance Act 2023 has capped surcharge on total income of individual assessee opting for concessional tax regime under section 115BAC to 25% (instead of earlier surcharge of 37% for individuals having total income exceeding) Rs. 5 crore.

IV. Special Indirect tax benefits available to the Shareholders

There is no special Indirect tax benefit available to the Shareholders.

Notes:

- i. *The above Statement of Tax benefits sets out the special tax benefits available to the Company, and its shareholders under the tax laws mentioned above.*
- ii. *The above Statement covers only above-mentioned tax laws benefits and does not cover any general tax benefits under any other law.*
- iii. *This Statement is intended only to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of tax consequences, each investor is advised to consult his/her own tax advisor with respect to specific tax consequences of his/her investment in the shares of the Company.*
- iv. *No assurance is given that the revenue authorities/courts will concur with the views expressed herein. Our views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to update the views consequent to such changes.*
- v. *This statement does not discuss any tax consequences under any law for the time being in force, as applicable of any country outside India. The shareholders / investors are advised to consult their own professional advisors regarding possible tax consequences that apply to them in any country other than India.*

SECTION VI: ABOUT OUR COMPANY

INDUSTRY OVERVIEW

Global and Indian macroeconomic scenario

Global economic scenario

Review and outlook of economic growth and inflation in key countries

The global economy has been highly volatile over the past three years due to multiple adverse events. Though economic indicators have improved since the second half of 2022, the effects of the Russia-Ukraine conflict and China's hesitant reopening continue. The rise in energy and commodity prices, especially due to the Russia-Ukraine conflict, has forced major central banks to tighten their monetary policies and keep inflation expectations anchored. The global growth outlook remains subdued in the medium term due to elevated interest rates, widespread recession, and heightened geopolitical uncertainties.

Global inflation and growth trajectory

Global inflation has been on the decline since the second half of 2022, led by a fall in fuel and energy commodity prices, particularly for the United States (US), the euro area¹, and Latin America. Major central banks around the world have been raising interest rates at a fast clip since 2021 to dampen demand and soften core inflation. The monetary policy tightening has led to a sharp increase in borrowing costs, raising concerns about the sustainability of the debt of some economies.

The return of the world economy to the pace of growth that had prevailed before the shocks in 2022 and the recent financial sector turmoil is looking increasingly elusive. Fuel and nonfuel commodity prices are expected to decline in 2023. Crude oil prices are projected to fall ~24% in 2023 and a further 5.8% in 2024, while nonfuel commodity prices are expected to remain broadly unchanged. The financial stability risk has increased rapidly since October 2022 as the global interest rates stay elevated for longer than expected.

India is expected to remain a growth outperformer over the medium run. CRISIL MI&A Consulting expects India's GDP growth to average 6.1% between fiscal 2025 and 2027, compared with 3.1% globally as estimated by the IMF. India would also outpace emerging market peers such as China (4.2% growth estimated from 2024-26), Indonesia (5.0%), Turkey (3.2%) and Brazil (1.8%).

Brent crude falls

Crude oil prices decreased in the first half of 2023, primarily due to the sustained high inflation coupled with slowdown in demand, which significantly impacted the prices. The prices averaged \$98-103 per barrel in 2022 compared with \$70.4 per barrel in 2021, a 39-46% on-year increase.

The global economy is expected to be resilient in 2023 with tight labour markets in several economies and improved household consumption.

Indian economic scenario

Review and outlook of gross domestic product (GDP)

The Indian economy logged 4.1% compound annual growth rate (CAGR) over fiscals 2018 to 2023. Economic growth was supported by benign crude oil prices, soft interest rates and low current account deficit. The Indian government also undertook key reforms and initiatives, such as implementation of the Goods and Services Tax (GST) and Insolvency and Bankruptcy Code; Make in India and financial inclusion; and gradual opening of sectors such as retail, e-commerce, defence, railways, and insurance for foreign direct investment (FDI).

As lockdowns were gradually lifted, economic activity revived in the second half of fiscal 2021. After a steep contraction in the first half, owing to rising number of Covid-19 cases, GDP moved into positive territory towards end of fiscal 2021. Subsequently, in fiscal 2022, India's real GDP grew 9.0% from the low base of fiscal 2021. Annual growth for fiscal 2023 was revised up to 7.2% (provisional estimate) from 7.0% in the second advance estimate.

GDP growth in the fourth quarter was primarily driven by investment and net exports and was less of a drag given rising exports and slowing imports. Fixed investment turned in the strongest growth on the demand side while private consumption growth was more subdued on-quarter. Manufacturing and agriculture growth improved relative to the previous quarter on the supply side even as services growth remained strong.

The provisional estimate of 7.2% comes on top of 9.1% expansion in fiscal 2022. This suggests strong growth momentum, which was propelled by domestic demand through the year, both from investment and private consumption. Investment's share rose to an 11-year high of 34% of GDP, while that of private consumption rose to an 18-year high of 58.5% in fiscal 2023.

India's GDP growth trend and outlook

P: Projected; E: Estimated, FY23 – Second advance estimate

Source: National Statistical Office (NSO), CRISIL MI&A Consulting estimates

On the supply side, gross value added (GVA) grew 6.5% in the fourth quarter of 2023 compared with 4.7% in the previous quarter. Agriculture and allied activities surged to 5.5% from 4.7%, the result of a robust rabi output despite unseasonal rains towards the year-end. Manufacturing growth rose sharply after two quarters of decline (4.5% in the fourth versus -1.4% in the third). Resilient domestic demand, easing commodity prices and supply constraints supported production.

All demand segments grew in the fourth quarter, with support from private consumption, government consumption, fixed investment, and net export. The fourth-quarter growth was primarily driven by a rise in exports and a slowdown in imports to 4.9% from 19.7%. Hence, net exports contributed positively to GDP growth.

Amongst the demand drivers, investment recorded the strongest growth at 8.9% vs 8.0% in the third quarter. The increasing investment growth also indicates a gradual pickup in private capex. Private consumption expenditure improved during the quarter. High inflation may have put pressure on household consumption, with consumer price index-based inflation remaining elevated at 6.4% in the quarter. However, for fiscal 2023, private consumption growth was a strong 7.5% on top of 11.2% growth in fiscal 2022, with pent-up demand, especially for contact-intensive services.

Exports of goods and services also saw robust growth of 11.9% in the quarter versus 11.1% in the previous quarter. Growth in government consumption expenditure slowed sharply to 0.1% from 6.6% as the pandemic spend subsided.

Overall, industrial GVA grew 6.3% versus 2.3% in the third quarter of 2023. Services maintained the momentum, growing 6.9% versus 6.1%. Growth remained strong for trade, hotels, transport, and communication services (THTC), but slowed a tad to 9.1% in the fourth quarter of 2023 from 9.6% in the third. It rose sharply for financial, real estate and professional services (7.1% vs 5.7%), and moved up for public administration and other services (3.1% vs 2.0%). For fiscal 2023, growth was strongest for THTC services (14% in fiscal 2023 vs 13.8% previous year), followed by construction (10% vs 14.8%), utilities (9% vs 9.9%), public administration and other services (7.2% vs 9.7%), financial, real estate and professional services (7.1% vs 4.7%), agriculture (4% vs 3.5%), and manufacturing (1.3% vs 11.1%). The solid THTC growth reflected the pending catch-up to pre-pandemic levels. Manufacturing remained much above its pre-pandemic level relative to THTC.

In demand-side segments, the strongest growth was in exports of goods and services (11.9% in fourth quarter versus 11.1% previous quarter). Among domestic demand drivers, the strongest growth was in investment (8.9% vs 8.0%). Government capital expenditure remained strong, with states raising capex towards fiscal-end. The increasing investment growth also indicates a gradual pickup in private capex. CRISIL MI&A projects GDP to grow 6% this fiscal.

India to remain a growth outperformer globally

Despite the slowdown in the near term, India is expected to remain a growth outperformer over the medium run. CRISIL MI&A expects GDP growth to average 6.1% between fiscals 2025 and 2027, compared with 3.1% globally as estimated by IMF.

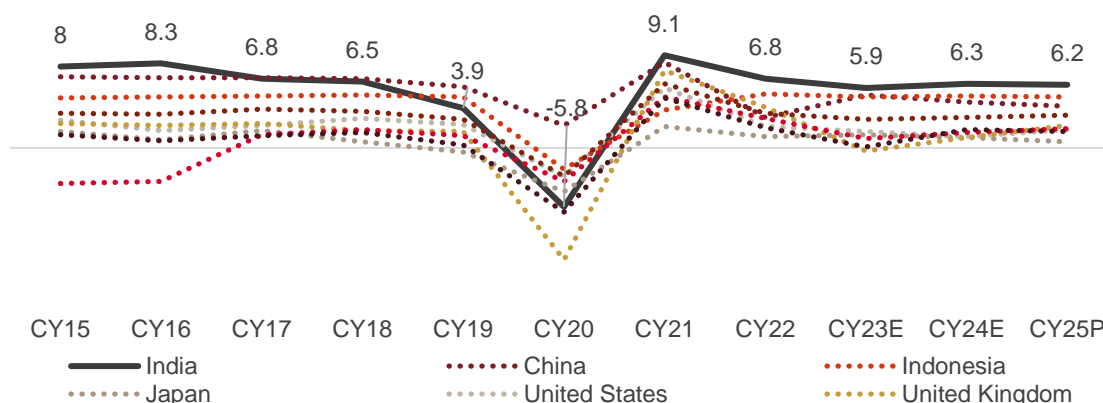

Drivers for India’s economic growth

Stronger domestic demand is expected to drive India’s growth premium over peers in the medium term.

Investment prospects are optimistic, given the government’s capex push, progress of the Production-Linked Incentive (PLI) scheme, healthier corporate balance sheets, and a well-capitalised banking sector with low non-performing assets (NPAs).

India is also likely to benefit from its diversification of supply-chain for incoming FDI flows. As global supply chains get reconfigured with focus shifting from efficiency towards resilience and friend shoring, private consumption (~57% of GDP) will play a supportive role in raising GDP growth in the medium term.

Factors that will shape growth in fiscals 2024 and 2025

Moderate household demand supported by service catch up and government capex

Strong industrial growth led by manufacturing sector, the index of Industrial production accelerated to 10.3% on year in September 2023 from 6.0% in August majorly led by growth in manufacturing sector, which was supported by domestic oriented sectors, however certain export -oriented sector capped the gain. While manufacturing sector growth is expected to be led by infrastructure and construction goods and consumer non-durables. Rural inflation fell more swiftly in the past few months, which helped increase real wages for their workforce. This, coupled with good kharif production, seems to be hinting at improved rural demand.

Industrial performance seems to be encouraged from easing inflationary pressures in the past few months. Falling commodity prices eased input cost pressures for producers, and softening retail inflation has boosted consumers' purchasing power. S&P Global's Purchasing Managers Index (PMI) for domestic manufacturing moderated to 57.5 in September from 58.6 previous month. While the rise in domestic interest rates is relatively lesser than in advanced economies, lending rates in India too, are now higher than their pre-pandemic five-year average. This is expected to moderate domestic demand, especially in interest-sensitive segments such as automobiles and housing.

Global and domestic growth cycle

GDP growth has been resilient so far, with sharp uptick to 6.1% in the last quarter of fiscal 2023. However, recovery remained uneven, with private consumption being more subdued than other demand segments in the second half. Robust rabi production augurs well for rural prospects. India's core exports, which include crude oil and gems and jewellery, shrank lower 4.0%, as healthy performance in core categories such as electronics, iron ore and select agriculture commodities.

Government policies to boost manufacturing in India

India's economic output is mainly driven by the high-productivity services sector, which contributes to 54% of the economic output. Industry accounts for a distant second at 31%, of which, manufacturing accounts for nearly 60%. Growth in manufacturing can not only increase jobs in the sector, but also reduce forex outgo on imported goods. Hence, the government has introduced several incentives to boost the manufacturing sector in India.

Infrastructure to drive construction sector growth in the medium-to-long term

Share of infrastructure projects is expected to grow faster in the next five years compared with the past five years, as the government focuses on infrastructure under the NIP, NMP and Gati Shakti. The central government's focus on roads, urban infrastructure and railways will boost infrastructure investments.

Infrastructure and industrial investment growth – review and outlook

Sector	FY18-FY22 CAGR	FY22 (Rs trillion)	FY23 (Rs trillion)	FY24P y-o-y growth	FY23-FY27P to FY18-FY22 ratio
Infrastructure (A)	12%	5.7-5.9	6.9-7.1	18-20%	1.9x
Roads	13%	2.7-2.8	3.1-3.3	20-25%	1.9x

Note: E – Estimated, P – Projected
Source: CRISIL MI&A CONSULTING

Of the total capex, the Centre is expected to contribute just one-third, with the states accounting for the rest. Roads and railways dominated by public funds are expected to lead growth in infrastructure.

Total budgetary allocation on capital expenditure in infrastructure for fiscal 2024 saw a 14% rise over the revised estimates for fiscal 2023 to Rs 9.5 lakh crore with roads and railways being the biggest beneficiaries. Of this, Rs 5.4 lakh crore will be through budgetary support, with the remainder from internal and extra budgetary resources and grants in aid for capital creation. Share of infrastructure projects is expected to increase to 65-70% in the next five years as against 55-60% in the past five, as infrastructure investments are seen growing faster than the other two segments due to the government's focus on infrastructure under the NIP, NMP and Gati Shakti. The central government's focus on roads, urban infrastructure and railways will boost infrastructure investments.

PLI scheme to drive industrial investments in the short-to-medium term

The PLI scheme's prime objective is to make manufacturing in India globally competitive by removing sectoral disabilities, creating economies of scale, and ensuring efficiency. It is designed to create a complete component ecosystem in India and make the country an integral part of the global supply chain. Furthermore, the government hopes to reduce India's dependence on raw material imported from China. The scheme is expected to boost economic growth over the medium term and create more employment opportunities, as many of the sectors covered under the scheme are labour intensive. It will be implemented over fiscals 2022 to 2029.

A time-bound incentive scheme launched by the Government of India, the PLI scheme rewards companies in the 5-15% range of their annual revenue based on the companies meeting pre-decided targets for incremental production and/or exports and capex over the base year. The stronger-than-expected pickup in demand and larger companies gaining share from smaller companies led to revival of capex in fiscal 2022. The rise in this fiscal is on account of the expansion plans underway by India Inc.

Construction spends across industrial investments in fiscal 2024 are seen rising 6-8% driven by expansion in the oil and gas, and metals segments. Growth will be on a low base of fiscal 2023, when the sector faced slight bump due to geopolitical issues in fiscals 2021 and 2022. However, the PLI scheme is expected to provide the necessary boost to the sector.

The stronger-than-expected pickup in demand and larger companies gaining share from smaller companies also led to revival of capex in fiscal 2022. Based on an analysis of eight key sectors, CRISIL MI&A Consulting estimates construction investment in the industrial segment at Rs 4.0-4.1 lakh crore between fiscals 2023 and 2027, 1.3 times higher the spends seen in fiscals 2018 to 2022. The rise in investments is projected due to inclusion of the PLI scheme in the capex investments of industrial sector. While the PLI scheme entails 13 sectors, we have only considered one capex-intensive sector, viz., auto.

An outlay of Rs 440.38 billion for automobiles, auto components and advanced chemistry Cell (ACC):

- Rs 259.38 billion allotted for enhancing India's manufacturing capabilities or automobile and auto component industry. The scheme has two components: Champion Original Equipment Manufacturers (OEM) Incentive Scheme and Component Champion Incentive Scheme. Total 95 applications have been approved under this PLI scheme
- Rs 181 billion under the National Programme on Advanced Chemistry Cell Battery Storage scheme, for achieving manufacturing capacity of 50 gigawatt-hour of ACC. Four companies have been selected under the PLI scheme for ACC battery storage till date

PLI scheme for the automotive industry

The PLI scheme for the automotive industry intends to promote high-tech green manufacturing, such as electric and hydrogen fuel cell vehicles. This scheme excludes conventional petrol, diesel, and compressed natural gas (CNG) segments (internal combustion engines), as they have sufficient capacities in India.

The PLI scheme targeting auto parts comprises the following components:

- Champion OEM Scheme: It is a sales value-linked plan, applicable to battery electric and hydrogen fuel cell vehicles of all segments.
- Champion Incentive Scheme: It is a sales value-linked plan for advanced technology components, complete- and semi-knocked down (CKD/SKD) kits, vehicle aggregates of two-wheelers, three-wheelers, passenger vehicles, commercial vehicles and tractors, including automobiles meant for military use and any other advanced automotive technology components prescribed by the Ministry of Heavy Industries – depending upon technical developments.

Make in India

The Make in India initiative was launched in September 2014, to give a push to manufacturing in India and encourage FDI in manufacturing and services. The objective of the initiative was to increase the share of manufacturing in GDP to 25% by 2020 by boosting investment, fostering innovation and intellectual property, and building best-in-class infrastructure for manufacturing across sectors, including, but not limited to, automobiles, auto components, aviation, biotechnology, chemicals, construction, defence manufacturing, electrical machinery, electronic systems, food processing, mining, oil and gas, pharmaceuticals, renewable energy, thermal power, hospitality and wellness.

To achieve this objective, a dedicated Investor Facilitation Cell has been set up to assist investors in seeking regulatory approvals and provide hand-holding services through the pre-investment phase, and execution and after-care support. Key facts and figures, policies and initiatives and relevant contact details were made available through print and online media. The Indian embassies and consulates proactively disseminated information on the

potential for investment in the identified sectors in foreign countries, while domestically, regulations and policies were modified to make it easier to invest in India.

Indeed, FDI inflows have received a leg up, as India jumped to the eighth position in the list of the world’s largest FDI recipients in 2020 compared with the twelfth position in 2018, according to the World Investment Report 2022. FDI inflows to India almost doubled to \$83.6 billion in fiscal 2022 from \$45.15 billion in fiscal 2015. India is on track to attract \$100 billion FDI this fiscal according to the Ministry of Commerce and Industry.

Domestically, multiple steps have been taken to improve, to make sectors more attractive and ease investment processes. Some of the major steps taken include launch of the NIP and reduction in corporate tax. Further, various sectors such as defence manufacturing, railways, space and single brand retail have been opened for FDI. Measures to boost domestic manufacturing have been taken through public procurement orders, Phased Manufacturing Programme, PLI scheme, etc. Many states also launched their own initiatives on similar lines to boost manufacturing.

Decoupling of global supply chains

To establish collective supply chains that would improve their resilience in the long term, 18 economies, including India, the US and the EU, unveiled a roadmap in July 2022, which included steps to counter supply chain dependencies and vulnerabilities. This was done as part of the ongoing supply chain derisking strategy of global companies/multinationals, wherein global companies are diversifying their businesses away from relying on a single large supplier, to alternative destinations. India can take advantage of the same as the enormous quantum of Chinese exports coupled with India’s cost advantage in manufacturing, would serve as a highly lucrative opportunity for Indian manufacturers. Realising this opportunity, the government has introduced many reforms and incentive schemes to increase domestic manufacturing and attract global manufacturing firms to India.

Atmanirbhar Bharat

Atmanirbhar Bharat Abhiyan or the self-reliant India campaign was launched in May 2020 amid the pandemic, with a special and comprehensive economic package of Rs 20 trillion, equivalent to 10% of the country’s GDP.

The scheme was launched with the objective of fighting the pandemic and making the country self-reliant based on five pillars: economy, infrastructure, technology-driven system, demography and demand. The stimulus package announced by the government under the scheme consisted of five tranches, intended to boost businesses, including micro, small and medium enterprises, help the poor (including farmers), boost agriculture, expand the horizons of industrial growth, and bring in governance reforms in the business, health and education sectors.

Near term outlook on agriculture, industrial and services GDP

In fiscal 2021, the agriculture sector’s share in gross value added (GVA) at constant prices expanded.

Agriculture GVA continued to grow at a steady 4.0% in fiscal 2023. Its share in GDP increased during the fiscal. The share of the industrial sector in GDP grew 4%, led by utility services at a respectable 8% growth, higher than all other industrial sectors. Mining grew 5%, while manufacturing and construction added marginal momentum from a high base in fiscal 2022.

In fiscal 2023, the agricultural sector continued its growth momentum of ~4% on-year, thereby contributing to 15.1% share in GVA.

Industrial production

Infrastructure and construction goods propel growth

Industrial output measured by the Index of Industrial Production (IIP) rose 10.3% on-year in August compared with 6% previous month. The strong growth was the result of a revival in demand for export-oriented sectors, apart from healthy domestic demand and strong government capex.

Within manufacturing, infrastructure and construction goods once again saw the strongest growth – 14.9% (vs 12.4%). It was followed by capital goods (12.6%), primary goods (12.4%) intermediate goods (6.5%) and consumer durables (5.7%). Overall, IIP growth has been higher in the second quarter so far (8.2% in July-August), compared with 4.7% in the first quarter.

Domestic demand may remain supportive of growth. The latest Reserve Bank of India (RBI) survey shows consumer confidence reaching a four-month high in September. Manufacturers remain highly optimistic of the demand conditions, while bankers expect further improvement in loan demand in the second half of the fiscal.

Inflation outlook

We expect the RBI to look through the September quarter hump of fiscal 2023 but stay vigilant since headline inflation remains much above its Monetary Policy Committee's (MPC's) 4% target and risks are on the upside due to oil prices.

Uneven distribution of rainfall during the monsoon season, rising crude oil prices and tight global food supplies pose upside risks to inflation this fiscal. However, easing input cost pressures for manufacturers and moderating domestic demand are expected to ease core inflation. In the base case, we expect inflation to average 5.5% and MPC to maintain the policy rate and stance.

Rising demand for underlying assets to back disbursement growth

Auto finance disbursements had taken a hit in fiscal 2021 and remained muted for some segments in fiscal 2022 as well, due to the stress induced by the two Covid-19 waves. Disbursements are expected to pick up in fiscal 2024 supported by the revival in underlying sales, continued rise in vehicle prices along with a healthy offtake from the domestic front and the easing of chip shortage, which will ensure the industry clocking healthy disbursement growth.

On the asset front, CRISIL expects vehicle sales to recover for all segments in this fiscal, given the normalising economy, and replacement and pent-up demand driving volume growth.

In the case CVs, we expect demand to pick up with recovery in economic activity, driving utilisation rates. Replacement demand is likely to be positive in this fiscal since some replacement sales expected in fiscals 2020 and 2021, would have got deferred.

Annual growth in auto finance disbursement (% , y-o-y)

Segment	FY21	FY22	FY23	FY24E
Commercial vehicle – new	-6%	46%	24%	17-19%
Commercial vehicle – used	0%	11%	10%	11-13%
Tractor	22%	2%	15%	7-9%

Source: Industry, CRISIL MI&A CONSULTING

Overall, CRISIL MI&A Consulting expects a pickup in overall vehicle sales and improved loan-to-value (LTV) across segments in this fiscal, resulting in overall disbursements growing 16-18% in fiscal 2024.

CRISIL MI&A Consulting expects the LTV ratio to improve gradually as vehicle sales normalise post the global semiconductor shortage. We also expect NBFCs to maintain their market share vis-à-vis banks in fiscal 2022, after losing 50-100 basis points (bps) to banks in the previous fiscal. Banks will continue their dominance in segments such as PVs and start gaining share in the new CV segment as well.

Review and outlook on the Indian CV industry

Review of Indian CV industry

Trend in domestic CV industry

Between fiscals 2018 and 2023, domestic CV sales logged a CAGR of 2.4%. Over fiscals 2021 to 2023, domestic sales clocked a CAGR of 30.2%. Fiscals 2018 and 2019 witnessed strong recovery as compared to fiscal 2017 and a healthy 18-20% growth, supported by the government's focus on road and housing infrastructure development.

In fiscal 2020, the industry witnessed a sharp de-growth on a high base, owing to inventory adjustment on account of the transition to BS-VI emission norms. In fiscal 2020, demand for buses was impacted on account of safety regulations (emergency exit doors, fire detection and suppression, escape hatches and emergency lighting).

The pandemic brought the entire economy to a grinding halt when a nationwide lockdown was declared to contain its spread, thus affecting the profitability and sustainability of transporters because of the lack of freight demand. The industry, however, gained momentum afterwards as consumption demand and industry activity started gaining pace.

Segmental trends

M&HCV segment which includes intermediate commercial vehicle (ICV), medium commercial vehicle (MCV), heavy trucks (MAV haulage), tractor trailers and tippers contributes to 33%, MAV haulage constituting 8%, tippers 8%, and tractor trailers contributing 6% during the same period.

Over the past few years, the industry weathered major challenges on account of events such as demonetisation, the NBFC crisis, implementation of axle load norms, changes to insurance norms and transition to BS-VI emission norms. A culmination of these multiple factors, particularly post the second half of fiscal 2019, dampened demand for CVs.

Even during the pandemic, a lesser impact on rural areas and improved rural sentiment resulted in LCVs outperforming M&HCVs.

Segment-wise share in domestic wholesale industry

Source: SIAM, CRISIL MI&A Consulting

The medium and heavy commercial vehicle (MHCV) segment logged a 44% CAGR owing to government capital expenditure and demand from key sectors. Tractor trailers were the fastest-growing category in the MHCV segment, witnessing a growth of 105% CAGR between fiscals 2021 and 2023, followed by the MAV haulage and MCV haulage segments at 66% CAGR and 47% CAGR, respectively. Tippers grew at 28% CAGR, whereas ICVs clocked 22% growth during the same period.

Unprecedented demand for buses. Bus sales more than doubled in fiscal 2022 and 2023 off a very low base, fuelled by robust replacement demand and urbanisation.

Demand drivers for CVs in India

Increasing freight rates to aid in materialising deferred demand

In fiscal 2023, fuel prices constituted approximately 55% of transporter costs, exerting a considerable influence on their overall profitability. During this period, diesel prices experienced a modest increase of around 2%. Concurrently, freight rates also rose by an estimated 6%, signalling improved transporter profitability and heightened demand for freight services. These favourable factors are expected to boost CV sales, as the industry capitalises on increased demand in the transportation sector.

Stable agricultural output

Over fiscal 2023 to 2028, CRISIL projects 3-4% gross value added (GVA) growth in agriculture. In fiscal 2023, agri GVA grew at 4% over the previous year and is expected to remain steady in coming years.

Rabi output was favourable in fiscal 2023, supporting farmer incomes during the early months of fiscal 2024. In the current fiscal, kharif sowing was initially delayed due to the delayed monsoon. However, the overall kharif production was decent at an India level. Moreover, higher MSP allocation for fiscal 2024 and good prices in mandis have maintained positivity on-ground. With all-India rainfall at 6% below the long-period average (LPA) for June-September season, the rabi crop could be hit in certain regions as groundwater levels are not replenished adequately.

Healthy industrial growth

The Indian industry's GVA grew at a tepid pace of 3.7% between fiscals 2018 and 2023. After ~5% growth in fiscal 2019, industrial GVA contracted in the next two years amidst the unfavourable macroeconomic scenario and the Covid pandemic.

From the low base of fiscal 2021, industrial GVA bounced back rapidly in fiscal 2022 and grew at ~11.5%. Gradual improvement continued in fiscal 2023 at 4.4%. Industry GVA is expected to be robust over fiscals 2023 to 2028, driven by the government's focus on 'Make in India'. Improvement in infrastructure and higher expected corporate expenditure are likely to support the capex cycle going forward.

Government's focus on infrastructure

The National Infrastructure Pipeline (NIP) for fiscal 2019 to 2025 is a government initiative to develop infrastructure across the country and provide world class services to its citizens. The total capital expenditure in the infrastructure sector in India is projected at Rs 111 lakh crore between fiscals 2020 to 2025.

Sectoral break-up of NIP amounting to Rs 111 lakh crore at launch

Source: Department of Economic Affairs – NIP Volume I, CRISIL MI&A CONSULTING

The NIP plan aims to double infrastructure investment per year from the current average of Rs 10 lakh crore per year to Rs 22 lakh crore per year. Of the total NIP investment of Rs 111 lakh crore, Rs 44 lakh crore (40%) worth of projects are under implementation, Rs 34 lakh crore (30%) worth of projects are at the conceptualisation stage, and Rs 22 lakh crore (20%) worth of projects are under development. Almost 83% of project allocation indirectly benefits the CV sector in India, and this push for infrastructure is a major driver of growth.

Currently, further new projects have been added to the NIP programme and the total cost of projects under NIP stands at about Rs 183 lakh crore as per the India Investment Grid as of August 2023.

Focus on infrastructure and higher mining production to bolster tipper demand

The budgeted capex allocation for infrastructure ministries for fiscal 2024 has shown a 28% increase over fiscal 2023 RE (revised estimates) to Rs 18.6 lakh crore. Execution by the National Highways Authority of India (NHAI) will reach up to 14-15 km/day in fiscal 2027, as against ~11 km/day in fiscal 2021, aided by the Bharatmala project. Projects such as Sagarmala and investments in various irrigation projects will further drive MHCV demand. We expect coal production to expand at 4.5-5.5% CAGR between fiscals 2023 and 2028, while iron ore mining will also likely grow at 3.5-4.5% CAGR during this period, aiding tipper demand.

Capacity utilisation and profitability of transporters

Utilisation of transporters depends on:

- Availability of freight, driven by growth in industrial and agricultural production and port traffic
- Regulations on vehicle age, weight, permit and tax norms
- Improvements in road infrastructure, which improves the turnaround time

A rise in utilisation translates into better cash flow for transporters and, hence, augurs well for CV sales.

Factors influencing transporter profitability are:

- Freight rates and capacity utilisation
- Bargaining power
- Fuel cost and efficiency
- Capital cost

- Agency commission and wage cost
- Operating and maintenance costs, such as tyre prices and toll rates

The dynamics of the domestic freight transport services (DFTS) industry plays an important role in determining demand for CVs.

Replacement demand

LCVs are typically replaced every 6-8 years. Vehicles purchased between fiscals 2011 and 2013 were due for replacement in fiscal 2019. Replacement demand is expected to be particularly high for the sub-one-tonne segment, given its robust sales between fiscals 2011 and 2013. This strategic replacement cycle contributed to stable sales in fiscal 2019 and prevented a major decline in LCV sales in fiscal 2020 after robust sales in fiscals 2018 and 2019. The postponement of replacement volumes since fiscal 2020 has further supported LCV demand volumes in fiscal 2023 and is expected to sustain growth in fiscal 2024.

Jawaharlal Nehru National Urban Renewal Mission (JNNURM – I) buses sold during the peak seasons of fiscals 2011 and 2012 are expected to be replaced once funds are released by the central and state governments for purchase. This replacement is expected to gain pace, aiding long-term MCV bus growth. The government's mandate to replace private vehicles (such as vans) with school buses in some cities, is also expected to augur well.

Also, the centre's scrappage policy is likely to attract 600,000-650,000 MHCV vehicles for scrapping, thereby driving replacement demand.

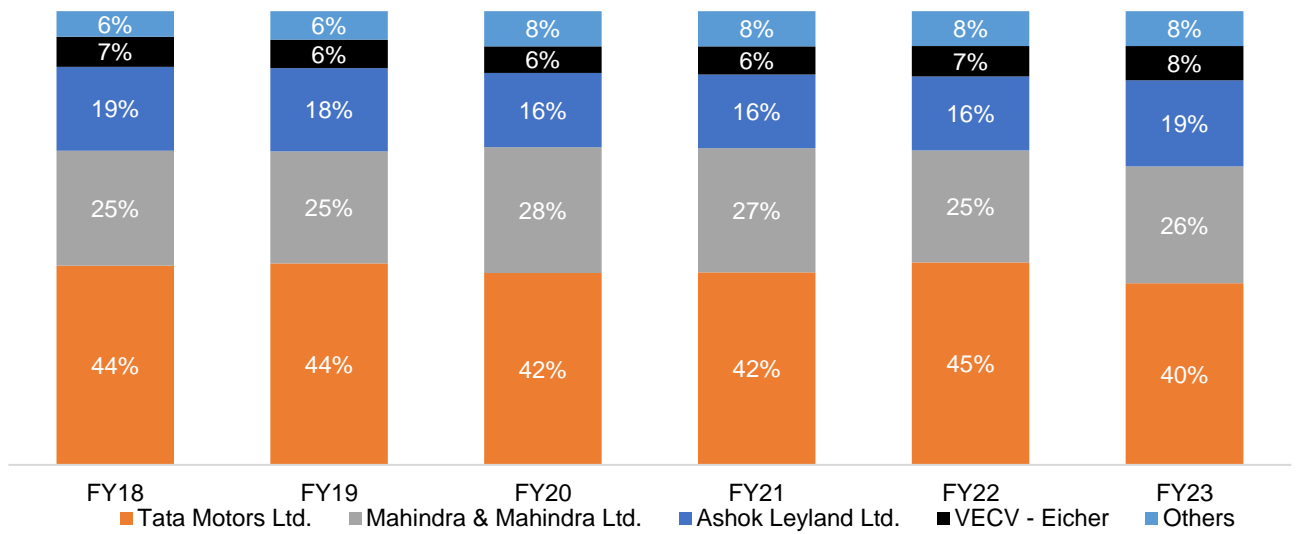

Scrappage policy

In August 2018, MoRTH considered incentivising the scrapping of vehicles sold before April 2005 (15 years old). After deliberations on the modalities of implementation of the norm, the government aims to promote vehicle scrapping by exempting registration charges for truck purchases made after scrapping older trucks. To incentivise scrapping of older vehicles, the government has increased the registration charges for older vehicles and increased stringency of fitness tests. These will entail higher costs for owners of older vehicles. Hence, by disincentivising the ownership of older vehicles, the government expects the scrappage of older vehicles to increase. We expect the impact of the norms to be limited on additional scrappage (apart from vehicles scrapped in the normal course of business). If transporters are able to be incentivised to scrap vehicles older than 15 years through higher incentives from the government and OEMs, we expect 600,000-650,000 MHCVs to be available for scrapping.

Key regulatory changes

Recent regulations for new commercial vehicles (CVs) such as the axle norm, bus body code, mandatory anti-lock braking system, speed governors, enforcement of BS-VI norms and a mandatory cabin ventilation system have already had an impact on the industry. We anticipate that the effects of newer fuel-efficiency standards, BS-VI phase 2 norms, truck body code, and new scrappage policy will be felt in the long run.

Axle load norms

In the second half of fiscal 2019, the Ministry of Road Transport and Highways (MoRTH) notified new axle load norms for CVs, which allow for an increase in the load-bearing capacity of trucks. The new norms were applicable to the entire fleet of freight-moving trucks – called the ‘population parc’.

New payloads stipulated for MHCVs

(in Tonnes)	MCV		MAV		T-Trailer		
Previous GVW	16	25	31	37	35	40	49
Previous Payload	9	16.5	21	26	23	27	35
Kerb weight	7	8.5	10	11	12	13	14
GVW as per new norm	18.5	28	35	42	39.5	45.5	55
New Payload	11.5	19.5	25	31	27.5	32.5	41
% increase in rated payload	28%	18%	19%	19%	20%	20%	17%

Source: CRISIL MI&A CONSULTING

Although new axle load norms increased freight-carrying capacity of trucks by ~20%, the benefit was availed by transporters ferrying bulk goods, which constitute 35-40% of the truck movement. The movement of bulk goods in billion tonne-kilometre (BTKM) terms via road fell marginally in fiscal 2020 amid the ~20% rise in capacity for bulk goods transporters. Therefore, bulk goods transportation via roads largely continued to face overcapacity, limiting new truck purchases.

After implementation of the axle norms, the payload of the erstwhile 37T would increase to 31T, which would be like the erstwhile payload of a 40T T-trailer. Also, the erstwhile 49T T-trailer’s payload has now increased from 35T to 41T. Rated load availability at the 41T mark is expected to be less than 35T.

Truck body code

All goods vehicles (>3.5T GVW) manufactured either by a vehicle manufacturer or a body builder on drive-way chassis vehicles had to comply with the provisions of AIS-093 (Revision 1) in two stages — the first stage of compliance in October 2018 and the second stage in October 2019. We believe compliance with this code led to a cumulative price rise of ~5%.

With standardisation in truck body building, there was consolidation among truck body builders as small players found it difficult to meet the testing requirements.

Fuel efficiency norms

To make heavy-duty trucks and buses more fuel efficient, the Ministry of Petroleum and Natural Gas, MoRTH and the Ministry of Heavy Industries are in talks to notify fuel efficiency norms. Vehicles are expected to meet the 'target diesel fuel consumption' value for a specific set of speeds depending on the vehicle's GVW, axle configuration and category (N3/M3).

Emission norms

The government issued Bharat Stage (BS) emission standards to regulate the output of air pollutants from motor vehicles. In January 2016, the central government decided to skip BS-V and transition directly to BS-VI norms, fixing April 1, 2020 as the deadline for introduction of these norms.

BS-VI phase 2 implemented from April 2023 entailed an addition of on-board self-diagnostic device (OBD2) to monitor real-time emissions. The addition of OBD2 will also require upgrades to hardware and software of the vehicles to comply with the new norms which resulted in a price hike of 2-4%.

Higher safety measures for buses

Safety regulations on vehicle tracking and panic buttons were introduced in January 2019. Later, regulations related to the fire detection system, escape hatches, emergency lighting and emergency doors were implemented in April 2019. These regulations resulted in bus prices increasing by Rs 65,000, in addition to regular price increases.

Air-conditioned driver cabins

The Indian government's approval of mandatory air-conditioning (AC) systems in truck cabins for categories N2 and N3, effective January 2025, is set to improve working conditions for truck drivers and address driver fatigue concerns, ultimately enhancing road safety. The new regulation will require truck manufacturers to sell vehicles with pre-fitted AC cabins, incurring an extra cost. Despite the initial financial impact, the long-term advantages in terms of driver well-being and overall efficiency are likely to outweigh the costs.

Overall, in fiscal 2022, disbursement demand picked up for most players due to an increase in private consumption and freight demand, leading to 46% growth. HCVs saw higher growth in disbursements compared with LCVs.

Disbursements in fiscal 2024 will show an uptick over a high base as wholesale sales are expected to pick up, aided by a higher replacement volume, an economic recovery and higher government spend on infrastructure. Prices for OEMs will also see a slower rise of 3-4% in fiscal 2024, due to heavy cash discounting expected at dealer levels, which would push up sales and further support volumes. Financing penetration is expected to remain high and LTVs are expected to inch up.

The top 20 cities account for 40-45% of the total outstanding CV financing portfolio. These cities account for a greater share of MHCV loans, which have an average ticket size of Rs 1.2 – 1.3 million compared with a ticket size of Rs 0.35 – 0.45 million for LCVs.

Outlook of the Indian CV industry

Domestic sales outlook

In recent years, the CV industry has evolved significantly under the influence of several factors. Sweeping changes have impacted not only the industry, but major players, particularly transporters who form the backbone of the sector. Some of the key events are listed below:

- Demonetisation, the withdrawal of high-denomination currency notes in 2016, materially impacted the CV industry by prompting a shift towards digital transactions, which increased transparency and accountability in the sector.
- Introduction of the GST in 2017 revolutionised the way goods were transported across state borders. It streamlined logistics operations by removing state-level taxes and entry barriers, reducing transit time and costs.
- The adoption of BS-VI emission norms in 2020 pushed the CV industry towards producing cleaner and more environmentally friendly vehicles. While it posed initial challenges due to the need for technological upgrades, it has since encouraged innovation and the development of greener transportation solutions.
- The enforcement of stringent safety regulations has been a crucial aspect of the CV industry's evolution, leading to the incorporation of advanced safety features in CVs, reducing the risk of accidents and improving road safety.
- The pandemic-induced lockdowns, supply-chain disruptions and decrease in demand for transportation services disrupted business operations. However, it also accelerated the adoption of digital solutions, remote monitoring and contactless delivery methods, making the CV industry more resilient.

These changes have influenced the profitability and sustainability of transporters, who play a pivotal role in the CV industry. The initial investment required for BS-VI compliance or the pandemic-induced disruptions, they have also opened up new opportunities for growth and efficiency.

One particularly significant change over the past few years is the evolving preference among transporters for larger trucks, driven by their superior cost economics, as detailed below.

- Shifting preferences: Historically, a diverse range of vehicle sizes catered to varied transportation needs. However, now transporters increasingly favour larger trucks over smaller ones. The shift in preference is underpinned by several compelling factors.
- Cost efficiency: Larger trucks are more cost efficient. They can carry more goods in a single trip, leading to lower fuel consumption per unit of cargo transported and significantly reduced labour costs, as fewer drivers are required to move the same volume of goods. The economies of scale associated with bigger trucks have made them an attractive choice for transporters looking to maximise their profit margins.

- Versatility: Larger trucks are often designed to be versatile, capable of transporting a wide variety of cargo types, from perishable goods to heavy machinery. This allows transporters to diversify their services, tap into multiple markets and adapt to changing customer demands more effectively.
- Competitive advantage: Transporters recognise that operating larger trucks can provide a competitive edge. The ability to handle larger volumes of cargo can lead to stronger negotiations with shippers and better utilisation of resources, ultimately contributing to a more profitable business model.

Transformation in market dynamics is notably reflected in the sales volume of trucks, characterised by the increasing prominence of higher tonnage segments that have steadily expanded their market share. Growth has, in turn, led to a gradual erosion of the market share of smaller tonnage vehicles. This can be seen from the quarterly sales figures of MAVs and tractor trailers:

Figure 37: GVW trend in MAV sales

Source: CRISIL MI&A CONSULTING

GVW trend in tractor trailer sales

Source: CRISIL MI&A CONSULTING

The CV market is expected see a constant rise in vehicle tonnage, which is expected to significantly change the industry's landscape. Market dynamics are changing significantly as the industry's average payload rises,

especially increasing intensity of trailer axles for CV trucks.

The driving force behind this transformation is the escalating demand for higher tonnage vehicles. Heavy-duty trucks, weighing 42-tonne or 48-tonne, are becoming more commonplace on the roads. Unlike their lighter counterparts, these massive vehicles require a greater number of parts and components to operate. This fundamental shift translates into a notable increase in production costs for these CV trucks. To put this into perspective, a typical 19-tonne or 28-tonne truck may consist of 2-3 axles, while a 42-tonne or 48-tonne truck can have as many as five axles.

The CV industry recovered spectacularly in fiscal 2023, with a 34.5% growth rate on-year, reaching 96% of pre-pandemic wholesale levels. The industry in India is expected to grow steadily in fiscal 2024, reaching pre-pandemic levels. Increased government spending, robust replacement demand and strong end-user sectors such as construction and mining are expected to contribute to growth.

LCV sales are projected to grow at a moderate rate of 1-5% in fiscal 2024, supported by sustained replacement demand with rising competition from electric three-wheelers, especially for the sub-one-tonne segment restricting further expansion. The surge in sales can be attributed to robust replacement demand, especially in the sub-one-tonne category, which was deferred due to economic challenges and the pandemic.

Due to government capital expenditure and demand from key sectors, the MHCV segment is expected to grow at a 4-8% annual rate. Bus sales are expected to increase 11-15% in fiscal 2024, owing to strong replacement demand and urbanisation trends. CNG adoption has been hampered, affecting LCV sales. The CV industry, led by MHCVs, is expected to grow steadily over the next five years.

Over the long term, domestic CV sales are projected to record a 3-5% CAGR between fiscals 2024 and 2029, led by a 4-7% CAGR in the LCV segment, 4-7% CAGR in the ICV segment, (5)-(3)% CAGR in the MCV segment, 1-3% CAGR in the MAV Haulage segment, 1-3% CAGR in the Tractor Trailer segment, 2-4% CAGR in the Tipper segment and 1-3% CAGR in the bus segment.

Domestic sales outlook of CVs

P: Projected; E: Estimated,
Source: SIAM, CRISIL MI&A CONSULTING estimates

Sales of CVs are anticipated to increase 3-5% on-year in fiscal 2024, reaching the pre-pandemic levels seen in fiscal 2019. Increased public spending and strong replacement demand support this trajectory. This upward trend is expected to be aided by important end-user industries, especially mining and construction, which are expected to maintain their robust demand.

End-use sector outlook (between fiscals 2023 and 2028P)

Key end-use segments and outlook		
Sectors	Growth outlook (FY23-FY28)	Key aspects
Coal	5-6%	Growth in coal-based power generation Demand from allied sectors such as cement and sponge iron
Steel	6-7%	Building and construction, the major demand creator in this segment Demand to be driven by rural housing/affordable housing and commercialisation of Tier III/IV cities
Cement	5-6%	Infrastructure demand also plays an important factor according to National Infrastructure Pipeline (NIP)
Port movement	2-5%	Iron ore exports to support growth, as global demand for steel improves. POL trade (imports) particularly in LPG poised to go up
Road investment	8-12%	NIP to drive infrastructure investments on roads and highways. CRISIL MI&A CONSULTING expects the Government of India (GoI) to achieve 80-85% of its targeted investments
E-commerce	20-25%	Food, fashion and grocery segments to grow at a faster rate as penetration improves. E-retailers to focus on expansion in Tier I/II cities over this period

MHCVs set to thrive in the coming five years

The MHCV industry is expected to grow at a compound annual growth rate (CAGR) of 2-4% from fiscals 2024 to 2029.

Long-term MHCV sales are likely to be driven by several factors, including the country's improving industrial activity, consistent agricultural output and the government's continued emphasis on infrastructure development. However, volume growth may be limited due to efficiencies gained from the implementation of the Goods and Services Tax (GST), improved road infrastructure and the commissioning of dedicated freight corridors (DFCs). Nonetheless, the industry remains on a promising growth trajectory in the coming years.

Over the next five years (fiscal 2024-2029), industry GVA is expected to be robust, driven by the government's emphasis on "Make in India." Furthermore, infrastructure improvements and higher-than-expected corporate spending are expected to support the capex cycle after fiscal 2023.

Bus demand to witness strong growth over the next five years

Domestic bus sales are expected to grow at a CAGR of 1-3% between fiscals 2024 and 2029. Increased demand for inter-city/state travel will drive growth supported by improved road infrastructure and higher personal disposable income. The unregulated segment, which primarily serves demand from schools, businesses, and intercity travel through private operators, will continue to be the largest end-user. However, the implementation of metro-rail and monorail in several cities would have an impact on future bus sales growth. In terms of penetration (buses per 1,000 people), India ranks last among the countries studied, with one bus per 1,000 people and a 35% urbanisation rate.

Emerging trends in the CV ecosystem

Alternate fuels

The adoption of alternate fuels in commercial vehicles has gained significant momentum in recent years, driven by the need for low emission solutions to address environmental concerns, reduce the dependence on fossil fuels and achieve zero emission transportation. Three prominent alternatives that have garnered attention are electric vehicles (Evs), natural gas and hydrogen-powered vehicles.

Hydrogen is also being explored as an alternative fuel for commercial vehicles through fuel cell and hydrogen

ICE powertrains. Hydrogen-powered trucks and buses offer a long range and faster refuelling times compared with Evs. They emit only water vapour as a by-product, making them attractive from an emission standpoint. MoRTH has framed draft rules for approval of hydrogen ICE vehicles under M and N category and MNRE has introduced the National Green Hydrogen Mission to incentivise commercial production of green hydrogen and make India a net exporter of the fuel.

Truck aggregation

The truck aggregation trend has witnessed significant growth over the past few years. This model involves online platforms that connect truck owners and transporters with businesses requiring freight services. It has transformed the traditional trucking industry by enhancing efficiency, reducing empty miles, and providing better load utilisation. Truck aggregation platforms such as BlackBuck, Rivigo, and TruckSuidha have gained prominence by streamlining logistics through digital solutions.

Telematics and connectivity

Telematics involves the integration of telecommunications and informatics to enable real-time communication and data exchange between vehicles, fleet managers and centralised systems. Commercial vehicles are equipped with a global positioning system (GPS), sensors and communication devices, enabling fleet operators to monitor real-time parameters such as location, fuel consumption, speed and driver behaviour.

Electrification in HCV goods vehicles

EV adoption in the HCV segment is expected to be negligible in the near future as the operational profile makes Evs highly expensive. Further, the current charging infrastructure is not suitable for larger HCV batteries, which will make electric adoption unviable for some time.

Electrification in passenger vehicles (buses)

Due to government support through the FAME scheme and the focus on quicker adoption of Evs in public transport, there has been a significant increase in electric bus sales over the last couple of years. The operational profile of buses with fixed routes and regular stops make them suitable for charging at pre-determined intervals and specific locations. However, sales of electric buses are unlikely to meet the target in fiscal 2021 due to the pandemic and hence, we expect the subsidy amount to get carried over to the coming years. CRISIL Research expects FAME subsidies to get extended for buses as the policy period ends in fiscal 2023.

Tractor industry: Review and outlook

Review

Historic domestic tractor industry

In fiscal 2022, domestic tractor demand dropped 6.4% on-year after growing 26.6% in fiscal 2021. Price hikes by OEMs, higher inventory at dealerships, lower commercial demand, negative farmer sentiment owing to rising cost of cultivation, low fertiliser availability and increase in other expenditure (such as marriages and other social occasions) hampered the demand.

A large part of domestic tractor sales is driven by replacement demand. The typical holding period for a tractor is 6-9 years. Most of the tractors in the country is replaced within 7-8 years. Of the domestic demand, 50-60% constitute replacement demand. In states with high penetration of tractors, such as Punjab and Haryana, the replacement demand accounts for 70-80% of total sales.

Irrigation intensity and monsoons

Irrigation plays a vital role in determining the demand for tractors. The irrigation spend, which increased significantly in the last two decades, have aided both irrigation and cropping intensity, thus leading to higher and stable farm incomes. Irrigation intensity is expected to improve further over the medium term, thus supporting tractor sales. Punjab and Haryana have the highest irrigation intensity and also account for the highest tractor penetration in India. Thus, as irrigation facilities improve in other parts of India, tractor penetration will see a corresponding increase.

Landholding pattern

The average landholding size in India is very low at 1.16 hectares (ha) as against the world average of 3.7 ha, with about 68% of the farmers being marginal farmers (holding less than 1 ha). With the proportion of landholdings below 2 ha being very high, consolidation of landholdings will drive demand in the long run.

MGNREGA spending

MGNREGA is an employment-generating and asset-creating scheme of the central government and make up a large portion of the expenditure budget of the Department of Rural Development. It is a social safety net scheme and is driven by demand. So, periods of rural stress or shocks result in higher-than-budgeted spending under this scheme. In fiscal 2023, the budget allocation for MGNREGA was Rs 73,000 crore. In fact, the actual spends under the scheme have on average been higher than the budgeted amount in the past.

Cropping pattern

State governments are encouraging and educating farmers to improve farm productivity to boost their incomes. To improve farm productivity, they are urged to take up multiple cropping. Farmers will find use of tractors extremely helpful in this context as they quicken the operations. Farmers will be able to move on to the next crop faster with the use of tractors.

Increase in cash crop production

Extensive cultivation of cash crops has yielded higher incomes for farmers and boosted tractor demand. Over the years, cultivation of cash crops has been rising in terms of the land area and the share of output.

Nature of soil

Smaller tractors are more suitable for soft soil conditions, as conducting agricultural operations in such conditions requires low-power tractors. In India, the northern states of Punjab and Haryana and the western parts of Uttar Pradesh have relatively soft soil. Hence, the demand for small tractors is high in these regions. In the southern and western regions, the soil is relatively hard, thus requiring medium and large-sized tractors.

Crop mix

The crop mix and the nature of crops cultivated have a significant role in determining the choice of a tractor. Medium and large tractors are preferred for the cultivation of cash crops such as sugarcane and cotton, which demand high intensity activities and for which timeliness of operations is significant. Similarly, high-power tractors are preferred in the case of intensive farming and multiple cropping, land bed preparation, harvesting and when transportation needs to be quick.

Replacement demand

The lifespan of a tractor is estimated at 18-20 years, though in actual it may vary depending on the soil and cropping conditions. Usually, farmers prefer replacing their old tractors with upgraded, high-power vehicle. Hence, given the increasing income levels replacement demand in states such as Punjab and Uttar Pradesh would be high for high-power tractors.

PMGSY completion trend

The Pradhan Mantri Gram Sadak Yojana (PMGSY) is a one-time special intervention to provide rural connectivity, by constructing a single all-weather road, to the eligible unconnected habitations in the core network with a population of 500 persons and above (Census 2001) in plain areas.

Despite the challenges, the progress under PMGSY has been satisfactory. The vertical-wise details of achievement under the PMGSY (overall) are as follows:

Demand drivers

Tractor demand in the country is mainly dependent on farmer incomes from agricultural operations, which, in turn, gets impacted by various factors such as monsoon, crop prices, government procurement, etc. The government regulation governing rural infrastructure development also affects non-farm tractor demand, which accounts for roughly 20-25% of overall domestic demand for the vehicles. Additionally, availability of formal financing channels also supports the demand.

Competition

The structure of the domestic tractor industry has remained largely steady over the years.

Player-wise domestic market share (volume-wise): M&M gained significant market share last fiscal

Source: CRISIL MI&A CONSULTING

Going forward, CRISIL Research expects the competition in the industry to intensify further. However, the top five players will continue to account for 85-90% of the industry by volume. A strong distribution network, brand recall, captive financiers and diverse product range are critical to maintain market position in the tractor industry.

From fiscal 2023 to 2028, exports are expected to grow at 2-4% CAGR amid higher demand from the US and other Asian and European countries.

>51 hp segment dominates tractor exports

Over 51 hp tractors, which accounted for ~54.8% share in India's tractor exports in fiscal 2022, rose to 61.7% in fiscal 2023.

ITL, John Deere and Escorts have been focusing on growing their exports to insulate themselves from cyclic domestic market demand. The market share of ITL increased from 25% in fiscal 2021 to 27% in fiscal 2022, and further to 28% in fiscal 2023. Escorts reduced exports from its Poland factory and has started exporting from India. Mahindra Tractors is a dominant player in exports to the US and Asian countries. John Deere has been exporting to the US, its home country, from its Indian manufacturing plant.

Outlook of Indian tractor industry

CRISIL MI&A Consulting projects domestic tractor sales to increase at a steady pace over fiscals 2023 to 2029, factoring 1-2 years of erratic monsoon, with healthy sales forecast for the remaining years. To be sure, the tractor segment is cyclical.

During fiscals 2018 to 2023, the industry had registered a 5.4% CAGR, owing to healthy sales in fiscals 2018, 2021 and 2023.

Growth up to fiscal 2029 will be on the back of low tractor penetration in the country (three tractors per 100-hectare area), government’s focus on improving farm incomes through various schemes, promotion of farm mechanisation, and investments to improve rural infrastructure.

Tractor industry sales expected to increase 3-5% between fiscals 2023 and 2029

E: Estimated; P: Projected

Source: CRISIL MI&A Consulting

In fiscal 2024, replacement demand is expected to rise 4-6% on-year on the back of healthy sales registered in fiscals 2017 and 2018. In fiscal 2023, replacement demand is estimated to have risen 0-2% on account of advancement in purchases amid positive farmer sentiment.

Key growth drivers

Farm mechanisation improving across India

Although farm mechanisation has been increasing in India, its progress across states varies widely. The northern states of Punjab, Haryana and Uttar Pradesh have already achieved high levels of mechanisation, with sales driven primarily by replacement demand. The pace of mechanisation, though, is slower in eastern states, thus providing potential for sales growth.

Increasing non-farm usage of tractors

Farmers primarily purchase tractors for agricultural operations, but also use these for commercial purposes. Taking into consideration the short period that tractors are deployed on farms, farmers look for alternate uses such as renting it out to other farmers or to rural contractors involved in construction activities.

Currently, non-farm usage accounts for 30-35% of domestic tractor demand.

As tractors are used only for short periods on farming activities, it is not economically viable for farmers to deploy them solely for farming purposes. Hence, going forward, tractors rural construction and transportation will also gain prominence in tractor usage, apart from agriculture.

Commercial demand for tractors accounts for 18-23% of overall tractor demand.

Commercial demand expected to rise

E: Estimated; P: Projected

In fiscal 2024, tractor demand for commercial use is expected to rise, owing to anticipated increased in construction and sandmining activities.

Rental model and low-cost tractors key to penetrating fragmented land holdings in India

Despite India having considerable arable land, the land-holding pattern is fragmented. With small and marginal (less than 2 ha) land holdings comprising over 80% share, most farmers are unable to afford tractors. They instead rent tractors or buy small tractors to improve productivity, a trend that is rapidly gaining ground.

India's agriculture ministry has also developed a farm equipment rental app for farmers that lets them hire tractors, rotavators and other farm related machinery with flexible tenure.

Segment-wise tractor sales shifting towards higher horsepower

The 41-50 hp segment has maintained its dominant share because of multiple applications in agriculture and haulage. Bulk of the implements available are also better-suited for 41-50 hp tractors.

Segment-wise break-up of the tractor industry

The major factors that cumulatively influence hp demand are:

- Irrigation: Increased irrigation leads to higher and stable income streams to purchase higher hp tractors. For instance, Punjab and Haryana (despite soft alluvial soil) have migrated to higher hp tractors
- Soil type: Extremely hard soil necessitates the use of higher hp tractors. Western Maharashtra, for instance, has hard black cotton soil; hence, 41-50 hp tractors are preferred.
- Commercial usage: High commercial usage of tractors in eastern and southern states also has increased the demand for relatively higher hp tractors.

Forging and machining components and assemblies

Description of select forging and machining components (Specific to components sold by Kross Ltd.)

Trailer part assemblies

- **Trailer Axle**

The trailer axle is a component of a trailer that supports the weight of the trailer and its cargo. It also connects the trailer wheels to the trailer frame. Trailer axles are typically made from high-strength steel to withstand the heavy loads and harsh conditions that they are subjected to. The design, technology used for development, backward integration and after-sale service provided are crucial aspects for trailer axle manufacturers.

Trailer axles are used in all types of trailers, from small utility trailers to large semi-trailers. They are also used in a variety of other vehicles, such as buses, RVs, and construction equipment.

The main types of trailer axle: Single Tandem and Tridem

- Single trailer axles are the most common type of trailer axle. They are typically used on smaller trailers, such as utility trailers and boat trailers.
- Tandem and Tridem axles are two axles that are mounted close together. They are typically used on larger trailers, such as semi-trailers and dump trucks. Tandem trailer axles provide better weight distribution and stability than single trailer axles.

A major aggregate in the trailer axle is the beam with spindle ends. In India, this is currently being manufactured by welding two C-Section to form a square and the end spindles are then welded on to the beam. However, in other jurisdictions, a different process is followed where ends of the seamless tube of the required thickness are heated, and the spindles are extruded at both ends simultaneously.

Some of the key players in this segment include York Transport Equipment (India) Private Ltd, RSB Transmissions (I) Ltd and BPW Trailer Systems India Private Ltd.

- **King Pins**

The king pin assembly is used on all Prime Movers i.e. For Tractor Trailers. The King Pin is the main connect between Chassis and the Trailer. It is the safety item and needs ARAI approval. It is made from alloy steel and heat treated.

- **Suspension – Mechanical and Air**

The Mechanical Suspension is used on the Trailers consists of Front Axle, Rear Hanger assembled on Leaf Spring, U Bolts and various other child parts. It is an important aggregate for the Trailer.

Other components

- **Axle shafts**

A rear axle shaft is a component of the rear axle housing on a rear-wheel drive vehicle. It provides the power to the tires to drive the vehicle. Axle shafts connect the wheels to the differential and transmit rotational power from the Differential to the wheels. These are typically made of high-strength alloy steel and are designed to withstand the high torque and loads associated with commercial vehicles. Axle shafts are used for Medium, Heavy, Light and SUV Vehicles. It is used 2 per vehicle in Tandem and in Multi Axle it is used 4 per vehicle. Axle shafts connect the wheels to the differential and transmit rotational power from the engine to the wheels. These are typically made of high-strength alloy steel, and are designed to withstand the high torque and loads associated with commercial trucks.

Some of the key players in this segment include Ramkrishna Forgings Ltd and Talbros Automotive Components Ltd.

- **Spindle**

The spindle is connected to rear axle housing and is stationary. It is welded to the Axle Beam and is supported in the Hub with two Bearings.

- **Coupling flange**

Coupling flanges are used in trucks to connect two shafts together. These are typically used to connect the driveshaft to the differential, or to connect the differential to the axles. Coupling flanges allow the shafts to rotate independently, but also ensures that these are properly aligned and that the rotational force is transferred efficiently between the two.

Coupling flanges are used in all types of trucks, from light-duty pickups to heavy-duty semis. The specific type of coupling flange used varies depending on the application. For e.g., light-duty trucks may use a single coupling flange to connect the driveshaft to the differential, while heavy-duty trucks may use a double coupling flange setup, with two coupling flanges per connection.

One of the key player in this segment includes Sunstar Precision Forge Ltd.

- **Differential spider**

Differential spiders are essential components of the differential in a truck. These are responsible for distributing the rotational force from the differential pinion gear to the differential ring gear, and then to the drive axles. This allows the wheels to turn at different speeds, which is necessary when the truck is turning or traveling over uneven

terrain.

Differential spiders are used in all types of trucks, from light-duty pickups to heavy-duty semis. The specific type of differential spider used will vary depending on the application. For e.g., light-duty trucks may use a single differential spider, while heavy-duty trucks may use two or more differential spiders.

One of the key player in this segment includes Mahabal Auto Ancillaries Private Ltd.

- **Clutch Release Forks**

The clutch fork is a lever that is used to disengage the clutch in a truck. It is connected to the clutch pedal and the clutch release bearing. When the clutch pedal is pressed, the clutch fork pushes the clutch release bearing against the pressure plate, which disengages the clutch. This allows the driver to shift gears or come to a stop.

Clutch forks are used in all types of trucks, from light-duty pickups to heavy-duty semis. The specific type of clutch fork used will vary depending on the application. For e.g., light-duty trucks may use a single clutch fork, while heavy-duty trucks may use a tandem clutch fork setup with two clutch forks.

Clutch forks are typically made from high-strength steel alloys that are designed to withstand the high torque and loads that they are subjected to. Clutch forks are also heat treated to improve their durability and resistance to wear.

- **Universal joint cross**

A universal joint cross, also known as a U-joint cross, is a mechanical device that allows two shafts to rotate at different angles. This is essential for trucks, as the driveshaft and axles must be able to move independently as the truck turns and travels over uneven terrain.

Universal joint crosses are used in all types of trucks, from light-duty pickups to heavy-duty semis. These are also used in a variety of other vehicles, such as cars, buses, and SUVs.

- **Gear assembly shifter**

A gear assembly shifter is a device that allows the driver of a truck to change gears. It is typically located on the floor of the truck, between the driver's and passenger's seats. The gear assembly shifter is connected to the transmission, and when the driver moves the shifter, it changes the position of the gears in the transmission, allowing the truck to accelerate or decelerate. Gear assembly shifters are used in all types of trucks, from light-duty pickups to heavy-duty semis. The specific type of gear assembly shifter used will vary depending on the application. For e.g., light-duty trucks may use Manual gear assembly shifter, while heavy-duty trucks may use an automated manual transmission (AMT) gear assembly shifter.

- **Steering assembly fork**

The steering assembly fork, also known as the steering knuckle fork, is a component of the steering system in a truck. It is attached to the steering knuckle and connects to the tie rod. The steering assembly fork allows the steering knuckle to pivot, which turns the wheels. Steering assembly forks are used in all types of trucks, from light-duty pickups to heavy-duty semis. They are also used in a variety of other vehicles, such as cars, buses, and SUVs.

- **Planetary carrier**

The planetary carrier is used on the heavy Trucks which have 9 Speed Gear Box. The Planet Carrier Assembly is used for meeting torque in the Gear Box. It is a critical component and a part of the transmission of the truck.

- **Inter-axle differential housing assembly**

The inter-axle differential housing assembly, also known as the inter-axle differential carrier, is a component of the drivetrain in a truck. It encloses and protects the inter-axle differential, which allows the front and rear axles of the truck to rotate at different speeds. This is necessary when the truck is turning or traveling over uneven

terrain. The Inter-axle Differential Housing Assembly is used on the Tandem Axle.

- **Pole wheel**

The pole wheel, also known as the reluctor wheel or ABS wheel, is a component of the anti-lock braking system (ABS) in a truck. It is a rotating disc that is attached to the wheel hub. The pole wheel has a series of teeth or slots that are detected by an ABS sensor. The ABS sensor uses the information from the pole wheel to determine the speed of the wheel.

Pole wheels are used in all types of trucks, from light-duty pickups to heavy-duty semis. They are also used in a variety of other vehicles, such as cars, buses and SUVs.

Bell crank assembly

The Bell Crank Assembly is used on all Multi Axle Trucks. The bell crank assembly is a mechanical device that is used to change the direction of a force. It is typically made up of a lever that is pivoted in the middle and two arms that are attached to the ends of the lever. The bell crank assembly is used in a variety of applications, including in the suspension systems of trucks.

In a truck suspension system, the bell crank assembly is used to transmit the force from the axle to the shock absorber. This helps to dampen the vibrations from the road and improve the ride quality of the truck.

One of the key player in this segment includes Kems Auto Components Ltd.

- **Anti-roll bar**

The anti-roll bar, also known as the stabiliser bar or sway bar, is a suspension component that helps reduce body roll in a truck. Body roll is the tendency of the truck to lean to the side when it is cornering or turning. Anti-roll bars help reduce body roll by connecting the opposite wheels of the truck together. When one wheel of the truck is raised, the anti-roll bar twists and applies a force to the opposite wheel, pushing it down. This helps to keep the truck level and reduces body roll.

Anti-roll bars are used in all types of trucks, from light-duty pickups to heavy-duty semis. They are also used in a variety of other vehicles, such as cars, buses and SUVs.

One of the key player in this segment includes Jamna Auto Industries Ltd.

- **Stabiliser bar assembly**

The anti-roll bar assembly, also known as the stabiliser bar assembly or sway bar assembly, is a suspension component that helps reduce body roll in a truck. Body roll is the tendency of the truck to lean to the side when it is cornering or turning. Anti-roll bar assemblies help reduce body roll by connecting the opposite wheels of the truck together. When one wheel of the truck is raised, the anti-roll bar assembly twists and applies a force to the opposite wheel, pushing it down. This helps keep the truck level and reduces body roll.

- **Trunnion pin**

The trunnion pin is a component of the suspension system in a truck. It is a cylindrical tube that connects the axle to the suspension hanger. The trunnion pin allows the axle to pivot and move up and down, which helps absorb the bumps and vibrations from the road. Trunnion pins are used on all heavy vehicles which have Bogie Suspension.

- **Bevel Gear Assemblies**

A differential assembly plays an integral role in how a vehicle turns. It is designed to drive a pair of wheels while allowing them to rotate at different speeds. Differential gears/assemblies find application in passenger vehicles (PV), commercial vehicles (CV), tractors, and construction equipment.

Tractor components

- **PTO and main shafts**

The PTO Shafts are used on Tractors in their Gear Box and this Shaft allows to drive the various types of implements which Tractor uses which is connected through PTO.

- **ARM hydraulic lift ram**

The ARM hydraulic lift ram is the part of Tractor's lifting device. All the implements used on Tractor have to be lifted according to its usage.

- **Assembly stub axle**

The spindle Front axle is used on the Front Axle of the Tractor. The one end of the Stub Axle is connected on the Hub and the other is connected to the Steering.

- **Rock shaft**

The Rock Shaft or Hydraulic Lift Shaft is used on the Tractors and they form part of the lifting arrangements. These are splined shafts and the center spline of the shafts is fitted on the Hydraulic Lift Arms.

- **Assembly control spring**

The assembly control spring in an aggregate of few forged parts along with the coil spring. This assembly is also used on the Tractor's lifting arrangements.

Kross Limited

Established in 1991, Kross Limited is a prominent manufacturer of a wide range of forged and machined components in India, with a growing export presence globally. It manufactures a wide range of high performance and safety critical components for the commercial vehicle and tractor segment.

Kross Limited is widely recognized as one of the prominent manufacturers of trailer axles & suspension assembly in India. It is one of the few players domestically, with the competency to manufacture trailer axles and suspension assembly-in house. The company has witnessed robust growth in the past 3 years (between fiscal 2020 and fiscal 2023), enabling the company to compete with major trailer axle manufacturers such as York Transport Equipment Pvt Ltd and BPW Trailer Systems India Pvt Ltd. The company utilises the latest design and manufacturing in developing products, thus enabling it to become one of the fastest growing player in the organised trailer axle manufacturing industry.

Kross Limited has a diversified product portfolio catering to the commercial vehicle and tractor industry. Key products manufactured by the company are companion flanges, axle shafts, rear end spindles, anti-roll bars, differential spiders, inter-axle kits, suspension linkages, universal joints and crosses, pole wheels, scam shafts and variety of tractor parts for the hydraulic lift arrangement, PTO shafts, and spindle front axles. Kross Limited is also a prominent manufacturer of differential spiders in the MH&CV segment.

Overview

We are a diversified player focused on manufacturing and supply of trailer axle and suspension assembly and a wide range of forged and precision machined high performance safety critical parts for medium and heavy commercial vehicles (“M&HCV”) and farm equipment segments. We are widely recognized as one of the prominent manufacturers of trailer axles and suspension assembly in India (*Source: CRISIL Report*). In 2019, we commenced manufacture and sale of trailer axle and suspension assemblies and have witnessed robust growth in the past three years (between Fiscal 2020 and Fiscal 2023) (*Source: CRISIL Report*). We have become one of the fastest growing player in the organised trailer axle manufacturing industry competing with major trailer axle manufacturers (*Source: CRISIL Report*). With over three decades of experience, we rely on our product development capabilities to design and deliver proprietary products such as trailer axle and suspension assembly. We are one of the few players domestically, with the competency to manufacture trailer axles and suspension assembly in-house (*Source: CRISIL Report*).

With a diversified portfolio of high performance and safety critical components for the M&HCV and farm equipment segments, we are a specialist in manufacturing of safety critical components for M&HCV segment which include axle shafts, companion flanges, anti-roll bars and stabilizer bar assembly, suspension linkages, differential spiders, bevel gears, planet carriers, inter-axle kits, rear end spindles, pole wheels and wide variety of tractor components for the hydraulic lift arrangement, power take-off (“PTO”) shafts and front axle spindles.

We supply our products to a diversified client base which includes large original equipment manufacturers (“OEMs”) manufacturing M&HCV and tractors, tier one suppliers to the OEMs in the M&HCV segment domestic dealers and fabricators for our trailer axle and suspension business. In the past we have been recognized by customers for the high-quality of the products supplied by us, which is one of the factors that has helped us establish long term relationships with several large domestic and global OEMs, including, Ashok Leyland Limited, a leading Indian automobile OEM and a Indian farm equipment OEM, each of whom we have been associated with for a period of more than 18 years and Tata International DLT Private Limited with whom we have been associated since 2019. Due to our track record and diverse product portfolio, we have also been able to attract new customers such as Leax Falun AB and a Japan based OEM manufacturing commercial vehicles. We have also commenced our bulk exports to Leax Falun AB, a Sweden based company manufacturing propeller shafts for commercial vehicle OEMs, in August 2023 with supplies of Universal Joint Crosses and are in stages of validation for other critical parts.

We are backward integrated with design, process engineering, forging, casting and machining capabilities which allows us greater control over process, timelines, pricing and quality. We believe that our in-house design capabilities have been instrumental in our success by allowing us to work closely with customers for design and development of high performance and safety-critical components and assemblies, such as, anti-roll bars and stabiliser bars, where we along with the OEM’s design team, conceptualised the design and framework of the product. For our trailer axles and suspension assemblies, we are also forward integrated with a network of sales and service locations across key states in India, as of the date of this Draft Red Herring Prospectus. Design, technology used for development, backward integration and after-sale service provided are crucial aspects for trailer axle manufacturers (*Source: CRISIL Report*). For our trailer axle and suspension assembly business, we operate our service on a mobile and on road basis, where once a complaint is registered by the customer, our service associate is deployed to the location of origin of the complaint to resolve the same. We have a custom service software developed by Sales force which gives us accurate tracking of service complaints as well as service history of the vehicle.

We operate out of five manufacturing facilities in Jamshedpur, Jharkhand, equipped with (i) forging presses and upsetters equipped with induction billet heaters, (ii) foundry with a high pressure mould line, (iii) high-precision machining equipment such as turning centres, vertical and horizontal milling centres, grinding, broaching, hobbing, shaping and robotic welding, (iv) in-house cathodic electro-disposition plant (“CED Plant”), powder coating, spray painting and (v) heat treatment furnaces and induction hardening equipment. Our manufacturing facilities (Units I, II, III, IV and V) have obtained ISO 9001:2015 for manufacture of axle shaft, PTO shaft, lift shaft, ring gear, bevel gear assembly and related parts from TÜV NORD CERT GmbH and IATF 16949:2016 quality certifications for manufacture of axle shafts, universal joints (for steering and propeller shaft), differential spiders, companion flanges, anti-roll bar, bevel kit assembly and trailer axle assembly from TÜV NORD CERT GmbH.

We currently manufacture a large variety of components and have the capacity to manufacture forged parts of up to 40 kg input weight. We enhanced our backward integration capabilities by establishing a new casting facility at Unit V, setting up a high-pressure mould line foundry along with a machine shop. We are in the process of expanding our capacity and increasing our product offerings through the expansion of our existing facilities, through the addition of further production lines, which will allow us to produce a new line of parts such as the hydraulic cover for tractors and in-house machining line of hubs and brake drums. For further details of the proposed expansion, see “*Objects of the Offer – Funding of capital expenditure requirements of our Company towards purchase of machinery and equipment*” on page 106.

Our Chairman and Managing Director, Sudhir Rai, has been an integral part in the establishment and growth of our Company and with over three decades of experience in the automotive component manufacturing industry, and has been instrumental in our continued growth. Most of the Key Management Personnel and the Senior Management Personnel of the Company have also been associated with us for more than a decade and have contributed to the growth of the Company through their commitment and expertise. We believe our experienced and dedicated senior management team also enables us to identify market opportunities, formulate and execute business strategies, manage customer expectations and proactively address changes in market conditions.

Our key performance indicators for the three-month period ended June 30, 2023 and for the last three Fiscals are as follows:

Notes:

- Gross profit is calculated as revenue from operations minus cost of raw materials and components consumed minus changes in inventories of finished products and work in progress.
- Gross Margin is calculated as gross profit divided by Revenue from Operations.
- EBITDA is calculated as restated profit for the period/ year minus other income plus finance costs, depreciation and amortisation expense and total tax expense.
- EBITDA Margin is calculated as EBITDA divided by Revenue from Operations.
- PAT Margin is calculated as restated profit for the period/ year divided by total income.
- Return on Equity is calculated as restated profit for the period/ year divided by total equity.
- Return on Capital Employed is calculated as EBIT divided by capital employed. Capital employed is calculated as total equity plus deferred tax liability plus lease liabilities (current and non-current) plus total borrowings while EBIT is calculated as restated profit for the period/ year plus total tax expense plus finance costs.
- Gross Fixed Assets Turnover Ratio is calculated as revenue from operations divided by Gross Block as at the end of the period/year.
- Net Debt to EBITDA is calculated as net debt divided by EBITDA. Net Debt is calculated as total of non-current borrowings and current borrowings minus total of cash and cash equivalents and bank balances.

For reconciliation in relation to the Gross Profit, Gross Margin, EBITDA, EBITDA Margin, Return on Equity, Return on Capital Employed, PAT Margin, Gross Fixed Asset Turnover Ratio and Net Debt to EBITDA, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Non-GAAP Financial Measures” on page 311.

Competitive Strengths

Long standing relationship with large OEMs and their tier one suppliers, domestic dealers and fabricators for our trailer axle and suspension business complemented by a diversified network of dealers for our trailer axle and suspension assembly business

In over three decades of our operations, we have established long-standing relationships with several well established Indian and global customers like OEMs Ashok Leyland Limited, Tata International DLT Private Limited, a leading Indian automobile OEM, a leading Indian farm equipment OEM, and global Tier I supplier for auto components. Our diversified product portfolio helps us cater to the requirements of a broad spectrum of customers which includes marquee domestic and global OEMs for the M&HCV segment and their Tier 1 suppliers, domestic dealers and fabricators for our trailer axle and suspension business and in the last three fiscals, we have served over 200 customers. We believe that the strength of our customer relationships is attributable to our ability to customize to customer specifications and requirements, as well as our track record of consistent delivery of quality and cost-effective products and solutions over the years. We partner with our key customers at various stages of product development, commencing from product design, validation and testing up to final manufacturing and delivery. This helps us understand customer requirements and future plans better, enabling us to forecast, plan and manufacture our products accordingly, thereby resulting in business optimization, improved productivity, efficiency and margins.

Set out in the table below are our revenues from operations from our top three and top five customers, based on our Restated Financial Information during the three month period ended June 30, 2023 and the Fiscals 2023, 2022 and 2021:

Particulars	Three month period ended June 30, 2023		Fiscal 2023		Fiscal 2022		Fiscal 2021

Top five customers	1,025.90	71.39%	3,340.95	68.37%	2,025.12	68.08%	1,448.32	78.81%

Over the years, for various OEM customers, we have developed relationships and received orders for a variety of products, including through our efforts to cross sell different products to our customers. Our manufacturing, designing and testing capabilities coupled with our diversified product portfolio has helped us develop and maintain long-term relationships with our customers. We believe that our long-standing relationships with our customers is also a result of the criticality, volume, and type of components we supply to them. Our proven track record and diverse product portfolio has helped us in attracting new customers such as Leax Falun AB and a Japanese OEM commercial vehicle manufacturer. We have already commenced our bulk exports to Leax Falun AB in August 2023 with bulk supplies of Universal Joint Crosses and are in stages of validation for other critical parts.

We have been recognized by our customers as a key supplier and were awarded the Silver award in Best Performance in Business Alignment by Ashok Leyland in 2023 and Durafit Range best vendor award for demand fulfilment east (2020-21) by Tata Genuine Parts at the Vendor Impact Programme 2021.

For our trailer axle and suspension business, we also have a diverse network of trailer fabricators and dealers to whom we sell our proprietary product. We have entered into exclusive agreements with three dealers, for marketing and sale of our products across identified geographies. As on date of this Draft Red Herring Prospectus, we have a network of sales and service representatives with ability to provide services across key states in India. Our team offers road side assistance to our customers, where once a complaint is registered by the customer, our service associate is deployed to the location of origin of the complaint to resolve the same.

We are widely recognized as one of the prominent manufacturers of trailer axles and suspension assemblies in India and one of the few players domestically with the competency to manufacture trailer axles and suspension assembly in-house

We have evolved from being a manufacturer of precision machined auto components to being a systems manufacturer by entering into manufacture of trailer axles and suspension assemblies in 2019. We have witnessed robust growth in the past three years (between Fiscal 2020 and Fiscal 2023), enabling us to compete with major trailer axle manufacturers (*Source: CRISIL Report*). As per CRISIL, the Commercial Vehicle market is expected to see a constant rise in vehicle tonnage, which is expected to significantly change the industry's landscape. Market dynamics are changing significantly as the industry's average payload rises, especially increasing intensity of trailer axles for CV trucks (*Source: CRISIL Report*).

As on date, our manufacturing capacity was 60,000 trailer axle and suspension assemblies per annum, while for the three month period ended June 30, 2023 we manufactured approximately 12,300 trailer axles and suspension assemblies.

The table below sets out the revenues generated from sale of trailer axle and suspension assemblies and as a percentage of our revenue from operations for the respective periods:

Particulars	Three month period ended June 30, 2023		Fiscal 2023		Fiscal 2022		Fiscal 2021		CAGR for Fiscal 2021 to Fiscal 2023

For further details of our manufacturing capacity and utilisation of our capacities, see “- *Manufacturing facilities and foundry*” on page 202.

Diversified product portfolio with a focus on continuous value addition

We are a diversified player involved in manufacturing and supply of wide range of forging and machined precision components and assemblies. We are widely recognized as a prominent manufacturer of trailer axles and suspension assembly in India and are also a prominent manufacturer of differential spiders in the M&HCV segment (*Source: CRISIL Report*). Further, we are a specialist in manufacturing high precision safety critical components which include companion flanges, axle shafts, rear end spindles, anti-roll bars and stabiliser bar assembly, differential spiders and inter-axle kits, bevel gear assembly, suspension linkages and trunnion pin, universal joints, gear joint assemblies, clutch release forks, pole wheels, input and output shafts, adapter ring gears, planet carrier assembly, cam shafts and wide variety of tractor components for the hydraulic lift arrangement such as control spring assemblies, arm rams, arm hydraulic lifts, PTO shafts and spindle front axles.

In the initial years of our operations, we focused on manufacturing components such as joint crosses and as we gained experience and expanded our engineering capabilities, we forayed into products that required higher levels of precision, strength, and durability. In the last three fiscals, we have offered a diverse suite of products to over 200 customers across M&HCV and farm equipment segments, domestic dealers and fabricators for our trailer axle and suspension business. We offer comprehensive one-stop solutions to our customers including design, process engineering and high precision manufacturing including foundry, heat treatment, fabrication, machining and assembly facilities.

We believe that our engineering and product development capabilities have helped us expand our product offerings by manufacturing complex and high precision products and assemblies. For example, in the last three Fiscals, we started manufacturing and supplying certain new products such as trailer axle, air suspension, mechanical suspension, input and output shafts, planet carrier, anti-roll bars, spline journals and universal cross for exports. We have invested in forging and machining equipment and developed processes and techniques for producing complex components with closed tolerances. We possess a wide range of engineering and product development capabilities, including die-designing, process design, cutting tool selection, and inspection and testing, enabling us to ensure manufacturing of high precision components to required designs and specifications. We currently manufacture a diverse variety of auto components and have the capacity to manufacture forged parts of up to 40 kg input weight.

Integrated manufacturing operations coupled with in-house product and process design capabilities which offer scale, flexibility and comprehensive solutions

We operate out of our five manufacturing facilities in Jamshedpur, Jharkhand which are equipped with capabilities to design, develop and manufacture our diverse product portfolio.

Below are the details of products manufactured at our manufacturing facilities:

We are backward integrated with design, process engineering, forging, casting and machining capabilities which allows us greater control over process, delivery timelines, pricing and quality. This reduces our dependence on third parties, streamlines our production process and improves our operational efficiencies. In addition, it also enables us to maintain control over the entire manufacturing process and also provide better delivery timelines to our customers at a more competitive cost. Further, our backward integration helps us in reacting to emerging trends and develop prototypes in anticipation of the same. We believe that our in-house design capabilities have been instrumental in our success by allowing us to work closely with customers for design and development of safety-critical components and assemblies, such as, anti-roll bars and stabiliser bars, where we along with the OEM's design team, conceptualised the design and framework of the product.

Our manufacturing processes, which primarily include die-designing, forging, casting, heat treatment, machining and inspection and testing, are undertaken in-house. This enables us to meet customer requirements or modifications to product specifications without relying on external vendors for job work. As a result, we can closely monitor product quality, control production expenses, and plan delivery schedules. Further, our in-house

die design capabilities and advanced manufacturing facilities enable us to produce high-precision and complex components with closed tolerances. Our die manufacturing is equipped with high-speed CNC VMCs. We have computer-aided design and computer aided manufacturing packages, software packages which help us create three dimensional (“3D”) models and we also have simulation software which enables us to simulate and manufacture with higher accuracy. Further, to maintain product quality, we use metallurgical testing equipment for elemental and material composition analysis, microstructure analysis, and mechanical properties testing, and perform non-destructive testing to detect surface cracks and defects.

Our ability to deliver high precision multi-purpose products is significantly enhanced by our dedicated product development team situated at our manufacturing facilities in Jamshedpur, Jharkhand. As of June 30, 2023, our product development team aggregated 20 employees, our product development capabilities are supported by design and development tools such as CAD/CAM software, forging simulation software, finite element analysis (“FEA”). With over three decades of experience, we rely on our product development capabilities and technical knowhow to develop and deliver proprietary products such as trailer axle and suspension, that have received market acceptance. Our product development team focuses on continually developing and customising our products and solutions. Further, our manufacturing facilities (Units I, II, III, IV and V) have obtained ISO 9001:2015 for manufacture of axle shaft, PTO shaft, rock shaft, ring gear, hubs and other ferrous parts from TÜV NORD CERT GmbH and IATF 16949:2016 quality certifications for manufacture of axle shafts, universal joints, propeller shaft parts, differential spiders, companion flanges, anti roll bar, bevel kit assembly, trailer axle assembly, hubs, brake drum and other ferrous parts from TÜV NORD CERT GmbH.

In line with our focus on bringing in operational efficiency, our manufacturing operations involve a degree of automation, and accordingly reducing the margin of error and inefficiencies typically associated with manufacturing processes operated manually. In addition, our extensive equipment and degree of automation has helped us to maintain our cost efficiency. Further, in order to enhance our backward integration capabilities, we intend to utilize part of the proceeds from the Offer towards funding of capital expenditure. For further details, please refer the section “*Objects of the Offer*” on page 104. We also intend to expand into axle beam extrusion and backward integrate into seamless tube. For further details, please refer the section “*Objects of the Offer*” on page 104.

With our manufacturing capabilities, enabled by capital expenditure undertaken by us in the earlier years of our business, we have the ability to provide comprehensive solutions for our customers. Our ability to manufacture high quality, intricate and safety critical products and components, may also be an entry barrier for other manufacturers that do not currently have such similar in-house engineering capabilities and production facilities. For further details, please refer to “- *Our Products Portfolio*” on page 192.

Experienced Promoters supported by a management and execution team with proven track record

We are led by an experienced management team that we believe has the expertise and vision to manage and grow our business. Our Chairman and Managing Director, Sudhir Rai, has been an integral part in the establishment and growth of our Company and with over three decades of experience in the automotive industry, and has been instrumental in our continued growth. Our business operations are led by Sumeet Rai, Promoter and whole time Director, our commercial portfolio is led by Kunal Rai, Promoter and whole time Director (Finance) and CFO, both of whom have over 9 years of experience in the automotive industry and our stores, supply chain and procurement are led by Anita Rai, Promoter and whole time Director and who has been associated with us since incorporation.

We also benefit from the experience of our Independent Directors, some of whom are professionals with extensive experience in manufacturing industries. Our Board of Directors is ably supported by a strong and long-standing management team comprising of K Suresh Babu, General Manager (Operation), Sandeep Kumar, General Manager (Sales), Ranjan Kumar Sarkar, General Manager (Forging), Bhupendrakumar Williyambhai Makwana, General Manager (Foundry) and Pawan Mehar, AGM-Quality, each of whom have experience in various fields ranging from operations, new product development to marketing. The extensive experience, skills and knowledge of our senior management is a key to our business growth. Our experienced and dedicated management team also guide and assist us to capture market opportunities, formulate and execute business strategies, manage client expectations as well as proactively manage changes in market conditions.

We also attribute our growth in part to our initiatives relating to the development of our human resources, by planning and executing recruitment, training and retention of our employee base. We believe that the knowledge and experience of our Promoters, along with senior and middle-management, and our team of sales and marketing

employees provide us with a competitive advantage as we seek to expand in our existing markets and enter new geographic markets. As of June 30, 2023, we had 490 permanent employees and 1,588 contractual employees. For details of the training initiatives and other programs undertaken by our Company for our employees, see “– Employees” on page 208.

We invest substantial resources towards employee training and development enables us to scale our operations while leveraging our existing employees.

Track record of sustained growth and strong financial performance

We have established a track of consistent revenue growth and profitability. The table below sets forth some of key financial information and ratios for the three month period ended June 30, 2023 and Fiscals 2023, 2022 and 2021:

(₹ in million except percentage data)

Particulars	Three month period ended June 30, 2023	Financial Year 2023	Financial Year 2022	Financial Year 2021	CAGR (Fiscal 2021 to Fiscal 2023) %

Note:

1. Gross profit is calculated as revenue from operations minus cost of raw materials and components consumed minus changes in inventories of finished products and work in progress.
2. Gross Margin is calculated as gross profit divided by Revenue from Operations.
3. EBITDA is calculated as restated profit for the period/ year minus other income plus finance costs, depreciation and amortisation expense and total tax expense.
4. EBITDA Margin is calculated as EBITDA divided by revenue from operations.
5. PAT Margin is calculated as restated profit for the period/ year divided by total income.

According to CRISIL Report, we were one of the fastest growing player in the organised trailer axle manufacturing industry. For further details, see “Industry Overview – Peer Comparison” on page 179.

For reconciliation in relation to the Gross Profit, Gross Margin, EBITDA, EBITDA Margin see “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Non-GAAP Financial Measures” on page 311.

Strategies

Expand capacities at our existing manufacturing facilities to increase manufacturing scale for our existing products and creation of new products

Due to the growth in our business and operations, our manufacturing units have been operating at or over 70% utilisation for the three month period ended June 30, 2023 and for each of Fiscal 2023, Fiscal 2022 and Fiscal 2021. In the three month period ended June 30, 2023 and each of Fiscal 2023, Fiscal 2022 and Fiscal 2021, our capacity utilization at three of our manufacturing units at Jamshedpur, Jharkhand was as follows:

Facility	Product	Three month period ended June 30, 2023			Fiscal 2023			Fiscal 2022			Fiscal 2021		
		Installed Capacity (in number of units)	Production (in number of units)	Capacity Utilization (%)	Installed Capacity (in number of units)	Production (in number of units)	Capacity Utilization (%)	Installed Capacity (in number of units)	Production (in number of units)	Capacity Utilization (%)	Installed Capacity (in number of units)	Production (in number of units)	Capacity Utilization (%)

Notes:

1. Installed capacity represents the installed capacity as of the last date of the relevant period
2. Assumptions and estimates taken into account for measuring installed capacities include 300 working days in a year, at 3 shifts per day operating for 8 hours a day
3. Production represents the quantum of production in the relevant manufacturing facility in the relevant Fiscal
4. Capacity utilization has been calculated on the basis of actual production in the relevant Fiscal divided by the annual available capacity during such period
5. Only select key products have been included as part of the table above.
6. MT represents metric tonne

We have in the past, invested significant amounts towards capital expenditure in order to expand our manufacturing capacities. In the three month period ended June 30, 2023 and each of Fiscal 2023, Fiscal 2022 and Fiscal 2021, we invested ₹ 39.24 million, ₹185.95 million, ₹ 123.18 million and ₹ 108.65 million, representing 2.73%, 3.81%, 4.14% and 5.91% of our revenue from operations for the respective periods, towards capital expenditure.

As part of our growth strategy, we intend to continue to invest in creation of additional capacities, both for our existing products as well as for creation of new products. Towards this end, we intend to utilise an amount of ₹ 700.00 million from the Net Proceeds towards expansion of our existing manufacturing units through funding of capital expenditure requirements of our Company towards purchase of machinery and equipment. Specifically, we intend to expand our casting plant through the addition of further production lines, which will allow us to produce new line of parts such as the hydraulic cover for tractors. We may also commence sale of castings, in

event of excess capacities. For further details, see “*Objects of the Offer – Funding of capital expenditure requirements of our Company towards purchase of machinery and equipment*” on page 106.

We also intend to enhance our capabilities in machining processes so that we can do in-house machining of hubs and brake drum and increase the share of value-added and high-margin components. From its first supply of universal joints to and Indian global OEM automobile manufacturer in the year 1996, our Company has diversified into several different product segments and customers. The components being manufactured for the M&HCV and farm equipment segments along with the contribution to sales for the three month period ended June 30, 2023 and the Fiscals 2023, 2022 and 2021 is as mentioned below:

Key products	Three month period ended June 30, 2023		Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Amount (in ₹ million)	% of total revenue from operations	Amount (in ₹ million)	% of total revenue from operations	Amount (in ₹ million)	% of total revenue from operation	Amount (in ₹ million)	% of total revenue from operations

We intend to install a new casting line which will have be capable of making bigger castings such as hydraulic lift covers for the tractor industry as compared to our existing casting line which has a box size of 710*710*250/300 suitable for making brake drums and hubs. We are also investing in in-house machining capabilities for hubs and brake drums which include CNC, VMC and CNC Vertical Lathe Machine. These castings have large amounts of scrap generated during machining which can be re used in the casting process. We believe this expansion of the in-house machining capabilities will help improve our margins and profitability.

The installation of new machinery and equipment will enable us to increase our production capacity, scale our operations, onboard new customers, introduce new products, and better serve our existing customers.

Create manufacturing capabilities in axle beam extrusion and backward integration capabilities into the seamless tube

As per CRISIL, the Commercial Vehicle market is expected to see a constant rise in vehicle tonnage, which is expected to significantly change the industry’s landscape. Market dynamics are changing significantly as the industry’s average payload rises, especially increasing intensity of trailer axles for CV trucks (*Source: CRISIL Report*). A major aggregate in the trailer axle is the beam with spindle ends. In India, this is currently being

manufactured by welding two C-Section to form a square and the end spindles are then welded on to the beam. However, in other jurisdictions, a different process is followed where ends of the seamless tube of the required thickness are heated, and the spindles are extruded at both ends simultaneously. (*Source: CRISIL Report*) This process is a single piece construction, and no welding is required, hence, benefiting the durability and providing cost efficiently.

As a part of our growth strategy, our Company seeks to pursue emerging opportunities, including axle beam extrusion and seamless tube manufacturing processes which would allow us to further backward integrate our operations and reduce our dependence on external vendors, enabling us to further reduce production costs.

In order to further enhance our backward integration capabilities, we intend to utilize part of the proceeds from the Offer towards funding of capital expenditure for expansion of axle beam extrusion. For further details, please refer the section “*Objects of the Offer*” on page 104. Further, we may also seek to set up a seamless tube mill in future, which would allow us to improve sourcing efficiencies and control costs. We continue to focus on further integrating our operations and benefit from economies of scale and improve operating margins. Further, these expansions may also allow us to benefit from expansion into product categories like TAG axles where we are not currently present. For instance, our Company is already in receipt of letter of intents for carrying out the development, manufacture, testing and validation and supply of TAG axles from few OEMs.

Our annualized installed capacity for trailer axle and suspension assemblies is 60,000 per annum as on date. For details of capacity utilisation for the three month period ended June 30, 2023 and the Fiscals 2023, 2022 and 2021, see “- *Installed Capacity and Capacity Utilisation*” on page 203. We intend to enhance our production capacity through additional capital expenditure in our existing manufacturing facilities to accommodate the rapidly expanding trailer axle and suspension assembly business and its needs.

Expand our geographical reach through growing exports

While our revenue from operations have grown at a CAGR of 63.06% between Fiscal 2021 and Fiscal 2023, we have been predominantly focussed on domestic market with exports contributing to less than 1.00% of our revenue from operations in each of the three month period ended June 30, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021.

We aim to leverage our diverse product portfolio, customer acceptance in domestic markets and backward integrated manufacturing facilities to expand into international markets. We believe that as we increase our exports to international markets, we will be able to increase our addressable market, expand our geographical footprint and improve our profitability. Furthermore, our strategy of diversifying our revenue base and expanding our geographical footprint helps us mitigate the risks associated with economic fluctuations in any one region and our high dependence on select customers.

We have been working with a Sweden based company, Leax Falun AB and a Japanese OEM commercial vehicle manufacturer and have received purchase order for six product segments from Leax Falun AB which are universal joint cross, cross tooth flange, spline journal, tube yokes and spline sleeves. Our bulk supplies for Universal Joint crosses have already commenced since August 2023 and other parts are under validation. Similarly, for the Japanese OEM commercial vehicle manufacturer, we have developed and submitted samples and prototypes for planet carrier, sleeve gears, input shafts, and differential spiders.

Continuing focus on reduce operating costs and improving operational efficiency

We aim to continuously improve profitability by constant cost optimization, leveraging our backward integration capabilities and increasing capacity utilization. We also constantly aim to identify opportunities to implement product improvements and dedicated research and development resources to optimize production processes. For instance:

- ***Backward integration capabilities:*** Our backward integrated manufacturing facilities in forgings, machining and castings gives us a competitive edge on pricing and quality. To further enhance our backward integration capabilities, we intend to utilize part of the proceeds from the Offer towards funding of capital expenditure for expansion of axle beam extrusion. For further details, see “*Objects of the Offer – Funding of capital expenditure requirements of our Company towards purchase of machinery and equipment*” on page 106. We are also considering further backward integrating into seamless tube which, we believe, will help us further optimize our raw material costs.

- *High-precision machining facilities:* Our manufacturing facilities are equipped with high-precision machining facilities such as heat treatment, turning centres, vertical and horizontal milling centres, CNC grinding, broaching, hobbing, shaping, and robotic welding. We have also built R&D capabilities and technical knowhow to develop and deliver proprietary products such as trailer axle and suspension, that have received market acceptance. We have invested in computer-aided design and computer aided manufacturing packages which help us create 3D models of the dies and we also have simulation software which enables us to simulate and manufacture our dies with higher accuracy.
- *Automation:* In line with our focus on bringing in operational efficiency, our manufacturing operations involve a degree of automation, and accordingly reducing the margin of error and inefficiencies typically associated with manufacturing processes operated manually. In addition, our extensive equipment and degree of automation has helped us to maintain our cost efficiency.
- *Reducing lead time in manufacturing:* We are continuously working to make our manufacturing processes more efficient by creating cells for a product family. This minimises material movement within the plant and leads to production efficiency.

Quality control and assurance are our key focus areas in the manufacturing process. We continuously evaluate the cost-benefit of our operations so that we can focus our efforts on delivering the best quality products. Further, we believe our large size and scale also enables us to produce greater volumes of products from our facilities and spread our fixed costs more widely to reduce our production costs on a per unit basis, allowing us to reduce our unit sales price and increase our competitiveness.

We are committed to further optimize production processes, by improving engineering capability, debottlenecking our critical production processes, increasing the flexibility of our manufacturing system and minimizing scrap during production. We believe that our advanced manufacturing facility and R&D capabilities, along with our ongoing expansion efforts, will help us reduce production cost, increase production and achieve economies of scale.

Improve our financial profile

Since we operate in a capital-intensive industry, a significant amount of working capital is required to finance the purchase of materials and the performance of manufacturing and other work before payment is received from customers. As on March 31, 2023, March 31, 2022 and March 31, 2021, our working capital requirement was ₹ 1,014.47 million, ₹ 836.49 million and ₹ 752.48 million, respectively. For further details, see “*Objects of the Offer – Funding working capital requirements of the Company*” on page 115.

We finance our capital requirements through a mix of borrowings and internal accruals. Towards maintenance of adequate levels of working capital, which is in line with our expectations of growth in our business, we intend to fund ₹ 300.00 million from the Net Proceeds towards our working capital requirements in the coming Fiscals. For further details, see “*Objects of the Offer – Funding working capital requirements of the Company*” on page 115. As of September 30, 2023, our financial indebtedness was ₹ 1,027.56 million, including secured and unsecured non-current and current borrowings.

In keeping with our objective of increasing our capacities in existing product segments and entering into newer products, we are seeking to reduce our overall levels of borrowing, including utilisation of ₹ 900.00 million from the Net Proceeds of the Offer toward repayment and/or prepayment of certain of our existing borrowings. We believe that deleveraging our balance sheet will allow to utilise further internal accruals towards any incremental capital expenditure requirements including for any further backward integration proposed, such as the creation of a seamless tube mill. For further details on our objective of repayment of loans, please see “*Objects of the Offer – Repayment or prepayment, in full or in part, of all or a portion of certain outstanding borrowings availed by our Company from banks and financial institutions*” on page 109.

Our Products Portfolio

We are primarily engaged in manufacture and supply of tractor components, truck components and trailer axle and suspension. We offer a diversified product portfolio with the capability to manufacture and supply safety and critical components to our customers, including the OEMs that manufacture commercial vehicles and off-highway vehicles.

Details of key products offered by us are as follows:

M&HCV components and assemblies:

- Trailer Axles and Suspensions
- Axle Shafts
- Coupling Flanges
- Differential Spiders
- Bevel Gear Assemblies
- Bell Crank Assemblies
- Trunion Pins
- Gear Joint Assemblies
- Clutch Release Forks
- Steering Joints
- Universal Cross
- Input and Output shafts
- Reaction Plate and Carrier Annulus
- Planet Carrier Assembly
- Rear End Spindles
- ABS Pole wheels
- Interaxle rings
- Anti Roll bar and stabilizer bar assembly

Tractor Components and assemblies:

- Spindle Front axles
- Control Spring Assembly
- Arm rams and Hydraulic lift arms
- PTO Shafts
- Hydraulic Lift shafts

Trailer axles and suspensions:

We design and build trailer axles which are compliant with the applicable vehicle loading norms. The trailer axle is a component of a trailer that supports the weight of the trailer and its cargo. It also connects the trailer wheels to the trailer frame. Trailer axles are typically made from high-strength steel to withstand the heavy loads and harsh conditions that they are subjected to. The design, technology used for development, backward integration and after-sale service provided are crucial aspects for trailer axle manufacturers (*Source: CRISIL Report*). Our Company designs and manufactures a wide variety axles basis the beam size for different track-lengths for a diverse application such as 1850 mm and 1950 mm and these axles are supplied with manual or auto-slack adjusters, with a choice of anti-lock braking systems and non-anti-lock braking systems options.

A trailer axle comprises of different parts, such as:

- Spindles which are induction hardened and grinded;
- Spiders with a two-piece forged design for a weight reduction;
- Hub and brake drum;
- Cam shafts;
- Brake-shoe;
- Various Mounting brackets;
- Bearings;
- Grease and oil seals; and
- Rubber gaskets.

Our trailer axles include a three-piece wheel seal, which is designed in-house, and is targeted to help prevent contaminants from entering the wheel hub ensuring longer axle life. We have also developed a unique pre-loading bearing system which helps in improving tire life, bearing life, and seal life.

In order to provide trailer fabricators a complete solution, we have also designed and developed suspensions. Our suspension assemblies come in different specifications in order to cater to the axle load requirements of the Indian market.

Trailer axle and suspension assembly

The suspension assemblies comprise of key components such as:

- torque arm plates;
- spring seats;
- U-bolt seats;
- wear pads;
- hangers; and
- leaf springs.

Our suspension assemblies are developed in the manner where key components are forged and machined together instead of sheet metal and castings techniques. We also manufacture air suspensions suitable up to 14 tonnes in capacity. Our air suspensions use a unique alignment locking system which is designed to improve tire life.

Photograph Axle shafts	Product description
	<p>A rear axle shaft is a component of the rear axle housing on a rear-wheel drive vehicle. It provides the power to the tires to drive the vehicle. Axle shafts connect the wheels to the differential and transmit rotational power from the Differential to the wheels. These are typically made of high-strength alloy steel and are designed to withstand the high torque and loads associated with commercial vehicles. Axle shafts are used for Medium, Heavy, Light and SUV Vehicles. It is used 2 per vehicle in Tandem and in Multi Axle it is used 4 per vehicle. Axle shafts connect the wheels to the differential and transmit rotational power from the engine to the wheels. These are typically made of high-strength alloy steel, and are designed to withstand the high torque and loads associated with commercial trucks. (Source: CRISIL Report)</p>
Coupling flanges	
	<p>Coupling flanges are used in trucks to connect two shafts together. These are typically used to connect the driveshaft to the differential, or to connect the differential to the axles. Coupling flanges allow the shafts to rotate independently, but also ensures that these are properly aligned and that the rotational force is transferred efficiently between the two.</p>
	<p>Coupling flanges are used in all types of trucks, from light-duty pickups to heavy-duty semis. The specific type of coupling flange used varies depending on the application. (Source: CRISIL Report)</p>
Anti-roll bar and stabiliser bar assembly	
	<p>The anti-roll bar assembly, also known as the stabiliser bar assembly or sway bar assembly, is a suspension component that helps reduce body roll in a truck. Body roll is the tendency of the truck to lean to the side when it is cornering or turning. Anti-roll bar assemblies help reduce body roll by connecting the opposite wheels of the truck together. When one wheel of the truck is raised, the anti-roll bar assembly twists and applies a force to the opposite wheel, pushing it down. This helps keep the truck level and reduces body roll.</p>

Operations

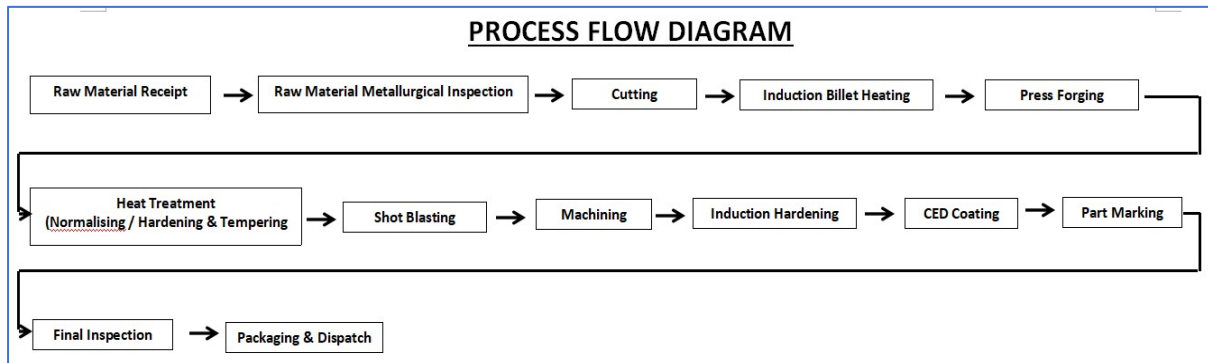

Our growth model has been based on our evolution from being a manufacturer of components such as joint crosses into manufacturing of components and assemblies like trailer axle and suspension assemblies which require higher levels of precision, strength, and durability. In the last three fiscals, we have offered a diverse suite of products to over 200 customers across M&HCV, farm equipment segments, domestic dealers and fabricators for our trailer axle and suspension assembly business.

We offer fully integrated engineering solutions from conceptualization, development and validation to implementation and manufacturing. The conceptualization stage involves acquiring market intelligence, assessing customer requirement and formulating customized strategy for individual customers. The development phase includes product designing, material procurement and processing. This is followed by the validation phase, which involves prototyping, testing and feasibility analysis. Our in-house manufacturing and implementation competencies include forging, machining, fabrication, heat treatment, surface finish, logistics, quality and testing, design and validation.

Aftermarket involves providing product replacement (due to wear and tear) and certain add-on parts to the end user over the full life cycle of the equipment, after the original purchase is made. Our aftermarket sales accounted for 5.89%, 6.26%, 10.08% and 9.91%, respectively, amounting to ₹ 84.68 million, ₹ 305.89 million, ₹ 299.85 million and ₹ 182.03 million, respectively, of our revenue from operations for the three month period ended June 30, 2023 and the Fiscals 2023, 2022 and 2021 and includes supplies to the spare parts division of certain of the OEMs we currently supply to.

Key Manufacturing Process

Set forth below is a description of the key manufacturing processes for forged and machined components at our manufacturing facilities:

Forging: Our manufacturing process begins with the receipt of steel bars, in form of rounds and billets, which are further cut into billets the necessary size and weight depending upon the component being manufactured. The billets are then heated to a specific temperature and are subject to a forging process, where the metal is pressed to a specific shape and size. Our forging equipment include one 400 tonne forging press, one 1000 tonne forging press, one 1600 tonne forging press, one 2000 tonne forging press, one 2500 tonne forging press, and one three tonne hammer. We have 4 forging upsetters with the ability to forge shafts and other parts with input weight range from 10 kgs to 45 kgs and maximum flange diameter of up to 280 mm enabling us to accommodate our diverse product portfolio. Our forging capabilities also include warm forging for manufacturing bevel gear assemblies and other components with near net shape technology.

Heat Treatment: Once the forging process is completed, the forged components undergo a crucial heat treatment process which enables the component to achieve the required specification for hardness and microstructure. Some of our components also undergo heat treatment during the machining process to achieve specific microstructure, and hardness. Furnaces are equipped with advanced technology and equipment to provide precise and necessary controls. The facilities available for heat treatment are as follows:

- Four furnaces for continuous hardening and tempering process with a combined capacity of 100 tonnes per day. All furnaces are equipped with SCADA software for data logging.
- 18 induction hardening machines from GH Induction ranging from 30 kilowatt–300 kilowatt. Induction hardening is an integral process of our manufacturing process as most of our products undergo this process.

- Three seal quench furnaces used for heat treatment of parts and case carburizing. We are also in the process of installing two additional seal quench furnaces which are expected to be installed over the next few months.
- One gas nitriding furnace as it is a specific requirement for certain of our products.

Machining: Machining is a critical process that involves transforming raw forgings into finished components with precise specifications in terms of size, shape, and other performance parameters. Our machining equipment includes CNC, vertical machining centres (“VMCs”), horizontal machining centres (“HMCs”) for processes such as hobbing, rolling, shaving, shaping, surface and spline broaching, milling, grinding and CNC grinding, robotic welding and plasma cutting.

Surface Protection: After machining, our parts undergo specific surface treatments to enhance their performance and durability. These treatments include phosphating, CED coating, dip painting and spray painting which provide improved product life, wear resistance, surface finish, and corrosion resistance. We have in-house solutions for surface protection.

Die Design and Simulation: Our manufacturing facilities are equipped with VMCs to manufacture and design high-precision dies with accuracy. By having control over the die design process, we have the capability to develop

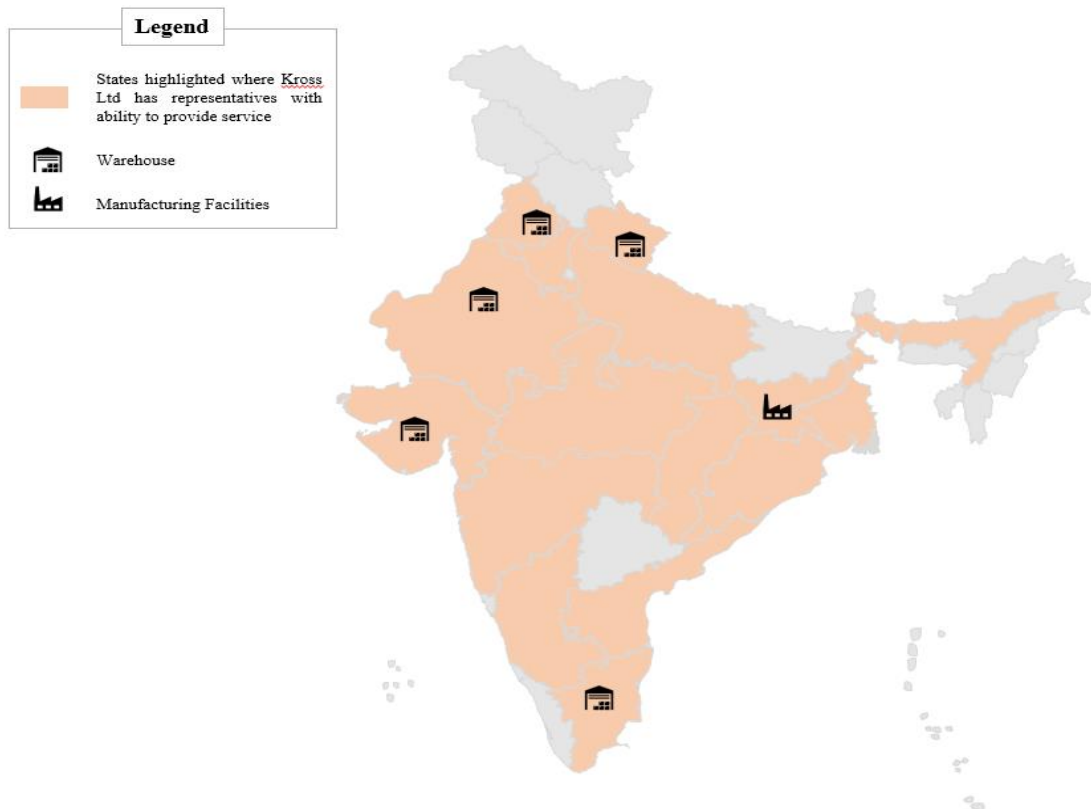

and design the tooling with closed tolerances for any complex part or request for quote shared by our customer. We have invested in various design and simulation software such as Uni graphics, Solid edge, Quindos-7.

Casting: Casting of components refers to the process of pouring molten metal into a sand mould. Sand is subjected to a high pressure to form moulds. In the year 2022, we diversified from a forging and machining company into castings also and set up a foundry to be further backward integrated for our trailer axle and suspension by manufacturing brakedrums and hubs in house. The company set up a high pressure mould line with a box size of 710*710*250/300 mm. It has 4 Quad track furnaces by Inductotherm. The sand mixer is equipped with a PLC controlled system. The plant is equipped with all the digital lab equipment like bench spectrometer, UTM, moisture drier, sieve shaker and drier.

Manufacturing and Warehousing Facilities

Warehousing facilities

Jaipur, Rajasthan

We currently have a leased location that serves as a complete warehouse for our trailer axle and suspension business and acts as a distribution network for entire Rajasthan. This warehousing facility is managed by the Company.

Pantnagar, Uttarakhand

We currently have a leased location that serves as a complete warehouse to cater to our customers in Pantnagar. This warehousing facility is managed by our Company. This facility serves as our base for serving our OEM customers such as Ashok Leyland.

Gandhidham, Gujarat

We currently have a leased location that serves as a complete warehouse for our trailer axle and suspension business and acts as a distribution network for entire Gujarat. This warehousing facility is managed by our Company.

Chennai, Tamil Nadu

We currently have a leased location that serves as a complete warehouse for all our customers based in and around Tamil Nadu. This warehousing facility is managed by our Company. This facility serves as our base for serving our OEM customers and their tier-1 suppliers.

Hoshiarpur, Punjab

We currently have a leased location that serves as a complete warehouse for all our customer based in Hoshiarpur. This warehousing facility is managed by our Company. This facility serves as our base for serving our OEM customers.

R&D Facility

Our product design and development capability is important to remain competitive in the M&HCV and the farm equipment segments in India and to sustain profitable growth. We continually invest in product design and development to create a differentiating factor and sustainability of our products. In addition to the manufacturing facilities, we have a product design and development team located at Jamshedpur, Jharkhand.

This helps us widen our product offerings to our customers. In addition, our product design and development team also works closely with our customers' teams from time to time, to jointly develop customised products to cater to specific requirements identified by them.

Our product design and development team carries out operations in the following manner:

- (i) *Process/ design improvement* – In this, the product design and development team carries out research and suggests process/ design improvements on the designs provided by the customers. For instance, we provided recommendations to the engineering department of one of our customers to reduce failures in axle shafts by increasing the length of the spline so as to allow the mating part to move freely on the axle shaft.;
- (ii) *Traditional R&D*
 - a. Our product design and development team carries out their process, in case of certain products such as antiroll bar and torsion bar, etc., OEM customers use our product design and development to develop their designs which are then manufactured by our Company. In the past, Ashok Leyland has used our product design and development capabilities for products such as anti-roll bars;

- b. Our product design and development team carries out their process to develop and design our own proprietary products such as the trailer axle and suspension (mechanical and air).

Raw materials

Our primary raw material is steel, procured in the form of bars, billets, flats and tubes. We procure raw materials from our suppliers based on purchase orders and we do not have any purchase agreements or firm commitments executed with them. We reserve the right to claim for our rejections that are the result of defective steel. The cost of raw materials and components consumed accounted for 61.64%, 60.20%, 53.64% and 47.50%, respectively, amounting to ₹ 885.79 million, ₹ 2,941.66 million, ₹ 1,595.67 million and ₹ 872.82 million, respectively, of our revenue from operations for the three month period ended June 30, 2023 and the Fiscals 2023, 2022 and 2021. Our OEM customers provide us an approved list of suppliers, these suppliers undergo a qualification process and performance rating by our OEM customers to ensure that the supplied raw materials are of satisfactory quality. We select our suppliers from this approved list. For further information, see section entitled “*Risk Factors – Raw material sourcing risk - We depend on a limited number of third parties for the supply of raw materials and failure by our suppliers to meet their obligations may cause change in availability and cost of raw materials which may adversely affect our business, financial condition, results of operations and prospects*” on page 34.

Sales and Marketing

We have a dedicated sales team of 42 members, as of June 30, 2023. Our top management and the sales and marketing team focuses on developing customer relationships and identifying and acquiring new customers and generating business opportunities.

For our OEM and Tier 1 customers

We undergo a vendor selection process with our customers, which can take a significant period from the date of issue of a request for quote (“**RFQ**”) to supply of products. During this process, we are required to submit a technical proposal that includes product features, performance specifications, proposed development timeline, product validation plan, and performance and durability expectations. We may also be required to develop and supply concept prototypes for the customer based on initial design plans.

Once our prototype is confirmed to have met the customer’s specifications and clears the testing phase, we may receive firm orders. We invest in securing new customer relationships through this intense, time-consuming, and costly vendor selection process as it enables us to better understand our customers’ design and performance needs and demonstrate our capabilities in providing technologically advanced customized solutions for developing critical components.

If we are successful in converting the RFQ process into firm orders, it generally leads to a long-term relationship with the customer as the cost to the customer of switching vendors after qualification in the RFQ process is typically high.

For our trailer axle and suspension assembly business

We have a dedicated sales and marketing team for our trailer axle and suspension product business as for this product segment we need to be in constant communication with trailer fabricators to stay updated with their manufacturing schedules.

Sales & Marketing:

Our sales team is responsible for our sales across the country. Our sales managers are in charge of one or more states and his role includes co-ordination with the service engineer to ensure customer satisfaction amongst existing users, pursuing and following up on any potential leads of new customers, forming contacts with organizations/people that can help generate leads, like vehicle dealerships, vehicle finance companies etc., converting potential leads to sales orders by educating the customer about our product and highlighting our USPs and connecting with trailer fabricators and convince them to use our product.

Marketing:

Our team also engages in various marketing activities at key location across the country is to bring customer awareness about our product and our USPs. and organize service camps for key customers, organizing customer meets and manufacturing plant visits

Customer agreements

In relation to our business from OEM and Tier-I customers, we typically rely on blanket purchase orders issued by our customers from time to time that set out the price per unit. Pursuant to the purchase order, our customers provide us the quantities of units to be supplied along with the delivery schedules specifying the details of delivery. Further, we have purchase and supply agreements with some of our customers. These agreements set forth the terms of sales but do not bind these customers to any specific products, specifications, purchase volumes or duration and can be terminated by these customers with or without cause and without compensation. Under the purchase and supply agreement, these customers provide us only with forecast volume for the product and there is no commitment on the part of the customer to purchase the quantities specified in the volume projections. Further, we rely on orders on spot basis for our trailer axles and suspension assemblies. For further information, see “*Risk Factors – Lack of long-term contracts - We do not have firm commitment agreements with our customers. If our customers choose not to source their requirements from us, there may be a material adverse effect on our business, financial condition, cash flows and results of operations*” on page 32.

The purchase orders are typically subject to conditions such as ensuring that all products delivered to the customer have been inspected and will be safe for use, that orders will be fulfilled according to predetermined delivery schedules and that all products will be built to customer specifications. Some of our customers, under their respective purchase and agreements, have the right to check and verify our relevant manufacturing systems processes, which may include inspection of the manufacturing facilities, review of the manufacturing processes and review of the raw materials. Further our purchase and supply agreements contain a warranty provision which warrants conformity of products to specifications, drawings, samples or descriptions furnished by the customers and further warrants that products delivered will be merchantable, of good material and workmanship and free from defects.

Power and water

Our manufacturing processes require an uninterrupted and constant voltage power to ensure e products quality and also to increase the productivity and productive life of our machines and equipment. We have arrangements for power purchase from Tata Steel Utilities and Infrastructure Services Limited.

To meet our requirement for water for our manufacturing processes, we primarily rely on Tata Steel Utilities and Infrastructure Services Limited.

Freight and transportation

We engage third-party logistics service providers to facilitate our transportation needs and rely on transportation modes, such as road, rail and ocean freight. The choice of transportation mode for each shipment depends on several factors, including the urgency, size, and value of the order. For further information, see “*Risk Factors – Reliance on of third party transporters - We rely on third-party transportation providers for distribution of our products. Any failure by any of our transportation providers to deliver our products on time, or in good condition, or at all, may adversely affect our business, financial condition and results of operations*” on page 37.

Quality Control

Our manufacturing facilities situated at Units I, II, III, IV and V have obtained ISO 9001:2015 for manufacture of axle shaft, PTO shaft, rock shaft, ring gear, hubs and other ferrous parts from TÜV NORD CERT GmbH and IATF 16949:2016 quality certifications for manufacture of axle shafts, universal joints, propeller shaft parts, differential spiders, companion flanges, anti-roll bar, bevel kit assembly, trailer axle assembly, hubs, brake drum and other ferrous parts from TÜV NORD CERT GmbH.

Insurance

Our operations are subject to hazards inherent in storing and transporting our products such as work accidents, fire, explosions, earthquakes, flood and other force majeure events including hazards that may cause loss of life

and severe damage to and the destruction of property and inventory. Our principal types of insurance coverage include fire and burglary.

We believe that the insurance coverage currently maintained by us represents an appropriate level of coverage required to insure our business and operations, and is in accordance with industry standards in India. See “*Risk Factors – Our insurance coverage may not adequately protect us from all material risks and liabilities*” on page 52.

Awards and Accreditations

We have received several prestigious awards and certifications from our customers, including ‘Silver Award in Best Performance in Business Alignment’ by Ashok Leyland in 2023 and ‘Durafit Range Best Vendor award for Demand Fulfilment East (2020-21)’ by Tata Genuine Parts in 2021.

We have also been awarded the ‘Best Supplier of the year award for outstanding efforts in Delivery, Quality and Cost’ by York in 2015 and the ‘Best Supplier Award for Overall Performance’ by TAFE in 2014 and ‘Best Supplier Award for Consistent Delivery Performance through Pull System – Kanban’ by TAFE in 2013. For further information, see section entitled “*Our History and Certain Corporate Matters – Key awards, accreditations and recognitions*” on page 217.

Information technology

We believe that a robust IT infrastructure is essential for ensuring strong operational efficiencies and enhancing productivity and we continue to focus on building and improving our IT capabilities. As a result, over the years, we have implemented technology initiatives across our operations, including for procurement, manufacturing, distribution and supply chain operations.

In 2012, we have implemented a company-wide ERP system. This system is used to manage and co-ordinate all resources, information and functions of the business on a real-time basis. The ERP system helps in integration of different functional areas to facilitate proper communication, material management, manufacturing planning, productivity, quality and efficiency in decision making. It further helps in tracking customer demands and assisting in maintaining optimum inventory levels. The Company is in the process of implementing a new ERP solution.

Environment, Health and Safety

We are committed to following applicable environmental and occupational health and safety laws as well as industry best practices. We are also committed to maintaining acceptable safety and quality systems, specifications and standards expected by customers, including the requirement for on-time delivery and for on-site and off-site inspections of our products and facilities by our customers.

We aim to provide and maintain a healthy, safe working environment to minimize the risks to employees, contractors, visitors, and others who may be affected by our activities, while fulfilling expectations of our customers of high quality and safe products. We continuously monitor and identify health and safety risks in the workplace to control and mitigate such risks to achieve continual improvement in our health and safety performance. We develop and monitor specific systems, practices, and procedures to prevent accidents and, if they occur, to manage them responsibly and to carefully investigate the causes with the aim of introducing measures to prevent them from recurring.

For information regarding applicable health, safety and environmental laws and regulations, see “*Key Regulations and Policies in India*” and “*Government and Other Approvals*” on pages 210 and 331, respectively.

CSR initiatives

We have constituted a CSR committee of our Board of Directors and have adopted and implemented a CSR policy pursuant to which we carry out our CSR activities.

Our CSR expenditure aggregated to ₹ 1.80 million and ₹ 3.33 million for the three month period ended June 30, 2023 and for Fiscal 2023 respectively.

Competition

While there are several producers of varying size serving certain segments or sub-segments of our customer base, across M&HCV and farm equipment segments, and there are also several producers of varying size manufacturing certain of the products that we sell, in various geographical markets. We believe that we have no peers that operate in the full spectrum of our customer base, geographical market, product range and price points. For details of our competitive position, see “*Industry Overview – Peer Comparison*” on page 179.

There are no standard methodologies to assess this industry as far as we are aware, we believe that it is difficult to predict how the competitive landscape of our business will develop over the long term. General competitive factors in the market, which may affect the level of competition over the short and medium term, include vulnerability to overall macroeconomic factors, time to market, availability of after-sale and logistics support, product features, design, quality, price, delivery, warranty, general customer experience and relationships between producers and their customers.

Employees

Our employees are one of our most important assets and are critical to us maintaining our competitive position in our key geographical markets and in our industry. As of June 30, 2023, we had 490 permanent employees, as set forth below:

Department	Number of permanent employees
Operations	311
Quality	52
Accounts	10
Maintenance	40
Sales and Marketing	42
Design and New product development	20
Human Resource and Administration	15

As of June 30, 2023, in addition to our permanent employees, we had 1,588 contractual employees

Our human resource policies focus on recruiting talented and qualified personnel, whom we believe integrate well with our current workforce. We endeavour to develop and train our employees in order to facilitate the growth of our operations. We have in place a rewards and recognition program and conduct regular events to recognize and award employees based on performance and the impact they have made, irrespective of their seniority, department or location. Our employee induction procedures are focused on taking regular feedback and facilitating interaction between new employees and senior management. We conduct regular training workshops and performance reviews. We have medical insurance for our employees and have also introduced wellness and physical health programs.

For the three month period ended June 30, 2023 and Fiscals 2023, 2022 and 2021 and the, our employee benefits expense were ₹ 67.58 million, ₹ 265.09 million, ₹ 201.77 million and ₹ 161.64 million, respectively, constituting 4.70%, 5.43%, 6.78% and 8.80% of our revenue from operations, respectively.

Intellectual Property

As of September 30, 2023, we do not own any trademarks in India, and have two applications pending for registration of certain other trademarks.

For further details, see section entitled “*Government and Other Approvals*” beginning on page 331, and “*Risk Factors – Intellectual property infringement risk - We do not possess registered trademarks for our corporate logo and name and may be unable to protect ourselves from infringement of our trademarks or unauthorised passing off of counterfeit products*” on page 41.

Properties

Our Registered and Corporate Office is located at M-4, Phase-VI, Adityapur Industrial Area, Jamshedpur, which is owned by us.

KEY REGULATIONS AND POLICIES IN INDIA

The following is an overview of certain sector-specific relevant laws and regulations which are applicable to the business and operations of our Company. The information detailed in this section has been obtained from various statutes, regulations and/or local legislations and the bye laws of relevant authorities that are available in the public domain. The description of laws and regulations as set out below is not exhaustive and are only intended to provide general information to the investors and are neither designed nor intended to be a substitute for professional legal advice. The statements below are based on the current provisions of Indian law, and the judicial, regulatory and administrative interpretations thereof, which are subject to change or modification by subsequent legislative and regulatory actions, administrative or judicial decisions. For details of government approvals obtained by our Company in compliance with these regulations, see 'Government and Other Approvals' on page 331.

Business Related Laws

The Industries (Development and Regulation) Act, 1951

The Industries (Development and Regulation) Act, 1951 (Industries Act) governs the development and regulation of industries in India, and its main objective is to empower the Government to: (i) take necessary steps for the development of industries; (ii) regulate the pattern and direction of industrial development; and (iii) control the activities, performance, and results of industrial undertakings in public interest. The Industries Act is applicable to the 'Scheduled Industries' which have been listed down in the first schedule of the Industries Act. Small-scale industrial undertakings and ancillary units are exempted from the provisions of the Industries Act. The Industries Act regulates the industries by requiring them to obtain industrial licensing by filing an Industrial Entrepreneur Memoranda with the Secretariat of Industrial Assistance, Department of Industrial Policy and Promotion. The Industries Act is administered by the Ministry of Industries and Commerce through its Department of Industrial Policy & Promotion which is responsible for the formulation and implementation of promotional and developmental measures for growth of the industrial sector and also monitors the industrial growth and production, in general, and selected industrial sectors.

Remission of Duties and Taxes on Exported Products Scheme

The Scheme for Remission of Duties and Taxes on Exported Products (RoDTEP Scheme), acts as the successor to the Merchandise Exports from India Scheme. Certain taxes/duties/levies which are outside the scope of Goods and Service Tax and are not refunded for exports, such as, value added tax on fuel used in transportation, mandi tax, duty on electricity used during manufacturing etc. are reimbursed under the RoDTEP Scheme.

Duty Drawback Scheme, 2020

The duty drawback scheme is an option available to exporters. Under this scheme, an exporter of goods is entitled to a refund of the excise duty and integrated goods and services tax paid by him on the inputs used in the products exported by him. It neutralizes the duty impact on the goods exported by giving a relief on customs and central excise duties suffered on the inputs used in the manufacture of export product. The Customs and Central Excise Duties Drawback Rules, 2017, as amended (Drawback Rules) have also been framed outlining the procedure to be followed for the purpose of grant of duty drawback (for both kinds of duties suffered) by the customs authorities processing export documentation. Under duty drawback scheme, an exporter can opt for either all industry rate of duty drawback scheme or brand rate of duty drawback scheme. The all industry rate of duty drawback scheme essentially attempts to compensate exporters of various export commodities for average incidence of customs and central excise duties suffered on the inputs used in their manufacture.

Shops and Establishment Legislations

Under the provisions of local shops and establishments laws applicable in various states, establishments are required to be registered. Such laws regulate the working and employment conditions of the workers employed in shops and establishments including commercial establishments and provide for fixation of working hours, rest intervals, overtime, holidays, leave, termination of service, maintenance of shops and establishments and other rights and obligations of the employers and employees. Our offices are required to be registered under the shops and establishments legislations of the states where they are located.

Legal Metrology Act, 2009

The Legal Metrology Act, 2009 (Metrology Act) seeks to establish and enforce standards of weights and measures, regulate trade and commerce in weights, measures and other goods which are sold or distributed by weight, measure or number and for matter's incidental thereto. The Metrology Act, inter alia, provides for: (a) regulation of weight or measure used in transaction or for protection; (b) approval of model of weight or measure; (c) verification of prescribed weight or measure by Government approved Test Centre; (d) exempting regulation of weight or measure or other goods meant for export; nomination of a person by the companies who will be responsible for complying with the provisions of the enactment; and (f) empowering the Central Government to make rules for enforcing the provisions of the enactment. Any non-compliance or violation of the provisions of the Metrology Act may result in, among others, a monetary penalty on the manufacturer or seizure of goods or imprisonment in certain cases.

Bureau of Indian Standards Act, 2016 ("BIS Act")

The BIS Act provides for the establishment of a national body, to be called the Bureau of Indian Standards ("BIS"), for the harmonious development of the activities, conformity assessment and quality assurance of goods, articles, processes, systems and services and for matters connected therewith or incidental thereto. The BIS Act provides for the functions of the BIS which includes, among others, (a) recognizing as an Indian standard, any standard established for any article or process by any other institution in India or elsewhere; (b) specifying a standard mark which shall be of such design and contain such particulars as may be prescribed to represent a particular Indian standard; and (c) undertake testing of samples for purposes other than for conformity assessment; and (d) undertake activities related to legal metrology. The BIS Act empowers the Central Government, in consultation with the BIS, to order compulsory use of standard mark for any goods or article of any scheduled industry, process, system or service, or essential requirements to such goods, article, process, system or service if it finds it expedient to do so in public interest. The BIS Act also provides the penalties in case there is a contravention of the provisions of the BIS Act.

The Boilers Act, 1923 ("Boilers Act") and the Indian Boiler Regulations, 1950 ("Boiler Regulations")

The Boilers Act was enacted to consolidate and amend the law relating to steam-boilers. As per the Boilers Act, no owner of a boiler that is not exempted from the Boilers Act shall use the boiler or permit it to be used unless it has been registered in accordance with the provisions of the Boilers Act. Any contravention to the provisions of the Boilers Act will be punishable with imprisonment, which may extend to 2 years or with fine which may extend to ₹ 0.1 million or with both. The Boiler Regulations have been framed under the Boilers Act. The Boiler Regulations inter alia deal with the materials, procedure and inspection techniques to be adopted for the manufacture of boilers and boiler mountings and fittings, the safety of persons inside boilers.

Labour law legislations

Contract Labour (Regulation and Abolition) Act, 1970 ("CLRA Act")

The CLRA Act has been enacted to regulate the employment of contract labour in certain establishments, the regulation of their conditions and terms of service and to provide for its abolition in certain circumstances. The CLRA Act applies to every establishment in which 20 or more workmen are employed or were employed on any day of the preceding 12 months as contract labour. The CLRA Act vests the responsibility on the principal employer of an establishment to which the CLRA Act applies to make an application to the registered officer in the prescribed manner for registration of the establishment. In the absence of registration, a contract labour cannot be employed in the establishment. Likewise, every contractor to whom the CLRA Act applies is required to obtain a license and not to undertake or execute any work through contract labour except under and in accordance with the license issued. The principal employer is under an obligation to provide various facilities as provided under the CLRA Act, within a prescribed time period, in case the contractor does not provide such facilities. Penalties, including both fines and imprisonment, may be levied for contravention of the provisions of the CLRA Act.

The Factories Act, 1948 ("Factories Act")

The Factories Act defines a "factory" to cover any premises where 10 or more workers are working or were working on any day of the preceding 12 months and in any part of which a manufacturing process is carried on with the aid of power, or is ordinarily so carried on, or any premises where at least 20 workers are working or were working on any day of the preceding 12 months and in and in any part of which a manufacturing process is carried on without the aid of power, or is ordinarily so carried on. The Factories Act provides that the person who has ultimate control over the affairs of the factory and in the case of a company, any one of the directors, must

ensure the health, safety and welfare of all workers while they are at work in the factory. As per the Factories Act, any person who designs, manufactures, imports or supplies and article for use in any factory shall, *inter alia*, ensure, so far as is reasonably practicable, that the article is so designed and constructed as to be safe and without risks to the health of the workers when properly used and carry out or arrange for the carrying out of such tests and examination as may be considered necessary for the effective implementation of such duty. The Factories Act provides various safeguards for the safety and welfare of workers in a factory. The penalties for contravention of the Factories Act include fine and imprisonment for the ‘occupier’ or ‘manager’ as defined under the Factories Act, and enhanced penalties for repeat offences and contravention of certain provisions relating to use of the hazardous materials. Each State Government has enacted rules in respect of the prior submission of plans and their approval for the establishment of factories and registration/licensing thereof.

Other Labour law legislations

The various labour and employment related legislations that may apply to our operations, from the perspective of protecting the workers’ rights and specifying registration, reporting and other compliances, and the requirements that may apply to us as an employer, would include the following:

- *Child Labour (Prohibition and Regulation) Act, 1986; and Child Labour (Prohibition and Regulation) Rules, 1988;*
- *Employees’ Compensation Act, 1923;*
- *Employees’ Provident Funds and Miscellaneous Provisions Act, 1952;*
- *Employees’ State Insurance Act, 1948;*
- *Equal Remuneration Act, 1976;*
- *Industrial Disputes (Amendment and Miscellaneous Provisions) Act, 1956;*
- *Industrial Disputes Act, 1947 and Industrial Disputes (Central) Rules, 1957;*
- *Industrial Employment (Standing Orders) Act, 1946;*
- *Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979;*
- *Labour Laws (Exemption from Furnishing Returns and Maintaining Registers by certain Establishments) Act, 1988 as amended by Labour Laws (Exemption from Furnishing Returns and Maintaining Registers by certain Establishments) Amendment Act, 2014;*
- *Maternity Benefit Act, 1961;*
- *Minimum Wages Act, 1948;*
- *Payment of Bonus Act, 1965;*
- *Payment of Gratuity Act, 1972;*
- *Payment of Wages Act, 1936;*
- *Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013;*
- *The Employee’s Compensation Act, 1923 as amended by Employee’s Compensation (Amendment) Act, 2017;*
- *Trade Unions Act, 1926; and*
- *Workmen’s Compensation Equal Remuneration Act, 1976.*

In order to rationalize and reform labour laws in India, the Government has enacted the following codes, which will be brought into force on a date to be notified by the Central Government:

- (a) **Code on Wages, 2019**, which regulates and amalgamates wage and bonus payments and subsumes four existing laws namely – the Payment of Wages Act, 1936, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965 and the Equal Remuneration Act, 1976. It regulates, inter alia, the minimum wages payable to employees, the manner of payment and calculation of wages and the payment of bonus to employees. The Central Government has notified certain provisions of the Code on Wages, mainly in relation to the constitution of the central advisory board.
- (b) **Industrial Relations Code, 2020**, which consolidates and amends laws relating to trade unions, the conditions of employment in industrial establishments and undertakings, and the investigation and settlement of industrial disputes. It subsumes and simplifies the Trade Unions Act, 1926, the Industrial Employment (Standing Orders) Act, 1946 and the Industrial Disputes Act, 1947.
- (c) **Code on Social Security, 2020**, which amends and consolidates laws relating to social security, and subsumes various social security related legislations, inter alia including the Employee’s State Insurance Act, 1948, the Employees’ Provident Funds and Miscellaneous Provisions Act, 1952, the Maternity Benefit

Act, 1961, Building and Other Construction Workers' Welfare Cess Act, 1996 and the Payment of Gratuity Act, 1972. It governs the constitution and functioning of social security organisations such as the Employee's Provident Fund Organisation and the Employee's State Insurance Corporation, regulates the payment of gratuity, the provision of maternity benefits and compensation in the event of accidents that employees may suffer, among others.

- (d) **The Occupational Safety, Health and Working Conditions Code, 2020**, consolidates and amends the laws regulating the occupational safety and health and working conditions of the persons employed in an establishment. It replaces 13 old central labour laws including the Factories Act, 1948, Contract Labour (Regulation and Abolition) Act, 1970, the Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996 and the Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979.

Environment protection laws

Environment (Protection) Act, 1986 (the "EP Act"), Environment (Protection) Rules, 1986 (the "EP Rules") and Environmental Impact Assessment Notification, 2006 ("EIA Notification")

The EP Act has been enacted for the protection and improvement of the environment. EP Act empowers the government to take all measures to protect and improve the quality of environment, such as by laying down standards for emission and discharge of environmental pollutants, providing for restrictions regarding areas where industries may operate and laying down safeguards for handling hazardous substances, amongst others. It is in the form of an umbrella legislation designed to provide a framework for Central Government to coordinate the activities of various central and state authorities established under previous laws. It is also in the form of an enabling law, which delegates wide powers to the executive to enable bureaucrats to frame necessary rules and regulations. Further, the EP Rules specify, inter alia, the standards for emission or discharge of environmental pollutants, restrictions on the location of industries and restrictions on the handling of hazardous substances in different areas. For contravention of any of the provisions of the EP Act or the rules framed thereunder, the punishment includes either imprisonment or fine or both. Additionally, under the EIA Notification and its subsequent amendments, projects are required to mandatorily obtain environmental clearance from the concerned authorities depending on the potential impact on human health and resources.

Air (Prevention and Control of Pollution) Act, 1981 (the "Air Act") and Air (Prevention and Control of Pollution) Rules, 1982 ("Air Rules")

The Air Act was enacted to provide for the prevention, control and abatement of air pollution in India. It is a specialised piece of legislation which was enacted to take appropriate steps for the preservation of natural resources of the earth, which among other things include the preservation of the quality of air and control of air pollution. The Air Act stipulates that no person shall, without prior written consent of the relevant state pollution control board, establish or operate any industrial plant which emits air pollutants in an air pollution control area, as notified by the state pollution control board. Further, such an industrial plant shall not be permitted to emit air pollutants in excess of the standards laid down by the state pollution control board. The Air Rules provides for the procedure for transaction of business of the central pollution control board ("Central Board") and its various committees. The Air Rules further mandate the Central Board to submit an annual report with a full account of its activities in the previous year to the Central Government.

Water (Prevention and Control of Pollution) Act, 1974 (the "Water Act") and Water (Prevention and Control of Pollution) Board, 1975 ("Water Rules")

The Water Act was enacted to control and prevent water pollution and for maintaining or restoring of wholesomeness of water in the country. The Water Act provides for the establishment of Pollution Control Boards ("PCBs") at Central and State levels to establish and enforce standards for discharging pollutants into water bodies. Further, any person intending to establish any industry, operation or process or any treatment and disposal system which is likely to discharge sewage or other pollution into a water body is required to obtain prior consent of the relevant state PCB. The Water Rules provide for inter alia the terms and conditions of service of members of the Central PCB and its various committees and the functions of the central water laboratory. As per the Rules, the Central PCB has the power to take samples of water, for the purpose of analysis, from any sewage or trade effluent into any stream or well in any Union Territory. Further, the Water Rules mandate the Central PCB to submit an annual report with a full account of its activities in the previous financial year to the Central Government.

Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 (the “Hazardous Waste Rules”)

The Hazardous Waste Rules regulate the management, treatment, storage and disposal of hazardous waste by imposing an obligation on every occupier and operator of a facility generating hazardous waste to dispose of such waste without harming the environment. The term “hazardous waste” has been defined in the Hazardous Waste Rules and any person who has, control over the affairs of the factory or the premises or any person in possession of the hazardous waste has been defined as an “occupier”. Every occupier and operator of a facility generating hazardous waste must obtain authorization from the relevant state pollution control board. Further, the occupier, importer or exporter and operator is liable for all damages caused to the environment resulting from the improper handling and disposal of hazardous and other waste and the occupier or operator of the disposal facility shall be liable to pay any financial penalty that may be levied for any violation of the provisions of the Hazardous Waste Rules by the respective state pollution control board with the prior approval of the central pollution control board.

Noise Pollution (Regulation and Control) Rules, 2000 (“Noise Pollution Rules”)

The Noise Pollution Rules were enacted to regulate and control noise producing and generating sources with the objective of maintaining of ambient air quality standards in respect of noise. Pursuant to the Noise Pollution Rules, different areas / zones shall be classified into industrial, commercial, residential or silence areas/zones, with each area having a permitted ambient air quality standard in respect of noise. The Noise Pollution Rules provide for penalties in case the noise levels in any area / zone exceed the permitted standards.

Intellectual property laws

Trade Marks Act, 1999 (“Trademarks Act”) and the Trade Marks Rules, 2017 (“Trademarks Rules”)

The Trademarks Act provides for the application and registration of trademarks in India for granting exclusive rights to marks such as a brand, label and heading and obtaining relief in case of infringement of such marks. The Trademarks Act permits registration of trademarks for goods and services and prohibits any registration of deceptively similar trademarks or compounds, among others. It also covers infringement of trademarks and falsifying and falsely applying for trademarks. As per the Trademarks Act, any person found to be falsifying trademarks shall be punishable with imprisonment for a term which shall not be less than six months but which may extend to three years and with fine which shall not be less than fifty thousand rupees but which may extend to two lakh rupees. The Trademarks Rules provide for *inter alia* the procedures for filing an application for registration of trademarks to the Trade Marks Registry (“**Registry**”) and for filing an opposition to any application for registration of a trademark.

Other applicable laws

In addition to the above, our Company is also required to comply with the Companies Act, 2013 and rules framed thereunder, the Competition Act, 2002 and other applicable statutes imposed by the Centre or the State Government and authorities for our day-to-day business and operations.

5. The Restated Financial Information have been compiled by the management of the Company from:
- a) The Special Purpose Interim Ind AS Financial Statements of the Company for the three months period ended June 30, 2023 prepared in accordance with Indian Accounting Standard ("Ind AS") 34 - "Interim Financial Reporting" specified under Section 133 of the Act and other accounting principles generally accepted in India (the "Special Purpose Interim Ind AS Financial Statements"), which has been approved by the Board of Directors at their meeting held on November 30, 2023.
 - b) Audited Ind AS Financial Statement of the Company as at and for the year ended March 31, 2023 prepared in accordance with Indian Accounting Standard (referred to as "Ind AS") as prescribed under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules 2015, as amended, and other accounting principles generally accepted in India, which have been approved by the Board of Directors at their meetings held on September 27, 2023.
 - c) The Special Purpose Ind AS Financial Statements as at and for the years ended March 31, 2022, and March 31, 2021, are prepared by incorporating necessary Ind AS adjustments to the audited Indian GAAP Financial Statements, audited and reported by erstwhile auditor on which an unmodified opinion has been issued vide audit reports which were approved by the Board of Directors on September 2, 2022 and September 15, 2021, respectively.
6. For the purpose of our examination, we have relied on:
- a) Auditors' Report issued by us dated November 30, 2023 on the Special Purpose Interim Ind AS financial statements of the Company as at and for the three months period ended June 30, 2023, as referred in Para 5(a) above.
 - b) Auditors' Report issued by us dated November 30, 2023, on the Audited Ind AS financial statements of the Company as at and for the year ended March 31, 2023, as referred in Para 5 (b) above.
 - c) Auditors' Reports issued by us dated November 30, 2023, on the Special Purpose Ind AS Financial Statements financial statements of the Company as at and for the year ended March 31, 2022, and March 31, 2021, as referred in Para 5 (c) above.

7. We have not audited any financial statements of the Company for any period subsequent to June 30, 2023. Accordingly, we express no opinion on the financial position, results of operations, cash flows and statements of changes in equity of the company for any period subsequent to June 30, 2023.
8. Based on our examination and according to the information and explanations given to us, and also as per the reliance placed on the report of the previous auditor for the respective period as mentioned in Para 5(c) above, we report that the Restated Financial Information:
 - a) has been prepared after incorporating adjustments for the changes in accounting policies, material errors and regrouping/reclassifications, retrospectively in the financial years ended March 31, 2023, March 31, 2022, and March 31, 2021, to reflect the same accounting treatment as per the accounting policies and grouping/classifications followed as at and for the three months period ended June 30, 2023;
 - b) as of and for the financial year ended March 31, 2022, and March 31, 2021, have been prepared after incorporating Ind AS adjustments to the Indian GAAP financial statements, as described in Note No. 2.1 to the Notes to Restated Financial Information;
 - c) does not contain any qualifications in the auditor's reports on the Special Purpose Ind AS Financial Statements for the years ended March 31, 2022, and March 31, 2021, as referred above which requires any adjustments in the Restated Financial Information; and
 - d) has been prepared in accordance with the Act, the ICDR Regulations and the Guidance Note.

The Restated Financial Information do not reflect the effects of events that occurred subsequent to the respective dates of the reports on the Audited Special Purpose Interim Ind AS Financial Statements and Audited Ind AS Financial Statements mentioned in paragraph 5 (a) and (b) above.

9. This report should not in any way be construed as a reissuance or re-dating of any of the previous auditor's reports issued by previous auditor, or us nor should this report be construed as a new opinion on any of the financial statements referred to herein.
10. We have no responsibility to update our report for events and circumstances occurring after the date of the report.
11. Our report is intended solely for the use of the Board of Directors and for inclusion in the DRHP to be filed with SEBI and the Stock exchanges, and the RoC (Jharkhand) in connection with the proposed Offer of the Company. As a result, the Restated Financial information may not be suitable for any other purpose. Our report should not be used, referred to or distributed for any other purpose without prior consent in writing. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or whose hands it may come without our prior consent in writing.

1 General Information

Kross Limited (CIN: U29100JH1991PLC004465) is a public limited company registered in India under the provisions of the erstwhile Companies Act, 1956. The Company is engaged in manufacturing of critical components for commercial vehicles and Tractors. The Company specialises in manufacturing of trailer axles and other components for automotive industry.

2 Basis of Preparation

2.1 Statement of Compliance

The Restated Financial Information of the Company comprises of the Restated Statement of Assets and Liabilities as at June 30, 2023, March 31, 2023, 2022 and 2021, the Restated Statement of Profit and Loss (including Other Comprehensive Income), the Restated Statement of Cash Flows and the Restated Statement of Changes in Equity for the three months ended June 30, 2023 and the years ended March 31, 2023, 2022 and 2021, and a summary of significant accounting policies and other explanatory information.

The Restated Restated Financial Information has been approved by the Board of Directors of the Company on November 23, 2023 and have been prepared in all material respects with the requirements of:

- (a) Section 26 of Part I of Chapter III of the Companies Act 2013 (the "Act"), as amended from time to time;
- (b) SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, (the "SEBI ICDR Regulations"), as amended from time to time, and
- (c) The Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India (ICAI), as amended from time to time ("the Guidance Note").

The Restated Financial Information has been compiled from:

Audited financial statement of the Company as at and for the year ended March 31, 2023, Audited Special Purpose Interim Restated Financial Information for the three months ended June 30, 2023 and Audited Special Purpose Restated Financial Information for the years ended March 31, 2022 and 2021 which were prepared in accordance with Indian Accounting Standard as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended, and other accounting principles generally accepted in India (referred to as "Ind AS"), which have been approved by the Board of Directors at their meetings held on September 27, 2023 and November 30, 2023 respectively.

2.2 Functional and presentation currency

These Restated Financial Information are presented in Indian Rupees ₹, which is also the Company's functional currency. All amounts have been rounded-off to the nearest Millions upto two decimal, unless otherwise stated.

2.3 Basis of measurement

These Restated Restated Financial Information has been prepared on the historical cost basis except certain financial assets and liabilities which are measured at fair values.

2.4 Use of estimates and critical accounting judgements

In the preparation of the Restated Financial Information, the Company makes judgements, estimates and assumptions about the carrying value of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

Key source of estimation of uncertainty at the date of the Restated Financial Information, which may cause material adjustment to the carrying amounts of assets and liabilities within the next financial year are provided below:

(a) Property, plant and equipment and intangible assets – useful life

Property, plant and equipment represents a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of the Company's assets are determined by the Company at the time the asset is acquired and reviewed periodically, including at the end of each reporting period. The lives are based on historical experience with similar assets.

(b) Assets and obligations relating to employee benefits

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate; future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(c) Lease classification, termination and renewal option of leases

Ind AS 116, Leases requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that the Company will continue the lease beyond non-cancellable period and whether any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to terminating the lease and the importance of the underlying asset to Company's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances. After considering current and future economic conditions, the Company has concluded that no material changes are required to lease period relating to the existing lease contracts.

(d) Contingent Liabilities

At each balance sheet date, on the basis of the management judgment, changes in facts and legal aspects, the Company assesses the requirement of disclosure against the outstanding contingent liabilities. However, the actual future outcome may be different from this judgement.

2.5 Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. The Company regularly reviews significant unobservable inputs and valuation adjustments. If third party information is used to measure fair values, then the Company assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfer between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

3 Significant accounting policies

3.1 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified current when it is:

- (a) Expected to be realised or intended to be sold or consumed in the normal operating cycle
- (b) Held primarily for the purpose of trading
- (c) Expected to be realised within twelve months after the reporting period; or
- (d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified current when:

- (a) It is expected to be settled in the normal operating cycle;
- (b) It is held primarily for the purpose of trading;
- (c) It is due to be settled within twelve months after the reporting period; or
- (d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current assets and liabilities.

3.2 Financial instruments

(a) Recognition and initial measurement

Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

(b) Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at

- amortised cost;
- Fair value through profit or loss (FVTPL) or Fair value through other comprehensive income (FVOCI)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A financial asset is measured at fair value through other comprehensive income (FVOCI) if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows and cash flows from sales; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Equity instruments are always classified at fair value through profit and loss, except in cases where the Company has elected an irrevocable option of designating the same as fair value through other comprehensive income (FVOCI).

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL :

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

Financial assets at amortised cost:

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Financial assets at FVOCI :

These assets are subsequently measured at fair value through other comprehensive income i.e., subsequent changes in fair value of the instrument is recognised in other comprehensive income. Any dividend received on such instruments are recognised in Statement of Profit and Loss.

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified and measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

(c) Derecognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

(d) Impairment of financial assets

Loss allowance for expected credit losses is recognised for the "financial assets measured at amortised cost" and "fair value through other comprehensive income".

The Company has applied life time expected credit losses for determining loss allowances for all trade receivables that do not constitute a financing transaction.

For financial assets (apart from trade receivables that do not constitute of financing transaction) whose credit risk has not significantly increased since initial recognition, loss allowance equal to twelve months expected credit losses is recognised. Loss allowance equal to the lifetime expected credit losses is recognised if the credit risk of the financial asset has significantly increased since initial recognition.

(e) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

(f) Contract Assets

Contract assets is right to consideration in exchange for goods or services transferred to the customer and performance obligation satisfied. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional, in the nature of unbilled receivables. Upon completion of the attached condition and acceptance by the customer, the amounts recognised as contract assets is reclassified to trade receivables upon invoicing. A receivables represents the Company's right to an amount of consideration that is unconditional. Contract assets are subject to impairment assessment.

(g) Contract Liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer or has raised the invoice in advance. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract (i.e., transfers control of the related goods or services to the customer)

3.3 Revenue

Revenue from contracts with customers is recognised when the control of the goods/services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods/services. Such revenue is recognised upon the Company's performance of its contractual obligations and on satisfying all the following conditions:

- (1) Parties to the contract have approved the contract and undertaken to perform their respective obligations;
- (2) Such contract has specified the respective rights and obligations of the parties in connection with the transfer of goods or rendering of services (hereinafter the "Transfer");
- (3) Such contract contains specific payment terms in relation to the Transfer;
- (4) Such contract has a commercial nature, namely, it will change the risk, time distribution or amount of the Company's future cash flow;
- (5) The Company is likely to recover the consideration it is entitled to for the Transfer to customers.

Revenue is recognised when no significant uncertainty exists regarding the collection of the consideration. The amount recognised as revenue is exclusive of all indirect taxes and net of returns and discounts.

(a) Sale of goods

For contracts with customers for sale of goods, revenue is recognised net of discount and rebates, at a point in time when control of the asset is transferred to the customer, which is when the goods are delivered to the customers as per the terms of the contracts. Delivery happens when the goods have been shipped or delivered to the specific location, as the case may be, the risk of loss has been transferred, and either the customer has accepted the goods in accordance with the contracts or the Company has objective evidence that all criteria related for acceptance has been satisfied.

No element of significant financing is deemed present as the sales are generally made with a credit term which is consistent with the market practice. A receivable is recognised when the goods are delivered and this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

(b) Sale of Services

Revenue from service contracts are recognised in the accounting period in which the services are rendered. Where the contracts include multiple performance obligations, the transaction price is allocated to each performance obligation based on the standalone selling price and revenue is recognised over time as and when the customer receives the benefit of the Company's performance based on the actual service provided to as proportion of the total services to be provided. In case the service contracts include one performance obligation, revenue is recognised based on the actual service provided to the end of the reporting period as proportion of the total services to be provided. This is determined based on the actual expenditure incurred to the total estimated cost.

(c) Dividend and interest income

Dividend income is recognised when the company's right to receive payment has been established and that the economic benefits will flow to the Company and amount of income can be measured reliably.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the asset's net carrying amount on initial recognition.

3.4 Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

3.5 Income Taxes

Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit or loss. Company periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the balance sheet liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying value of assets and liabilities in the Restated Financial Information and the corresponding tax bases used in the computation of taxable profit and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences. In contrast, deferred tax assets are only recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised.

The carrying value of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on the tax rates and tax laws that have been enacted or substantially enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying value of its assets and liabilities.

Deferred tax assets and liabilities are offset to the extent that they relate to taxes levied by the same tax authority and there are legally enforceable rights to set off current tax assets and current tax liabilities within that jurisdiction.

Current and deferred tax are recognised as an expense or income in the statement of profit and loss, except when they relate to items credited or debited either in other comprehensive income or directly in equity, in which case the tax is also recognised in other comprehensive income or directly in equity.

3.6 Foreign currencies

Items included in the Restated Financial Information are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The Company's Restated Financial Information are presented in Indian Rupees, which is the Company's functional and presentation currency.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Company in its functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Differences arising on settlement or translation of non-monetary items are recognised in profit or loss unless they relate to the qualifying cash flow hedges.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

In determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which the Company initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Company determines the transaction date for each payment or receipt of advance consideration.

3.7 Property, plant and equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Capital Work-in-Progress is stated at cost, net of accumulated impairment losses, if any.

Cost of Property, plant and equipment includes the costs directly attributable to the acquisition or constructions of assets, or replacing parts of the plant and equipment and borrowing costs for qualifying assets, if the recognition criteria are met. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with them will flow to the Company and the cost of the item can be measured reliably. All other repair and maintenance costs are recognised in profit or loss as incurred.

Advance given for acquisition / construction of Property, Plant and Equipment and Intangible assets are presented as "Capital Advance" under Other Non Current Assets.

The assets in the process of construction or acquisition but not ready for management's intended use are included under Capital Work in progress.

Depreciation is provided on written down value method in the manner and on the basis of useful lives prescribed in Schedule II to the Companies Act, 2013. Depreciation on addition / deduction is calculated pro-rata from/to the month of addition / deduction.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

The estimated useful lives of the assets considered by the Company is stated hereunder:

Assets Description	Useful Life in Years
Office Building	60
Heavy Equipments	15
Heavy Vehicles	6
Office Appliances	5
Computer	3
Other Machinery	15
Motor Cycle, Scooter	10
Motor Vehicles	8
Furniture	10
Electrical Equipments	10

3.8 Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

3.9 Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate.

Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments.

The Company's lease obligations are presented on the face of the Balance Sheet.

Short-term leases and leases of low value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date). It also applies the lease of low-value assets recognition exemption to leases of assets that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

The Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

3.10 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

3.11 Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Subsequent to initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

Intangible assets are amortised over the useful economic life (5 years for computer software) and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Restated Statement of Profit or Loss (including other comprehensive income).

3.12 Impairment of assets (other than financial assets)

At each balance sheet date, the Company reviews the carrying value of its property, plant and equipment and intangible assets to determine whether there is any indication that the carrying value of those assets may not be recoverable through continuing use. If any such indication exists, the recoverable amount of the asset is reviewed in order to determine the extent of impairment loss, if any. Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. An impairment loss is recognised in the statement of profit and loss as and when the carrying value of an asset exceeds its recoverable amount.

Where an impairment loss subsequently reverses, the carrying value of the asset (or cash generating unit) is increased to the revised estimate of its recoverable amount so that the increased carrying value does not exceed the carrying value that would have been determined had no impairment loss been recognised for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognised in the statement of profit and loss immediately.

3.13 Provisions and contingencies

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Disclosure for contingent liabilities is made when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources embodying economic benefits will be required to settle or a reliable estimate of the amount cannot be made.

3.14 Inventories

Raw materials, work-in-progress and finished products are valued at lower of cost and net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes purchase price, non-refundable taxes and duties and other directly attributable costs incurred in bringing the goods to the point of sale. Work-in-progress and finished goods include appropriate proportion of overheads.

Stores and spares and consumables are valued at cost comprising of purchase price, non refundable taxes and duties and other directly attributable costs after providing for obsolescence and other losses, where considered necessary.

3.15 Cash and short-term deposits

Cash and short-term deposits in the statement of financial position comprise cash at banks and on hand and short-term highly liquid deposits with a maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

3.16 Employee benefits

Short-term employee benefits

Liabilities for short-term employee benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee related liabilities under other financial liabilities in balance sheet.

Post - employment benefits

The liability or asset recognised in the Balance Sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually at year end by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in 'Employee Benefits Expense' in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. These are included in the Statement of Changes in Equity and in the Balance Sheet.

Changes in the present value of the defined benefit obligations resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Defined contribution plan

The Company pays provident fund contributions to publicly administered provident fund as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

3.17 Earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the period

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

The weighted average number of Equity shares have been adjusted for the events such as bonus issue and share split that have changed the number of equity shares outstanding, without corresponding changes in resources

3.18 Contributed equity

Equity shares are classified as equity. Incremental cost directly attributable to the issue of new shares or options are shown in equity as reduction, net of tax from the proceeds.

3.19 Dividend

The Company recognises a liability to pay a final dividend when the distribution is authorised, and the distribution is no longer at the discretion of the Company. As per the corporate laws of India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

The Company recognises a liability to pay the interim dividend when the distribution is authorised by the board of directors subject to the approval of the shareholders.

3.20 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker ('CODM').

The CODM is responsible for allocating resources and assessing performance of the operating segments and has been identified as the Board of Directors of the Company.

3.21 New amendments issued and effective w.e.f April 1, 2023

The Ministry of Corporate Affairs has vide notification dated March 23, 2023 notified Companies (Indian Accounting Standards) Amendment Rules, 2022 which amends certain accounting standards, and are effective April 1, 2023.

The Rules predominantly amend Ind AS 12, Income taxes, and Ind AS 1, Presentation of Restated Financial Information. The other amendments to Ind AS notified by these rules are primarily in the nature of clarifications.

These amendments are not expected to have a material impact on the Company in the current or future reporting periods and on foreseeable future transactions. Specifically, no changes would be necessary as a consequence of amendments made to Ind AS 12 as the group's accounting policy already complies with the now mandatory treatment.

F Extension and termination options

Extension and termination options are included in various leases. These are used to maximize operational flexibility in terms of managing the assets used in the Company's operations. The majority of the extension and termination options held are exercisable by the Company and not by the respective lessor.

G Discounting rate

The Company has used the incremental borrowing rate of 10% (FY2022-23: 10%) to determine the lease liabilities.

* refer note number 32.1 and 32.2 below.

** Earnings per Share for the period ended June 30, 2023 are not annualised.

32.1 The company has issued and allotted 13,523,189 equity bonus shares in ratio of 1 (one) fully paid up bonus share of the face value of Rs. 10 each for every existing 1 (one) fully-paid equity share of face value of Rs. 10 each held as approved by the members at the annual general meeting held on October 26, 2023. In terms of IND AS 33, impact of the same has been considered in the calculation of Basic and Diluted EPS for the three month ended June 30, 2023 and for the year ended March 31, 2023, March 31, 2022 and March 31, 2021 retrospectively.

32.2 Pursuant to Shareholder's resolution passed at the Extraordinary General Meeting held on October 26, 2023, the face value per equity share of the company was subdivided from Rs. 10 each to Rs. 5 each. Accordingly, the calculation above reflects the effect of share split retrospectively for all the periods presented.

Note 33: Warranty against products

The Company extends warranty on certain products manufactured and sold by it. The Company provides for any anticipated warranty costs at the time of recognising the sale based on technical evaluation and estimated costs. The details of movement of provision for warranty are given below:

Note 35: Employee Benefits

Employees Defined Contribution Plans - Provident Fund

The Company provides Provident Fund facility to its eligible employees. The fund is managed by the Commissioner of the Provident Fund. The contributions are expensed as they are incurred in line with the treatment of wages and salaries. The liability of the Company is limited to the contribution deducted from the salary of the employee and the Company's share. During the three months ended June 30, 2023, the Company made contribution plans amounting to Rs.3.21 Millions (for the year ended March 31, 2023: Rs 12.26 Millions, for the year ended March 31, 2022: Rs. 9.27 Millions and for the year ended March 31, 2021: Rs. 7.62 Millions) as expenses under defined contribution plans and same has been recognised as an expense in the Restated Statement of Profit and loss.

Employee Defined Benefit Plans - Gratuity [funded]

The Company provides for gratuity for employees as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination of the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied by the number of years of service. The gratuity plan is a funded plan. The Company does not fully fund the liability and make the payments as and when they become due from its own funds.

(iii) Sensitivity analysis

Particulars	For the three months ended June 30, 2023		For the year ended March 31, 2023		For the year ended March 31, 2022		For the year ended March 31, 2021	
	Increase	Decrease	Increase	Decrease	Increase	Decrease	Increase	Decrease
The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:								
Discount rate (+/- 0.5%)	(1.97)	2.19	(2.18)	2.31	(2.13)	2.27	(2.23)	2.39
Salary growth rate (+/- 0.5 %)	2.13	(2.07)	2.24	(2.18)	2.21	(2.12)	2.30	(2.20)

The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

The sensitivity analysis presented above may not be representative of the actual change in the projected benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the projected benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the projected benefit obligation as recognised in the restated Financial Information.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

(iv) Major categories of Plan Assets

Particulars	As at June 30, 2023	As at March 31, 2023	As at March 31, 2022	As at March 31, 2021
Funded by policy of insurance with LIC	5.28	4.43	0.73	1.31

(v) Risk exposure

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

Actuarial Risk:

Adverse Salary Growth Experience : Salary hikes that are higher than the assumed salary escalation will result into an increase in Obligation at a rate that is higher than expected.

Variability in withdrawal rates : If actual withdrawal rates are higher than assumed withdrawal rate assumption then the Gratuity Benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.

Variability immortality rates : If actual mortality rates are higher than assumed mortality rate assumption then the Gratuity Benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cash flow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.

Investment Risk:

For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.

Discount rate risk :

The Company is exposed to the risk of fall in discount rate. A fall in discount rate will eventually increase the ultimate cost of providing the above benefit thereby increasing the value of the liability.

Liquidity risk:

Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign/retire from the company there can be strain on the cash flows.

Market Risk:

Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & viceversa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

Regulatory Risk :

Gratuity Benefit must comply with the requirements of the Payment of Gratuity Act, 1972 (as amended up-to-date). There is a risk of change in the regulations requiring higher gratuity payments (e.g. raising the present ceiling of Rs. 2 Millions, raising accrual rate from 15/26 etc.)

During the quarter ended June 30, 2023 and year ended March 31, 2023, March 31, 2022 and March 31, 2021 there were no amendment, curtailments and settlements in the gratuity plan and post retirement pension plans.

- (i) The carrying amounts of current financial assets and liabilities is carried at amortised cost closely approximate to their fair values as the impact of discounting on such financial assets or liabilities is not significant considering the instruments mature in a very short time.
- (ii) Unsecured loans from related parties are repayable on demand and accordingly represent its fair value.
- (iii) Long-term security deposits are repayable on closure of contracts i.e., repayable on demand and accordingly carrying amount reflect its fair values. The same can be categorised as Level 3 fair values.
- (iv) Long-term borrowings carry both fixed and variable rate of interest. For variable interest rate borrowings, carrying amounts are considered to represent fair value of such borrowings. For fixed rate borrowings, fair values have been determined using discounted cash flow approach using the current interest rates. The fair values of the borrowings can be categorised as Level 2 fair values.

Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard.

- (a) **Level 1 - Quoted prices in an active market:**
This level of hierarchy includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities.
- (b) **Level 2 - Fair values determined using valuation techniques with observable inputs:**
The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.
- (c) **Level 3 - Fair values determined using valuation techniques with significant unobservable inputs:**
This level of hierarchy includes financial assets and financial liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

The following table summarises the financial assets and liabilities measured at fair value on a recurring basis and financial assets that are not measured at fair value on a recurring basis (but fair value disclosure are required):

Note 37: Capital management

Risk management

The Company's objectives when managing capital are to:

- safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and
- maintain an optimal capital structure to reduce the cost of capital.

The capital structure of the Company consists of debt, cash and cash equivalents and equity attributable to equity shareholders of the Company which comprises issued share capital and accumulated reserves disclosed in the Restated Statement of Changes in Equity and debts appearing as part of the borrowings.

The capital structure of the Company is based on management's judgement of the appropriate balance of key elements in order to meet its strategic and day-to-day needs. The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The funding requirement is met through a mixture of equity, long term borrowings and short term borrowings.

Note 38: Reconciliation of debt

This section sets out an analysis of debt and the movements therein

Note 39: Financial risk management

In the course of its business, the Company is exposed primarily to fluctuations in interest rates, liquidity and credit risk, which may adversely impact the fair value of its financial instruments. In order to minimise any adverse effects on the financial performance of the Company, the Company has risk management policies as described below:

(A) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) including deposits with banks and financial institutions, foreign exchange transactions, other financial instruments carried at amortised cost.

Financial instruments that are subject to credit risk and concentration thereof principally consist of trade receivables, cash and cash equivalents and other bank balances held by the Company. Trade receivables, cash and cash equivalents and other bank balances of the Company result in material concentration of credit risk.

The carrying value of financial assets represent the maximum credit risk. The maximum exposure to credit risk being the total carrying value of trade receivables, balances with bank, bank deposits, and other financial assets are as follows-

Period	Maximum Credit Risk (in Rs. Millions)
Three month ended June 30, 2023	1086.89
FY 22-23	729.61
FY 21-22	574.66
FY 20-21	477.68

Trade receivables

Customer credit risk is managed by the Company through established policy and procedures and control relating to customer credit risk management. Trade receivables are non-interest bearing and are generally carrying 30 to 60 days credit terms. The Company has a detailed review mechanism of overdue customer receivables at various levels within the organisation to ensure proper attention and focus for realisation. The Company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends and ageing of accounts receivable.

Financial assets are considered to be of good quality and there is no significant increase in credit risk.

The requirement for impairment is analysed at each reporting date. The Company's receivables turnover is quick and historically, there was no significant defaults on account of those customer in the past. Ind AS requires an entity to recognise in profit or loss, the amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised in accordance with Ind AS 109, Financial Instruments. Expected credit losses are measured at an amount equal to the life time expected credit losses. The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. The outstanding receivables are regularly monitored to minimise the credit risk.

The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets. Of the trade receivables balance, Rs. 404.82 Millions in aggregate as at June 30, 2023 (Rs. 251.97 Millions as at March 31, 2023, Rs. 333.66 Millions as at March 31, 2022 and Rs. 300.21 Millions as at March 31, 2021) is due from the Company's customers individually representing more than 5% of the total trade receivables balance and accounted for approximately 63.72% (41% as at March 31, 2023, 81% as at March 31, 2022 and 70% as at March 31, 2021) of all the receivables outstanding.

Other financial instruments and bank deposits

Credit risk from balances with banks is managed by the Company's finance department in accordance with the Company's policy. Counterparty credit limits are reviewed by the Company's Board of Directors on an annual basis, and may be updated throughout the year subject to approval of the Company's Board of Directors. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

Balances with banks and deposits are placed only with highly rated banks/financial institutions.

(B) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. This is generally performed in accordance with practice and limits set by the Company.

Maturities of financial liabilities

The tables below analyse the Company's financial liabilities into relevant maturity companying based on their contractual maturities.

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

(C) Market Risk

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates.

The Company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

Interest rate risk exposure on financial liabilities

Foreign currency risk

The Company undertake transactions (e.g. sale of goods, foreign currency loan, purchase of raw materials, etc.) denominated in foreign currencies and thus is exposed to exchange rate fluctuations. The Company evaluates its exchange rate exposure arising from foreign currency transactions and manages the same based upon approved risk management policies. The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

Note 61: First- time adoption of Ind AS

Part A: Statement of restatement adjustments to audited financial statements

The audited financial statements of the Company as of and for the years ended March 31, 2022, and 2021 were prepared as per Companies (Accounting Standards) Rules, 2021, as amended and the relevant provisions of the Companies Act, 2013 (hereinafter referred to as "Previous GAAP"). These Restated Financial Information is prepared as per the Companies (Indian Accounting Standards) Rules, 2015, as amended and other provisions of the Companies Act, 2013 (hereinafter referred to as "Ind AS").

The accounting policies set out in note number 2 have been applied in preparing the Restated Financial Information for the three months ended June 30, 2023 and for the years ended March 31, 2023, 2022 and 2021. The Company has followed the accounting policy choices (both mandatory exceptions and optional exemptions availed as per Ind AS 101) on transition date i.e., April 1, 2020 while preparing Restated Financial Information for the year ended March 31, 2021. Accordingly, suitable restatement adjustments are made in the financial statements as of and for the year ended March 31, 2021 and on the transition date i.e., April 1, 2020.

An explanation of how the transition from Indian GAAP to Ind AS has affected the Company's Restated Financial Information is set out in the following tables and notes.

Exemptions and exceptions availed

In preparing Restated Financial Information, the Company has applied the below mentioned optional exemptions and mandatory exceptions on the transition date.

A. Ind AS optional exemptions availed

Ind AS 101 allows an entity to designate investment in equity instruments at FVTOCI on the bases of facts and circumstances at the date of transition to Ind AS. The Company elected to apply this exemption for investment in equity shares.

B. Ind AS mandatory exceptions

(a) Estimates

As per Ind AS 101, an entity's estimates in accordance with Ind AS at the date of transition to Ind AS and at the end of the comparative period presented in the entity's first Ind AS financial statements, as the case may be, should be consistent with estimates made for the same date in accordance with the previous GAAP unless there is objective evidence that those estimates were in error. However, the estimates should be adjusted to reflect any differences in accounting policies.

As per Ind AS 101, where application of Ind AS requires an entity to make certain estimates that were not required under previous GAAP, those estimates should be made to reflect conditions that existed at the date of transition (for preparing Restated Statement of Assets and Liabilities or at the end of the comparative period (for presenting comparative information as per Ind AS).

The Company's estimates under Ind AS are consistent with the above requirement. Key estimates considered in preparation of the financial statements that were not required under the previous GAAP are listed below:

- Impairment of financial assets based on the expected credit loss model.
- Determination of the discounted value for financial instruments carried at amortised cost.

(b) Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification of financial assets on the basis of facts and circumstances existing as on the date of transition. Further, the standard permits measurement of financial assets accounted at amortised cost based on facts and circumstances existing at the date of transition if retrospective application is impracticable.

Accordingly, the Company has determined the classification of financial assets based on facts and circumstances that exist on the date of transition.

Notes

(i) Fair valuation of investments

Under the previous GAAP, investments in equity instruments and mutual funds were classified as long-term investments or current investments based on the intended holding period and realisability. Long-term investments were carried at cost less provision for other than temporary decline in the value of such investments. Current investments were carried at lower of cost and fair value. Under Ind AS, these investments are required to be measured at fair value. The resulting fair value changes of these investments (other than equity instruments designated as at FVOCI) have been recognised in retained earnings as at the date of transition and subsequently in the profit or loss for the respective years

(ii) Trade receivables

As per Ind AS 109, the Company is required to apply the expected credit loss model for recognising the allowance for doubtful debts. As a result, the allowance for doubtful debts increased and consequently, the total equity has decreased on transition to Ind AS.

(iii) Borrowings

Ind AS 109 requires transaction costs incurred towards origination of borrowings to be deducted from the carrying amount of borrowings on initial recognition. These costs are recognised in the profit or loss over the tenure of the borrowing as part of the interest expense by applying the effective interest rate method.

Under previous GAAP, these transaction costs were charged to profit or loss as and when incurred. Accordingly, borrowings as at the transition date and at the end of the respective year has decreased with a corresponding adjustment to retained earnings. The total equity increased by an equivalent amount. The profit for the respective years after transition has decreased due to additional interest expense recognised on account of processing fees paid.

(iv) Provisions

Ind AS 19, Employee Benefits

Requires the entity to recognise provisions for defined benefit plans and other long-term employee benefits determined using the actuarial valuation done by an independent actuary. The Company has under the previous GAAP did not recognize the provisions for gratuity, a defined benefit plan as actuarial valuation was not available. The Company has on transition to Ind AS has got the actuarial valuation done and accordingly recognized the provisions for gratuity with corresponding adjustment to the retained earnings. For the subsequent period changes in the provisions are recognised in profit or loss except for the remeasurement gains and losses which are recognised in the other comprehensive income. The above adjustment has resulted in a decrease in total equity and profit, as at the date of transition and as of and for the years ended March 31, 2022.

Ind AS 37, Provisions, Contingent Liabilities and Contingent Assets require the entity to recognise provision warranties against the goods sold where such warranties are provided. The Company has on transition to Ind AS has recognised the provisions for warranty with a corresponding adjustment to the retained earnings on the date of transition and in the profit or loss for the year subsequent to the transition. The aforesaid has resulted in decrease in the total equity and profits, as at the date of transition and as of and for the years ended March 31, 2022.

(v) Proposed dividend

Under the previous GAAP, dividends proposed by the board of directors after the balance sheet date but before the approval of the financial statements were considered as adjusting events. Accordingly, the provision for the proposed dividend was recognised as a liability. Under Ind AS, such dividends are recognized when the same is approved by the shareholders in the general meeting. Accordingly, the liability for the proposed dividend included under the provisions has been reversed with corresponding adjustment to retained earnings. Consequently, the total equity increased by an equivalent amount.

(vi) Interest on MSMED creditors

Micro, Small and Medium Enterprises Development Act, 2006 required the entity to pay the interest on the amount payable to MSMED vendor on meeting the conditions specified in the act and the rule made thereunder. The Company has on transition to Ind AS recognised the provisions for aforesaid interest with a corresponding adjustment to the retained earnings on the date of transition and in the profit or loss for the year subsequent to the transition. The aforesaid has resulted in decrease in the total equity and profits, as at the date of transition and as of and for the years ended March 31, 2022.

(vii) Depreciation

Ind AS 16 requires the entity to systematically allocate the depreciable amount over the useful life of the assets. In previous financial statements depreciation were not charged for few depreciable assets. The Company has on transition to Ind AS has recognised the depreciation on these assets with a corresponding adjustment to the retained earnings on the date of transition and in the profit or loss for the year subsequent to the transition. The aforesaid has resulted in decrease in the total equity and profits, as at the date of transition and as of and for the years ended March 31, 2022.

(viii) Income-tax

Tax effects of the aforesaid adjustments has been recognized net of its tax effect and accordingly resulting change in the deferred tax assets / liabilities are incorporated with a corresponding adjustment to retained earnings as on the date of transition and in profit or loss for the respective year subsequent to the date of transition.

Part B: Non adjusting Items

Principal terms of the facilities sanctioned to our Company:

The details below are indicative and there may be additional terms, conditions and requirements under the various borrowing agreements entered into by our Company.

1. **Interest:** In respect of the facilities sanctioned to our Company, the current prevailing interest rate ranges from 7.50% per annum to 11.00% per annum. The interest rate for the loans sanctioned to our Company is typically tied to a base rate / marginal cost of lending rate, which may vary from lender to lender.
2. **Tenor:** Typically, the tenor of the facilities sanctioned to our Company are as follows:
 - a) Term loans: for a period of up to 60 months; and
 - b) Cash credit/Working capital facility: for a period of up to 12 months;
3. **Security:** The facilities sanctioned are typically secured by way of hypothecation on our assets, plant and machinery, furniture and machinery spares, and charge on fixed and current assets (including book debts and receivables). The Promoters of the Company, namely Sudhir Rai, Anita Rai, Sumeet Rai and Kunal Rai, have provided their personal guarantee for certain loans availed by the Company from banks and financial institutions with respect to the sanctioned facilities to Axis Bank Limited, HDFC Bank Limited, DBS India Bank. Further, Sudhir Rai and Anita Rai have also given personal guarantee with respect to the loan availed by the Company from Siemens Financial Services Private Limited. The nature of securities described herein is indicative and there may be additional requirements for creation of security under the various borrowing arrangements entered into by our Company.
4. **Pre-payment:** The facilities availed by our Company allow pre-payment. Certain facilities allow for pre-payment of the outstanding amount by serving prior notice to the lender. Pre-payment may be subject to pre-payment penalties as may be prescribed. These pre-payment penalties typically range from 2.00% to 6.00% of the principal amount or of the amount being prepaid.
5. **Re-payment:** Our Company may repay all amounts of the facilities on the due dates for payment. Certain of our loans are repayable on demand.
6. **Events of Default:** Borrowing arrangements entered into by our Company contain standard events of default, including, among others:
 - a) failure or inability to pay outstanding principal and interest amounts on due dates;

- b) providing incorrect or misleading information and representations;
- c) providing inadequate security or insurance;
- d) liquidation or dissolution of our Company;
- e) cessation or change in business or control of our Company;
- f) cross default; and
- g) default in the performance of any covenant, condition or undertaking on our part.

This is an indicative list and there may be additional terms that may amount to an event of default under the borrowing arrangements entered into by our Company.

7. *Consequences of occurrence of events of default:* In terms of our borrowing arrangements, the following, among others, are the consequences of occurrence of events of default, whereby the lenders may:

- a) terminate and cancel either whole or part of the facility;
- b) suspend further access/drawals, either in whole or in part, of the facility;
- c) appoint a nominee director on the Board;
- d) impose a monetary penalty;
- e) accelerate repayments/ initiate recall of the loans.

8. *Restrictive Covenants:* The facilities sanctioned to our Company contain certain restrictive covenants, which require prior written consent of the lender or prior intimation to be made to the lender, including:

- a) any change in the ownership or control of the Company whereby the effective beneficial ownership or control of the Company shall change;
- b) any material change in the management of the business;
- c) any amendments in the memorandum and articles of association;
- d) change in shareholding pattern;
- e) resort to any additional borrowing in the Company;
- f) invest in, extend any advance or loans, to any group companies, associates, subsidiary or any other third party;
- g) diversify into non-core areas viz., business other than the current business;
- h) undertake any new project without demonstrating the financial viability of the same to the lenders;
- i) any change in its capital structure (including any change in the shareholding pattern which shall in any way be subject to the provisions of the finance documents);
- j) implement any scheme of expansion/ diversification or capital expenditure or acquire fixed assets (except normal replacement indicated in funds flow statement submitted to and approved by the lender) if such investment results in breach of Financial Covenants or diversion of working capital funds on financing of long term assets;
- k) implement any scheme of expansion / modernization / diversification.

This is an indicative list and there may be such other additional terms under the borrowing arrangements entered into by our Company, that may require the consent of the relevant lender, the breach of which may amount to an event of default under various borrowing agreements entered into by our Company, which may lead to consequences other than those stated above. We are also required to keep our lenders informed of any event likely to have a substantial effect on our business.

For the purpose of the Offer, our Company has obtained the necessary consents from our lenders as required under the relevant borrowing arrangements for undertaking activities relating to the Offer, such as, inter alia, effecting changes to our shareholding and making amendments to our memorandum and articles of association.

For risks in relation to the financial and other covenants required to be complied with in relation to our borrowings, see “*Risk Factors*” on page 27.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion of our financial condition and results of operations is based on, and should be read in conjunction with, our Restated Financial Information (including the schedules, notes and significant accounting policies thereto), included in the section titled "Restated Financial Information" beginning on page 243 of this Draft Red Herring Prospectus.

Our Restated Financial Information has been derived from (i) our audited financial statements for Fiscal 2023; (ii) our audited special purpose financial statements for Fiscal 2022, 2021 and (iii) our audited special purpose interim financial statements for the three month period ended June 30, 2023; and have been restated in accordance with the SEBI ICDR Regulations and the ICAI Guidance Note. Our financial statements for Fiscal 2023, our audited special purpose financial statements for Fiscal 2022, 2021 and our audited special purpose interim financial statements for the three month period ended June 30, 2023 are prepared in accordance with Ind AS, notified under the Companies (Indian Accounting Standards) Rules, 2015, and read with Section 133 of the Companies Act, 2013 to the extent applicable. Ind AS differs in certain material respects from IFRS and U.S. GAAP and other accounting principles with which prospective investors may be familiar. Accordingly, the degree to which the financial statements prepared in accordance with Ind AS included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Ind AS accounting policies. We have not attempted to quantify the impact of IFRS or U.S. GAAP on the financial information included in this Draft Red Herring Prospectus, nor do we provide a reconciliation of our financial information to IFRS or U.S. GAAP. Any reliance by persons not familiar with Ind AS accounting policies on the financial disclosures presented in this Draft Red Herring Prospectus should accordingly be limited.

Unless otherwise indicated or the context requires otherwise, the financial information for the three month period ended June 30, 2023 and for the Fiscals 2023, 2022 and 2021 included herein have been derived from our restated statements of assets and liabilities as of June 30, 2023, March 31, 2023, March 31, 2022 and March 31, 2021 and restated statements of profit and loss (including other comprehensive income), restated statements of cash flows and restated statements of changes in equity for the three month period ended June 30, 2023 and for the fiscal years ended March 31, 2023, March 31, 2022 and March 31, 2021 of the Company, together with the statement of significant accounting policies, and other explanatory information thereon.

Our fiscal year ends on March 31 of each year, and references to a particular fiscal period are to the 12 months ended March 31 of that year. All references to a year are to that Fiscal Year, unless otherwise noted.

Some of the information contained in this section, including information with respect to our strategies, contain forward-looking statements that involve risks and uncertainties. You should read the section titled "Forward-Looking Statements" beginning on page 19 of this Draft Red Herring Prospectus for a discussion of the risks and uncertainties related to those statements and also the section titled "Risk Factors" and "Our Business" beginning on pages 27 and 181, respectively, of this Draft Red Herring Prospectus for a discussion of certain factors that may affect our business, results of operations and financial condition. The actual results of the Company may differ materially from those expressed in or implied by these forward-looking statements.

Unless otherwise indicated, industry and market data used in this section has been derived from the report "Market dynamics for select forged and machined components and assemblies in the commercial vehicle and tractor segment" dated November, 2023 (the "CRISIL Report") prepared and released by CRISIL Limited and commissioned and paid for by us in connection to the Offer. A copy of the CRISIL Report will be available on the website of our Company at www.krosslimited.com from the date of the Red Herring Prospectus. Unless otherwise indicated, all financial, operational, industry and other related information derived from the CRISIL Report and included herein with respect to any particular year refers to such information for the relevant calendar year.

Unless otherwise stated, references to "the Company", "our Company", "we", "us", and "our" are to Kross Limited.

Overview

We are a diversified player focused on manufacturing and supply of trailer axle and suspension assembly and a wide range of forged and precision machined high performance safety critical parts for medium and heavy commercial vehicles ("M&HCV") and farm equipment segments. We are widely recognized as one of the prominent manufacturers of trailer axles and suspension assembly in India (Source: CRISIL Report). In 2019, we

commenced manufacture and sale of trailer axle and suspension assemblies and have witnessed robust growth in the past three years (between Fiscal 2020 and Fiscal 2023) (*Source: CRISIL Report*). We have become one of the fastest growing player in the organised trailer axle manufacturing industry competing with major trailer axle manufacturers (*Source: CRISIL Report*). With over three decades of experience, we rely on our product development capabilities to design and deliver proprietary products such as trailer axle and suspension assembly. We are one of the few players domestically, with the competency to manufacture trailer axles and suspension assembly in-house (*Source: CRISIL Report*).

With a diversified portfolio of high performance and safety critical components for the M&HCV and farm equipment segments, we are a specialist in manufacturing of safety critical components for M&HCV segment which include axle shafts, companion flanges, anti-roll bars and stabilizer bar assembly, suspension linkages, differential spiders, bevel gears, planet carriers, inter-axle kits, rear end spindles, pole wheels and wide variety of tractor components for the hydraulic lift arrangement, power take-off (“PTO”) shafts and front axle spindles.

We supply our products to a diversified client base which includes large original equipment manufacturers (“OEMs”) manufacturing M&HCV and tractors, tier one suppliers to the OEMs in the M&HCV segment domestic dealers and fabricators for our trailer axle and suspension business. In the past we have been recognized by customers for the high-quality of the products supplied by us, which is one of the factors that has helped us establish long term relationships with several large domestic and global OEMs, including, Ashok Leyland Limited, a leading Indian automobile OEM and a Indian farm equipment OEM, each of whom we have been associated with for a period of more than 18 years and Tata International DLT Private Limited with whom we have been associated since 2019. Due to our track record and diverse product portfolio, we have also been able to attract new customers such as Leax Falun AB and a Japan based OEM manufacturing commercial vehicles. We have also commenced our bulk exports to Leax Falun AB, a Sweden based company manufacturing propeller shafts for commercial vehicle OEMs, in August 2023 with supplies of Universal Joint Crosses and are in stages of validation for other critical parts.

We are backward integrated with design, process engineering, forging, casting and machining capabilities which allows us greater control over process, timelines, pricing and quality. We believe that our in-house design capabilities have been instrumental in our success by allowing us to work closely with customers for design and development of high performance and safety-critical components and assemblies, such as, anti-roll bars and stabiliser bars, where we along with the OEM’s design team, conceptualised the design and framework of the product. For our trailer axles and suspension assemblies, we are also forward integrated with a network of sales and service locations across key states in India, as of the date of this Draft Red Herring Prospectus. Design, technology used for development, backward integration and after-sale service provided are crucial aspects for trailer axle manufacturers (*Source: CRISIL Report*). For our trailer axle and suspension assembly business, we operate our service on a mobile and on road basis, where once a complaint is registered by the customer, our service associate is deployed to the location of origin of the complaint to resolve the same. We have a custom service software developed by Sales force which gives us accurate tracking of service complaints as well as service history of the vehicle.

We operate out of five manufacturing facilities in Jamshedpur, Jharkhand, equipped with (i) forging presses and upsetters equipped with induction billet heaters, (ii) foundry with a high pressure mould line, (iii) high-precision machining equipment such as turning centres, vertical and horizontal milling centres, grinding, broaching, hobbing, shaping and robotic welding, (iv) in-house cathodic electro-disposition plant (“CED Plant”), powder coating, spray painting and (v) heat treatment furnaces and induction hardening equipment. Our manufacturing facilities (Units I, II, III, IV and V) have obtained ISO 9001:2015 for manufacture of axle shaft, PTO shaft, lift shaft, ring gear, bevel gear assembly and related parts from TÜV NORD CERT GmbH and IATF 16949:2016 quality certifications for manufacture of axle shafts, universal joints (for steering and propeller shaft), differential spiders, companion flanges, anti-roll bar, bevel kit assembly and trailer axle assembly from TÜV NORD CERT GmbH.

We currently manufacture a large variety of components and have the capacity to manufacture forged parts of up to 40 kg input weight. We enhanced our backward integration capabilities by establishing a new casting facility at Unit V, setting up a high-pressure mould line foundry along with a machine shop. We are in the process of expanding our capacity and increasing our product offerings through the expansion of our existing facilities, through the addition of further production lines, which will allow us to produce a new line of parts such as the hydraulic cover for tractors and in-house machining line of hubs and brake drums. For further details of the proposed expansion, see “*Objects of the Offer – Funding of capital expenditure requirements of our Company towards purchase of machinery and equipment*” on page 106.

Our Chairman and Managing Director, Sudhir Rai, has been an integral part in the establishment and growth of our Company and with over three decades of experience in the automotive component manufacturing industry, and has been instrumental in our continued growth. Most of the Key Management Personnel and the Senior Management Personnel of the Company have also been associated with us for more than a decade and have contributed to the growth of the Company through their commitment and expertise. We believe our experienced and dedicated senior management team also enables us to identify market opportunities, formulate and execute business strategies, manage customer expectations and proactively address changes in market conditions.

Our key performance indicators for the three-month period ended June 30, 2023 and for the last three Fiscals are as follows:

Notes:

- Gross profit is calculated as revenue from operations minus cost of raw materials and components consumed minus changes in inventories of finished products and work in progress.
- Gross Margin is calculated as gross profit divided by Revenue from Operations.
- EBITDA is calculated as restated profit for the period/ year minus other income plus finance costs, depreciation and amortisation expense and total tax expense.
- EBITDA Margin is calculated as EBITDA divided by Revenue from Operations.
- PAT Margin is calculated as restated profit for the period/ year divided by total income.
- Return on Equity is calculated as restated profit for the period/ year divided by total equity.
- Return on Capital Employed is calculated as EBIT divided by capital employed. Capital employed is calculated as total equity plus deferred tax liability plus lease liabilities (current and non-current) plus total borrowings while EBIT is calculated as restated profit for the period/ year plus total tax expense plus finance costs.
- Gross Fixed Assets Turnover Ratio is calculated as revenue from operations divided by Gross Block as at the end of the period/year.
- Net Debt to EBITDA is calculated as net debt divided by EBITDA. Net Debt is calculated as total of non-current borrowings and current borrowings minus total of cash and cash equivalents and bank balances.

For reconciliation in relation to the Gross Profit, Gross Margin, EBITDA, EBITDA Margin, Return on Equity, Return on Capital Employed, PAT Margin, Gross Fixed Asset Turnover Ratio and Net Debt to EBITDA, see “– Non-GAAP Financial Measures” on page 311.

Principal Factors Affecting our Results of Operations and Financial Condition

Our results of operations have been, and will continue to be, affected by a number of events and actions, some of which are beyond our control. However, there are some specific items that we believe have impacted our results of operations and, in some cases, will continue to impact our results. We believe that the following factors, amongst others, have, or could have an impact on these results, the manner in which we generate income and incur the expenses associated with generating this income.

Trends affecting demand in sectors our customers operate in

Demand for our products is directly related to the production and sales of M&HCV and farm equipment by our customers. Production and sales of M&HCV and farm equipment may be affected by general economic or industry

conditions, improving industrial activity, agricultural output, the pace of infrastructure development as well as evolving regulatory requirements, government initiatives and trade agreements. Our sales are directly dependent on the production level of OEMs in M&HCV and farm equipment as well as manufacturers of tractor trailers and are affected by inventory levels of manufacturers operating in these industries. Set out below are the revenues generated from various end-use industries and as a percentage of our revenue from sale of products:

(in ₹ million, except percentages)

Particulars	Three month period ended June 30, 2023		Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Amount (in ₹ million)	% of total revenue from operation	Amount (in ₹ million)	% of total revenue from operation	Amount (in ₹ million)	% of total revenue from operations	Amount (in ₹ million)	% of total revenue from operations
Commercial Vehicles*	1,234.24	85.88%	4043.46	82.75%	2,230.92	75.00%	1,162.83	63.28%
Farm Equipment	162.24	11.29%	592.73	12.13%	546.52	18.37%	563.66	30.67%
Total	1,396.48	97.17%	4,636.18	94.88%	2,777.44	93.37%	1,726.49	93.95%

*Commercial vehicles include trailer axle and suspension

Further, production and sales of the vehicles for which we supply products are affected by a variety of other factors that are beyond our control, including changes in government policies, changes in consumer demand, product mix shifts favouring other types of vehicles, fuel prices, vehicle electrification, economic conditions, demographic trends, employment and income levels and interest rates, disruptions in these industries' supply chain, vehicle age, labour relations, regulatory requirements, credit availability and cost of credit and general economic and industry conditions.

See "Industry Overview" on page 138, for a discussion of macroeconomic conditions in the global economy and Indian economy and trends affecting the demand for MH&CV and farm equipment.

Raw Material Costs and Operating Costs

Our business, financial condition, results of operations and prospects are significantly impacted by the prices of raw materials purchased by us, particularly prices of steel. The cost of raw materials consumed (including changes in inventories of finished products and work in progress) was ₹892.19 million, ₹2,897.09 million, ₹1,602.86 million and ₹887.32 million in the three month period ended June 30, 2023, Fiscal 2023, 2022 and 2021 which represented 62.01%, 59.02%, 53.81% and 48.17% of our total income for the respective periods. Raw material pricing can be volatile due to a number of factors beyond our control, including global demand and supply, general economic and political conditions, transportation and labour costs, labour unrest, natural disasters, competition, import duties, fuel prices and availability, power tariffs and currency exchange rates. This volatility in commodity prices can significantly affect our raw material costs. While some of the contracts we have with our customers provide for pass through of any variation in the raw material costs, our cash flows may still be adversely affected because of any gap in time between the date of procurement of those primary raw materials and date on which we can reset the product prices for our customers, to account for the increase in the prices of such raw materials.

Our ability to manage our operating costs and operations efficiencies is critical to maintaining our competitiveness and profitability. Our profitability is partially dependent on our ability to increase our productivity and reduce our operating expenses.

Relationship with and dependence on key customers

We have established long-standing relationships with several large domestic and global OEMs, including, Ashok Leyland Limited, a leading Indian automobile OEM and a Indian farm equipment OEM, each of whom we have been associated with for a period of more than 18 years and Tata International DLT Private Limited with whom we have been associated since 2019. Due to our track record and diverse product portfolio, we have also been able to attract new customers such as Leax Falun AB and a Japan based OEM manufacturing commercial vehicles. We have also commenced our bulk exports to Leax Falun AB, a Sweden based company manufacturing propeller shafts for commercial vehicle OEMs, in August 2023 with supplies of Universal Joint Crosses and are in stages of validation for other critical parts.

Set out in the table below are our revenues from operations from our top three and top five customers, based on our Restated Financial Information during the three month period ended June 30, 2023 and the Fiscals 2023, 2022 and 2021:

Particulars	Three month period ended June 30, 2023		Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Amount (in ₹ million)	% of total revenue from operations	Amount (in ₹ million)	% of total revenue from operations	Amount (in ₹ million)	% of total revenue from operations	Amount (in ₹ million)	% of total revenue from operations
Top three customers	797.83	55.52%	2,467.77	50.50%	1,620.91	54.49%	1,081.44	58.85%
Top five customers	1,025.90	71.39%	3,340.95	68.37%	2,025.12	68.08%	1,448.32	78.81%

We plan our production scheduled based on the forecasts from our customers, as is standard in the automotive and non-automotive sectors. Any increases or decreases in the levels of inventory and activity by our customers, in turn, are likely to have an effect on our revenues and our results of operations. Our customers, in turn, are dependent on general trends impacting their operation. See, “-Trends affecting demand in sectors our customers operate in” on page 297.

Success of new products and geographies

We entered the trailer axle and suspension assembly business in 2019, and have witnessed robust growth in the past 3 years (between Fiscal 2020 and Fiscal 2023), becoming one of the fastest growing players in the organized trailer axle manufacturing industry (*Source: CRISIL Report*). Our revenues for operations from trailer axle and suspension business over the periods is as under:

Particulars	Three month period ended June 30, 2023		Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Amount (in ₹ million)	% of total revenue from operations	Amount (in ₹ million)	% of total revenue from operations	Amount (in ₹ million)	% of total revenue from operations	Amount (in ₹ million)	% of total revenue from operations
Trailer axle and suspensions	629.35	43.79%	1,628.22	33.32%	668.96	22.49%	225.11	12.25%

The trailer axle and suspension business differs significantly from our core business as this required us to set up distribution and servicing capabilities which were earlier not as critical in the component business. Having grown the business at a CAGR of 168.94% between Fiscal 2021 and Fiscal 2023, we intend to expand our product profile in axle business and will evaluate business segments which require similar capabilities. Once commissioned, we plan to utilize our capabilities in axle beam extrusion and seamless tube to explore areas of growth which are not available to us at this point in time.

Due to our track record and diverse product portfolio, we have also been able to attract new customers such as Leax Falun AB and a Japan based OEM manufacturing commercial vehicles. We have also commenced our bulk exports to Leax Falun AB, a Sweden based company manufacturing propeller shafts for commercial vehicle OEMs, in August 2023 with supplies of Universal Joint Crosses and are in stages of validation for other critical parts. The success of these industries, products and geographies depends on our management’s ability to identify high growth potential opportunities and utilise our resources to develop these opportunities, which could have a significant impact on our results of operations.

Availability of funds for capital expenditure

We invest in machinery and equipment on an ongoing basis to expand our capacities as well as capabilities to seize opportunities for growth in the market. In the three month period ended June 30, 2023 and Fiscal 2023, 2022 and 2021, our cumulative capital expenditure (i.e. payments for acquisition of property, plant and equipment and intangible assets (including capital work in progress)) was ₹457.02 million while our gross block (i.e. cost of property, plant and equipment, right of use assets, capital work-in-progress and cost of intangible assets) as at June 30, 2023 was ₹1,445.53 million. Around 31.62% of our gross block as at June 30, 2023, was a result of our capital expenditure made between beginning of Fiscal 2021 and June 30, 2023.

We intend to use ₹700.00 million from the net proceeds from the Offer for further capital expenditure. We also intend to create manufacturing capabilities in axle beam extrusion and intend to backward integrate into the seamless tube. The actual amount and timing of our future capital expenditure may deviate from initial estimates due to various factors including unforeseen delays or cost overruns, unanticipated expenses, regulatory changes, economic conditions, engineering design changes, technological advancements, and emerging market developments and opportunities in the sectors we focus on.

Significant Accounting Policies

Basis of Accounting and preparation of financial statements

The Restated Financial Information of the Company comprises the Restated Statement of Assets and Liabilities as at June 30, 2023, March 31, 2023, 2022 and 2021, the Restated Statement of Profit and Loss (including Other Comprehensive Income), the Restated Statement of Cash Flows and the Restated Statement of Changes in Equity for the three month period ended June 30, 2023 and the years ended March 31, 2023, 2022 and 2021, and a summary of significant accounting policies and other explanatory information .

The Restated Financial Information has been approved by the Board of Directors of the Company on November 30, 2023 and have been prepared in all material respects with the requirements of:

- (a) Section 26 of Part I of Chapter III of the Companies Act 2013 (the “Act”), as amended from time to time;
- (b) SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, (the “SEBI ICDR Regulations”), as amended from time to time, and
- (c) The Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India (ICAI), as amended from time to time (“the Guidance Note”).

The Restated Financial Information has been compiled from:

Audited financial statement of the Company as at year ended March 31, 2023 and Audited Special Purpose Interim Financial Statements for the three month period ended June 30, 2023, Audited Special Purpose Financial Statements for the years ended March 31, 2022 and 2021 which were prepared in accordance with Indian Accounting Standard as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended, and other accounting principles generally accepted in India (referred to as “Ind AS”), which have been approved by the Board of Directors at their meetings held on September 27, 2023, November 30, 2023, November 30, 2023 and November 30, 2023, respectively.

Functional and presentation currency

These financial statements are presented in Indian Rupees ₹, which is also the Company’s functional currency. All amounts have been rounded-off to the nearest Millions upto two decimals, unless otherwise stated.

Basis of measurement

These Restated Financial Information has been prepared on the historical cost basis except certain financial assets and liabilities which are measured at fair values.

Use of estimates and critical accounting judgements

In the preparation of the Restated Financial Information, the Company makes judgements, estimates and assumptions about the carrying value of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

Key source of estimation of uncertainty at the date of the Restated financial information, which may cause material adjustment to the carrying amounts of assets and liabilities within the next financial year are provided below:

(a) Property, plant and equipment and intangible assets – useful life

Property, plant and equipment represents a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of the Company's assets are determined by the Company at the time the asset is acquired and reviewed periodically, including at the end of each reporting period. The lives are based on historical experience with similar assets.

(b) Assets and obligations relating to employee benefits

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate; future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(c) Lease classification, termination and renewal option of leases

Ind AS 116, Leases requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that the Company will continue the lease beyond non-cancellable period and whether any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the terminating the lease and the importance of the underlying asset to Company's operations taking in to account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances. After considering current and future economic conditions, the Company has concluded that no material changes are required to lease period relating to the existing lease contracts.

(d) Contingent Liabilities

At each balance sheet date, on the basis of the management judgment, changes in facts and legal aspects, the Company assesses the requirement of disclosure against the outstanding contingent liabilities. However, the actual future outcome may be different from this judgement.

Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. The Company regularly reviews significant unobservable inputs and valuation adjustments. If third party information is used to measure fair values, then the Company assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfer between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Significant accounting policies

Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified current when it is:

- (a) Expected to be realised or intended to be sold or consumed in the normal operating cycle;
- (b) Held primarily for the purpose of trading;
- (c) Expected to be realised within twelve months after the reporting period; or
- (d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified current when:

- (a) It is expected to be settled in the normal operating cycle;
- (b) It is held primarily for the purpose of trading;
- (c) It is due to be settled within twelve months after the reporting period; or
- (d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current assets and liabilities.

Financial instruments

(a) Recognition and initial measurement

Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

(b) Classification and subsequent measurement

Financial assets- On initial recognition, a financial asset is classified as measured at

- amortised cost;
- Fair value through profit or loss (FVTPL) or Fair value through other comprehensive income ('FVOCI')

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A financial asset is measured at fair value through other comprehensive income ('FVOCI') if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows and cash flows from sales; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Equity instruments are always classified fair value through profit and loss, except in cases where the Company has elected an irrevocable option of designating the same as fair value through other comprehensive income (FVOCI).

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL: These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

Financial assets at amortised cost: These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Financial assets at FVOCI : These assets are subsequently measured at fair value through other comprehensive income i.e., subsequent changes in fair value of the instrument is recognised in other comprehensive income. Any dividend received on such instruments are recognised in Statement of Profit and Loss.

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified and measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss.

Any gain or loss on derecognition is also recognised in profit or loss.

(c) Derecognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset. If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

(d) Impairment of financial assets

Loss allowance for expected credit losses is recognised for the "financial assets measured at amortised cost" and "fair value through other comprehensive income".

The Company has applied life time expected credit losses for determining loss allowances for all trade receivables that do not constitute a financing transaction.

For financial assets (apart from trade receivables that do not constitute of financing transaction) whose credit risk has not significantly increased since initial recognition, loss allowance equal to twelve months expected credit losses is recognised. Loss allowance equal to the lifetime expected credit losses is recognised if the credit risk of the financial asset has significantly increased since initial recognition.

(e) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

(f) Contract Assets

Contract assets is right to consideration in exchange for goods or services transferred to the customer and performance obligation satisfied. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional, in the nature of unbilled receivables. Upon completion of the attached condition and acceptance by the customer, the amounts recognised as contract assets is reclassified to trade receivables upon invoicing. A receivables represents the Company's right to an amount of consideration that is unconditional. Contract assets are subject to impairment assessment.

(g) Contract Liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer or has raised the invoice in advance. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract (i.e., transfers control of the related goods or services to the customer).

Revenue

Revenue from contracts with customers is recognised when the control of the goods/services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods/services. Such revenue is recognised upon the Company's performance of its contractual obligations and on satisfying all the following conditions:

- (1) Parties to the contract have approved the contract and undertaken to perform their respective obligations;
- (2) Such contract has specified the respective rights and obligations of the parties in connection with the transfer of goods or rendering of services (hereinafter the "Transfer");
- (3) Such contract contains specific payment terms in relation to the Transfer;
- (4) Such contract has a commercial nature, namely, it will change the risk, time distribution or amount of the Company's future cash flow;
- (5) The Company is likely to recover the consideration it is entitled to for the Transfer to customers.

Revenue is recognised when no significant uncertainty exists regarding the collection of the consideration. The amount recognised as revenue is exclusive of all indirect taxes and net of returns and discounts.

(a) Sale of goods

For contracts with customers for sale of goods, revenue is recognised net of discount and rebates, at a point in time when control of the asset is transferred to the customer, which is when the goods are delivered to the customers as per the terms of the contracts. Delivery happens when the goods have been shipped or delivered to the specific location, as the case may be, the risk of loss has been transferred, and either the customer has accepted the goods in accordance with the contracts or the Company has objective evidence that all criteria related for acceptance has been satisfied.

No element of significant financing is deemed present as the sales are generally made with a credit term which is consistent with the market practice. A receivable is recognised when the goods are delivered and this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

(b) Sale of Services

Revenue from service contracts are recognised in the accounting period in which the services are rendered. Where the contracts include multiple performance obligations, the transaction price is allocated to each performance obligation based on the standalone selling price and revenue is recognised over time as and when the customer receives the benefit of the Company's performance based on the actual service provided to as proportion of the total services to be provided. In case, the service contracts include one performance obligation revenue is recognised based on the actual service provided to the end of the reporting period as proportion of the total services to be provided. This is determined based on the actual expenditure incurred to the total estimated cost.

(c) Dividend and interest income

Dividend income is recognised when the company's right to receive payment has been established and that the economic benefits will flow to the Company and amount of income can be measured reliably.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the asset's net carrying amount on initial recognition.

Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

Income Taxes

Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit or loss. Company periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the balance sheet liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying value of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences. In contrast, deferred tax assets are only recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised.

The carrying value of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on the tax rates and tax laws that have been enacted or substantially enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying value of its assets and liabilities.

Deferred tax assets and liabilities are offset to the extent that they relate to taxes levied by the same tax authority and there are legally enforceable rights to set off current tax assets and current tax liabilities within that jurisdiction.

Current and deferred tax are recognised as an expense or income in the statement of profit and loss, except when they relate to items credited or debited either in other comprehensive income or directly in equity, in which case the tax is also recognised in other comprehensive income or directly in equity.

Foreign currencies

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The Company's financial statements are presented in Indian Rupees, which is the Company's functional and presentation currency.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Company in its functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Differences arising on settlement or translation of monetary items are recognised in profit or loss unless they relates to the qualifying cash flow hedges.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

In determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which the Company initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Company determines the transaction date for each payment or receipt of advance consideration.

Property, plant and equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Capital Work-in-Progress is stated at cost, net of accumulated impairment losses, if any.

Cost of Property, plant and equipment includes the costs directly attributable to the acquisition or constructions of assets, or replacing parts of the plant and equipment and borrowing costs for qualifying assets, if the recognition

criteria are met. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with them will flow to the Company and the cost of the item can be measured reliably. All other repair and maintenance costs are recognised in profit or loss as incurred.

Advance given for acquisition / construction of Property, Plant and Equipment and Intangible assets are presented as "Capital Advance" under Other Non Current Assets.

The assets in the process of construction or acquisition but not ready for management's intended use are included under Capital Work in progress.

Depreciation is provided on written down value method in the manner and on the basis of useful lives prescribed in Schedule II to the Companies Act, 2013. Depreciation on addition / deduction is calculated pro-rata from/to the month of addition / deduction.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

The estimated useful lives of the assets considered by the Company is stated hereunder:

Assets Description	Useful Life in Years
Office Building	60
Heavy Equipments	15
Heavy Vehicles	6
Office Appliances	5
Computer	3
Other Machinery	15
Motor Cycle, Scooter	10
Motor Vehicles	8
Furniture	10
Electrical Equipments	10

Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate.

Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments.

The Company's lease obligations are presented on the face of the Balance Sheet.

Short-term leases and leases of low value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date). It also applies the lease of low-value assets recognition exemption to leases of assets that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

The Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Subsequent to initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

Intangible assets are amortised over the useful economic life (5 years for computer software) and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset

(calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Restated Statement of Profit and Loss (including other comprehensive income).

Impairment of assets (other than financial assets)

At each balance sheet date, the Company reviews the carrying value of its property, plant and equipment and intangible assets to determine whether there is any indication that the carrying value of those assets may not be recoverable through continuing use. If any such indication exists, the recoverable amount of the asset is reviewed in order to determine the extent of impairment loss, if any. Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. An impairment loss is recognised in the statement of profit and loss as and when the carrying value of an asset exceeds its recoverable amount.

Where an impairment loss subsequently reverses, the carrying value of the asset (or cash generating unit) is increased to the revised estimate of its recoverable amount so that the increased carrying value does not exceed the carrying value that would have been determined had no impairment loss been recognised for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognised in the statement of profit and loss immediately.

Provisions and contingencies

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Disclosure for contingent liabilities is made when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources embodying economic benefits will be required to settle or a reliable estimate of the amount cannot be made.

Inventories

Raw materials, work-in-progress and finished products are valued at lower of cost and net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes purchase price, non-refundable taxes and duties and other directly attributable costs incurred in bringing the goods to the point of sale.

Work-in-progress and finished goods include appropriate proportion of overheads.

Stores and spares and consumables are valued at cost comprising of purchase price, non refundable taxes and duties and other directly attributable costs after providing for obsolescence and other losses, where considered necessary.

Cash and short-term deposits

Cash and short-term deposits in the statement of financial position comprise cash at banks and on hand and short-term highly liquid deposits with a maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

Employee benefits

Short-term employee benefits- Liabilities for short-term employee benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee related liabilities under other financial liabilities in balance sheet.

Post - employment benefits- The liability or asset recognised in the Balance Sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually at year end by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in 'Employee Benefits Expense' in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. These are included in the Statement of Changes in Equity and in the Balance Sheet.

Changes in the present value of the defined benefit obligations resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Defined contribution plan - The Company pays provident fund contributions to publicly administered provident fund as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

Earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the period

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

The weighted average number of Equity shares have been adjusted for the events such as bonus issue and share split that have changed the number of equity shares outstanding, without corresponding changes in resources

Contributed equity

Equity shares are classified as equity. Incremental cost directly attributable to the issue of new shares or options are shown in equity as reduction, net of tax from the proceeds.

Dividend

The Company recognises a liability to pay a final dividend when the distribution is authorised, and the distribution is no longer at the discretion of the Company. As per the corporate laws of India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

The Company recognises a liability to pay the interim dividend when the distribution is authorised by the board of directors subject to the approval of the shareholders.

Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (“CODM”).

The CODM is responsible for allocating resources and assessing performance of the operating segments and has been identified as the Board of Directors of the Company.

New amendments issued and effective w.e.f. April 1, 2023

The Ministry of Corporate Affairs has *vide* notification dated March 23, 2023 notified Companies (Indian Accounting Standards) Amendment Rules, 2022 which amends certain accounting standards, and are effective April 1, 2023.

The Rules predominantly amend Ind AS 12, Income taxes, and Ind AS 1, Presentation of financial statements. The other amendments to Ind AS notified by these rules are primarily in the nature of clarifications. These amendments are not expected to have a material impact on the Company in the current or future reporting periods and on foreseeable future transactions. Specifically, no changes would be necessary as a consequence of amendments made to Ind AS 12 as the group’s accounting policy already complies with the now mandatory treatment.

Changes in the accounting policy, if any, in the last three years and their effect on our profits and reserves

Other than the transition to Ind AS from IGAAP, with effect from April 1, 2021, there have been no changes in accounting policies of the Company during Fiscal 2023, Fiscal 2022 and Fiscal 2021.

Non-GAAP Financial Measures

Earnings before Interest, Taxes, Depreciation and Amortization Expenses (“EBITDA”)/ EBITDA Margin/ Return on Capital Employed / PAT Margin / Return on Equity / Gross Fixed Assets Turnover Ratio / Gross Profit/ Gross Margin / Net Debt to EBITDA

In addition to our results determined in accordance with Ind AS, we believe the following Non-GAAP measures are useful to investors in evaluating our operating performance and liquidity. We use the following Non-GAAP financial information to evaluate our ongoing operations and for internal planning and forecasting purposes. We believe that Non-GAAP financial information, when taken collectively with financial measures disclosed in the financial statements prepared in accordance with Ind AS, may be helpful to investors because it provides an additional tool for investors to use in evaluating our ongoing operating results and trends and in comparing our financial results with other companies in our industry because it provides consistency and comparability with past financial performance. However, our management does not consider these Non-GAAP measures in isolation or as an alternative to financial measures.

Gross Profit, Gross Margin, EBITDA, EBITDA Margin, Return on Equity, Return on Capital Employed, PAT Margin, Gross Fixed Asset Turnover Ratio and Net Debt to EBITDA (“**Non-GAAP Measures**”) presented in this Draft Red Herring Prospectus is a supplemental measure of our performance and liquidity that is not required by, or presented in accordance with, Ind AS, Indian GAAP, IFRS or US GAAP. Further, EBITDA is not a measurement of our financial performance or liquidity under Ind AS, Indian GAAP, IFRS or US GAAP and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the periods or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, Indian GAAP, IFRS or US GAAP. In addition, Non-GAAP Measures are not standardised terms, hence a direct comparison of Non-GAAP Measures between companies may not be possible. Other companies may calculate the Non-GAAP Measures differently from us, limiting its usefulness as a comparative measure. Although Non-GAAP Measures are not a measure of performance calculated in accordance with applicable accounting standards,

our Company's management believes that it is useful to an investor in evaluating us because it is a widely used measure to evaluate a company's operating performance. See "Risk Factors – Certain non-GAAP financial measures and certain other statistical information relating to our operations and financial performance Gross Profit, Gross Margin, EBITDA, EBITDA Margin, Return on Equity, Return on Capital Employed, PAT Margin, Gross Fixed Asset Turnover Ratio and Net Debt to EBITDA have been included in this Draft Red Herring Prospectus. These non-GAAP financial measures are not measures of operating performance or liquidity defined by Ind AS and may not be comparable." on page 47.

Our revenue from operations increased by 64.27% from ₹ 2,974.55 million in Fiscal 2022 to ₹4,886.28 million in Fiscal 2023. This increase is primarily attributed to revenue generated from our sales of products which increased from ₹ 2,748.32 million in Fiscal 2022 to ₹ 4,596.83 million in Fiscal 2023. Further, our other operating revenue comprising of scrap sales and freight on sales increased from ₹ 225.00 million in Fiscal 2022 to ₹ 286.62 million in Fiscal 2023 recording an increase of 27.39% during the year.

Other Income

Our other income increased by 71.13% from ₹ 4.26 million in Fiscal 2022 to ₹7.29 million in Fiscal 2023. Such increase was primarily on account of 32.54% increase in interest income from deposits with Banks from ₹2.95 million in Fiscal 2022 to ₹3.91 million in Fiscal 2023 and increase in net gain on foreign currency transaction and translation by 168.10% from ₹1.16 million in Fiscal 2022 to ₹3.11 million in Fiscal 2023.

Cost of materials consumed

Our cost of materials consumed increased by 84.35% from ₹ 1,595.67 million in Fiscal 2022 to ₹2,941.66 million in Fiscal 2023, primarily due to an increase in scale of business, change in product mix and increase in inventories of finished goods and work-in-progress.

Change in inventories of finished goods and work-in-progress

Our closing stock of finished goods and stock-in-trade was ₹ 215.46 million as at March 31, 2022, while it was ₹260.03 million as at March 31, 2023.

Employee benefits expense

Our employee benefits expense increased by 31.38% from ₹ 201.77 million in Fiscal 2022 to ₹265.09 million in Fiscal 2023, primarily on account of increase in payment of salaries, wages and bonus which increased from ₹ 179.62 million in Fiscal 2022 to ₹241.51 million in Fiscal 2023, increase in contribution to provident and other funds which increased from ₹ 9.27 million in Fiscal 2022 to ₹ 12.26 million in Fiscal 2023, increase in gratuity from ₹ 6.99 million in Fiscal 2022 to ₹ 7.63 million in Fiscal 2023. The increase was marginally offset by decrease in staff welfare expense from ₹ 5.89 million in Fiscal 2022 to ₹ 3.69 million in Fiscal 2023.

Finance costs

Our finance costs increased by 49.72% from ₹81.61 million in Fiscal 2022 to ₹122.19 million in Fiscal 2023, primarily due to increase in interest expenses on short-term borrowings from banks and financial institutions from ₹52.81 million in Fiscal 2022 to ₹73.62 million in Fiscal 2023, increase in interest expense on term loans from banks from ₹20.94 million in Fiscal 2022 to ₹31.47 million in Fiscal 2023, increase in other borrowings cost from ₹7.19 million in Fiscal 2022 to ₹8.16 million in Fiscal 2023 and increase in interest expense for short fall on payment of income tax from ₹nil in Fiscal 2022 to ₹8.78 million in Fiscal 2023.

Depreciation and amortisation expense

Our depreciation and amortization expense decreased by 21.46% from ₹ 55.03 million in Fiscal 2022 to ₹43.22 million in Fiscal 2023, on account of an decrease in depreciation on property, plant and equipments from ₹ 55.01 million in Fiscal 2022 to ₹43.01 million in Fiscal 2023, which was partially offset by an increase in the amortisation of intangible assets from ₹ 0.02 million in Fiscal 2022 to ₹0.04 million in Fiscal 2023 and an increase in the amortisation of right of use assets from ₹nil in Fiscal 2022 to ₹0.17 million in Fiscal 2023.

Other expenses

Our other expenses increased by 31.38% from ₹ 874.44 million in Fiscal 2022 to ₹ 1,148.88 million in Fiscal 2023, generally in line with the increase in business operations. The absolute increase was mainly driven by increases in (i) freight, transportation and handling charges from ₹129.12 million in Fiscal 2022 to ₹160.24 million in Fiscal 2023, (ii) power and fuel expense from ₹ 79.82 million in Fiscal 2022 to ₹ 158.38 million in Fiscal 2023, (iii) contractual labour charges from ₹ 82.23 million in Fiscal 2022 to ₹ 213.30 million in Fiscal 2023, (iv) work offloading charges from ₹ 88.24 million in Fiscal 2022 to ₹ 101.55 million in Fiscal 2023, (v) commission from ₹nil in Fiscal 2022 to ₹ 24.59 million in Fiscal 2023, (vi) packing and forwarding expenses from ₹ 24.91 million in Fiscal 2022 to ₹ 31.11 million in Fiscal 2023, (vii) repairs and maintenance expenses from ₹ 26.21 million in Fiscal 2022 to ₹ 44.37 million in Fiscal 2023, (viii) warehouse, yard and branch expenses from ₹ 1.04 million in Fiscal 2022 to ₹ 4.05 million in Fiscal 2023 and (ix) provision for warranty expenses from ₹ 1.48 million in Fiscal 2022 to ₹ 8.22 million in Fiscal 2023. However, the increase was partially offset by decrease in consumption of stores, spare parts and consumables from ₹ 366.51 million in Fiscal 2022 to ₹ 334.95 million in Fiscal 2023 and decrease in material handling and weightment charges from ₹ 27.36 million in Fiscal 2022 to ₹ 7.95 million

in Fiscal 2023.

Profit before tax

As a result of the foregoing, we recorded an increase of 155.73% in our profit before tax, from ₹ 163.10 million in Fiscal 2022 to ₹ 417.10 million in Fiscal 2023.

Tax expenses

Our tax expenses increased by 160.30% from ₹ 41.41 million in Fiscal 2022 to ₹107.79 million in Fiscal 2023. The increase in our tax expenses in Fiscal 2023 was primarily due to an increase in the profit before tax, which was attributable to the increase in total income.

Profit for the year

As a result of the foregoing, we recorded an increase of 154.18% in our profit for the year from ₹ 121.69 million in Fiscal 2022 to ₹309.31 million in Fiscal 2023.

Fiscal 2022 compared with Fiscal 2021

Revenue from operations

Our revenue from operations increased by 61.86% from ₹1,837.69 million in Fiscal 2021 to ₹ 2,974.55 million in Fiscal 2022. This increase is primarily attributed to revenue generated from our sales of products which increased by 59.31% from ₹ 1,725.14 million in Fiscal 2021 to ₹ 2,748.32 million in Fiscal 2022. Further, our other operating revenue comprising of scrap sales and freight on sales increased from ₹ 111.11 million in Fiscal 2021 to ₹ 225.00 million in Fiscal 2022.

Other Income

Our other income decreased by 2.29% from ₹4.36 million in Fiscal 2021 to ₹ 4.26 million in Fiscal 2022. Such decrease was primarily on account of decrease in interest income from deposits with Banks from ₹3.29 million in Fiscal 2021 to ₹2.95 million in Fiscal 2022 and decrease in income from mutual fund from ₹0.26 million in Fiscal 2021 to ₹ 0.02 million in Fiscal 2022, which was offset by increase in net gain on foreign currency transaction and translation from ₹0.13 million in Fiscal 2021 to ₹1.16 million in Fiscal 2022.

Cost of materials consumed

Our cost of materials consumed increased by 82.82% from ₹872.82 million in Fiscal 2021 to ₹ 1,595.67 million in Fiscal 2022, primarily due to an increase in scale of business, change in product mix and increase in inventories of finished goods and work-in-progress.

Change in inventories of finished goods and work-in-progress

Our closing stock of finished goods and stock-in-trade was ₹ 222.65 million as at March 31, 2021, while it was ₹215.46 million as at March 31, 2022.

Employee benefits expense

Our employee benefits expense increased by 24.83% from ₹ 161.64 million in Fiscal 2021 to ₹ 201.77 million in Fiscal 2022, primarily on account of increase in payment of salaries, wages and bonus which increased from ₹ 145.33 million in Fiscal 2021 to ₹ 179.62 million in Fiscal 2022, increase in contribution to provident and other funds which increased from ₹ 7.62 million in Fiscal 2021 to ₹ 9.27 million in Fiscal 2022, increase in gratuity from ₹ 6.23 million in Fiscal 2021 to ₹ 6.99 million in Fiscal 2022 and increase in staff welfare expense from ₹ 2.46 million in Fiscal 2021 to ₹ 5.89 million in Fiscal 2022.

Finance costs

Our finance costs decreased by 9.47% from ₹90.15 million in Fiscal 2021 to ₹81.61 million in Fiscal 2022, primarily due to decrease in interest expenses on short-term borrowings from banks and financial institutions from

₹ 64.35 million in Fiscal 2021 to ₹52.81 million in Fiscal 2022, which was partially offset by increase in interest expense on term loans from banks from ₹ 19.35 million in Fiscal 2021 to ₹20.94 million in Fiscal 2022, increase in other borrowings cost from ₹ 6.36 million in Fiscal 2021 to ₹7.19 million in Fiscal 2022 and increase in interest on loan from others from ₹0.09 million in Fiscal 2021 to ₹0.67 million in Fiscal 2022.

Depreciation and amortisation expense

Our depreciation and amortisation expense increased by 15.66% from ₹ 47.58 million in Fiscal 2021 to ₹ 55.03 million in Fiscal 2022, on account of an increase in depreciation on property, plant and equipments from ₹47.56 million in Fiscal 2021 to ₹ 55.01 million in Fiscal 2022.

Other expenses

Our other expenses increased by 46.47% from ₹ 597.02 million in Fiscal 2021 to ₹ 874.44 million in Fiscal 2022, generally in line with the increase in business operations. The increase was mainly driven by increases in (i) consumption of stores, spare parts and consumables from ₹204.05 million in Fiscal 2021 to ₹ 366.51 million in Fiscal 2022, (ii) freight, transportation and handling charges from ₹ 96.24 million in Fiscal 2021 to ₹129.12 million in Fiscal 2022, (iii) contractual labour charges from ₹ 62.59 million in Fiscal 2021 to ₹ 82.23 million in Fiscal 2022, (iv) work offloading charges from ₹ 55.53 million in Fiscal 2021 to ₹ 88.24 million in Fiscal 2022, (v) packing and forwarding charges from ₹ 18.59 million in Fiscal 2021 to ₹ 24.91 million in Fiscal 2022, (vi) material handling and weightment charges from ₹ 23.04 million in Fiscal 2021 to ₹ 27.36 million in Fiscal 2022, (vii) repairs and maintenance expenses from ₹ 18.76 million in Fiscal 2021 to ₹ 26.21 million in Fiscal 2022, and (viii) travelling, conveyance, vehicle running & maintenance expenses from ₹ 14.35 million in Fiscal 2021 to ₹ 22.38 million in Fiscal 2022. However, the increase was partially offset by decrease in power and fuel expense from ₹ 82.05 million in Fiscal 2021 to ₹ 79.82 million in Fiscal 2022.

Profit before tax

As a result of the foregoing, we recorded an absolute increase of 179.57% in our profit before tax, from ₹ 58.34 million in Fiscal 2021 to ₹ 163.10 million in Fiscal 2022.

Tax expenses

Our tax expenses increased by 288.10% from ₹ 10.67 million in Fiscal 2021 to ₹ 41.41 million in Fiscal. The increase in our tax expenses in Fiscal 2022 was primarily due to an increase in the profit before tax.

Profit for the year

As a result of the foregoing, we recorded an increase of 155.28% in our profit for the year from ₹ 47.67 million in Fiscal 2021 to ₹ 121.69 million in Fiscal 2022.

Liquidity and Capital Resources

We have historically financed the expansion of our business and operations primarily through internal accruals, through borrowings. From time to time, we may obtain loan facilities to finance our working capital requirements.

Quantitative and Qualitative Disclosures about Market Risk

In the course of our business, we are exposed primarily to fluctuations in interest rates, liquidity and credit risk, which may adversely impact the fair value of our financial instruments. In order to minimise any adverse effects on the financial performance of the Company, the Company has risk management policies as described below:

Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Our Company is exposed to credit risk from its operating activities (primarily trade receivables) including deposits with banks and financial institutions, foreign exchange transactions, other financial instruments carried at amortised cost.

Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Our approach to manage liquidity is to have sufficient liquidity to meet our liabilities when they are due, under both normal and stressed circumstances, without incurring unacceptable losses or risking damage to our reputation.

Our management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. This is generally performed in accordance with practice and limits set by the Company.

Market Risk

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates.

The Company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

Interest rate risk exposure on financial liabilities

(₹ in millions)

	As at June 30, 2023	As at March 31, 2023	As at March 31, 2022	As at March 31, 2021

Total borrowings (exclusive of Lease liabilities)	927.69	881.90	860.56	834.76

Foreign currency risk

The Company undertakes transactions (e.g. sale of goods, foreign currency loan, purchase of raw materials, etc.) denominated in foreign currencies and thus is exposed to exchange rate fluctuations. The Company evaluates its exchange rate exposure arising from foreign currency transactions and manages the same based upon approved risk management policies.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements, derivative instruments or other relationships with other entities that would have been established for the purpose of facilitating off-balance sheet arrangements.

Related Party Transactions

We enter into various transactions with related parties. For further information see “*Restated Financial Information - Note 40 - Related Party Transactions*” on page 281 of this Draft Red Herring Prospectus.

Significant Economic Changes

Other than as described above, to the best of the knowledge of our management, there are no other significant economic changes that materially affect or are likely to affect income from continuing operations. For further details, please see “*Our Business*” and “*Risk Factors*” on pages 181 and 27, respectively.

Unusual or Infrequent Events of Transactions

Except as described in this Draft Red Herring Prospectus, there have been no other events or transactions that, to our knowledge, may be described as “unusual” or “infrequent”.

Known Trends or Uncertainties

Our business has been affected and we expect will continue to be affected by the trends identified above in the heading titled “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on page 295 and the uncertainties described in the section titled “*Risk Factors*” beginning on page 27 of this Draft Red Herring Prospectus. To our knowledge, except as described or anticipated in this Draft Red Herring Prospectus, there are no known factors which we expect will have a material adverse impact on our revenues or income from continuing operations.

Future Relationship Between Cost and Income

SECTION VIII: LEGAL AND OTHER INFORMATION
OUTSTANDING LITIGATION AND OTHER MATERIAL DEVELOPMENTS

Except as stated below there are no outstanding (i) criminal proceedings (including first information reports and any notices received for such criminal proceedings), involving our Company, our Directors, our Promoters, or our Group Company; (ii) actions taken by regulatory and statutory authorities involving our Company, our Directors, our Promoters, (iii) disciplinary action including penalty imposed by SEBI or stock exchanges against our Promoters in the last 5 Fiscals including outstanding action; (iv) claims related to involving our Company, our Directors, our Promoters for any direct or indirect tax liabilities (disclosed in a consolidated manner giving the total number of claims and total amounts involved); or (v) proceedings (other than proceedings covered under (i) to (iii) above) including labour law cases/ notices which have been determined to be material pursuant to the Materiality Policy, involving our Company, Directors, Promoters (collectively, the “**Relevant Parties**”).

In relation to (v) above, in terms of the Materiality Policy adopted by our Board in its meeting held on November 9, 2023, any pending litigation involving the Relevant Parties has been considered “material” for the purposes of disclosure in this Draft Red Herring Prospectus, if:

- a) the monetary amount of the claim/ dispute amount/ liability by or against the Relevant Party in any such proceeding is equal to or in excess of 1% of the profit after tax of our Company as per the restated financial information of the Company for latest fiscal year i.e. Fiscal 2023 (the “**Litigation Materiality Threshold**”). The profit after tax of our Company for Fiscal 2023 is ₹ 309.31 million, and accordingly, all litigation involving the Relevant Parties, in which the amount involved is equal to or exceeds ₹ 3.09 million have been considered as material, if any;
- b) any outstanding litigation, where the decision in one case is likely to affect the decision in similar cases, even though the amount involved in an individual litigation is not quantifiable or may not exceed the relevant monetary threshold specified in (a) above; or
- c) any other outstanding litigation, an adverse outcome of which would materially and adversely affect the Company’s business, operations, prospects, financial position, cash flows, prospects, performance, or reputation, irrespective of the amount involved in such litigation.
- d) Pre-litigation notices received by any of the Relevant Parties or Group Company from third parties (excluding those notices issued by statutory / regulatory / governmental / tax authorities /notices threatening criminal action to the Relevant Parties) shall, unless considered otherwise by the Board of Directors of the Company, not be considered as litigation and accordingly not be disclosed in the Offer Documents until such time that Relevant Parties, as applicable, are impleaded as parties in litigation proceedings before any judicial forum.
- e) Further, as per the requirements of SEBI ICDR Regulations, the Company shall also disclose such outstanding litigation involving any of the Group Companies, which may have a material impact on the Company.

All terms defined in a particular litigation disclosure below are for that particular litigation only.

Further, in terms of the Materiality Policy, a creditor of our Company shall be considered ‘material’ if the amount due to such creditor equals or exceeds 5% of the total trade payables of our Company as at the end of the latest period included in the Restated Financial Information. The total trade payables of our Company as on June 30, 2023, was ₹ 381.19 million. Stock market data of Equity Shares

This being an initial public offer of Equity Shares of our Company, the Equity Shares are not listed on any stock exchange as on date of this Draft Red Herring Prospectus and accordingly, no stock market data is available for the Equity Shares.

Mechanism for redressal of investor grievances

The Registrar Agreement provides for the retention of records with the Registrar to the Offer for a period of at least eight years from the date of listing and commencement of trading of the Equity Shares on the Stock Exchanges, subject to agreement with our Company for storage of such records for longer period, to enable the investors to approach the Registrar to the Offer for redressal of their grievances.

All grievances (other than from Anchor Investors) in relation to the Bidding process may be addressed to the Registrar to the Offer with a copy to the relevant Designated Intermediary to whom the Bid cum Application Form was submitted. The Bidder should give full details such as name of the sole or first Bidder, Bid cum Application Form number, Bidder DP ID, Client ID, PAN, UPI ID, date of the submission of Bid cum Application Form, address of the Bidder, number of the Equity Shares applied for and the name and address of the Designated Intermediary where the Bid cum Application Form was submitted by the Bidder. Further, the Bidder shall also enclose a copy of the Acknowledgment Slip duly received from the concerned Designated Intermediary in addition to the information mentioned hereinabove.

All Offer-related grievances of the Anchor Investors may be addressed to the BRLM and the Registrar to the Offer, giving full details such as the name of the sole or first Bidder, Anchor Investor Application Form number, Bidders' DP ID, Client ID, PAN, date of the Anchor Investor Application Form, address of the Bidder, number of the Equity Shares applied for, Bid Amount paid on submission of the Anchor Investor Application Form and the name and address of the BRLM where the Anchor Investor Application Form was submitted by the Anchor Investor.

The Registrar to the Offer shall obtain the required information from the SCSBs and Sponsor Banks for addressing any clarifications or grievances of ASBA Bidders. Our Company, the BRLM and the Registrar to the Offer accept no responsibility for errors, omissions, commission of any acts of SCSBs including any defaults in complying with its obligations under applicable SEBI ICDR Regulations. Investors can contact our Company Secretary and Compliance Officer or the Registrar to the Offer in case of any pre-Offer or post-Offer related problems such as non-receipt of letters of Allotment, non-credit of Allotted Equity Shares in the respective beneficiary account, non-receipt of refund intimations and non-receipt of funds by electronic mode.

In terms of SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/22, dated February 15, 2018, SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to the SEBI circular SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, and SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and subject to applicable law, any ASBA Bidder whose Bid has not been considered for Allotment, due to failure on the part of any SCSB, shall have the option to seek redressal of the same by the concerned SCSB within three months of the date of listing of the equity Shares. SCSBs are required to resolve these complaints within 15 days, failing which the concerned SCSB would have to pay at the rate of 15% per annum for any delay beyond this period of 15 days. Further, in accordance with the provisions of the SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, and SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 the investors shall be compensated by the SCSBs at the rate higher of ₹ 100 or 15% per annum of the application amount, whichever is higher, in the events of delayed or withdrawal of applications, blocking of multiple amounts for the same UPI application, blocking of more amount than the application amount, delayed unblocking of amounts for non-allotted/ partially-allotted applications for the stipulated period. In an event there is a delay in redressal of investor grievances in relation to unblocking of amounts beyond the date of receipt of

the complaint, for each day delayed, the post-Offer the Book Running Lead Manager shall be liable to compensate the investors at the rate higher of ₹ 100 per day or 15% per annum of the application amount, whichever is higher. Further, in terms of SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the Book Running Lead Manager, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB. Further, in terms of the SEBI Master Circular SEBI/HO/MIRSD/POD-1/P/CIR/2023/70 dated May 17, 2023, issued to the Registrars to an Offer and the Share Transfer Agents, provides that the registration granted to such share transfer agents shall be for the principal as well as for all the branch offices in India of the Registrar to an Offer, and shall be declared in its application for obtaining such registration.

By way of SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended by SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, SEBI has identified the need to put in place measures, in order to manage and handle investor issues arising out of the UPI Mechanism inter alia in relation to delay in receipt of mandates by Bidders for blocking of funds due to systemic issues faced by Designated Intermediaries/SCSBs and failure to unblock funds in cases of partial allotment/non allotment within prescribed timelines and procedures. Pursuant to the circular dated March 16, 2021, SEBI has prescribed certain mechanisms to ensure proper management of investor issues arising out of the UPI Mechanism, including: (i) identification of a nodal officer by SCSBs for the UPI Mechanism; (ii) delivery of SMS alerts by SCSBs for blocking and unblocking of UPI Mandate Requests; (iii) hosting of a web portal by the Sponsor Bank containing statistical details of mandate blocks/unblocks; (iv) limiting the facility of reinitiating UPI Bids to Syndicate Members to once per Bid/Batch; and (v) mandating SCSBs to ensure that the unblock process for non-allotted/ partially allotted applications is completed by the closing hours of one Working Day subsequent to the finalization of the Basis of Allotment.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022 and SEBI master circular no. SEBI/HO/CFD/PoD-2/P/CIR/ 2023/00094 dated June 21, 2023.

Disposal of investor grievances by our Company

Our Company shall obtain authentication on the SCORES in terms of the SEBI circular bearing number CIR/OIAE/1/2013 dated April 17, 2013 read with SEBI circular SEBI/HO/OIAE/IGRD/CIR/P/2019/86 dated August 2, 2019, SEBI circular bearing number SEBI/HO/OIAE/IGRD/CIR/P/2021/642 dated October 14, 2021 and SEBI Circular SEBI/HO/OIAE/IGRD/P/CIR/2022/0150 dated November 7, 2022 and shall comply with the SEBI circular (CIR/OIAE/1/2014) dated December 18, 2014 in relation to redressal of investor grievances. Our Company has not received any investor complaint during the three years preceding the date of this Draft Red Herring Prospectus.

Further, no investor complaint in relation to our Company is pending as on the date of filing of this Draft Red Herring Prospectus. Our Company estimates that the average time required by our Company or the Registrar to the Offer or the SCSB in case of ASBA Bidders, for the redressal of routine investor grievances shall be seven Working Days from the date of receipt of the complaint. In case of non-routine complaints and complaints where external agencies are involved, our Company will seek to redress these complaints as expeditiously as possible.

Our Company has also appointed Debolina Karmakar, Company Secretary as the Compliance Officer for the Offer. For details, please refer to the section titled “*General Information – Company Secretary and Compliance Officer*” on page 79.

Our Company has constituted a Stakeholders’ Relationship Committee comprising Sanjiv Paul as Chairperson, and Sudhir Rai and Kunal Rai, as members. For details, please refer to the section titled “*Our Management – Committees of our Board – Stakeholders’ Relationship Committee*” on page 229.

The Promoter Selling Shareholders have authorised the Company Secretary and Compliance Officer, and the Registrar to the Offer to deal with and redress, on their behalf any investor grievances received in the Offer in relation to their respective portion of the Offered Shares.

Exemption from complying with any provisions of securities laws, if any, granted by SEBI

We have not sought any exemption from SEBI from complying with any provisions of securities law in respect of the Offer as on the date of this Draft Red Herring Prospectus.

Other confirmations

Any person connected with the Offer shall not offer any incentive, whether direct or indirect, in any manner, whether in cash or kind or services or otherwise to any person for making an application in the initial public offer, except for fees or commission for services rendered in relation to the Offer.

SECTION IX: OFFER RELATED INFORMATION

Ranking of Equity Shares

The Equity Shares being offered/Allotted and transferred pursuant to the Offer shall be subject to the provisions of the Companies Act, SEBI ICDR Regulations, SCRA, SCRR, our Memorandum of Association and Articles of Association and shall rank *pari passu* in all respects with the existing Equity Shares including in respect of the right to receive dividend, voting and other corporate benefits. The Allottees, upon Allotment of Equity Shares under the Offer, will be entitled to dividend, voting and other corporate benefits, if any, declared by our Company after the date of Allotment. For further details, please refer to the sections entitled “*Dividend Policy*” and “*Main Provisions of Articles of Association*” beginning on pages 242 and 381, respectively.

Mode of payment of dividend

Our Company shall pay dividends, if declared, to the Shareholders in accordance with the provisions of the Companies Act, the Memorandum of Association and Articles of Association and provisions of the SEBI Listing Regulations and any other guidelines or directions which may be issued by the GoI in this regard. Dividends, if any, declared by our Company after the date of Allotment (pursuant to the transfer of Equity Shares from the Offer for Sale), will be payable to the Bidders who have been Allotted Equity Shares in the Offer, for the entire year, in accordance with applicable laws. For further details, in relation to dividends, please refer to the sections titled “*Dividend Policy*” and “*Main Provisions of Articles of Association*” beginning on pages 242 and 381, respectively.

Face Value, Offer Price, Floor Price and Price Band

The face value of each Equity Share is ₹ 5 each and the Offer Price at the lower end of the Price Band is ₹[●] per Equity Share and at the higher end of the Price Band is ₹[●] per Equity Share. The Anchor Investor Offer Price is ₹[●] per Equity Share.

The Offer Price, Price Band and the minimum Bid Lot will be decided by our Company, in consultation with the BRLM and the Promoter Selling Shareholders, and advertised in all editions of [●], an English national daily newspaper, all editions of [●], a Hindi national daily newspaper (Hindi also being the regional language of Jharkhand, where our Registered Office is located), each with wide circulation, at least two Working Days prior to the Bid/Offer Opening Date and shall be made available to the Stock Exchanges for the purpose of uploading the same on their websites. The Price Band, along with the relevant financial ratios calculated at the Floor Price and at the Cap Price, shall be pre-filled in the Bid cum Application Forms available on the respective websites of the Stock Exchanges. The Offer Price shall be determined by our Company, in consultation with the BRLM and the Promoter Selling Shareholders, after the Bid/Offer Closing Date, on the basis of assessment of market demand for the Equity Shares offered by way of Book Building Process.

At any given point of time, there shall be only one denomination for the Equity Shares.

Compliance with disclosure and accounting norms

Our Company shall comply with all disclosure and accounting norms as specified by SEBI from time to time.

Rights of the Equity Shareholders

Subject to applicable laws, rules, regulations and guidelines and the Articles of Association, our equity Shareholders shall have the following rights:

- Right to receive dividends, if declared;
- Right to attend general meetings and exercise voting rights, unless prohibited by law;
- Right to vote on a poll either in person or by proxy, in accordance with the provisions of the Companies Act;
- Right to receive offers for rights shares and be allotted bonus shares, if announced;
- Right to receive surplus on liquidation, subject to any statutory and preferential claim being satisfied;
- Right of free transferability of the Equity Shares, subject to applicable laws including any RBI rules and regulations; and
- Such other rights, as may be available to a shareholder of a listed public company under the Companies Act, the SEBI Listing Regulations, the Memorandum of Association and the Articles of Association of our Company and other applicable laws.

For a detailed description of the main provisions of the Articles of Association of our Company relating to voting rights, dividend, forfeiture and lien, transfer, transmission and/or consolidation/sub-division, please refer to the section titled “*Main Provisions of Articles of Association*” on page 381.

Allotment of Equity Shares in dematerialised form

Pursuant to Section 29 of the Companies Act and the SEBI ICDR Regulations the Equity Shares shall be Allotted only in dematerialised form. The Equity Shares offered through the Red Herring Prospectus can be applied for in the dematerialised form only. As per the SEBI ICDR Regulations, the trading of the Equity Shares shall only be in dematerialised form on the Stock Exchanges. In this context, our Company has entered into the following agreements with the respective Depositories and the Registrar to the Offer:

- Tripartite agreement dated October 11, 2023 amongst our Company, NSDL and Registrar to the Offer.
- Tripartite agreement dated October 5, 2023 amongst our Company, CDSL and Registrar to the Offer.

Market lot and trading lot

Since trading of the Equity Shares is in dematerialised form, the tradable lot is one Equity Share. Allotment in this Offer will be only in electronic form in multiples of [●] Equity Share subject to a minimum Allotment of [●] Equity Shares to QIBs and RIBs. The Allotment to Non-Institutional Bidders shall not be less than the minimum Non-Institutional application size. For the method of Basis of Allotment, please refer to the section titled “*Offer Procedure*” on page 358.

Jurisdiction

Exclusive jurisdiction for the purpose of the Offer is with the competent courts/authorities in Jamshedpur, India.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

Joint holders

Subject to the provisions of the Articles of Association, where two or more persons are registered as the holders of the Equity Shares, they will be deemed to hold such Equity Shares as joint tenants with benefits of survivorship.

Nomination facility to investors

In accordance with Section 72 of the Companies Act, read with the Companies (Share Capital and Debentures) Rules, 2014, as amended the sole Bidder, or the first Bidder along with other joint Bidders, may nominate any one person in whom, in the event of the death of sole Bidder or in case of joint Bidders, death of all the Bidders, as the case may be, the Equity Shares Allotted, if any, shall vest to the exclusion of the other persons, unless the nomination is varied or cancelled in the prescribed manner. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale/transfer/alienation of Equity Share(s) by the person nominating. A nomination may be cancelled or varied by nominating any other person in place of the present nominee by the holder of the Equity Shares who has made the nomination by giving a notice of such cancellation. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered and Corporate Office or to the registrar and transfer agents of our Company.

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act shall upon the production of such evidence as may be required by the Board, elect either:

- a) to register himself or herself as the holder of the Equity Shares; or
- b) to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, our Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 days, our Board may thereafter withhold payment of all dividends, interests, bonuses or other monies payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Offer will be made only in dematerialized mode, there is no need to make a separate nomination with our Company. Nominations registered with respective Depository Participant of the Bidder would prevail. If the Bidder wants to change the nomination, they are requested to inform their respective Depository Participant.

Our Company shall comply with such disclosure and accounting norms as may be specified by SEBI from time to time.

The above timetable, other than the Bid/Offer Closing Date, is indicative and does not constitute any obligation or liability on our Company, our Promoter Selling Shareholders or the BRLM.

Whilst our Company and the Promoter Selling Shareholders shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchanges are taken within three Working Days of the Bid/Offer Closing Date, the timetable may be extended due to various factors, such as extension of the Bid/Offer Period, revision of the Price Band or any delay in receiving the final listing and trading approval from the Stock Exchanges. The commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchanges and in accordance with the applicable law.

In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Bid/Offer Closing Date, the Bidder shall be compensated for the entire duration of delay exceeding two Working Days from the Bid/Offer Closing Date by the intermediary responsible for causing such delay in unblocking, in the manner specified in the UPI Circulars, to the extent applicable, which for the avoidance of doubt, shall be deemed to be incorporated herein. The Book Running Lead Manager shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

The SEBI is in the process of streamlining and reducing the post issue timeline for initial public offerings. Any circulars or notifications from the SEBI after the date of this Draft Red Herring Prospectus may result in changes to the above-mentioned timelines. Further, the offer procedure is subject to change to any revised circulars issued by the SEBI to this effect.

In terms of the UPI Circulars, in relation to the Offer, the BRLM will be required to submit reports of compliance with timelines and activities prescribed by SEBI in connection with the allotment and listing procedure within such time from the Bid/ Offer Closing Date as may be prescribed by SEBI, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

Submission of Bids (other than Bids from Anchor Investors):

Bid/Offer Period (except the Bid/Offer Closing Date)	
Submission and Revision in Bids	Only between 10.00 a.m. and 5.00 p.m. (Indian Standard Time (“IST”))
Bid/Offer Closing Date*	
Submission and Revision in Bids	Only between 10.00 a.m. and 3.00 p.m. IST

** UPI mandate end time and date shall be at 5:00 p.m. on the Bid/Offer Closing Date.*

On the Bid/ Offer Closing Date, the Bids shall be uploaded until:

- (i) 4:00 p.m. IST in case of Bids by QIBs and Non-Institutional Bidders, and
- (ii) until 5:00 p.m. IST or such extended time as permitted by the Stock Exchanges, in case of Bids by UPI Bidders.

On Bid/Offer Closing Date, extension of time may be granted by Stock Exchanges only for uploading Bids received by RIBs, after taking into account the total number of Bids received and as reported by the BRLM to the Stock Exchanges.

The Registrar to the Offer shall submit the details of cancelled/ withdrawn/ deleted applications to the SCSBs on a daily basis within 60 minutes of the Bid closure time from the Bid/ Offer Opening Date until the Bid/ Offer Closing Date by obtaining the same from the Stock Exchanges. The SCSBs shall unblock such applications by the closing hours of the Working Day and submit the confirmation to the BRLM and the RTA on a daily basis as per the format prescribed in SEBI circular bearing reference number SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

To avoid duplication, the facility of re-initiation provided to Syndicate Members shall preferably be allowed only once per bid/batch and as deemed fit by the Stock Exchanges, after closure of the time for uploading Bids.

It is clarified that Bids shall be processed only after the application monies are blocked in the ASBA Account and Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount is not blocked by SCSBs or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case maybe, would be rejected.

Due to limitation of time available for uploading the Bids on the Bid/Offer Closing Date, Bidders are advised to submit their Bids one day prior to the Bid/Offer Closing Date, and in any case no later than 1:00 p.m. IST on the Bid/ Offer Closing Date. Any time mentioned in this Draft Red Herring Prospectus is IST. Bidders are cautioned that, in the event a large number of Bids are received on the Bid/Offer Closing Date, some Bids may not get uploaded due to lack of sufficient time. Such Bids that cannot be uploaded will not be considered for allocation under this Offer. Bids will be accepted only during Working Days.

Investors may please note that as per letter no. List/SMD/SM/2006 dated July 3, 2006 and letter no. NSE/IPO/25101-6 dated July 6, 2006 issued by BSE and NSE respectively, Bids and any revision in Bids shall not be accepted on Saturdays and public holidays as declared by the Stock Exchanges. Bids by ASBA Bidders shall be uploaded by the relevant Designated Intermediary in the electronic system to be provided by the Stock Exchanges.

The Designated Intermediaries shall modify select fields uploaded in the Stock Exchange Platform during the Bid/Offer Period till 5.00 pm on the Bid/Offer Closing Date after which the Stock Exchange(s) send the bid information to the Registrar to the Offer for further processing.

Our Company, in consultation with the BRLM and the Promoter Selling Shareholders, reserves the right to revise the Price Band during the Bid/Offer Period in accordance with the SEBI ICDR Regulations, provided that the revised Cap Price shall be less than or equal to 120% of the revised Floor Price, the Floor Price shall not be less than the face value of the Equity Shares, and that the revision in the Price Band shall not exceed 20% on either side, i.e. the Floor Price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly. Provided that, the Cap Price of the Price Band shall be at least 105% of the Floor Price.

In case of revision in the Price Band, the Bid/Offer Period shall be extended for at least three additional Working Days after such revision, subject to the Bid/Offer Period not exceeding 10 Working Days. In cases of force majeure, banking strike or similar circumstances, our Company, in consultation with the BRLM and the Promoter Selling Shareholders, for reasons to be recorded in writing, extend the Bid/Offer Period for a minimum of three Working Days, subject to the Bid/ Offer Period not exceeding 10 Working Days. Any revision in Price Band, and the revised Bid/Offer Period, if applicable, shall be widely disseminated by notification to the Stock Exchanges, by issuing a press release and also by indicating the change on the terminals of the Syndicate Members and by intimation to SCSBs, other Designated Intermediaries and the Sponsor Banks, as applicable.

In case of discrepancy in data entered in the electronic book vis-vis data contained in the Bid cum Application Form for a particular Bidder, the details as per the Bid file received from the Stock Exchanges shall be taken as the final data for the purpose of Allotment.

Minimum subscription

As this is an Offer for Sale by the Promoter Selling Shareholders, the requirement of minimum subscription of 90% of the Offer under the SEBI ICDR Regulations is not applicable to this Offer. However, (i) if our Company does not receive the minimum subscription in the Offer as specified under the terms of Rule 19(2)(b) of the SCRR,

including through the devolvement of Underwriters, within such period as prescribed under applicable law; (ii) the level of subscription falls below the threshold specified above on account of withdrawal of applications or after technical rejections or for any other reason whatsoever; or (iii) if the listing or trading permissions are not obtained from the Stock Exchanges for the Equity Shares offered pursuant to the Offer documents, our Company and the Promoter Selling Shareholders, shall, to the extent applicable, forthwith refund the entire subscription amount received within such period as prescribed by SEBI. If there is a delay in refunding the amount beyond such period, our Company and every director of the company who is an officer in default shall pay interest at such rate as required under applicable law. The Promoter Selling Shareholders shall reimburse, severally and not jointly, and only to the extent of the Equity Shares offered by such Promoter Selling Shareholder in the Offer, any expenses and interest incurred by our Company on behalf of the Promoter Selling Shareholders for any delays in making refunds as required under the Companies Act and any other applicable law, provided that the Promoter Selling Shareholders shall not be responsible or liable for payment of such expenses or interest, unless such delay is solely and directly attributable to an act or omission such Promoter Selling Shareholder in relation to its portion of the Offered Shares.

Under-subscription, if any, in any category except the QIB portion, would be met with spill-over from the other categories at the discretion of our Company, in consultation with the Book Running Lead Manager, and the Designated Stock Exchange.

Further, in terms of Regulation 49(1) of the SEBI ICDR Regulations, our Company shall ensure that the number of Bidders to whom the Equity Shares will be Allotted will be not less than 1,000, failing which the entire application money shall be unblocked in the respective ASBA Accounts of the Bidders, and subscription money will be refunded, as applicable. In case of delay, if any, in unblocking the ASBA Accounts within such timeline as prescribed under applicable laws, our Company shall be liable to pay interest on the application money in accordance with applicable laws.

Arrangements for disposal of odd lots

There are no arrangements for disposal of odd lots since our Equity Shares will be traded in dematerialised form only and market lot for our Equity Shares will be one Equity Share.

New financial instruments

Our Company is not issuing any new financial instruments through this Offer.

Restrictions, if any on transfer and transmission of Equity Shares

Except for lock-in of the pre-Offer Equity Share capital of our Company, lock-in of the Promoter's minimum contribution under the SEBI ICDR Regulations and the Anchor Investor lock-in as provided in the section titled "*Capital Structure*" on page 87 and except as provided under the Articles of Association, there are no restrictions on transfer or transmission of the Equity Shares. For details, please refer to the section titled "*Main Provisions of Articles of Association*" beginning on page 381.

Allotment only in dematerialized form

Pursuant to Section 29 of the Companies Act, the Equity Shares in the Offer shall be Allotted only in dematerialised form. Further, as per the SEBI ICDR Regulations, the trading of the Equity Shares shall only be in dematerialised form on the Stock Exchanges.

Withdrawal of the Offer

Our Company, in consultation with the Book Running Lead Manager, reserves the right not to proceed with the Offer, in whole or in part thereof, after the Bid/Offer Opening Date but before the Allotment. In such an event, our Company would issue a public notice in the newspapers in which the pre-Offer advertisements were published, within two days of the Bid/Offer Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Offer. The BRLM through the Registrar to the Offer, shall notify the SCSBs and the Sponsor Banks, in case of UPI Bidders using the UPI Mechanism, to unblock the bank accounts of the ASBA Bidders (other than Anchor Investors) shall notify the Escrow Collection Banks to release the Bid Amounts to the Anchor Investors, within one Working Day from the date of receipt of such notification. Our Company shall also inform the same to the Stock Exchanges on which Equity Shares are proposed to be listed. The notice of the withdrawal will be issued in the same newspapers where the pre-Offer advertisements have appeared.

Notwithstanding the foregoing, the Offer is also subject to obtaining (i) the final listing and trading approvals of the Stock Exchanges, which our Company shall apply for after Allotment and within three Working Days or such other period as may be prescribed, and (ii) filing of the Prospectus with the RoC. If our Company, in consultation with the BRLM, withdraws the Offer after the Bid/Offer Closing Date and thereafter determine that they will proceed with a public offering of the Equity Shares, our Company shall file a fresh draft red herring prospectus with SEBI and the Stock Exchanges.

* Assuming full subscription in the Offer

[^] Anchor Investors are not permitted to use the ASBA process. Further, pursuant to circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, the SEBI has mandated that ASBA applications in the Offer will be processed only after the Bid Amounts are blocked in the bank accounts of the investors. Accordingly, Stock Exchanges shall, for all categories of investors viz. QIBs, NIIs and RIBs and all modes through which the Applications are processed, accept ASBA Forms in their electronic book building platform only with a mandatory confirmation on the Bid Amounts blocked.

⁽¹⁾ Our Company, in consultation with the BRLM, may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations. One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the price Anchor Investor Allocation Price. In the event of under-subscription or non-Allotment in the Anchor Investor Portion, the balance Equity Shares in the Anchor Investor Portion shall be added to the Net QIB Portion. For details, please refer to the section titled "Offer Procedure" on page 358.

⁽²⁾ Subject to valid Bids being received at or above the Offer Price. This is an Offer in terms of Rule 19(2)(b) of the SCRR in compliance with Regulation 6(1) of the SEBI ICDR Regulations read with Regulation 45 of the SEBI ICDR Regulations. The Offer is being made through the Book Building Process, wherein not more than 50% of the Offer shall be available for allocation on a proportionate basis to QIBs. Such number of Equity Shares representing 5% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only. The remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to QIBs, including Mutual Funds,

subject to valid Bids being received from them at or above the Offer Price. However, if the aggregate demand from Mutual Funds is less than 5% of the Net QIB Portion, the balance Equity Shares available for allocation in the Mutual Fund Portion will be added to the remaining Net QIB Portion for proportionate allocation to all QIBs. Further, not less than 15% of the Offer shall be available for allocation to Non-Institutional Bidders and not less than 35% of the Offer shall be available for allocation to Retail Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids being received from them at or above the Offer Price. The Equity Shares available for allocation to Non-Institutional Bidders under the Non-Institutional Portion, shall be subject to the following: (i) one-third of the portion available to Non-Institutional Bidders shall be reserved for Bidders with an application size of more than ₹ 0.20 million and up to ₹ 1.00 million, and (ii) two-third of the portion available to Non-Institutional Bidders shall be reserved for Bidders with application size of more than ₹ 1.00 million, provided that the unsubscribed portion in either of the aforementioned sub-categories may be allocated to Bidders in the other sub-category of Non-Institutional Bidders.

⁽³⁾ In case of joint Bids, the Bid cum Application Form should contain only the name of the first Bidder whose name should also appear as the first holder of the beneficiary account held in joint names. The signature of only such first Bidder would be required in the Bid cum Application Form and such first Bidder would be deemed to have signed on behalf of the joint holders. Our Company reserves the right to reject, in its absolute discretion, all or any multiple Bids, except as otherwise permitted, in any or all categories.

⁽⁴⁾ Full Bid Amount shall be payable by the Anchor Investors at the time of submission of the Anchor Investor Application Forms provided that any difference between the Anchor Investor Allocation Price and the Anchor Investor Offer Price shall be payable by the Anchor Investor Pay-In Date as indicated in the CAN. Bidders will be required to confirm and will be deemed to have represented to our Company, the Promoter Selling Shareholders, the Underwriters, their respective directors, officers, agents, affiliates and representatives that they are eligible under applicable law, rules, regulations, guidelines and approvals to acquire the Equity Shares.

⁽⁵⁾ Bids by FPIs with certain structures as described under "Offer Procedure - Bids by FPIs" on page 365 and having same PAN may be collated and identified as a single Bid in the Bidding process. The Equity Shares allocated and Allotted to such successful Bidders (with same PAN) may be proportionately distributed.

Bidders will be required to confirm and will be deemed to have represented to our Company, the Promoter Selling Shareholders, the Underwriters, their respective directors, officers, agents, affiliates and representatives that they are eligible under applicable law, rules, regulations, guidelines and approvals to acquire the Equity Shares.

Subject to valid Bids being received at or above the Offer Price, under-subscription, if any, in the Non-Institutional Portion and the Retail Portion would be allowed to be met with spill-over from other categories or a combination of categories at the discretion of our Company, in consultation with the BRLM and the Designated Stock Exchange, on a proportionate basis. However, under-subscription, if any, in the QIB Portion will not be allowed to be met with spill-over from other categories or a combination of categories. For further details, please refer to the section titled "Terms of the Offer" on page 347.

OFFER PROCEDURE

All Bidders should read the General Information Document for investing in Public Issues prepared and issued in accordance with the circular no. SEBI/HO/CFD/DIL1/CIR/P/2020/37 dated March 17, 2020 and the UPI Circulars (the “**General Information Document**”), which highlights the key rules, processes and procedures applicable to public issues in general in accordance with the provisions of the Companies Act, the SCRA, the SCRR and the SEBI ICDR Regulations which is part of Abridged Prospectus accompanying the Bid cum Application Form. The General Information Document is available on the websites of the Stock Exchanges and the Book Running Lead Manager. Please refer to the relevant provisions of the General Information Document which are applicable to the Offer especially in relation to the process for Bids by UPI Bidders through the UPI Mechanism. The investors should note that the details and process provided in the General Information Document should be read along with this section.

Additionally, all Bidders may refer to the General Information Document for information in relation to (i) category of investors eligible to participate in the Offer; (ii) maximum and minimum Bid size; (iii) price discovery and allocation; (iv) payment instructions for ASBA Bidders; (v) issuance of Confirmation of Allocation Note (“**CAN**”) and Allotment in the Offer; (vi) price discovery and allocation; (vii) general instructions (limited to instructions for completing the Bid cum Application Form); (viii) designated date; (ix) disposal of applications; (x) submission of Bid cum Application Form; (xi) other instructions (limited to joint bids in cases of individual, multiple bids and instances when an application would be rejected on technical grounds); (xii) applicable provisions of the Companies Act relating to punishment for fictitious applications; (xiii) mode of making refunds; and (xiv) interest in case of delay in Allotment or refund.

SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, had introduced an alternate payment mechanism using Unified Payments Interface (“**UPI**”) and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for UPI Bidders applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. (“**UPI Phase I**”). The UPI Phase I was effective till June 30, 2019.

With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Bids by UPI Bidders through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Bids with existing timeline of T+6 days was mandated for a period of three months or launch of five main board public issues, whichever is later (“**UPI Phase II**”). Subsequently, however, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice. The final reduced timeline of T+3 days will be made effective using the UPI Mechanism for applications by RIBs (“**UPI Phase III**”), as may be prescribed by SEBI. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, had introduced certain additional measures for streamlining the process of initial public issues and redressing investor grievances. Subsequently, the SEBI RTA Master Circular consolidated the aforementioned circulars to the extent relevant for the RTAs, and rescinded these circulars. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual Bidders in initial public offerings whose application sizes are up to ₹ 0.50 million shall use the UPI Mechanism. Pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, applications made using the ASBA facility in initial public offerings shall be processed only after application monies are blocked in the bank accounts of investors (all categories). These circulars are effective for initial public offers opening on/or after May 1, 2021, and the provisions of these circulars, as amended, are deemed to form part of this Draft Red Herring Prospectus.

In terms of Regulation 23(5) and Regulation 52 of SEBI ICDR Regulations, the timelines and processes mentioned in the SEBI RTA Master Circular shall continue to form part of the agreements being signed between the intermediaries involved in the public issuance process and lead manager shall continue to coordinate with intermediaries involved in the said process. In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Bid/Offer Closing Date, the Bidder shall be compensated at a uniform rate of ₹100 per day for the entire duration of delay exceeding two Working Days from the Bid/Offer Closing Date by the intermediary responsible for causing such delay in unblocking.

Further, SEBI has vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 reduced the time taken for listing of specified securities after the closure of a public issue to three Working Days. This shall be applicable voluntarily for all public issues opening on or after September 1, 2023 and shall be mandatory for all public issues opening on or after December 1, 2023. The DRHP has been drafted in accordance with phase II of the UPI framework, and also reflects additional measures for streamlining the process of initial public offers. Please note that we may need to make appropriate changes in the Red Herring Prospectus and the Prospectus depending upon the prevailing conditions at the time of the opening of the Offer.

Our Company, the Promoter Selling Shareholders and the BRLM are not liable for any amendment, modification or change in the applicable law which may occur after the date of this Draft Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that their Bids are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of the Equity Shares that can be held by them under applicable law or as specified in the Red Herring Prospectus and the Prospectus.

The BRLM shall be the nodal entity for any issues arising out of public issuance process.

Further, our Company and the BRLM are not liable for any adverse occurrences consequent to the implementation of the UPI Mechanism for application in this Offer.

Book Building Procedure

The Offer is being made in terms of Rule 19(2)(b) of SCRR read with Regulation 31 of the SEBI ICDR Regulations through the Book Building Process in accordance with Regulation 6(1) of the SEBI ICDR Regulations wherein not more than 50% of the Offer shall be allocated on a proportionate basis to QIBs, provided that our Company, in consultation with the BRLM, may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations, of which one-third shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription, or non-allotment in the Anchor Investor Portion, the balance Equity Shares shall be added to the Net QIB Portion. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis only to Mutual Funds, and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIBs (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price. Further, not less than 15% of the Offer shall be available for allocation on a proportionate basis to Non-Institutional Bidders, out of which: (i) one-third of the portion available to Non-Institutional Bidders shall be reserved for applicants with an application size of more than ₹ 0.20 million and up to ₹ 1.00 million; and (ii) two-third of the portion available to Non-Institutional Bidders shall be reserved for applicants with application size of more than ₹ 1.00 million provided that the unsubscribed portion in either of the sub-categories specified above may be allocated to applicants in the other sub-category of Non-Institutional Bidders. And not less than 35% of the Offer shall be available for allocation to Retail Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Offer Price.

Under-subscription, if any, in any category, except in the QIB Portion, would be allowed to be met with spill over from any other category or combination of categories of Bidders at the discretion of our Company, in consultation with the BRLM and the Designated Stock Exchange subject to receipt of valid Bids received at or above the Offer Price on proportionate basis. Under-subscription, if any, in the QIB Portion, would not be allowed to be met with spill-over from any other category or a combination of categories.

The Equity Shares, on Allotment, shall be traded only in the dematerialized segment of the Stock Exchanges.

Bidders must ensure that their PAN is linked with Aadhar and are in compliance with the notification by the Central Board of Direct Taxes dated February 13, 2020 read with press release dated June 25, 2021 and September 17, 2021, CBDT circular no.7 of 2022, dated March 30, 2022, read with press release dated March 28, 2023.

Bidders should note that the Equity Shares will be Allotted to all successful Bidders only in dematerialized form. The Bid cum Application Forms which do not have the details of the Bidders' depository account, including DP ID, Client ID, PAN and UPI ID, for UPI Bidders using the UPI Mechanism, shall be treated as incomplete and will be rejected. However, they may get the Equity Shares rematerialized subsequent to Allotment of the Equity Shares in the Offer, subject to applicable laws.

Phased implementation of UPI for Bids by UPI Bidders as per the UPI Circulars

SEBI has issued UPI circulars in relation to streamlining the process of public issue of equity shares and convertibles by introducing an alternate payment mechanism using UPI. Pursuant to the the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018, SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019, SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 (“**Previous UPI Circulars**”) and the UPI Circulars, UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by UPI Bidders through intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars and the Previous UPI Circulars have introduced and implemented the UPI payment mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended until June 30, 2019. Under this phase, a RIB also had the option to submit the ASBA Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing would continue to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 has decided to extend the timeline for implementation of UPI Phase II until March 31, 2020. Under this phase, submission of the physical ASBA Form by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds has been discontinued and is replaced by the UPI payment mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase. Subsequently, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice. However, the time duration from public issue closure to listing continues to be six Working Days during this phase.

SEBI through its circular (SEBI/HO/CFD/DIL2/CIR/P/2022/45) dated April 5, 2022, has prescribed that all individual investors applying in initial public offerings opening on or after May 1, 2022, where the application amount is up to ₹ 500,000, shall use UPI. Individual investors bidding under the Non-Institutional Portion bidding for more than ₹ 200,000 and up to ₹ 500,000, using the UPI Mechanism, shall provide their UPI ID in the Bid cum-Application Form for Bidding through Syndicate, sub-syndicate members, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.

Phase III: The Phase III shall commence voluntarily for all public issues opening on or after September 1, 2023 and shall be mandatory for all public issues opening on or after December 1, 2023 as per the SEBI Circular No. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 (“**T+3 Circular**”). In this phase, the time duration from public issue closure to listing is reduced to three Working Days. The Offer shall be undertaken pursuant to the processes and procedures as notified in the T+3 Circular as applicable, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using UPI. The Offer is being made under Phase II of the UPI, unless Phase III of the UPI becomes effective and applicable on or prior to the Bid/Offer Opening Date. Our Company will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the UPI Bidders.

Pursuant to the UPI Circulars, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circulars include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one Working Day from the date on which the Basis of Allotment is finalized. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant

securities law. Additionally, if there is any delay in the redressal of investors' complaints, the relevant SCSB as well as the post-Offer BRLM will be required to compensate the concerned investor.

Further, in terms of the UPI Circulars, the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the BRLM, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks make a written confirmation as prescribed in Annexure I of SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and provide a written confirmation on compliance with SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022.

For further details, refer to the "General Information Document" available on the websites of the Stock Exchanges and the Book Running Lead Manager.

**Bid cum Application Forms for Anchor Investors will be made available at the office of the Book Running Lead Manager. Electronic Bid cum Application Forms will also be available for download on the website of NSE (www.nseindia.com) and BSE (www.bseindia.com).]

The Designated Intermediaries (other than SCSBs) shall submit/deliver the Bid cum Application Form to the respective SCSB, where the Bidder has a bank account and shall not submit it to any non-SCSB bank or any Escrow Bank. Further, SCSBs shall upload the relevant Bid details (including UPI ID in case of ASBA Forms under the UPI Mechanism) in the electronic bidding system of the Stock Exchanges. Stock Exchanges shall validate the electronic bids with the records of the CDP for DP ID/Client ID and PAN, on a real time basis and bring inconsistencies to the notice of the relevant Designated Intermediaries, for rectification and re-submission within the time specified by Stock Exchanges. Stock Exchanges shall allow modification of either DP ID/Client ID or PAN ID, bank code and location code in the Bid details already uploaded.

In case of ASBA Forms, the relevant Designated Intermediaries shall upload the relevant bid details in the electronic bidding system of the Stock Exchanges and the Stock Exchanges shall accept the ASBA applications in their electronic bidding system only with a mandatory confirmation on the application monies blocked. For UPI Bidders using the UPI Mechanism, the Stock Exchanges shall share the Bid details (including UPI ID) with the Sponsor Bank on a continuous basis to enable the Sponsor Bank to initiate UPI Mandate Request to UPI Bidders for blocking of funds.

In case of ASBA Forms, the relevant Designated Intermediaries shall capture and upload the relevant bid details (including UPI ID in case of ASBA Forms under the UPI Mechanism) in the electronic bidding system of the Stock Exchanges.

For UPI Bidders using UPI Mechanism, the Stock Exchanges shall share the Bid details (including UPI ID) with the Sponsor Bank on a basis through API integration to enable the Sponsor Bank to initiate UPI Mandate Request to UPI Bidders, for blocking of funds. Stock Exchanges shall validate the electronic bids with the records of the CDP for DP ID/Client ID and PAN, on a real time basis and bring inconsistencies to the notice of the relevant Designated Intermediaries, for rectification and re-submission within the time specified by Stock Exchanges. Stock Exchanges shall allow modification of either DP ID/Client ID or PAN ID, bank code and location code in the Bid details already uploaded.

The Sponsor Bank shall initiate request for blocking of funds through NPCI to UPI Bidders, who shall accept the UPI Mandate Request for blocking of funds on their respective mobile applications associated with UPI ID linked

bank account. In accordance with circular issued by the National Stock Exchange of India Limited having reference no. 25/2022 dated August 3, 2022, and the notice issued by BSE Limited having reference no. 20220803-40 dated August 3, 2022, for all pending UPI Mandate Requests, the Sponsor Bank shall initiate requests for blocking of funds in the ASBA Accounts of relevant Bidders with a confirmation cut-off time of 5:00 pm on the Bid/Offer Closing Date (“**Cut-Off Time**”). Accordingly, UPI Bidders Bidding using through the UPI Mechanism should accept UPI Mandate Requests for blocking off funds prior to the Cut-Off Time and all pending UPI Mandate Requests at the Cut-Off Time shall lapse. Further, modification of Bids shall be allowed in parallel during the Bid/Offer Period until the Cut-Off Time. The NPCI shall maintain an audit trail for every Bid entered in the Stock Exchanges bidding platform, and the liability to compensate UPI Bidders (Bidding through UPI Mechanism) in case of failed transactions shall be with the concerned entity (*i.e.*, the Sponsor Bank, NPCI or the issuer bank) at whose end the lifecycle of the transaction has come to a halt. The NPCI shall share the audit trail of all disputed transactions/ investor complaints to the Sponsor Banks and the issuer bank.

The Sponsor Banks and the Bankers to the Offer shall provide the audit trail to the BRLM for analysing the same and fixing liability. For ensuring timely information to investors, SCSBs shall send SMS alerts for mandate block and unblock including details specified in SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated April 20, 2022. Further, the processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, issued by SEBI and circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated April 20, 2022 and SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022 and any subsequent circulars or notifications issued by SEBI in this regard.

Pursuant to NSE circular dated August 3, 2022 with reference no. 25/2022, the following is applicable to all initial public offers opening on or after September 1, 2022:

- a. Cut-off time for acceptance of UPI Mandate shall be up to 5:00 pm on the initial public offer closure date and existing process of UPI bid entry by syndicate members, registrars to the offer and depository participants shall continue till further notice.
- b. There shall be no T+1 mismatch modification session for PAN-DP mismatch and bank/ location code on T+1 day for already uploaded bids. The dedicated window provided for mismatch modification on T+1 day shall be discontinued.
- c. Bid entry and modification/ cancellation (if any) shall be allowed in parallel to the regular bidding period up to 5:00 pm on the initial public offer closure day.
- d. Exchanges shall display initial public offer demand details on its website and for UPI bids the demand shall include/consider UPI bids only with latest status as RC 100 – Black Request Accepted by Investor/ Client, based on responses/status received from the Sponsor Bank.

The Sponsor Bank will undertake a reconciliation of Bid responses received from Stock Exchanges and sent to NPCI and will also ensure that all the responses received from NPCI are sent to the Stock Exchanges platform with detailed error code and description, if any. Further, the Sponsor Bank will undertake reconciliation of all Bid requests and responses throughout their lifecycle on daily basis and share reports with the BRLM in the format and within the timelines as specified under the UPI Circulars. Sponsor Bank and issuer banks shall download UPI settlement files and raw data files from the NPCI portal after every settlement cycle and do a three way reconciliation with UPI switch data, CBS data and UPI raw data. NPCI is to coordinate with issuer banks and Sponsor Banks on a continuous basis.

For ASBA Forms (other than UPI Bidders using UPI Mechanism), Designated Intermediaries (other than SCSBs) shall submit/deliver the ASBA Forms to the respective SCSB where the Bidder has an ASBA bank account and shall not submit it to any non-SCSB bank or any Escrow Collection Bank.

The Sponsor Bank shall host a web portal for intermediaries (closed user group) from the date of Bid/Offer Opening Date till the date of listing of the Equity Shares with details of statistics of mandate blocks/unblocks, performance of apps and UPI handles, down-time/network latency (if any) across intermediaries and any such processes having an impact/bearing on the Offer Bidding process.

Electronic registration of Bids

- a) The Designated Intermediary may register the Bids using the on-line facilities of the Stock Exchanges. The Designated Intermediaries can also set up facilities for off-line electronic registration of Bids, subject to the condition that they may subsequently upload the off-line data file into the on-line facilities for Book Building on a regular basis before the closure of the Offer.
- b) On the Bid/Offer Closing Date, the Designated Intermediaries may upload the Bids till such time as may be permitted by the Stock Exchanges and as disclosed in the Red Herring Prospectus.
- c) Only Bids that are uploaded on the Stock Exchanges Platform are considered for allocation/Allotment. The Designated Intermediaries shall modify select fields uploaded in the Stock Exchange Platform during the Bid/Offer Period till 5:00 pm on the Bid/Offer Closing Date after which the Stock Exchange(s) send the bid information to the Registrar to the Offer for further processing.

Participation by the Promoters, members of their respective Promoter Groups, the Book Running Lead Manager, and persons related to Promoters/Promoter Groups/the Book Running Lead Manager

The Book Running Lead Manager shall not be allowed to purchase Equity Shares in this Offer in any manner, except towards fulfilling their underwriting obligations. However, the associates and affiliates of the Book Running Lead Manager may Bid for Equity Shares in the Offer, either in the QIB Portion or in the Non-Institutional Portion as may be applicable to such Bidders, where the allocation is on a proportionate basis, and such subscription may be on their own account or on behalf of their clients. All categories of investors, including associates or affiliates of the Book Running Lead Manager, shall be treated equally for the purpose of allocation to be made on a proportionate basis.

Except as disclosed below, neither the Book Running Lead Manager nor any associate of the Book Running Lead Manager can apply in the Offer under the Anchor Investor Portion:

- (i) mutual funds sponsored by entities which are associate of the Book Running Lead Manager;
- (ii) insurance companies promoted by entities which are associate of the Book Running Lead Manager;
- (iii) AIFs sponsored by the entities which are associate of the Book Running Lead Manager; or
- (iv) FPIs other than individuals, corporate bodies and family offices sponsored by the entities which are associate of the Book Running Lead Manager.

Further, the Promoters and members of their respective Promoter Groups, except to the extent of their respective Offered Shares, shall not participate by applying for Equity Shares in the Offer. Further, persons related to the Promoters and their respective Promoter Groups shall not apply in the Offer under the Anchor Investor Portion. However, a QIB who has any of the following rights in relation to our Company shall be deemed to be a person related to the Promoters or Promoter Groups of our Company:

- (i) Rights under a shareholders' agreement or voting agreement entered into with the Promoters or Promoter Groups of our Company;
- (ii) veto rights; or
- (iii) right to appoint any nominee director on our Board.

Further, an Anchor Investor shall be deemed to be an "associate of the BRLM" if:

- (i) either of them controls, directly or indirectly through its subsidiary or holding company, not less than 15% of the voting rights in the other; or
- (ii) either of them, directly or indirectly, by itself or in combination with other persons, exercises control over the other; or
- (iii) there is a common director, excluding nominee director, amongst the Anchor Investors and the Book Running Lead Manager.

Bids by Mutual Funds

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate must be lodged along with the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Manager, reserves the right to reject any Bid without assigning any reason thereof, subject to applicable law.

Bids made by asset management companies or custodians of Mutual Funds shall specifically state names of the concerned schemes for which such Bids are made.

In case of a Mutual Fund, a separate Bid can be made in respect of each scheme of the Mutual Fund registered with SEBI and such Bids in respect of more than one scheme of the Mutual Fund will not be treated as multiple Bids provided that the Bids clearly indicate the scheme concerned for which such Bid has been made.

No Mutual Fund scheme shall invest more than 10% of its NAV in equity shares or equity-related instruments of any single company, provided that the limit of 10% shall not be applicable for investments in case of index funds or sector or industry specific schemes. No Mutual Fund under all its schemes should own more than 10% of any company's paid-up share capital carrying voting rights.

Bids by Eligible NRIs

Eligible NRIs may obtain copies of Bid cum Application Form from the Designated Intermediaries. Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange will be considered for Allotment. Eligible NRI Bidders Bidding on a repatriation basis by using the Non-Resident Forms should authorize their SCSB (if they are Bidding directly through the SCSB) or confirm or accept the UPI Mandate Request (in case of UPI Bidders Bidding through the UPI Mechanism) to block their Non-Resident External ("NRE") accounts, or Foreign Currency Non-Resident ("FCNR") Accounts, and Eligible NRI Bidders Bidding on a non-repatriation basis by using Resident Forms should authorize their respective SCSBs (if they are Bidding directly through SCSB) or confirm or accept the UPI Mandate Request (in case of UPI Bidders Bidding through the UPI Mechanism) to block their Non-Resident Ordinary ("NRO") accounts for the full Bid Amount, at the time of the submission of the Bid cum Application Form. Participation of Eligible NRIs in the Offer shall be subject to the FEMA Rules.

Eligible NRIs Bidding on non-repatriation basis are advised to use the Bid cum Application Form for residents (white in colour). Eligible NRIs Bidding on a repatriation basis are advised to use the Bid cum Application Form meant for Non-Residents (blue in colour).

Participation of Eligible NRIs in the Offer shall be subject to the FEMA Rules. Only bids accompanied by payment in Indian rupees or fully convertible foreign exchange will be considered for allotment.

In accordance with the FEMA Rules, the total holding by any individual NRI, on a repatriation basis, shall not exceed 5% of the total paid-up equity capital or shall not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant. Provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company.

Eligible NRIs will be permitted to apply in the Offer through Channel I or Channel II (as specified in the UPI Circulars). Further, subject to applicable law, NRIs may use Channel IV (as specified in the UPI Circulars) to apply in the Offer, provided the UPI facility is enabled for their NRE/ NRO accounts. NRIs applying in the Offer using UPI Mechanism are advised to enquire with relevant bank whether their bank account is UPI linked prior to making such applications. For details of restrictions on investment by NRIs, please refer to the section titled "*Restrictions on Foreign Ownership of Indian Securities*" on page 380.

Bids by HUFs

Bids by Hindu Undivided Families or HUFs should be made in the individual name of the Karta. The Bidder/applicant should specify that the Bid is being made in the name of the HUF in the Bid cum Application Form/Application Form as follows: "Name of sole or first Bidder/applicant: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the Karta". Bids/Applications by HUFs may be considered at par with Bids/Applications from individuals.

Bids by FPIs

In terms of the SEBI FPI Regulations, the issue of Equity Shares to a single FPI or an investor group (which means the same set of ultimate beneficial owner(s) investing through multiple entities) must be below 10% of our total paid-up Equity Share capital. Further, in terms of the FEMA Rules, the total holding by each FPI shall be less than 10% of the total paid-up Equity Share capital of our Company and the total holdings of all FPIs could be up to 100%, being the sectoral cap, of the paid-up Equity Share capital of our Company. FPIs are permitted to participate in Offer subject to compliance with conditions and restrictions which may be specified by the Government of India from time to time.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason. FPIs who wish to participate in the Offer are advised to use the Bid cum Application Form for Non – Residents ([●] in colour).

In case the total holding of an FPI increases beyond 10% of the total paid-up Equity Share capital or 10% or more of the paid-up value of any series of debentures or preference shares or share warrants issued that may be issued by our Company, the total investment made by the FPI will be re-classified as FDI subject to the conditions as specified by SEBI and the RBI in this regard and our Company and the investor will be required to comply with applicable reporting requirements.

As specified in 4.1.4.2 (b)(i) and 4.1.4.2 (c)(iv) of the General Information Document, it is hereby clarified that Bids received from FPIs bearing the same PAN shall be treated as multiple Bids and are liable to be rejected, except for Bids from FPIs that utilize the multiple investment manager structure (“**MIM Structure**”) in accordance with the SEBI master circular bearing reference number SEBI/HO/AFD-2/CIR/P/2022/175 dated December 19, 2022, provided such Bids have been made with different beneficiary account numbers, Client IDs and DP IDs. Accordingly, it should be noted that multiple Bids received from FPIs, who do not utilize the MIM Structure, and bear the same PAN, are liable to be rejected. In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, are required to provide a confirmation along with each of their Bid cum Application Forms that the relevant FPIs making multiple Bids utilize the MIM Structure and indicate the name of their respective investment managers in such confirmation. In the absence of such confirmation from the relevant FPIs, such multiple Bids are liable to be rejected. Further, in the following cases, the bids by FPIs will not be considered as multiple Bids: involving (i) the MIM Structure and indicating the name of their respective investment managers in such confirmation; (ii) offshore derivative instruments (“**ODI**”) which have obtained separate FPI registration for ODI and proprietary derivative investments; (iii) sub funds or separate class of investors with segregated portfolio who obtain separate FPI registration; (iv) FPI registrations granted at investment strategy level/sub fund level where a collective investment scheme or fund has multiple investment strategies/sub-funds with identifiable differences and managed by a single investment manager; (v) multiple branches in different jurisdictions of foreign bank registered as FPIs; (vi) Government and Government related investors registered as Category 1 FPIs; and (vii) Entities registered as Collective Investment Scheme having multiple share classes.

Please note that in terms of the General Information Document, the maximum Bid by any Bidder including QIB Bidder should not exceed the investment limits prescribed for them under applicable laws. Further, MIM Bids by an FPI Bidder utilising the MIM Structure shall be aggregated for determining the permissible maximum Bid. Further, please note that as disclosed in this Draft Red Herring Prospectus read with the General Information Document, Bid Cum Application Forms are liable to be rejected in the event that the Bid in the Bid cum Application Form exceeds the Offer size and/or investment limit or maximum number of the Equity Shares that can be held under applicable laws or regulations or maximum amount permissible under applicable laws or regulations, or under the terms of the Red Herring Prospectus.

For example, an FPI must ensure that any Bid by a single FPI and/ or an investor group (which means the same multiple entities having common ownership directly or indirectly of more than 50% or common control) (collective, the “**FPI Group**”) shall be below 10% of the total paid-up Equity Share capital of our Company. Any Bids by FPIs and/ or the FPI Group (including but not limited to (a) FPIs Bidding through the MIM Structure; or (b) FPIs with separate registrations for offshore derivative instruments and proprietary derivative instruments) for 10% or more of our total paid-up post Offer Equity Share capital shall be liable to be rejected.

With effect from the April 1, 2020, the aggregate limit are the sectoral caps applicable to the Indian company as prescribed in the FEMA Rules with respect to its paid-up equity capital. While the aggregate limit as provided above could have been decreased by the concerned Indian companies to a lower threshold limit of 24% or 49% or 74% as deemed fit, with the approval of its board of directors and its shareholders through a resolution and a

special resolution, respectively before March 31, 2020, our Company has not decreased such limit and accordingly the applicable limit with respect to our Company is 100%.

FPIs are permitted to participate in the Offer subject to compliance with conditions and restrictions which may be specified by the Government from time to time. In terms of the FEMA Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs; (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs; (iii) such offshore derivative instruments are issued after compliance with 'know your client' norms; and (iv) such other conditions as may be specified by SEBI from time to time.

An FPI may purchase or sell equity shares of an Indian company which is listed or to be listed on a recognized stock exchange in India, and/ or may purchase or sell securities other than equity instruments.

An FPI Issuing offshore derivative instruments is also required to ensure that any transfer of offshore derivative instruments issued by or on its behalf, is carried out subject to inter alia the following conditions:

- a) such offshore derivative instruments are transferred only to persons in accordance with Regulation 22(1) of the SEBI FPI Regulations; and
- b) prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred to are pre-approved by the FPI.

Participation of FPIs in the Offer shall be subject to the FEMA Rules.

Bids under power of attorney

In case of Bids made pursuant to a power of attorney or by limited companies, corporate bodies, registered societies, Eligible FPIs, AIFs, Mutual Funds, insurance companies, insurance funds set up by the army, navy or air force of India, insurance funds set up by the Department of Posts, India or the National Investment Fund and provident funds with a minimum corpus of ₹ 250.00 million and pension funds with a minimum corpus of ₹ 250.00 million registered with the Pension Fund Regulatory and Development Authority established under sub-section (1) of section 3 of the Pension Fund Regulatory and Development Authority Act, 2013 (in each case, subject to applicable law and in accordance with their respective constitutional documents), a certified copy of the power of attorney or the relevant resolution or authority, as the case may be, along with a certified copy of the memorandum of association and articles of association and/or bye laws, as applicable must be lodged along with the Bid cum Application Form. Failing this, our Company reserves the right to accept or reject any Bid in whole or in part, in either case, without assigning any reasons thereof.

Our Company, in consultation with the Book Running Lead Manager in their absolute discretion, reserves the right to relax the above condition of simultaneous lodging of the power of attorney along with the Bid cum Application Form.

Bids by SEBI registered VCFs, AIFs and FVCIs

The SEBI FVCI Regulations, SEBI VCF Regulations and the SEBI AIF Regulations prescribe, inter alia, the investment restrictions on the FVCIs, VCFs and AIFs registered with SEBI respectively. While the SEBI VCF Regulations have since been repealed, the funds registered as VCFs under the SEBI VCF Regulations continue to be regulated by such regulations till the existing fund or scheme managed by the fund is wound up.

Subject to compliance with applicable law and investment restrictions, FVCIs can invest only up to 33.33% of the investible funds by way of subscription to an initial public offering. Category I AIF and Category II AIF cannot invest more than 25% of the investible funds in one investee company directly or through investment in the units of other AIFs. A Category III AIF cannot invest more than 10% of the investible funds in one investee company directly or through investment in the units of other AIFs. AIFs which are authorized under the fund documents to invest in units of AIFs are prohibited from offering their units for subscription to other AIFs. Additionally, a VCF that has not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations (and accordingly shall not be allowed to participate in the Offer) until the existing fund or

scheme managed by the fund is wound up and such funds shall not launch any new scheme after the notification of the SEBI AIF Regulations.

Participation of VCFs, AIFs or FVCIs in the Offer shall be subject to the FEMA Rules. Further, VCFs, Category I AIFs or Category II AIFs and FVCIs holding Equity Shares of the Company, shall be exempt from lock-in requirements, provided that such Equity Shares shall be locked in for a period of at least six months from the date of purchase by the venture capital fund or alternative investment fund of Category I or II or foreign venture capital investor.

There is no reservation for Eligible NRI Bidders, AIFs, FPIs and FVCIs. All Bidders will be treated on the same basis with other categories for the purpose of allocation.

All non-resident investors should note that refunds (in case of Anchor Investors), dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.

Our Company, the Promoter Selling Shareholders or the BRLM will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

Bids by limited liability partnerships

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM reserves the right to reject any Bid without assigning any reason thereof.

Bids by banking companies

In case of Bids made by banking companies registered with the RBI, certified copies of (i) the certificate of registration issued by the RBI, and (ii) the approval of such banking company's investment committee are required to be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserves the right to reject any Bid without assigning any reason thereof, subject to applicable law.

The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, 1949, as amended, (the "**Banking Regulation Act**"), and the Master Directions – Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended, is 10% of the paid-up share capital of the investee company, not being its subsidiary engaged in non-financial services, or 10% of the banking company's own paid-up share capital and reserves, whichever is lower. Further, the aggregate investment by a banking company in subsidiaries and other entities engaged in financial services company cannot exceed 20% of the investee company's paid-up share capital and reserves. However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid-up share capital of such investee company if (i) the investee company is engaged in non-financial activities permitted for banks in terms of Section 6(1) of the Banking Regulation Act, or (ii) the additional acquisition is through restructuring of debt/corporate debt restructuring/strategic debt restructuring, or to protect the bank's interest on loans/investments made to a company. The bank is required to submit a time-bound action plan for disposal of such shares within a specified period to the RBI. A banking company would require a prior approval of the RBI to make (i) investment in excess of 30% of the paid-up share capital of the investee company, (ii) investment in a subsidiary and a financial services company that is not a subsidiary (with certain exceptions prescribed), and (iii) investment in a non-financial services company in excess of 10% of such investee company's paid-up share capital as stated in 5(a)(v)(c)(i) of the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended.

Bids by SCSBs

SCSBs participating in the Offer are required to comply with the terms of the circulars bearing numbers CIR/CFD/DIL/12/2012 and CIR/CFD/DIL/1/2013 dated September 13, 2012, and January 2, 2013, respectively, issued by SEBI. Such SCSBs are required to ensure that for making applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making application in public issues and clear demarcated funds should be available in such account for such applications.

Bids by insurance companies

In case of Bids made by insurance companies registered with the IRDAI, a certified copy of certificate of registration issued by IRDAI must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserves the right to reject any Bid without assigning any reason thereof, subject to applicable law.

The exposure norms for insurers are prescribed under the Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016, read with the Investments – Master Circular dated October 27, 2022, each as amended (“**IRDAI Investment Regulations**”), based on investments in the equity shares of a company, the entire group of the investee company and the industry sector in which the investee company operates. Insurance companies participating in the Offer are advised to refer to the IRDAI Investment Regulations for specific investment limits applicable to them and shall comply with all applicable regulations, guidelines and circulars issued by IRDAI from time to time.

Bids by provident funds/pension funds

In case of Bids made by provident funds/pension funds with minimum corpus of ₹ 250.00 million, registered with the Pension Fund Regulatory and Development Authority established under sub-section (1) of section 3 of the Pension Fund Regulatory and Development Authority Act, 2013, subject to applicable law, a certified copy of a certificate from a chartered accountant certifying the corpus of the provident fund/pension fund must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserves the right to reject any Bid, without assigning any reason thereof.

Bids by Systematically Important NBFCs

In case of Bids made by Systemically Important NBFCs registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, (ii) certified copy of its last audited financial statements on a standalone basis, (iii) a net worth certificate from its statutory auditor, and (iv) such other approval as may be required by the Systemically Important NBFCs, are required to be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Manager, reserves the right to reject any Bid without assigning any reason thereof, subject to applicable law. Systemically Important NBFCs participating in the Offer shall comply with all applicable regulations, guidelines and circulars issued by RBI from time to time.

The investment limit for Systematically Important NBFCs shall be as prescribed by RBI from time to time.

Bids by Anchor Investors

Information for Bidders

The relevant Designated Intermediary will enter a maximum of three Bids at different price levels opted in the Bid cum Application Form and such options are not considered as multiple Bids. It is the Bidder's responsibility to obtain the acknowledgment slip from the relevant Designated Intermediary. The registration of the Bid by the Designated Intermediary does not guarantee that the Equity Shares shall be allocated/Allotted. Such Acknowledgement Slip will be non-negotiable and by itself will not create any obligation of any kind. When a Bidder revises his or her Bid, he /she shall surrender the earlier Acknowledgement Slip and may request for a revised acknowledgment slip from the relevant Designated Intermediary as proof of his or her having revised the previous Bid.

In relation to electronic registration of Bids, the permission given by the Stock Exchanges to use their network and software of the electronic bidding system should not in any way be deemed or construed to mean that the compliance with various statutory and other requirements by our Company and/or the BRLM are cleared or approved by the Stock Exchanges; nor does it in any manner warrant, certify or endorse the correctness or

completeness of compliance with the statutory and other requirements, nor does it take any responsibility for the financial or other soundness of our Company, the management or any scheme or project of our Company; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of the Red Herring Prospectus or the Red Herring Prospectus; nor does it warrant that the Equity Shares will be listed or will continue to be listed on the Stock Exchanges.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the concerned ministries/departments are responsible for granting approval for foreign investment under the FDI Policy and FEMA.

The Government has from time to time made policy pronouncements on foreign direct investment (“**FDI**”) through press notes and press releases. The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (*earlier known as Department of Industrial Policy and Promotion*) (“**DPIIT**”), issued the FDI Policy, which is effective from October 15, 2020 (the “**FDI Policy**”), which subsumes and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect prior to October 15, 2020. The FDI Policy will be valid until the DPIIT issues an updated circular. As on date, under the FDI Policy, up to 100% foreign investment under the automatic route is currently permitted for our Company. As per the FDI Policy, our business is currently categorized under the cash and carry business and single brand retail business.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the FDI policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

On October 17, 2019, Ministry of Finance, Department of Economic Affairs, had notified the FEMA Rules, which had replaced the Foreign Exchange Management (Transfer and Issue of Security by a Person Resident Outside India) Regulations 2017. Foreign investment in this Offer shall be on the basis of the FEMA Rules. Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, will require prior approval of the Government, as prescribed in the FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future FDI in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Each Bidder should seek independent legal advice about its ability to participate in the Offer. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Offer in writing about such approval along with a copy thereof within the Bid/Offer Period.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer. For details, please refer to the section titled “*Offer Procedure*” on page 358.

For details of the aggregate limit for investments by NRIs and FPIs in our Company, please refer to the sections titled “*Offer Procedure – Bids by Eligible NRIs*” and “*Offer Procedure – Bids by FPIs*” on pages 365 and 365 respectively.

(2)	Nothing in this Article shall apply to the increase of the subscribed capital of the Company caused by the exercise of an option as a term attached to the debentures issued or loans raised by the Company to convert such debenture or loans into shares in the Company. Provided that the terms of issue of such debentures or loan containing such an option have been approved before the issue of such debenture or the raising of loan by a special resolution passed by the Company in general meeting.	
(3)	A further issue of shares may be made in any manner whatsoever as the Board may determine including by way of preferential offer or private placement, subject to and in accordance with the Act and the Rules.	Mode of further issue of shares

Lien

19. (1)	The Company shall have a first and paramount Lien – (a) on every share (not being a fully paid share) and upon the proceeds of sale thereof for all monies (whether presently payable or not) called, or payable at a fixed time, in respect of that share; and (b) on all shares (not being fully paid shares) standing registered in the name of a member, for all monies presently payable by him or his estate to the Company: Provided that the Board may at any time declare any share to be wholly or in part exempt from the provisions of this Article. Provided further that Company's lien, if any, on such partly paid shares, shall be restricted to money called or payable at a fixed price in respect of such shares.	Company's lien on shares
(2)	The Company's Lien, if any, on a share shall extend to all dividends or interest, as the case may be, payable and bonuses declared from time to time in respect of such shares for any money owing to the Company.	Lien to extend to dividends, etc.
(3)	Unless otherwise agreed by the Board, the registration of a transfer of shares shall operate as a waiver of the Company's Lien.	Waiver of Lien in case of registration
20.	The Company may sell, in such manner as the Board thinks fit, any shares on which the Company has a Lien: Provided that no sale shall be made—	As to enforcing Lien by sale

	(a) unless a sum in respect of which the Lien exists is presently payable; or (b) until the expiration of fourteen days after a notice in writing stating and demanding payment of such part of the amount in respect of which the Lien exists as is presently payable, has been given to the registered holder for the time being of the share or to the person entitled thereto by reason of his death or insolvency or otherwise.	
21. (1)	To give effect to any such sale, the Board may authorize some person to transfer the shares sold to the purchaser thereof.	Validity of sale
(2)	The purchaser shall be registered as the holder of the shares comprised in any such transfer.	Purchaser to be registered holder
(3)	The receipt of the Company for the consideration (if any) given for the share on the sale thereof shall (subject, if necessary, to execution of an instrument of transfer or a transfer by relevant system, as the case may be) constitute a good title to the share and the purchaser shall be registered as the holder of the share.	Validity of Company's receipt
(4)	The purchaser shall not be bound to see to the application of the purchase money, nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings with reference to the sale	Purchaser not affected
22. (1)	The proceeds of the sale shall be received by the Company and applied in payment of such part of the amount in respect of which the Lien exists as is presently payable.	Application of proceeds of sale
(2)	The residue, if any, shall, subject to a like Lien for sums not presently payable as existed upon the shares before the sale, be paid to the person entitled to the shares at the date of the sale.	Payment of residual money
23.	The provisions of these Articles relating to Lien shall mutatis mutandis apply to any other securities including debentures of the Company.	Provisions as to Lien to apply mutatis mutandis to debentures, etc.
Calls on shares		
24. (1)	The Board may, from time to time, make calls upon the members in respect of any monies unpaid on their shares (whether on account of the nominal value of the shares or by way of premium) and not by the conditions of allotment thereof made payable at fixed times.	Board may make Calls
(2)	Each member shall, subject to receiving at least fourteen days' notice specifying the time or times and place of payment, pay to the Company, at the time or times and place so specified, the amount called on his shares.	Notice of call
(3)	A call may be revoked or postponed at the discretion of the Board	Revocation or postponement of call
25.	A call shall be deemed to have been made at the time when the resolution of the Board authorizing the call was passed and may be required to be paid by instalments.	Call to take effect from date of resolution
26.	The joint holders of a share shall be jointly and severally liable to pay all calls in respect thereof.	Liability of joint holders of shares

27. (1)	If a sum called in respect of a share is not paid before or on the day appointed for payment thereof (the “due date”), the person from whom the sum is due shall pay interest thereon from the due date to the time of actual payment at such rate as may be fixed by the Board.	When interest on call or instalment payable
(2)	The Board shall be at liberty to waive payment of any such interest wholly or in part.	Board may waive interest
28. (1)	Any sum which by the terms of issue of a share becomes payable on allotment or at any fixed date, whether on account of the nominal value of the share or by way of premium, shall, for the purposes of these Articles, be deemed to be a call duly made and payable on the date on which by the terms of issue such sum becomes payable.	Sums deemed to be calls
(2)	In case of non-payment of such sum, all the relevant provisions of these Articles as to payment of interest and expenses, forfeiture or otherwise shall apply as if such sum had become payable by virtue of a call duly made and notified.	Effect of nonpayment of sums
29.	<p>The Board –</p> <p>(a) may, if it thinks fit, subject to the provisions of the Act, receive from any member willing to advance the same, all or any part of the monies uncalled and unpaid upon any shares held by him; and</p> <p>(b) upon all or any of the monies so advanced, may (until the same would, but for such advance, become presently payable) pay interest at such rate as may be fixed by the Board. Nothing contained in this clause shall confer on the member (a) any right to participate in profits or dividends or (b) any voting rights in respect of the moneys so paid by him until the same would, but for such payment, become presently payable by him.</p> <p>The Directors may at any time repay the amount so advanced.</p>	Payment in anticipation of calls may carry interest
30.	If by the conditions of allotment of any shares, the whole or part of the amount of issue price thereof shall be payable by installments, then every such installment shall, when due, be paid to the Company by the person who, for the time being and from time to time, is or shall be the registered holder of the share or the legal representative of a deceased registered holder.	Installments on shares to be duly paid
31.	<p>All calls shall be made on a uniform basis on all shares falling under the same class.</p> <p>Explanation: Shares of the same nominal value on which different amounts have been paid-up shall not be deemed to fall under the same class.</p>	Calls on shares of same class to be on uniform basis
32.	The provisions of these Articles relating to calls shall mutatis mutandis apply to any other securities including debentures of the Company.	Provisions as to calls to apply mutatis mutandis to debentures, etc.

Transfer of shares		
33. (1)	A common form of transfer shall be used and the instrument of transfer of any share in the Company shall be in writing which shall be duly executed by or on behalf of both the transferor and transferee and all provisions of section 56 of the Act and statutory modification thereof for the time being shall be duly complied with in respect of all transfer of shares and registration thereof.	Instrument of transfer to be executed by transferor and transferee
(2)	The transferor shall be deemed to remain a holder of the share until the name of the transferee is entered in the register of members in respect thereof.	
34.	<p>The Board may, subject to the right of appeal conferred by the section 58 of the Act decline to register –</p> <p>(a) the transfer of a share, not being a fully paid share, to a person of whom they do not approve; or</p> <p>(b) any transfer of shares on which the Company has a Lien.</p> <p>The registration of a transfer shall not be refused on the ground of the transferor being either alone or jointly with any other person or persons indebted to the Company on any account whatsoever.</p>	Board may refuse to register transfer
35.	<p>The Board may decline to recognize any instrument of transfer unless-</p> <p>(a) the instrument of transfer is duly executed and is in the form as prescribed in the Rules made under sub-section (1) of section 56 of the Act;</p> <p>(b) the instrument of transfer is accompanied by the certificate of the shares to which it relates, and such other evidence as the Board may reasonably require to show the right of the transferor to make the transfer; and</p> <p>(c) the instrument of transfer is in respect of only one class of shares.</p> <p>The registration of a transfer shall not be refused on the ground of the transferor being either alone or jointly with any other person or persons indebted to the Company on any account whatsoever.</p>	Board may decline to recognize instrument of transfer
36.	On giving of previous notice of at least seven days or such lesser period in accordance with the Act and Rules made thereunder, the registration of transfers may be suspended at such times and for such periods as the Board may from time to time determine:	Transfer of shares when suspended

	Provided that such registration shall not be suspended for more than thirty days at any one time or for more than forty five days in the aggregate in any year.	
37	Subject to the provisions of sections 58 and 59 of the Act, these Articles and other applicable provisions of the Act or any other Applicable Laws for the time being in force, the Board may refuse whether in pursuance of any power of the Company under these Articles or any other Applicable Laws to register the transfer of, or the transmission by operation of Applicable Laws of the right to, any shares or interest of a member in or debentures of the Company. The Company shall within one (1) month from the date on which the instrument of transfer, or the intimation of such transmission, as the case may be, was delivered to Company, or such other period as may be prescribed, send notice of the refusal to the transferee and the transferor or to the person giving intimation of such transmission, as the case may be, giving reasons for such refusal. Provided that, subject to provisions of Article 32, the registration of a transfer shall not be refused on the ground of the transferor being either alone or jointly with any other person or persons indebted to the Company on any account whatsoever. Transfer of shares/debentures in whatever lot shall not be refused.	Notice of refusal to register transfer
38	The provisions of these Articles relating to transfer of shares shall mutatis mutandis apply to any other securities including debentures of the Company.	Provisions as to transfer of shares to apply mutatis mutandis to debentures, etc.
Transmission of shares		
39. (1)	On the death of a member, the survivor or survivors where the member was a joint holder, and his nominee or nominees or legal representatives where he was a sole holder, shall be the only persons recognized by the Company as having any title to his interest in the shares.	Title to shares on death of a member
(2)	Nothing in clause (1) shall release the estate of a deceased joint holder from any liability in respect of any share which had been jointly held by him with other persons.	Estate of deceased member liable
40. (1)	Any person becoming entitled to a share in consequence of the death or insolvency of a member may, upon such evidence being produced as may from time to time properly be required by the Board and subject as hereinafter provided, elect, either – (a) to be registered himself as holder of the share; or (b) to make such transfer of the share as the deceased or insolvent member could have made.	Transmission Clause

(2)	The Board shall, in either case, have the same right to decline or suspend registration as it would have had, if the deceased or insolvent member had transferred the share before his death or insolvency.	Board's right unaffected
41. (1)	If the person so becoming entitled shall elect to be registered as holder of the share himself, he shall deliver or send to the Company a notice in writing signed by him stating that he so elects.	Right to election of holder of share
(2)	If the person aforesaid shall elect to transfer the share, he shall testify his election by executing a transfer of the share.	Manner of testifying election
(3)	All the limitations, restrictions and provisions of these regulations relating to the right to transfer and the registration of transfers of shares shall be applicable to any such notice or transfer as aforesaid as if the death or insolvency of the member had not occurred and the notice or transfer were a transfer signed by that member.	Limitations applicable to notice
